I think it was caused first by a strain from heavy lifting I did two years ago. I kept getting worse instead of better, and finally consulted a doctor. He told me I had gall stone in the bladder. Not only did I suffer from stone in the bladder but trouble with the kidney secretions existed and their too frequent action disturbed my rest from fifteen to twenty times a night. This was very annoying and I was in a bad way when I read of Doan's Kidney Pills and procured a box at Dr. Stone's drug store. broken it off, then that his heart had changed, but smally she confessed that she had been so irritable, so depressed and blue that she had lairly driven him away. Her good looks were vanishing. She was getting thin, pale, and hollow-cheeked, with dark circles around her eyes. Suddenly all society was pleased again to hear of the engagement being renewed, and it was not long before a beautiful and radiant bride was taken to the altar. She had regained her good looks, her former happy disposition and strong nerve all through a secret a friend gave her. A wife had confessed to her that she had almost driven her husband to suicide with her bad temper, her nervousness and irritability, and she had found that it all developed from a weakness of the womanly organs. A few months' treatment with Dr. Pierce's Pavorite Prescription completely changed her; she had cured herself and again made the home happy. A few bottles of Dr. Pierce's Pavorite Prescription is what made two more lives happy and a radiant bride more beautiful than she had ever appeared before.

Normally a woman should have no discomfort so far as feelings of distress are concerned, at each recurring period. But modern civilization has added its conditions of ever-present suffering to a large proportion of American women. The majority of such cases are due to local inflammatery or congested conditions which can be overcome by the right treatment. Of

jority of such cases are due to local inflammatory or congested conditions which can be overcome by the right treatment. Of course, this local irritation is followed by headaches, backaches, nervousness, irritability, and, indeed, often results in nervous prostration or collapse which might have been avoided by proper treatment.

As soon as the organs essentially feminine get out of order, or a catarrhal condition exists, this disturbance is telegraphed throughout the whole system by the sym-

throughout the whole system by the sym-pathetic nerves and the woman will suffer from pain in head and extreme nervous-ness. In all such cases an aggravating feature is usually

HABITUAL constipabe corrected by the use of a good veget-able laxative just privi-ous to the time for recurrence of the pains. The local disorder and inflammation of the delicate, special or-gans of the sex should be treated steadily and systematically. Doctor Pierce has advised his "Favorite Prescripso many times in the diseases peculiar to women that he knows it's an unfailing remedy in most of the disorders of the sex. After using this remedy for many years in his private practice he put it up in a form that would make it

ADVICE TO MARRIED WOMEN. It is an evil day for the wife and mother when she scans her worn face in the mirror, and asks the question, "Does it pay? Does it pay to sacrifice health and happiness to wedded love?" But there is another question which rightly takes precedence of Does it pay? It is this: "Is it necessary to sacrifice health and happiness to wedded love?" Half a million women answer, No! They have been weak and have been made strong by Dr. Pierce's Pavorite Prescription. They were sick and "Favorite Prescription" made them well. It will do the same for almost every woman who gives it a fair and faithful trial. It stops weakening drains, heals inflammation and ulceration and cures female weakness. It tranquilizes the nerves and encourages the appetite.

They weakness and doctored with several physicals, scians, receiving little help. Two years ago was taken so bad that I could not do my work. Went to a doctor and he said I had ulceration of womb. It will do the same for almost every woman who gives it a fair and faithful trial. It stops weakening drains, heals inflammation and ulceration and cures female weakness. It tranquilizes the nerves and encourages the appetite. It is an evil day for the wife and mother

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 in legal money of the United States, for any case of Leucorrhea, Pemale Weakness, Prolapsus or Falling of Wome which they cannot cure. All they ask is a fair and cannot cure. All they ask is a fair and reasonable trial of their means of cure.

Their financial responsibility is well known to every newspaper publisher and druggist in the United States, with most of whom they have done business for over a third of a century. From this fact it will readily be seen how utterly foolish it would be for them to make the above unprecedented and remarkable offer if they were not basing their offer on curative means having an unparalleled record. No other medicine than Dr. Pierce's Favorite Prescription could possibly "win out," as the saying goes, on such a proposition. But they know whereof they speak. They have the most remarkable record of cures made by this world famed remedy ever placed to the credit of any preparation especially designed for the cure of woman's peculiar ailments. This wonderful remedy, therefore, stands absolutely alone as the only one possessed of such remarkable curative properties as would warrant its makers in publishing such a marvelous offer as is above made in the utmost good faith.

Mrs. O. O. Scripture, of Prescott, Ariz. I. Box 536, writes: "Words cannot express how grateful I am for what your medicines have done for me. For nearly two years I was a great sufferer with ulceration and enlargement of womb, also suffered severely with dyspepsia and was run down—a perfect wreck. Justice Horgan The Salem Canning Company was represented by W. T. Slater and Tilmon Ford, and Mr. Palmer, the plaintiff, by Richardson & Richardson. The case was not given a jury trial, and after all the testimony had been introduced, and the argument made, Justice Horgan took the matter under advisement, and will today render a de-

The action was brought by A. D. Pal mer to collect the sum of \$15.39, the total value of some Royal Ann cherries sold by him to the Salem Canning Company the latter part of June. The defendant claimed that he had made a contract with the plaintiff, whereby he was to pay four cents per pound for the Royal Anne cherries, threefourths of which was to be paid at the time the cherries were delivered, and the balance after the entire crop was delivered. After making one delivery, Palmer became dissatisfied, and demanded pay for his cherries, \$15.39. Mr. Holcomb, manager of the company, tendered him the threefourths part of the money, but this he refused to receive, and brought suit against the company for the entire amount. The case hinged upon the point of whether or not there was a contract between the plaintiff and the defendant providing for an advance of three-fourths of the price of the cherries at the time of delivery, and the balance as soon as the entire crop was delivered. Mr. Holcomb based his defense on the ground that only threefourths of the price was due, as the contract had not been complied with.
