

REMINDER OF BYGONE DAYS

Willamette University Alumni Reunion Held in the College Chapel

SPLENDID ORATION DELIVERED BY FORMER STUDENT—THE ALUMNI AND GRADUATES BANQUETED AT A LATE HOUR IN METHODIST CHURCH PARLORS.

(From Thursday's Daily.)

Last night the thirty-seventh annual Alumni Reunion was held, the public exercises being in the University chapel which had been very prettily decorated for the occasion in evergreen and colorful and patriotic colors.

Previous to the exercises the University band, in white uniforms, gave a half hour's concert in front of the steps leading to the chapel.

The program opened by a selection, "Meeting Again Tonight," by the University Quartet, which elicited great applause and the boys responded with "College Chums."

Mrs. Sarella Miller, '72, was on the program for a Shakespearian reading, but was unable to be present, having been taken with a severe illness, and her place was filled by Miss May Crutcher, a graduate of the College of Oregon.

Rev. P. S. Knight followed by "Reminiscences of the Third Story Boys." He gave a very pleasing talk on the old college days of long ago, and told several amusing anecdotes at the expense of his associates.

The exercises closed by a selection by the quartet, "Good Night My Love," and President Moore announced that the alumni and invited guests would adjourn to the city hall for the alumni banquet.

A TEXAS WONDER

HALL'S GREAT DISCOVERY. One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys.

Since we left these halls with our flowers to wilt and fade and our diplomats to be laid away, experiences have crowded thick and fast upon us. Amid it all we have not failed to note the chivalry with which our world of every day life receives its votaries; nor have we been unobservant of the obsequy it heaps upon those who do not conform to its limitations.

uses and abuses, the justice and injustice of the popular estimate placed upon a man, which we call his reputation. I do not purpose to magnify the individual greater than the society of which he is an integral part, nor do I mean to rob him of the just benefits he is entitled to receive from that society.

grow thick and dark. Then it will be, not what we are reputed to be, but what we really are that will count. Then it is that the sunshine we have been gathering in from time to time bursts forth as a sure light to our wondering footsteps. He who launches on the active voyage, mastered to be observed and noted in his daily life, has a fair and sunny haven ahead.

He was indeed a philosopher who said: "The man that makes character makes foes." He is the man we discuss. He delves deeper than we look, he digs below the surface. Emerson, the recluse that he was, proved to us that he had observed something of this real world about us when he wrote: "We live amid surfaces, and the art of life is to skate well on them."

There was no winter in it; an autumn 'twas That grew the more by reaping. We are constantly beset with the trouble of looking too much to the effect and too little to the cause. We suffer the opinions and prejudices of the public to play too great a part in the conduct of our own lives and shaping our own destinies.

To Whom It May Concern. This is to certify that I was down for nine months with kidney and bladder trouble, and tried all known remedies to no avail until a neighbor induced me to get a bottle of Texas Wonder, one-half of which cured me sound as well; this I would cheerfully swear to, and for the benefit of those who are afflicted with kidney and bladder troubles, they can obtain a bottle at my house, located on West 11th street, Yours truly, J. J. SEALE, Medford, Oregon.

the real qualities which go to make a true man cannot be bought and sold —but reputation is often a commodity measured in dollars and cents or in the advantage one man turns for or against another.

After all it is not what we think nor what others think of us that is most useful and helpful to us. It is our own action and our own thoughts that we must put to work—they must act for us, and only to the extent they do so are they worth the thinking.

At the banquet, given in the evening at the M. E. church, Hon. C. B. Moore acted as toastmaster. He said this might be termed a jubilee year. Said we are in a position now to ask for a \$100,000 endowment that has been the \$35,000 debt.

TABLE TALK OVER THE COFFEE.

The talk that evening began with the fad of the "Vegetarians" and their beliefs. It soon developed that the beautiful Miss Schuyler thought herself a "Vegetarian."

the merited applause of one whose true worth they know. It breaks the disorder and puts character and reputation in harmony with each other. It estimates men and women at their true value everywhere.

chronic complaints which embitter life are due to stomach disorders which could just as well be avoided. "Now, Dr. Smith," interrupted Miss Schuyler, "I know you're going to tell us all just what to do and that when our stomach begins to trouble us and we have dyspepsia or what not, we are all to march in line, one after the other, into your office and have our stomach pumped out."

He thus learn to utilize each day as it comes to us fresh from the infinities of time and crowd it full of toil and labor with an object ahead as fixed and certain as time itself, and let the public say what it may.

Prof. Dawson said he was thoroughly in sympathy with what had been said. As a member of the faculty, said he knew what is to be done, and they propose to do it. Upon the fidelity of the faculty to its task depends the usefulness or uselessness of the work of the trustees.

"I can't dispute your statement, for it is undoubtedly true," said the doctor. "I have seen many cases in my practice of dyspepsia and other diseases of the stomach cured by that 'Discovery' of Dr. Pierce. It seems to assist in the digestion and assimilation of the food in the stomach, and not only that but it builds up the general health by enriching the blood and stimulating the liver into healthy action."

The World's Dispensary Medical Association, of Buffalo, N. Y., the proprietors and manufacturers of Dr. Pierce's Golden Medical Discovery, are willing to

Forfeit \$3,000

If they cannot show the original signature of the individuals who volunteer the testimonials below, and of the thousands which are constantly publishing, thus proving their genuineness.

Words cannot express what I suffered for three years from the effects of a torpid liver," writes Jas. E. Hawkins, Esq., President of Golden Circle, No. 41 of America, St. Louis, Mo. "I had I know of your 'Golden Medical Discovery' sooner what misery I might have been spared. I was bilious, tongue was coated, appetite poor, and I had frequent distressing pains in the back and shoulder-blades, but within a week after I commenced Dr. Pierce's Golden Medical Discovery there was a marked change for the better, so I kept on using it three times a day, for over a month, with an occasional dose of Dr. Pierce's Pleasant Pellets to regulate the bowels, and the results were all and more than I could wish.

only begun the work that Willamette was born to do. G. P. Litchfield, C. J. Atwood and others, spoke.

Big Class Graduated. The graduating exercises of the Oregon Institute held Tuesday evening in the auditorium of the M. E. church were very imposing as well as interesting.

The rooms were tastefully decorated in the class colors, purple and white, and a profusion of beautiful floral tributes, which had been sent to the members of the class, were grouped around a large design on the choir loft.

After an elegant invocation by Rev. W. C. Kantner, Mrs. F. A. Wiggins sang a vocal solo. The address of the evening was delivered by Rev. I. F. Roach, pastor of the M. E. church at Boise, Idaho, and was a strong plea for good citizenship and moral courage in the rising generation.
