Poultry Journal 1 40 A Most Remarkable Cure of Heart Disease

(Albany Democrat.)

Perhaps one of the most wonderful results on record is the wonderful cure of Mrs. S. E. Clark by electricity and medicines administered by Dr. Darrin. Mrs, Clark was carried to Dr. Darrin's office in an almost dying condition, afflicted with a complication of diseases. Here are her own words:

Ukiah Ore.-To the Editor: My Pratum, Oregon, Wednesday, June 24. health began to fail over a year ago. 1963, at 3 o'clock p. m., Miss Orla I gradually fell away until I became very weak. I was suffering from beart, lung and stomach troubles. On the 24th of December, 1897, I went to Pendleton and put myself under Dr. Darrins treatment by electricity and medicines, and began to improve from the first treatment and continued to improve. At the present time I have good health. My neighbors say they never expected to see me return from Pendleton, and were greatly surprised at my recovery. MRS, S. E. CLARK.

R. C. Shultz, traveling immigration

Mr. Shultz is making a tour of Oregon, in order to the better post himself upon the advantages and resources of all the different localities of the state. He is a lecturer on Oregon throughout the state of Illinois, Wisconsin, Minnesota and the Dakotas. He spends the summer months lecturinig in the open air and in halls, using stereopticon views, and in the winter he lectures in churches and halls. Mr. Shultz has been at this work for a year and he declares that it has only just got a good start. There are five men doing the same kind of work he is doing, traveling out of the Chicago office besides a small army doing different kinds of work with the same endturning people to Oregon. Mr. Shultz believes that when the low rates go into effect again this fall the railroads will scarcely be able to handle the passengers bound to this section. And this work will be kept up indefinitely. It has been scarcely more than prospecting heretofore.

Mr. Shultz arrived in Oregon on last Friday, and he was accompanied by a of Agriculture Weather Bureau: party of 250 immigrants. There is a party of forty-three now ready to

start from Wisconsin. Mr. Shultz does his strong work among the Germans and Swedes, he speaking their languages. He also has a fair understanding and command of of the Polish, although his English is very good and is spoken without a brogue. He thinks the educated Germans and the industrious Swedes are among the best immigrants Oregon can get. They are thrifty. They will clear up the land, and they make excellent citizens in every way. He says also that there is a chance to get thousands of dalrymen from the fields in which he is working, especially from Illinois, and they will come here and yields, make money and help to builld up the country. They know their business,

thousands of the Salem circulars sent by the Greater Salem Commercial Club and it is one of the most attractive of all the different pieces of literature from Oregon. He says the Harriman people will send the immigrants.

What they want Oregon to do is to take care of them after they arrive and treat them right. In this way the Willamette valley will be filled up until there is room for no more, and that means hundreds of thousands of new people. There is room for them, and they are going to come.

CIVIL ACTION TRIED BY JURY IN THE JUSTICE COURT YESTERDAY.

(From Thursday's Daily).

The case of H. H. Smith, plaintiff, vs. U. S. Rider, came up for trial in Justice of the Peace E. D. Horgan's court yesterday. The case was called at 10 o'clock in the morning, but after Becuring a jury the court adjourned until 2 o'clock p. m. The jury chosen con-DERFULLY AND STOCK IN FINE sisted of the following representative business men: Fred Steusloff,- A. N. Gilbert, Walter Morley, Hal Patton, Thomas Kay and Mr. Bredemeier.

The case was a hard fought legal battle, the attorneys closely contesting every point, and a great deal of testimony was introduced by each side, and it was not until 5:30 o'clock that Justice Horgan finally charged the jury, and they went out for their deliberation.

The suit was an action for money, H. H. Smith, the plaintiff, holding two notes against U. S. Rider, of the face value of \$34.19 each, and dated October 9, 1900.

Turner and Inman appeared as attorneys for the defendant, and set up that Rider did not intend to sign the notes, which were given as payment for received beneficial rains. > The jury was out for about one and a half hours, deliberating on the merits of the case, and finally returned a verdict for the plaintiff in the sum of \$15, together with \$20 attorneys fees, and for the costs and disbursements of the action.

The verdict did not appear to entisfy either party to the case, as the question at issue was whether or not the notes were a just debt, and the justice charged the jury that the verdict must be for the amount asked by the plaintiff, or in favor of the defendant.

The defendant's attorneys, Turner & Inman, announced that they would demand a review of the case in Judge Boise's department of the circuit court.
