

THE WEEKLY OREGON STATESMAN. Published every Tuesday and Friday by the STATESMAN PUBLISHING COMPANY. A. J. KENNEDY, Manager.

CIRCULATION (SWORD) OVER 4000.

UNION LABEL.

ERRICSON'S CENTENARY.

On July 31, interesting services were held at more than one place in the world in honor of John Ericsson.

Soon services are to be held in dedication of a statue of Ericsson which stands in Battery Park, at the foot of Broadway, New York.

Ericsson had scored many successes before he came to America. He had submitted to one or two governments in Europe his plans for the submarine.

In 1861 Ericsson proposed this sort of a vessel to the people associated with "President Lincoln."

Ericsson's craft went to sea, bound for Hampton Roads. Very few of the naval experts believed that those who took passage in the "iron coffin" would ever be seen again or heard of.

The Merrimack had destroyed many Union warships in those waters, the Cumberland, the Congress and the rest.

John Ericsson, because of the magnitude of the event was of remarkably large significance.

Scrofula. It may develop so slowly as to cause little if any disturbance during the whole period of childhood.

Hood's Sarsaparilla. The best of all medicines for all humors.

Efficient services he rendered and because of his splendid ability and his rare usefulness as an inventor.

MORE OF THEM.

Once every year, usually in the dull part of the summer season, the newspapers are sure to print the story of the man who has found how to make gold cheap.

A couple of years ago, a fellow who operated on the coast of Maine was going to extract gold from the ocean.

Ericsson had scored many successes before he came to America. He had submitted to one or two governments in Europe his plans for the submarine.

than the tunneling of Behring strait from the farthest east point of Siberia to Cape Prince of Wales.

The tunnel is to be in two divisions—from Alaska to Diomede Island, and from the island to Siberia.

The road does not seem to be planned to build up existing properties in Alaska. As with Russian railways.

Nothing is said of setting a connection at the ends with established systems of railway on either continent.

Sixty years ago, when the slavery question was beginning to rend the country and when to be an abolitionist was to expose oneself to denunciation as a crazy radical.

Whittier was in his thirties when he wrote the verses to which reference is here to be made.

What has the anti-canteen law done for our soldier? No doubt women's temperance associations, tract societies, etc., will strongly assert that the banishing of liquor from military posts has done wonders for the moral good of the soldier.

Let the new health board now organize and get to work. Make the necessary regulations, and they will be enforced.

There was a rally in Wall street yesterday, in the latter part of the day's business, though the market opened feverish and anxious.

At last Salem has a board of health, made up of good and representative citizens. We believe they will proceed vigorously but conservatively to clean up the city and make its sanitary conditions what they ought to be.

There are enthusiasts in Salem who would be quick to vote "Old Sam Morris, the Indian baseball pitcher, the most distinguished citizen of the Capital City."

The big Ringling circus will be in Salem on Wednesday the 26th. All the little folks will want to get back from the coast and mountains before that time.

Hurrah for Salem's new health board! It looks all right, and it is all right.

Now Salem has a board of health. Good.

PERSONAL AND GENERAL. George Lincoln Burr, head of the department of medieval history at Cornell University, is touring New England towns on a bicycle for the purpose of studying early American history.

William Robinson, postmaster at Kanawha, W. Va., is a Seventh Day Adventist and refuses to open the post-office on Saturdays.

James M. Beasley, the Alaska contractor who decamped two years ago after securing \$2500 by means of a draft on the United States Treasury.

APPETITE'S POOR. A sure sign that the stomach is out of order, the bowels are constipated and the liver inactive.

HOSTETTER'S STOMACH BITTERS. The principles of that platform are "printing press" money, Government ownership of railroads, telegraphs and telephones.

The principles of that platform are "printing press" money, Government ownership of railroads, telegraphs and telephones.

The first is a proposition to run the Government and conduct all business settlements with that paper, a money that is not even a promise to pay.

Let the new health board now organize and get to work. Make the necessary regulations, and they will be enforced.

NOT AFRAID TO ADVERTISE. A NOTED DOCTOR WHO WILL NOT HIDE HIS LIGHT.

Dr. Darrin has been at the Revere House the past two months as a specialist. During his visit here the doctor has been the most talked of professional man who ever visited our city.

Dr. Darrin is a good example of what a free thinking, independent American citizen can do if he will not be a slave to a code of ethics that is largely dictated by narrow selfishness.

It is announced in San Francisco that E. H. Harriman has in mind the construction of a coast railroad from that city to Astoria.

One of the first things that the new health board will have to deal with, perhaps, is the open sewer running from the Santiam river to Salem.

Coughing. It's too risky, playing with your cough. The first thing you know it will be down deep in your lungs and the play will be over.

GIGANTIC RAILROAD DREAM. A company of American, French and Russian capitalists have forwarded a petition to Secretary Hitchcock asking approval of a railway to be routed across Alaska and Bering sea to Siberia.

A TEXAS WONDER. HALL'S GREAT DISCOVERY. One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles.

POPULIST REMEDIES. The Populists at Denver offer as the panacea of all the woes of the body politic the Omaha platform of 1898, which they describe as "immortal."

PERSONAL AND GENERAL. George Lincoln Burr, head of the department of medieval history at Cornell University, is touring New England towns on a bicycle for the purpose of studying early American history.

The Kitchen's Queen. Knows that fine old whisky is indispensable as a culinary help.

CYRUS NOBLE BOURNON AND RYE. are favorites with the cooks of the United States. The distinguished bouquet and pleasing taste of these whiskies is backed by their adaptability for medicinal purposes.

Statesman's Christmas Piano Contest. Enclosed find \$ for subscription to the Statesman's Christmas Piano Contest.
