**JURY VENIRE WAS DRAWN**  
 Will Serve During Regular July Term of Circuit Court

UNDER NEW LAW FOUR TERMS OF THE COURT WILL BE HELD IN MARION COUNTY EACH YEAR—THE NAMES OF THE JURORS AND THEIR OCCUPATIONS.

(From Thursday's Daily).  
 County Clerk J. W. Roland and Sheriff B. B. Colbath yesterday drew the general venire of jurymen to serve during the regular July term of the state circuit court for Marion county. This will be the first term held under the new law, House Bill No. 5, passed during the last session of the legislature, providing that terms of the circuit court shall be held annually in Marion county on the first Monday of January and April and the second Monday of June and October. This will necessitate the drawing of four venires of jurymen each year as against three under the old law. Department No. 2 of the court will convene immediately after the adjournment of Department No. 1, and the regular order will be followed in both departments as heretofore.  
 The venire drawn for the jury term is as follows:  
 T. M. Hicks, Woodburn, nurseryman.  
 H. H. Spalding, Englewood, farmer.  
 Jas. Winstanley, North Salem, farmer.  
 A. G. Jerman, Howell, farmer.  
 W. W. Elder, Stayton, capitalist.  
 W. W. Minier, Scotts Mills, farmer.  
 H. W. Smith, Turner, capitalist.  
 H. A. Hinkle, Hubbard, agent.  
 W. J. Jones, Prospect, carpenter.  
 Gerome Morley, Monitor, farmer.  
 R. D. Teter, Yew Park, farmer.  
 W. H. Black, Sidney, farmer.  
 M. Cooley, Mt. Angel, farmer.  
 G. A. Nye, South Salem, teamster.  
 T. J. Edwards, Turner, farmer.  
 J. W. Jory, Sidney, farmer.  
 R. F. Cooley, Woodburn, farmer.  
 H. A. Johnson, Salem No. 1, insurance agent.  
 Frank Davenport, Silverton, merchant.  
 O. G. Savage, Salem No. 1, merchant.  
 M. F. Petzel, Salem No. 1, tinner.  
 Oliver Jory, South Salem, mechanic.  
 S. H. Coleman, St. Paul, farmer.  
 H. Stapleton, Salem No. 2, capitalist.  
 Sam Heimroth, Salem No. 4, plasterer.  
 A. A. Disque, Salem No. 2, teamster.  
 S. B. Seeley, Monitor, farmer.  
 J. A. Porter, Englewood, farmer.  
 J. A. Crossan, Salem No. 2, hop dealer.  
 Robert Coshaw, Salem No. 4, book-keeper.  
 J. O. Estes, Salem No. 3, farmer.

Hundreds of lives saved every year by having Dr. Thomas' Electric Oil in the house just when it is needed. Cures croup, heals burns, cuts, wounds of every sort.  
**DEATH OF WAR VETERAN.**  
 DALLAS, Ore., June 24.—A. G. Bradley, formerly of this place, died suddenly at Newport yesterday. One of his daughters, Mrs. Claude Dunn, resides in this city. Mr. and Mrs. Bradley formerly lived here, but lately moved to Woodburn. They were enjoying a pleasure trip to the beach when he died.

**YOU KNOW WHAT YOU ARE TAKING**  
 When you take Grove's Tasteless Chill Tonic, because the formula is plainly printed on every bottle showing that it is simply iron and quinine in a tasteless form. No cure, no pay. 50¢.  
**TWO MORE PERMITS—**  
 There is as yet no lull in the matrimonial market, and the month of June promises to be a record breaker. The following permits were issued by County Clerk Roland yesterday: James V. Springer and Cella Stewart; M. Springer, witness, Raymond Blanton and Grace Jones; G. G. Jones, witness.

**Pretty Children**  
 "We have three children. Before the birth of the last one my wife used four bottles of MOTHER'S FRIEND. If you had the pictures of our children, you could see at a glance that the last one is healthiest, prettiest and finest-looking of them all. My wife thinks Mother's Friend is the greatest and grandest remedy in the world for expectant mothers."—Written by a Kentucky Attorney-at-Law.  
**MOTHER'S FRIEND** prevents nine-tenths of the suffering incident to childbirth. The coming mother's disposition and temper remains unruffled throughout the ordeal, because this relaxing, penetrating liniment relieves the usual distress. A good-natured mother is pretty sure to have a good-natured child. The patient is kept in a strong, healthy condition, which the child also inherits. Mother's Friend takes a wife through the crisis quickly and almost painlessly. It assists in her rapid recovery, and wards off the dangers that so often follow delivery.  
 Sold by druggists for \$1 a bottle.

**THE WORK OF BOLD TRAMPS**  
 The Home of J. D. Sutherland Burglarized Yesterday Afternoon

HOUSE WAS THOROUGHLY RANSACKED DURING THE ABSENCE OF THE FAMILY—SOME SMALL CHANGE AND TRINKETS OF JEWELRY TAKEN AWAY.

(From Thursday's Daily).  
 Burglars entered the residence of J. D. Sutherland, corner of Cottage and Ferry streets, sometime between 2 and 4 o'clock yesterday afternoon, ransacking every room in the building and making good their escape. The members of the family were absent at the time, and upon their return found the bureau drawers pulled out and their contents strewn on the floor, trunks opened and the bedding pulled from the beds, in fact nothing was left untouched which might have served as a hiding place for money or valuables.  
 As far as known the miscreants secured only a small amount of change and a few trinkets of jewelry, a gold watch which was taken from an upstairs bedroom having been thrown in the corner of the hall on the lower floor, where it was later found by the members of the family. The silverware and other articles of value were left untouched, the work of the intruders showing conclusively that money was what they were after.

It is not known how the burglars gained entrance to the building, but it is possible that a rear window furnished the means for access, as this was found partly open. The work was no doubt that of tramps, and the police are working on clues along that line. It is supposed that the tramps were frightened away by lady visitors who called at the Sutherland home between the hours named above, and who felt confident they heard someone stirring in the house after they had rung the door bell.  
 The rear entrance to Mr. Sutherland's home is sheltered by trees and shrubbery which afforded ample protection to the sneak thieves in gaining an entrance and making their escape from the building without being detected. There are many residences in that neighborhood, and the burglary having been committed in broad daylight, is evidence that the sneaks were experts at the business.

**STOLE A BICYCLE**  
**AROUSING CHIEF GIBSON'S SUSPICION AND WAS PLACED UNDER ARREST.**  
 (From Thursday's Daily).  
 A boy aged about 14 years, and who gave his name as Oscar Hiatt, rode into Salem on a new Tribune bicycle yesterday morning and by his repeated efforts to dispose of the wheel at a small figure, aroused the suspicion of Chief of Police Gibson, who placed the boy under arrest and took him to the city jail. After undergoing the sweating process, Hiatt confessed to having stolen the wheel at Independence on Tuesday evening. The authorities of that city were notified of the arrest by Chief Gibson, and an officer came over yesterday afternoon and took the boy to Independence.  
 The youthful criminal claims to still reside in Seattle, but says he does not know whether his parents still live there or not. An effort will be made by the Polk county authorities to have Hiatt committed to the Reform School.

**GOING TO PORTLAND—**  
 At a meeting of the board of education of the city of Portland on Tuesday, Professor L. R. Traver, principal of the Salem public schools, was elected principal of the Peninsular school of Portland. This is a small school on the outskirts of the city and employs only three teachers besides the principal. This move will no doubt be somewhat of a surprise to the majority of the people of Salem who did not know that Professor Traver was even contemplating a change.  
 Life can not be reduced to a problem. It is manly to apologize, but unfortunate to have done the thing that makes the apology necessary.

**BERRY SEASON ABOUT ENDED**  
 Crop Has Been Satisfactory Good Prices Have Been Secured

CHERRIES ARE COMING TO MARKET NOW IN LARGE QUANTITIES FOR SHIPMENT AND CANNING—CANNERY NOW EMPLOYS ABOUT 125 HANDS.

(From Thursday's Daily).  
 The strawberry harvest is now almost past. It has been very successful from the growers' standpoint, as well as from that of the shippers, and canners. The Fruit Growers Union has accomplished much for the grower in finding good markets and keeping up prices. Probably never before have the berries sold at such high prices throughout the season. In the local market, instead of being able to buy berries for 50 cents and 75 cents per crate, consumers have been compelled to pay from \$1 to \$1.50 the greater portion selling for \$1.25 during the period when they were most plentiful, and only for a few days have berries retailed as cheap as 5 cents per box, and never lower. There is still plenty of berries in the local market to supply the demand and quite a quantity is being received daily at the cannery, principally of the Wilson variety. These popular berries have, as usual, been on the market for a greater length of time than any other variety, getting the advantage of some of the high prices early in the season, and now they will sell at a premium for the rest of the week. The shipping season has about passed, but Manager Holcomb expects a large quantity of berries to be delivered at the cannery during the remainder of the week. He says the contracts have not nearly been filled as yet.

The yield has not been nearly as large as was expected early in the season, but the climatic changes have had a great deal to do with the yield. The exceedingly warm weather of a few days damaged the berries considerably and it was thought the crop would be very light, but the abundant rains following, while doing some damage to the ripe fruit, extended the season and almost doubled the yield.  
**Cherries Are Coming In.**  
 Cherries are now the important article in trade. None of the late staple varieties are yet in the market, but such cherries as the Royal Anne will commence coming in next Monday and before many days Black Republicans and late Dukers will also be ripe.  
 The Fruit Growers' Union is shipping a good many black cherries daily, both to Portland, and to points South. The cherries are all carefully packed by experts, in the association rooms, in five-pound boxes, and present a tempting appearance when placed on the market.  
 At the cannery, cherries now form a very important part of the daily pack, and each day brings a larger supply than the previous one. Yesterday enough cherries were taken in, of the early varieties, to pack 300 cases, and the cannery presented one of the busiest scenes in the city. Over 100 girls were making the strawberry and cherry stems fly, while a force of men was receiving, weighing, handling and canning the fruit, and running the steam cookers.  
 Manager Holcomb was found with his coat off, endeavoring to start the new grader. It was manufactured in the building by one of the employees, and separates the cherries into five different sizes, which goes into as many grades of canned fruit, from the small cherries, which are packed in gallon tins for pie fruit, to the largest size, and Manager Holcomb remarked that it was too bad they did not all grow into large sizes, as not enough of them can be secured to fill the demand, while with the small sizes it was hard to find a buyer.  
 Another interesting machine which has just been received is a cherry seeder. This machine is of Oregon manufacture, and is the most perfect seeder on the market. Not a cherry can pass through without losing the pit, and yet no appreciable part, not one per cent of the cherry, is lost. The capacity of this machine, which is of hand power, is about 2000 pounds of pitted cherries daily. The greater portion of the cherries canned will contain the pits, but for special orders, the pits are extracted.

**IT MAY PROVE FATAL.**  
 PORT ANGELES, Wash., June 25.—Charles A. Cushing, president of the Port Angeles & Eastern Railroad, while cleaning a shotgun this morning, accidentally shot himself in the abdomen. His condition is critical.  
 Sowing wild oats may not be fatal, but is always harmful, whether in the field or in the life.

**MERCURY**  
 A POOR CRUTCH.  
 Experience is a dear teacher, as those who, in their faith to Mercury find out sooner or later. This powerful poison combined with Potash, is the treatment generally prescribed for Contagious Blood Poison, but failure and disappointment is the invariable result. These minerals drive in the sores and eruptions, and apparently the disease is gone and the patient believes the cure permanent, but soon learns better when the old symptoms return almost as soon as the treatment is left off. You must either keep the system saturated with mercury or endure the tortures of sore mouth, ulcerated throat and the mortification that one naturally feels when the body is covered with disgusting sores, rashes, copper-colored spots and other aggravating symptoms of this vile disease.  
 Mercury and Potash are poor crutches, and their use eventually breaks down the constitution, ruins the digestion and cause the bones to decay.  
**SSS**  
 S. S. S., a guaranteed purely vegetable remedy, is the only antidote for Contagious Blood Poison. It destroys every atom of the deadly virus, overcomes the bad effects of the mercury and cleanses the blood and system so thoroughly that never after are any signs of the disease seen. Nor is the taint ever transmitted to others.  
 We will send free our book on Contagious Blood Poison, which is interesting and contains full directions for treating yourself at home. Medical advice or any special information desired given without charge.  
**THE SWIFT SPECIFIC CO., ATLANTA, GA.**

**Portland Has Increased in Population About 15,000 Souls During the Last Year**  
 It will become a great city, but that part of the city which is developing most rapidly, and will distance all others in point of rapid growth, is the  
**Suburb St. Johns**  
 • This suburb lies on the Willamette River below the bridges (40 minutes by electric line to the center of the city) and is the only Portland suburb having a deep ship channel and wide harbor, and facilities for commerce by both river and railroad. In April, 1902, the O. R. & N. Co. completed its line to St. Johns, and thereby opened this suburb for commerce. Since that time its growth has been phenomenal. Its population has doubled and trebled. At that time there was not an industry in the place. Now several mills are in operation, one is nearing completion and others are breaking ground; but the greatest event in the history of the place was the location of the dry dock at St. Johns, which took place a few weeks ago. This in itself is a testimonial to the superior commercial advantages of the place, and is a prophecy of its future, for shipping must congregate about the dry-dock. In less than two years time we have obtained industries occupying over four thousand feet of water frontage. The work of building these plants alone cannot be completed until Fall, and in the meantime homes must be built to house the laborers in these new mills. There is not an empty house in St. Johns. The growth of this place has only just begun. It has a great stretch of unoccupied water frontage superior to any other in the city. This water frontage will build up a great town.  
 Do you want to participate in the profit which is coming to purchasers of St. Johns property  
**Lots \$150--\$200 \$5 down \$5 per month**

**TERMS FOR SEASON \$40.00**  
 Good pasturage, best of care taken, but no responsibility assumed for accidents or escapes. Address  
**WILLIAM MURRAY, Fair Grounds, Or.**

**The Imported German Coach Stallion**  
**Pylos, No. 1753.**  
 Descriptions—Pylos is a very dark bay with black points, no white. He is 4 years old this spring; is 16½ hands high and weighs 1450 pounds. He has fine style, good action, with the very best of legs and feet, and is certainly an ideal horse in every respect.  
 The German Coach Stallion is no longer an experiment; it has been fully demonstrated that no other breed of coach horses will sire from all kinds of mares, the class of horses now being produced by them. They get the size, color, style and the best of all the extreme knee action, and at all the markets demand the highest price. They are the finest coach horses in the world, the result of breeding in one line for a great length of time. They run in height from 15 to 16½ hands high, weighing from 1850 to 1450 pounds. They mature very young and are fit for work at two years old, and for breeding purposes they are horses that produce all about one size, all dark, deep color, and are the only genuine coach and general purpose horses. Being so purely and strongly bred, they reproduce themselves with wonderful certainty, and in the colt you see almost the image of his sire. This is not surprising when we know these horses have been so carefully bred in one line by the German government for several hundred years, and are probably the purest bred horse that live. The get of these horses is the horse that has long been wanted, and suits the eye of everyone, as he has the color, size, style, action and finish.  
 Terms: \$30 to insure. Money due when mare is known to be in foal, changed hands or removed from county. Will make the season of 1903 as follows:  
 Monday—McMinnville.  
 Tuesday—McMinnville.  
 Wednesday—McMinnville.  
 Thursday—Zena (Crawford Farm).  
 Friday—Salem.  
 Saturday—Salem.  
**J. W. HENRY, Owner, McMinnville, Oregon.**

**DR. W. LONG,**  
 Veterinary Surgeon, Salem Or.  
 Phone 269.  
 The richly bred Wilkes Stallion  
**Broadheart, 35668**  
 Is a Black Stallion 16 hands high, weight 1175 pounds. He is a magnificently bred stallion, every cross in his blood is well known to the racing world. He is one of the grandest young sires on the Pacific Coast, for style and beauty he cannot be excelled anywhere, and with but little handling showed a 2:20 gait. He is just the horse to breed to to get good sized road horses as well as race horses. His first crop of colts is just coming on. They are extraordinary good lookers and well formed colts. A number of his colts can be seen at the Fair Grounds.  
 Broadheart was bred by McClanahan 2547 son of Roy Wilkes 2784 by Aaron Wilkes, by Geo. Wilkes, by Hamiltonian 30. First dam Mrs. Goldsmith by Fero 228, son of 1801 44 sire of Fido 2945, etc. Second dam Fanny Goldsmith by Guido 1197, sire of 15 dams of 17. In the list Third dam Kit by Goldsmith 150, sire of Lucille Goldsmith 2184, Pesty Goldsmith 220, etc.  
 Broadheart will make the season of 1903, until July 1st as follows: Fairgrounds, Oregon, from Friday evening to Tuesday noon. The balance of the week at Woodburn and Hubbard until July 1st, the balance of the summer at Fairgrounds, at \$20 by the season, with usual return privileges. Money due at end of season. Good pasturage and good care will be given mares at \$2.00 per month, but will not be responsible for accidents or escapes.  
**W. O. TRINE, Manager, Fairgrounds, Oregon.**  
**ALBERT PRATT, Hubbard**
