THE SESSION WAS STORMY

Democrats Maintained Their Filibustering Tactics

TO BLOCK LEGISLATION

And, After Nine Hours Laborious Session, the House Took Recess

FIFTEEN ROLL CALLS AND TWO CALLS OF THE HOUSE AND EVERY PARLIAMENTARY EXPEDIENT WAS ADOPTED BY DEMOCRATS TO DELAY MATTERS.

WASHINGTON, Feb. 28.—The Democrats stuck to the filibustering program in the House today. The Democrats forced the roll call on every proposition and compelled the reading in extense of everything presented. Every parliamentary expedient was seized to delay matters, and, at the end of the session of over nine hours, the House, completely worn out at 8:05 o'clock, took a recess until noon tomorrow (Sunday).

There was no sign of the Democrats abating the opposition. The reading clerks were exhausted by the day's strain of trying to make themselves heard above the ceaseless din and confusion on the floor. There were fifteen roll calls and two calls of the House. The feature of the day was the passage of the Senate Omnibus Public Building Bill, with the House amendments, which latter increased the total carried by the bill to over $600,000.

The leaders who opposed the bill did not attempt to defeat it, and it was passed 205 to 26, under suspension of the rules.

Mann (Republican) of Illinois, took occasion during the debate upon it to charge "collusion" between the architect and contractor of the Chicago Public Building. Gaines (Democrat, Tennessee), during the discussion of the conference report bitterly arraigned the authorities for selling the "sacred relics" of the House, including, he said, the sideboard which, he said, had been presented to Mrs. Hayes by the W. C. T. U., and which, he declared, was now reposing in a Washington brewery. Grosvenor (Republican, Ohio,) denied the charges. The net result of the session was the sending to conference of the Naval and Fortification Appropriation Bills; adoption of the conference reports on the Railroad Safety Appliance Bill, and the Military Academy Appropriation Bill, the Postoffic, Omnibus Public Building Bill, and to settle the accounts of the officers during the Spanish War period and the adoption of the Senate amendments to two other comparatively unimportant measures.

LOSS OF LIFE

CAUSED BY FRESHET NEAR LEONORE CITY, TENNESSEE. TRAIN WRECKED.

LOUISVILLE, Ky., Feb. 28—The annual spring freshet which yearly does damage to the railroads and crops and at times inflicts loss of life, has left this season's impression on many parts of the South after a tremendous two days' rain, accompanied by high winds. Accidents last night and this morning, directly attributable to the elements, have resulted in the death of nine persons and the injury of twenty-nine. These deaths, together with the long list of injured, were brought about by an accident on the Southern Railway early this morning, when a train bound east from Chattanooga ran into a washout near Leonore City, Tennessee.

SHE WAS NOT DEAD

UNDERTAKER PREPARING BODY FOR BURIAL WHEN EYELIDS TWITCHED.

NEW YORK, Feb. 28.—Miss Edith Curzon, of Red Bank, N. J., is now recovering from pneumonia after her family thought her dead. She posed as the Goddess of Liberty in Red Bank's Washington's birthday parade, and aught a cold which quickly prostrated her. Yesterday she died apparently, and an undertaker was called in. As he was about to prepare the body for the shroud he was startled to perceive that the right arm, which had lain outside the bedspread was now drawn up near the face. The then noticed an eyelid twitch. The family was summoned, work begun to keep alight the spark of life, and after a time Miss Curzon was able to notice what was going on. Today she is improving, with every chance of recovery.

MADE A REMITTANCE

MASTER FISH WARDEN TURNED $680 OF LICENSES INTO TREASURY.

Master Fish Warden H. G. Van Dusen yesterday turned the sum of $680 into the State Treasury, representing the amount of licenses collected in his office for the month of January on account of the following:

48 individual licenses	$48
4 gill-net licenses	10
97 set-net licenses	97
1 seine license (500 feet long)	10
25 dealers' licenses (1st class)	250
1 dealer's license (2d class)	15
1 dealer's license (9th class)	250
Total	$680

MANY BILLS WERE PASSED

By Fifty-Seventh Congress Now Drawing to Close

PRACTICALLY AT AN END

Only Appropriation Bills and Few Other Measures to Be Passed

AMONG BILLS PASSED WERE: DEPARTMENT OF COMMERCE AND LABOR, ANTI-REBATE ACT, TARIFF REDUCTION BILL, GENERAL STAFF BILL.

WASHINGTON, Feb. 28.—The work of the present session of Congress, the closing of which marks the expiration of the Fifty-Seventh Congress, is practically at an end except for the passage of the appropriation bills now pending, and these are in the final stages. A limited number of other measures may be passed during the last hours, but the number will be small. Among the acts this session is that creating the Department of Commerce and Labor; the Anti-Rebate Act, known as the Elkins law; a bill enabling the Attorney General to expedite suits brought under the Sherman Anti-Trust Law; a bill removing the tariff on coal; the General Staff Corps for the United States Army and Militia Bill. Measures of great importance to the Philippines have been adopted. Then Anarchy Bill, providing for the protection of the President.

Among the acts of the Fifty-Seventh Congress which were adopted at this session are the following: Authorizing the construction of the Isthmian Canal; providing Civil Government in the Philippines; extending the Chinese Exclusion Laws; repealing war taxes; creating a permanent Census Bureau, and providing a system of irrigation for the arid lands of the West.

The End In Sight.

Washington, Feb. 28.—The Senate today passed the Fortifications Appropriation bill and the House Immigration bill with amendments. The General Deficiency bill, the last of the appropriation measures to be considered, was reported from the committee. The greater part of the day was given up to the consideration of the Aldrich Bond Deposit bill, which was debated at length, but upon which a vote was not reached.

While the bill was under discussion, Aldrich said that the Republican party would undertake a reduction of revenues at the next session of Congress, provided there was a surplus. The Senate took a recess until 11 o'clock tomorrow, when the session will be held for the purpose of delivering eulogies upon the deceased members of the House.

BEST IN MARKET

LOOK OUT FOR AGENTS CLAIMING TO HAVE BEST SEWING MACHINES.

What constitutes the best sewing machine?

The best sewing machine is the one that makes the nicest stitch and has the most late improvements.

If an agent tries to make you think he has the best machine, ask him and make him show you the following late improvements:

Perfect chain stitch.

Ball bearing.

Vibrating foot presser, so you can sew on a circle and not draw the goods.

Patented spool holder, so thread cannot break or entangle when dropping below the spool.

Fine stitch ruffler.

No agent can show you all these very important improvements unless he has one of the New Model Late Domestics, as the Domestic is the only machine made that has all these late improvements, and is sold only by Geo. C. Will, dealer in Pianos, Organs and Sewing Machines.

FULTON WILL BE THERE

SENATE MAY BE CALLED IN EXTRA SESSION TO ENACT TREATIES.

WASHINGTON, Feb. 28.—Senatorial callers on the President today regard an extra session of the Senate as practically inevitable. The determination of the advocates of both the Cuban Reciprocity and the Panama Canal Treaties to secure their ratification continues firm. If they cannot ratify them before final adjournment of this Congress they will do so at an extra session of the Senate. That will be called by the President to meet probably on March 5th.

SANTOS NOW IN PRISON.

MANILA, Feb. 28.—Governor Dancell of the Rial province, has captured Col. Santos, one of the ladrone leaders, at San Jose de Natovos, a village five miles north of Manila, on a small island. Governor Dancell learned of the whereabouts of Santos and surrounded the house in which he was with police and constabulary, when he then entered the house personally and made a prisoner of Santos, who has been brought to Manila. Colonel Santos was the leader of the ladrones in Rizal province and a comrade of San Miguel. A reward of 200 pesos had been offered for his capture.

THEY HAVE HIM SPOTTED—

People living in the vicinity of the Christian church are making complaint that someone is wantonly shooting their cats. The party who did the shooting is known, and he will surely get into trouble if he continues to use cats as a target for his 22-rifle.

NEWS FROM WEST SIDE

The Dispute Over Pennant Between Dallas and Monmouth Colleges

IS NO NEARER SOLUTION THAN EVER — REFERRED TO BOARD OF ARBITRATION — DALLAS AND WILLAMETTE ARRANGING FOR SERIES OF GAMES.

DALLAS, Ore., March 2.—(Statesman special.)—The basket ball muddle between Dallas and Monmouth was rehashed by the league committee at Monmouth yesterday and without results farther than to complicate the matter more and more. It is understood now that the dispute as to which—Monmouth or Dallas—has won the pennant, will be referred to a professor from each of the league colleges. Prof. A. A. Winters will appear for Dallas. The average reader of this unfortunate disagreement is somewhat disgusted at the wrangle indulged in by the contestants and their partisans. This, however, is characteristic of political, religious and other contests, when one party to a contest, especially, attempts to act unfair, as is evident in this case, but Dallas, being a small college and in its infancy, without prestige, seems to be combined against by some of the older colleges, except Albany; and McMinnville stand neutral. This combination is brought about, it is said, by the ignominy of being defeated by this infant candidate for college athletic honors, hence the bitter opposition of the Quakers and the wards of the state.

Dallas will, it is understood, withdraw from the league, refusing positively to ever enter again while Monmouth is recognized as a member.

The secretary of the league, D. A. Poling, of the Dallas team, yesterday, at Monmouth, resigned the secretaryship of the league, at the same time stating that he was authorized to also withdraw the Dallas team from the league. His resignation was not accepted and the withdrawal of the Dallas team will receive further consideration at a future meeting.

The possibilities spoken of are that the league may be reorganized and Monmouth left out, for neither Albany nor Dallas will ever play again with her. Both claim that she is unfair, unsportsmanlike and dishonest.

Arranging For a Series.

Dallas, March 2.—(Statesman special.)—Negotiations are on foot for a basket ball game between Dallas College team and Willamette University team. The arrangements for the games will, if played, be a series of three games—"two in three"—each team to play one game on its own floor with neutral officials, and, if the third game is necessary, it is to be played on a neutral floor with neutral officials. These teams are both first class and the games would excite great interest throughout the valley.

To Dispose of Pool.

Dallas, Ore., March 2.—(Statesman special.)—The Polk County Mohair Association will meet in Dallas March 7th to transact important business, notably, to set the time of the sale of the pool of the Association. The pool at present is the fleeces of about 12,000 goats and will amount to about 50,000 or 60,000 pounds, ordinarily, but the winter has been unusually severe in the hill districts, and consequently it is supposed the clip will be somewhat lighter than usual.

Paid First Tax.

Dallas, Ore., March 2.—(Statesman special.)—E. C. Ryte, of Perrydale had the honor of being first to pay tax on the 1902 roll. Receipt No. 1 was issued him for the amount of $1,035, rebate $31.05.

FINE ROADS FOR WHEELING—The roads at this time of year were never better than now, and the season is correspondingly early with the wheel dealers. Fred Wiggins, the implement man, reports that his trade is just a month ahead of last year. Saturday he sold six bicycles and yesterday, four. Evidently Salem's population will use the wheels as much as ever this year.

VISIT DR. JORDAN'S GREAT MUSEUM OF ANATOMY
1051 MARKET ST., SAN FRANCISCO, CAL.

The Largest Anatomical Museum in the World. Weaknesses or any contracted disease positively cured by the oldest Specialist on the Coast. Est. 36 years.
DR. JORDAN—DISEASES OF MEN
SYPHILIS thoroughly eradicated from system without the use of Mercury.
Truses fitted by an Expert. Radical cure for Rupture. A quick and radical cure for Piles. Fistulas and Fissures by Dr. Jordan's special painless methods.
Consultation free and strictly private. Treatment personally or by letter. A Positive Cure in every case undertaken. Write for Book, PHILOSOPHY of MARRIAGE, MAILED FREE. (A valuable book for men.) Call or write
DR. JORDAN & CO., 1051 Market St., S. F.

DR. STONES' DRUG STORES
The stores (two in number) are well stocked with a complete line of drugs and medicines, toilet articles, perfumery, brushes, etc.
DR. STONE
Has had some 25 years' experience in the practice of medicine and now makes no charge for consultation or prescription.
He does a cash business. He neither buys on time nor sells on time. Ledgers, journals, day-books, bookkeepers, bill collectors and all the modern paraphernalia of credit drug stores, are unknown in his business, hence a full stock and correct prices.

"Talk Till the Cows Come Home" But Facts are Facts

Sander's Disc Plows
Are Better Than Other Plows

They weigh less.
They do better work.
They run lighter.
They are simpler in construction.
They have fewer joints and parts.
They have no unnecessary adjustments

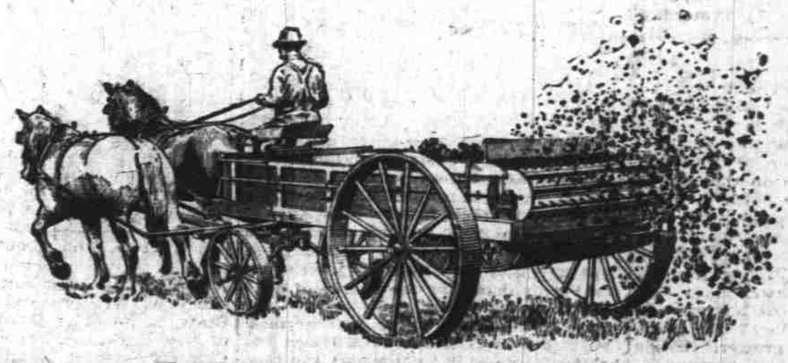
There is nothing put on them for the purpose of collecting patent royalty. They are strong and rigid with no limber joints and no loss motion. Their frames are low down so that they run steady. They drag everything down so that it can be turned under. Their levers are in reach of the driver. The seat is in line with the disc and is at the rear end to hold the plow in the earth. They have the best adjustment for setting the scraper, which is very important. They have an easy adjustment for width of furrow. The weight of the plow and the resistance of the disc is so evenly balanced that there is very little friction on the wheels. A square corner can be turned without taking the disc out of the ground.

The discs are set at an inclination so that they are drawn into the ground without extra weight on the plow. The discs have a countersunk hole in the center with a sleeve extending further back so that the disc bolt is even with the surface of the disc and so ths disc will not break out at the center.

The tongues are corrugated so as to be light and strong. They have broad ends and can be shifted where they are attached to the frame so as to give a wide range of hitch and insure center draft. The disc boxes are made of chilled iron. The gangs have solid cast iron frames with steel beams. They are not weak and will not get loose. Any farm hand can operate them.

We Guarantee Our Plows
to do good work in any kind of fallow land and not to break in one year from defect in material.

DO YOU WANT TO DOUBLE YOUR CROPS?
Then Build up the run-down soil,
Utilize the idle Manure Pile,
Use a



Kemp Manure Spreader
Multiplies the Yield.
The most labor-saving machine
Ever invented for the Farmer.

A Complete Machine, Built for the Purpose.
Strongly Constructed.
Thoroughly Efficient.

What It Will Do.....
Spreads all kinds of Manure.
Fines and Pulverizes it.
Distributes it evenly.
Makes it go twice as far as when spread by hand.
Is regulated to spread thick or thin in half a minute.
Distributes a load in from 3 to 4 minutes.
Light draft, not excessively increased during distribution.
Will spread perfectly on plowed ground.
Also used for spreading lime, ashes, compost, etc.
With slow feed regulator.
Spreads broadcast or in rows.
