**FALL WHEAT LOOKS GOOD**  
Especially in the Willamette Valley Where It Is Better Than Average  
SPRING WHEAT CONTINUES TO IMPROVE AND PROMISES WELL—WEATHER IS TOO COOL FOR CORN, OTHERWISE IT IS IDEAL—OTHER CROPS FINE.

(From Wednesday's Daily.)  
The following report of the weather and crop conditions of Oregon covers the period of the week ending Monday, July 13 and is issued by Section Director Edward A. Beals, for the Oregon section of the U. S. Department of Agriculture Weather Bureau:

The weather during the past week was favorable for the growing crops, as well as for haying, except that it was too cool for corn, and this crop is making slow advancement. Haying is now general and notwithstanding considerable clover was damaged by the rains of the previous week, the hay crop bids fair to be an average one. Pastures are good, except in some of the southern sections, where the ranges are drying up and feed is becoming short.

Fall wheat continues to ripen nicely, and in some few localities its harvest has begun. The crop is lighter than usual in Southern Oregon and in the Grand Ronde valley; it is below the average in the Columbia river counties east of the Cascade Mountains, but much better than anticipated a month ago. In the Willamette valley it promises to be as good, if not better, than the average.  
Spring wheat continues to improve, and it is heading and filling nicely; the straw, as a rule, is rather short, but the heads are of good size, and the berry promises to be plump and of good quality.  
Oats are doing splendidly and the crop will be above the average. Barley has a good color and the outlook is favorable for average yields.  
Hops, potatoes, onions, sugar beets and gardens have made good progress during the week, and but few complaints are made of damage being done by vermin or other pests.  
Fruit continues doing nicely; prunes and pears are especially promising; apples are variable; in some localities the late varieties are reported good, and the early varieties poor, while in other sections good crops are indicated for both early and late varieties. A few correspondents report only a half crop of both early and late apples, but judging from all reports it is believed the crop as a whole will fall but very slightly below the average.

**Willamette Valley.**  
Gresham, Multnomah county, Mrs. J. J. Moll.—First and last part of the week rainy; fine and warm middle of week; hay cutting in progress; rain did a little damage to heavy clover; grain looking fine.  
Rainier, Columbia county, Jos. Hackenberg.—Weather unfavorable for cutting hay; clover ready to cut; timothy beginning to bloom, crop from fair to good; early planted potatoes in bloom and promising; grain excellent, but the last heavy rains lodged wheat, oats and peas badly; pears have dropped badly; early cherries a failure; late cherries will be ripe in about two weeks; black aphid infesting all cherry trees; raspberries, blackberries, strawberries and currants ripe, of good size and plentiful; pasture good; stock in good condition.  
Tualatin, Washington county, George Galbreath.—Clover cutting in progress; fall wheat has been damaged some by the aphides; there is some blight on the onions.  
Stafford, Clackamas county, J. L. Kruse.—Week was favorable to growing crops, especially potatoes and garden truck; clover was slightly damaged by the excessive rains the fore part of the week, but the past four days have been ideal for the making of hay, which promises to yield well.  
Dayton, Yamhill county, John H. Moore.—Weather warmer; haying is in progress, the crop will be above average; spring grain is heading and looks well; corn is growing rapidly; potatoes and other vegetables are making a good growth; prunes, bartlett pears and winter apples will be an average crop; early apples and peaches will be short; pastures good and stock looking well.

Salem R. F. D. No. 1, Polk county, P. F. Clark.—Crops much improved by recent rains and warm weather; haying in progress; some clover hay has been damaged by the rains; spring sown wheat and oats are nearly up to average; potatoes and gardens are very flourishing; apple crop not quite as good as expected; much fruit has fallen; prunes excellent.  
Albany (for Wells), Benton county, V. A. Carter.—Week warm and favorable; fall wheat is filling well and the yield promises to be up to average; prospect good for good crop of oats; haying is well under way; clover is damaged by rain to a considerable extent; fruit promising.  
Liberty, Marion county, T. C. Davidson.—Week warm and favorable; a great deal of hay cut; some hay injured by rains last week; grain is looking good and promises good yields; stock doing fairly well; gardens are making good growth; prunes promise large crop; corn growing well.  
Crawfordsville, Linn county, D. C. Swann.—Weather generally favorable for haying; crops doing well; cherry crop about gone; yields poor; chest and clover good crop; oats very good; pastures good.  
Goldson, Lane county, J. M. Goldson.—Heavy local rains unfavorable for haying.

**Good Week for Harvest.**  
Washington, July 14.—The Weather Bureau's weekly crop bulletin is as follows:  
The temperature last week was very favorable in all districts east of the Rocky Mountains, and on the Pacific Coast, but in the Northern Rocky Mountains and middle-plateau regions

it was too cool, with frosts in exposed places on the 7th and 8th. Portions of the Lower Ohio and Central Mississippi Valleys, Southern Florida, Western Texas, Northern Minnesota and the Southern Rocky Mountain districts, are in need of rain, but elsewhere there is ample moisture, Northern Iowa and portions of the South Atlantic and East Gulf states having suffered from excessive rains. Corn has made splendid growth in portions of the Upper Ohio Valley and Middle Atlantic states, but is weedy. The week has been very favorable for winter wheat harvesting, which has been about completed, except in more northern sections. Threshing has made good progress, and the reports generally indicate light yields. A feature of the report respecting winter wheat is the entire absence of injury to shocks.

In Northern Minnesota and North Dakota spring wheat is thin and heading short, and lodging is reported from portions of South Dakota and Northern Minnesota. In Kansas, Wisconsin and the southern part of South Dakota, spring wheat is heading well, and very favorable reports are received from Washington and Oregon.

Throughout the cotton belt there has been a general improvement in that product which has made healthy and vigorous growth.

Only a fair crop of apples is indicated in the most of the principal apple states, the most favorable reports being received from Kansas and Iowa.

**A QUIET WEDDING**  
TWO POPULAR SALEM YOUNG PEOPLE UNITED IN THE BONDS OF WEDLOCK.

(From Wednesday's Daily.)  
A quiet wedding took place at 10 o'clock yesterday morning at the home of the bride's mother, Mrs. A. M. Stump at No. 59 Court street, Salem, Oregon, when Miss Jessie M. Riddell became the wife of T. L. Davidson Jr. The ceremony was performed by Rev. John Parsons in the presence of only a few of the immediate relatives of the contracting parties.  
The bride is one of Salem's accomplished and popular young ladies, while the groom is well known in this city, being the only son of Hon. T. L. Davidson. The happy young people have a wide circle of friends who will extend their hearty wishes for a long and happy future. Mr. and Mrs. Davidson will at once take up their residence on Mr. Davidson's stock farm near Sheridan, Yamhill county, where they will make their future home.

Trib for sale at the Capital Drug Store.  
Edward Shield, of Portland, was in the city yesterday, making arrangements for the reopening of his Park in this city on Monday evening next. Mr. Shield started with one park in Portland, but in addition to his summer amusement place in that city he now has the one in Salem, besides one each in Spokane, Seattle, Tacoma and Walla Walla, and one is being opened in Pendleton. Mr. Shield is growing to be a big man in the amusement world. His salary list for the people who do the entertaining is now \$4000 a month. He made money, however, in Portland last year, and he hopes to have big crowds and a profitable business in all his places from this time on. There will be no Quaker Doctors in Salem to draw away the crowds during the balance of the season.

**TO COMMERCIAL CONGRESS**  
GOVERNOR CHAMBERLAIN APPOINTS DELEGATES TO ATTEND AT SEATTLE.  
From Wednesday's Daily.  
Upon the request of the officers of the Trans-Mississippi Commercial Congress, Governor Chamberlain yesterday appointed ten delegates to attend that meeting, which will be held in Seattle, Wash., August 18-21 inclusive, as follows:  
J. H. Robbins, Sumpter; C. W. Talmage, Tillamook; Chas. W. Galloway, McMinnville; W. J. Wimer, Waldo; G. G. Warner, Bohemia; Geo. B. Small, Baker City; J. W. Cusick, Albany; J. Thorburn Ross and Chas. K. Henry, of Portland, and W. H. Holmes, of Salem.

This is the eighth annual meeting of this congress, the principal objects of which are to promote the commercial interests and general welfare of the country.

**WAS SENT TO PENITENTIARY**  
Hoeninghaus Pleaded Guilty to Obtaining Money Under False Pretenses  
WILL SERVE ONE YEAR FOR HIS OFFENSE—G. D. TROTTER SECURED A VERDICT AGAINST THE TOWN OF STAYTON—OTHER CASES.

(From Wednesday's Daily.)  
When the circuit court convened yesterday morning, the sealed verdict, which was returned by the jury at a late hour Monday evening, in the case of J. W. Ransom and Charles Ransom vs. E. McGinnis, was opened by the court. The verdict was in favor of the defendant.

This was a most complicated case, and was tried in the justice court of Salem district on March 11 before a jury, the verdict rendered being in favor of the defendant. The plaintiffs being dissatisfied with the verdict took an appeal to the circuit court.

The case involved the sale of a survey by F. A. Wiggins, acting as the agent of E. M. Croisan, to E. McGinnis, for the sum of \$115. McGinnis paid \$25 in cash and gave two notes, one for \$40 and one for \$50. Mr. Wiggins transferred these notes to E. M. Croisan as payment for the survey, and it was alleged that when the \$50 note came due, on November 15, McGinnis offered to surrender the survey.

Mr. Croisan then sold the survey to Andrew McFarlane, receiving therefor Mr. McFarlane's note for \$91.85, secured by a chattel mortgage on the survey, and on a span of horses. McFarlane afterward sold one of the horses to Croisan for \$50, and Croisan released the \$50 note and returned it to McGinnis.

Plaintiffs alleged that they purchased the \$40 note from Croisan and that \$21.50 had been paid thereon, leaving a balance of \$18.50, with interest at the rate of 8 per cent from April 1, 1922; and the plaintiffs asked for a judgment for \$18.50, together with 8 per cent interest from April 1, 1922; for attorney's fees and for the costs and disbursements of the suit.

S. B. Hoeninghaus appeared in court to answer to the information filed against him by District Attorney Hart, charging him with obtaining money under false pretenses. The defendant pleaded guilty to the charge, waived time and was sentenced by the court to serve one year in the Oregon State Penitentiary. He was transferred to that institution by Sheriff B. B. Colbath.

When the court reconvened at 1 o'clock yesterday afternoon the case of J. Burt and Lou Burt vs. Eugene Bosse, an action for damages, was called. A jury was empaneled to try the case, but during the progress of the trial the attorneys for the defense introduced a receipt showing that the Salem Flouring Mills Company had effected a settlement with the plaintiffs for the damages claimed, whereupon the plaintiffs took a voluntary non-suit and the jury was discharged.

This action was brought by the plaintiffs to recover damages alleged to have been sustained to their property by the breaking of the dam built across North Mill creek in this city, the water escaping through the broken dam having washed away a portion of a lot owned by them. The dam was constructed for the purpose of turning the water into the mill race, which was to furnish power for the operating of Eugene Bosse's flax plant, installed in the big brick mills. The race and water power, however, is owned by the Salem Flouring Mills Company, which company, it appears, settled for the damage done to the property of the plaintiffs in the case.

**SKIN DISEASES THE OUTCROPPING OF BAD BLOOD**  
And while not always painful are aggravating beyond expression. With few exceptions they are worse in spring and summer when the system begins to thaw out and the skin is reacting and making extra efforts to throw off the poisons that have accumulated during the winter. Then boils and pimples, rashes and eruptions of every conceivable kind make their appearance, and Eczema and Tetter—the twin terrors of skin diseases—Nettle-rash, Poison Oak and Ivy, and such other skin troubles as usually remain quiet during cold weather, break out afresh to torment and distract by their fearful burning, itching and stinging. A course of S. S. S. now will purify and enrich the blood, reinforce and tone up the general system and stimulate the sluggish circulation, thus warding off the diseases common to spring and summer. The skin, with good blood to nourish it, remains smooth and soft and free of all disfiguring eruptions.  
Send for our free book on diseases of the skin and write us if you desire medical advice or any special information. This will cost you nothing.

**THE USE OF Narcotic Poisons**  
And mercury in the treatment of piles was begun in the dark ages, gave temporary relief only by paralyzing the bowels and do not cure, but in reality weaken the parts and prevent nature from restoring the bowel to a healthy condition, as any honest and intelligent druggist or doctor will admit, and as may be seen by reference to the United States Dispensatory, which says: "Opium lessens the natural motion of the bowels, its local effect is the same as its general operation; opium paralyzes the motor nerves, apoplexy reduces muscular strength, belladonna produces paralytic symptoms; hyoscyanine and stramonium are same as belladonna. They do not exercise any curative influence."  
The following is in substance the expression of all up-to-date druggists: "In twenty-eight years experience I have prepared all manner of narcotic and mercurial preparations for piles, but none to my knowledge ever cured a single case."—P. B. Sprague, druggist, Lincoln, Neb.  
"No reputable chemist, doctor or druggist will claim any curative virtues for the narcotic preparations in the treatment of piles."—A. R. Levi, Ph. G., Denver, Colo.  
E-R-U-S-A Pile Cure is the only non-poisonous pile cure on the market. Over 4000 of the most intelligent and up-to-date druggists sell and endorse it.  
E-R-U-S-A cures piles, or \$20 paid. Worst cases of piles cured with one box. All reliable, up-to-date druggists sell E-R-U-S-A, via: Stone's Drug Stores, 2, J. Riggs, D. W. Putnam, D. J. Fry, Steiner Drug Co., Palace Pharmacy, O. K. Pharmacy, Salem, Oregon.
