

The Silverware Wise and the Silverware Foolish

There are a good many kinds of cheap priced silverware on the market. They look pretty well, too. "The Silverware Foolish" buy them. "The Silverware Wise" pay a trifle more for the "R. Wallace, 1835" brand, or the John G. Barr brand, and have silverware whose plate will retain its brilliancy and good looks for a lifetime of usage.

The Barr Store makes a specialty of the Wallace and John G. Barr brands. It is the only store in town where you can buy the Wallace goods. Does it not speak well for this store that it prefers to handle these famous makes, of universally known reliability, rather than some of the cheap makeshifts which are sold on much larger margins of profit?

MATTERS IN PROBATE

COURT MADE ORDERS IN SEVERAL ESTATES DURING YESTERDAY'S SESSION.

Yesterday being the time fixed by the Marion county probate court for the hearing of objections to the petition heretofore filed by Alice A. Miles, guardian of the person and estate of Elma S. Miles, a minor, asking for an order to sell certain real estate belonging to said minor, and no objections having been filed, an order was made by the court as prayed for.

An order was also made by the court authorizing Salame La Flemme, executrix of the estate of Edward La Flemme, deceased, to sell 60 cords of wood belonging to the estate, a petition for such order having been filed by the executrix.

Fort Boise West, executor of the estate of William Fowler West, deceased, filed a petition through his attorneys, W. T. Slater and W. M. Kaiser, asking for an order of the court allowing him, as such executor, to borrow the sum of \$36.10 for the purpose of paying the 1932 taxes levied against the estate, there being no funds or personal property on hand. The prayer of the petitioner was granted by the court.

STEINER'S MARKET.

Eggs—12 cents cash.
Chickens—10 cents.
Ducks—10 cents.
Turkeys—12 to 15 cents.

THE MARKETS.

PORTLAND, Or., March 12.—Wheat, Walla Walla, 74@75c; Bluestem, 86c; Valley, 78@80c.

Potatoes—22@25c per bushel.
Apples—50@65c per bushel.
Onions—40@50c per bushel.
Prunes—2 1/2@4 1/2c.

VERDICT FOR RODGERS

JURY FOUND THAT PLAINTIFF DID NOT FIGURE IN WOOD CONTRACT.

A civil suit, in which C. F. Brundridge was the plaintiff and George F. Rodgers the defendant, was tried before a jury in Recorder N. J. Judah's court yesterday afternoon. The action was brought to recover the sum of \$38.40, alleged to be due the plaintiff from defendant for hauling wood. The defendant introduced testimony showing that the contract for the hauling of the wood was not made with the plaintiff, but with the plaintiff's father, and further proved that a settlement had been made with the father of the plaintiff.

The jury, composed of Claire Baker, L. Greenbaum, J. M. Lawrence, Werner Fennel, W. J. Demorest and Edward Ellis, returned a verdict in favor of the defendant, and judgment for costs of the trial was entered against the plaintiff.

Webster Holmes appeared as plaintiff's attorney, while George G. Birmingham appeared for the defendant.

THE MARKET IN GENERAL

Wheat Has Declined During Week and Can Hardly Stand Alone

AND NO CHANGE FOR THE BETTER IS ANTICIPATED—VERY LITTLE EXPORT LEFT—PORTLAND FIRE WILL HAVE LITTLE EFFECT EXCEPT ON EXPORTS.

The wheat market has declined somewhat during the past week and now stands weak at .68 cents in the local market for shipping purposes. For some time it has been strong at 69 cents and for a few days 70 cents was offered in individual cases for round lots, but it begins to look as though the price had reached a level with the outside world, and there seems to be no valid reason for any great change in the near future.

It is claimed by Portland exporters that very little more will be exported for this season, and if this is the case, the remainder of the wheat in the valley will be ground for local consumption by the country mills. As there is plenty of wheat in sight in all parts of the valley for this purpose no sharp bidding is anticipated by local mills for some time at least.

During the past week considerable wheat has been sold by farmers in Salem and other points in the valley. This was by people who were holding for the highest possible price and as soon as the market showed signs of weakening they hastened to dispose of their holdings at the best price obtainable. The recent fire in Portland disposed of a little surplus of about 235,000 bushels of wheat. This will have no effect, however, beyond making the season's export that much smaller.

Considerable wheat has been shipped to San Francisco from Portland during the past month, but that market has been satisfied.

Oats Are Unchanged.

The situation continues about the same in the local oat market, oats being worth from 28 to 30 cents for shipping and very hard to dispose of at that figure. However, some sales are being made right along.

Feed stores pay 32 cents and for some choice lots 25 cents, but they only buy what they need for present purposes and at these prices are able to take their choice from all that offers. The bulk of the crop is still in the farmers' hands.

Potatoes Selling Slowly.

Potatoes have been selling very slowly for the past week, the shippers not being able to find a market for any great quantity. California seems to be the only outlet for the Oregon crop and an exporter said yesterday that California could not begin to take all of our surplus. Prices for shipping potatoes range from 20 to 25 cents, and grocery stores are paying 30 cents for enough to supply their local demands. They buy only choice lots at these figures.

TO PARDON JOHN GATES

Gov. Chamberlain Receives a Petition Numerous Signed to That Effect

PETITION BORE SIGNATURE OF MANY PROMINENT CITIZENS OF MARION COUNTY—REPORTED THAT H. W. CORBETT WILL WAIVE OBJECTIONS TO PARDON

Governor Chamberlain yesterday received a petition for the pardon of John H. Gates, who is serving a three-year sentence in the Penitentiary from Lane county, upon conviction of forgery. Gates was tried and convicted, in Eugene, in May, 1929, of the crime of forging Hon. H. W. Corbett's name to a check for \$75. The petition was signed by 141 of the most prominent citizens of Marion, Linn and Lane counties, in which those of the former are in the majority, and includes the names of Hon. J. M. Poorman, J. H. Settlemier, Walter L. Tooze, Frank Davey, and all the Marion county officials. The petition sets forth that petitioners believe that the ends of justice have been fully satisfied in his case and that he will make a good citizen in the future as he did prior to his conviction.

It is said that by reason of excessive indulgence in liquor, Gates was not mentally responsible for the crime of which he was convicted and it is also said that H. W. Corbett has waived all objections in case the Governor sees fit to exercise executive clemency in his case.

Hon. L. T. Harris, deputy district attorney at Eugene, under whose prosecution Gates was convicted and sentenced accepted service of notice and waived time so as to admit of the consideration of the petition at once. Mr. Harris does not consider Gates a natural criminal and will make no objections to the exercise of clemency, inasmuch as a large part of the sentence has been served and Gates has been a trusty since last June, which indicates a good record.

FROM PLEASANT POINT

TALCOTT FAMILY GOING TO CALIFORNIA—L. C. CAVANAGH HAS BRIGHT PROSPECTS.

C. F. Talcott and Mrs. Talcott left for Willows, Cal., Tuesday. They will purchase property in that vicinity if they can find anything to suit.

In case they find nothing in the Golden State, they will return to old Web-foot. We are sorry to lose this family from our midst. They have resided here for thirteen years on the same farm, and the neighbors regret to see them leave. But change is the order of the universe. Cr. Talcott is an old soldier and a staunch Republican. He carries in his body a bullet received at the battle of Bull Run (the second fight I believe). He lay on that field an entire day and one night, with two severe wounds. During the whole night a hard rain fell. The next day he with other wounded soldiers was taken to Washington, where his wounds were dressed. Their only daughter, Miss Muriel, is teaching in the Keiser district north of Salem. The only son, Fred W., is principal of the schools at Germantown, Cal.

School closed temporarily Tuesday, on account of the illness of the teach-

er, Miss Hicks. School will resume as soon as she is able to teach.

Grandma Hall is confined to her bed by quite a serious illness.

The family of Mr. C. Guerne has moved onto the farm lately purchased of C. F. Talcott.

Our neighboring town of Turner is down with the mumps and measles. There is some scarlet fever also. All are improving I believe.

Mr. Talcott's sale footed up above \$300. They shipped all their household goods—about three tons.

B. E. Robertson has by petition been appointed by the county court road supervisor of this precinct, vice Wm. Williams, resigned by reason of poor health.

The fine weather of last week was used to advantage by the farmers to finish the spring sowing of grain. The freezing and dry weather have to some extent hurt the fall sown grain, but it is hoped not seriously.

John and Flavius Meier are attending college at Mt. Angel. Flavius expects to graduate the coming June.

George Jones, our new neighbor from Washington, is stocking up with new farming implements.

In conversation a few days ago our general neighbor, L. C. Cavanagh, stated that he will clear for his year's work on the farm, \$3500 to \$4000. That is a neat profit surely. He does not wish to sell out and leave. He thinks the old Willamette valley and farming in it is good enough for him, and it is, certainly. Mr. Cavanagh is hopeful and

is borne along on the tide of the country's general prosperity although a few years ago he was predicting dire calamity in case a certain candidate from Nebraska should fail to be elected to the Presidency. Life now sees things in a clearer light.

Pleasant Point, March 12, 1932.

Life Guards.

The Life Guards are two regiments of cavalry forming part of the British household troops. They are gallant soldiers, and every loyal British heart is proud of them. Not only the King's household, but yours, ours, everybody's should have its life guards. The need of them is especially great when the greatest foes of life, diseases, find allies in the very elements, as colds, influenza, catarrh, the grip and pneumonia do in the stormy month of March.

The best way that we know of to guard against these diseases is to strengthen the system with Hood's Sarsaparilla—the greatest of all life guards. It removes the conditions in which these diseases make their most successful attack, gives vigor and tone to all the vital organs and functions, and imparts a genial warmth to the blood.

Remember the weaker the system the greater the exposure to disease. Hood's Sarsaparilla makes the system strong.

HARD ON THE COONS.

JEFFERSON CITY, Mo., March 12.—The House today passed Senate bill making chicken stealing a felony and providing a Penitentiary sentence.

A Night Cap?
Certainly. It's just the thing for tired nerves, sleeplessness and fatigue of mind or body.

CYRUS NOBLE BOURBON AND RYE

whisky makes the ideal "night cap." It smooths out the wrinkles of care, and brings a refreshing, peaceful slumber that lasts the night through. If you value sleep, you will value the Noble whiskies for their health-giving qualities.

SIX STRONG LINES FOR SPRING

The six lines below comprise only a part of our wide range of goods, for lack of space we do not here mention our Studebaker Vehicles, Monitor Drills and Seeders, Iron Age Garden Tools, and numerous other equally seasonable goods. Call and see us or write for prices on anything we carry.

Benicia Hancock Disc Plows

The only time tried and successful disc plow on the market today. Has taken the entire Northwest by storm and driven the other plow factories to their wits end to try to compete with it.

- Slanting furrow wheels.
- Curved mould boards.
- Swiveled tongue.
- Land gauge for front wheel.
- Rear wheel controller.
- Detachable beams.
- Long levers.
- Four horse equalizer.
- Chilled or steel mould boards.
- Jointers when wanted.

All of which have been demonstrated as the necessary equipment of a successful disc plow. Nearly 50 in use around about Salem, and more than 20 carloads sold in Oregon and Washington the past year. Write us if interested, we'll give you names of men using them. The proof of a disc plow is in the field. That's where you find ours.

Syracuse Plows

Our steel plow has the soft center steel in mouldboard, share and landside. This steel is in three layers, the outer one hard as glass for scouring, and the middle one softer and tough as steel can be made to prevent breaking. Other plows are made of hardened steel same all the way through, and if made as hard as the Syracuse would snap and break. Hence is not so highly tempered and consequently will not scour as well. We have removable shin piece, and removable shoe on land side, costs less for repairs.

Syracuse Chilled Plows

Are the most perfect chilled plows shown. Longer, higher mouldboards, sloping shin, two bolts in share, longer handles, adjustable brace between share and landside, besides handling more easily and running more steadily. Ask the users.

Gasoline Engines

Here are a few of the purchasers and users of our Fairbanks, Morse Gasoline Engines, our celebrated "Jack of All Trades" 1 1/2 horse power.

- C. A. Park, manager Wallace fruit farm, 2 engines for spraying purposes.
- The Spa, confectionery, Salem.
- Shaefer & Palmer, printers, Salem.
- W. H. Dodge, Garden Road, farmer.
- G. M. Hoyser, farmer, Hall's Ferry.
- G. F. Mason, carpenter, Salem.
- Quong Hing, Chinese merchant, of Salem.
- E. D. Alexander, editor of Stayton Mail.
- F. K. Churchill, printer, Albany.
- Schultz Bros., butchers, Albany.

Besides several which have been in use hereabout for some time. We want no better testimony than that given by any of these men. The troubles common to poorly constructed gasoline engines are absent here. Ask our customers. Drop us a line for catalog or call and see engine on our floor. Always glad to show you

Sharples Tubular Cream Separators

We have taken the Salem agency for this well known line of separators, sold so largely around Salem and in the valley, and want every dairy man or butler man to know it. The separator that has the long hollow bowl, no parts to worry the housewife with the cleaning. The low hung milk reservoir that's within reach of even a small boy, easily filled, with no heavy lifting, high speed bowl enclosed gear running in oil, always clean and under cover, and a separator that skims to 1-100 of 1 per cent. Write us for catalogs and prices, or call and see the goods. Machines sold on easy installments.

Buffalo Pits Harrows

The kind that delight the heart of the orchardist and the hop man, the man who raises wheat, or the man who farms anywhere, anytime. This harrow has a continuous iron frame all around, with no ends of bars projecting to hang up on fence posts, stumps or trees. Has a 3-sided tooth, mushroom head, no holes in bars to weaken them, adjusting lever and relief spring that saves wear and tear on harrow and harness.

The Spring Tooth

Is similar in general design and comes in all sizes. A favorite with those who want a durable harrow that can be used as a one or two section as desired, for hop and orchard use.

Tribune Bicycles

Our wheel trade has never opened as auspiciously as this season. The old reliable Tribune, as usual, at \$35, for 1902 models and \$40 for 1903's. Plenty now on hand, and our spring trade already under way.

Snell Bicycles

Our standard \$25 wheel for several years, and better this season than ever. The ladies' model is a particularly desirable wheel for it has the graceful double loop and the metal chain guard.

Wolf-American Bicycles

We have a number of last year's \$40 models at \$30. This is a snap as these are a standard high grade wheel. New 1903 models just in. Sundries of all sorts, full line
