NEW LIGHT ON MEXICO.

m parallel therefor in the experience o any people. The situation gets interesting description in correspondence recently printed in the New York Herald, which explains the political conditions that led to the nomination of President Diaz for another term notwithstanding a sincere desire on his mart to leave office and enjoy the rest to which his long service entitles him. It appears that a fanatical struggle is developing in the republic, and were Diaz to retire now it would break cut at once. For some time past Diaz has been anxious to lay down the burdens of government, and as a preparation to that end had settled the succession for two terms, arranging that Jose Ives Limantour should succeed him and that Bernardo Reyes should follow Limantour. The two leaders were aware of the project of Diaz and were in full accord with it, but forces more powerful than they, and even more powerful than Diaz himself, broke up the harmony between them and compelled the re-election of Diaz as the only means of keeping the republic at

Commenting on the rivalry of the two the Herald correspondent says: "For many years their personal relations were entirely cerdial and their political relations harmonious. Both were personal friends of the President id both were heartily loyal to him, personally and politically. There is no doubt that both were fully aware of his plans for the succession, and there is no doubt that they acquiesced in them and honestly indorsed them. The rupture which was precipitated was undoubtedly caused by the overzealcus activity of some of their individual partisans and followers, As friends acting in concert they could have carried out the plan of Diaz, continued his policy and perhaps could have carried Mexico to a point where her political

OUR PROSPERITY IS SOUND.

By the courtesy of the Associated Press to its m mbers, the Statesman of this morning is able to print practically in full the speech delivered in Chicago last night by Secretary of the Treasury Leslie M. Shaw, before the National Association of Merchants.

This speech is worthy of the perusal of every thoughtful man. The words are remarkable for their clearness and they are encouraging on account of their cheerful tone, Mr. Shaw, on account of the position he holds, speaks as one having authority.

He predicts that the present period of prosperity will continue. He points out the fact that we are a productive nation, and that we also consume nearly all we make. In fact, we consume an equivalent of 95 per cent of Sir Thomas will always challenge all we produce. "Not while these con- America's admiration. ditions continue," says Mr. Shaw, 'will prosperity cease."

We are the most prosperous people in the world, he goes on to show, beever saw. Forty thousand women and cause we both produce and consume

> The cable news of this morning gives an account of the uprising of the people of Northern Macedonia, who awaited the anniversary of the accession of the Sukan to proclaim a general insurrection. And at the same time is given the news of a grand celebration of the day in Constantinople, the lighted on Monday night. There is said to be "optimism" in official circles, and it is well that this is mentioned, for there is nothing optimistic in the outlook for anyone outside of the official circles of Turkey, Abdul Hamid II, Sultan of Turkey, came to the throne or August 31, 1876. He has had an unquiet and bloody reign, and on this anniversary of his acession the troubles thicken. Gladstone called him the "throned assassin," and if all true he is one of the meanest men that ever occupied a throne, in olden or modern times. It is a pity the civilized powers of the world do not interfere

Since the matter of septic sewage was brought to the attention of the people of this section by the Statesman, there has been a great deal of discussion concerning it. A number of people are preparing to put in septic sewage tanks, including some in the country, who are building new farm residences. Septic sewage is a new discovery. It is only about five evidence that civilization has been waiting for it. A prominent Salem

MRS. DEWEY'S **EXPERIENCE**

SHE WAS CURED WITH ELEC-TRICITY AFTER ALL OTHER METHODS HAD FAILED.

Unseen forces are more powerful than seen ones. Electricity performs cures silently but surely. To this many thousands that have been cured can testify. Many who know nothing of it oppose it; but truth always meet with fi ree opposition, which in the end, only hastens the victory. We do not profess to understand this unseen power, but joyfully accept the great boon of health, feeling that Dr. Darrin is ahead of the age, and is showing to the world this new method of cure. As an example we append Mrs. Dew-

ey's card: To the Public: I was a patient under Dr. Darrin's cure eight years ago, and streets of that city being brilliantly wish to relate my experience, that others may benefit by it. For many long years I had been afflicted with diseases peculiar to my sex, accompanied with pain in my chest, heart and stomach. I had lost flesh until my weight was 105 pounds. After a few months electrical and medical treatment by Dr. Darrin, I recovered my health and gained 40 pounds, and am now enjoying good health.

MRS. F. E. DEWEY, 386 Davis Street, Portland.

To the Editor: After reading and hearing of so many cures by Dr. Darthe things that are said of him are rin, I concluded to try him for deafness in one ear, though I had little faith in his mode of treatment by electricity. On my way to his office I could not hear the noise of the street car or wagons rolling over the stone pavements. After treatment I am able to hear without difficulty the church services, the ticking of a watch or a pin drop, and all sounds of life. I wish you would publish this, as it may give courage to have the new treatment. I consider the cure little short of a mir-

All curable chronic diseases treated at \$5 a week, or in that proportion of time as the case may require. The poor treated free, except medicines, from 10 to 11 daily. No case published, except with the permission of the patient. All business relations with Dr. Darrin strictly confidential. Electrical appliances furnished. One visit is desireable, though many cases can be treated by home treatment by writing symptoms. Eyes tested and glasses

The doctor will remain until December 1st, and those wanting treatment will do well to call as many require a second treatment.

PASTOR TURNS BURGLAR

ENTERED HOUSE AT HILLSBORO AND TRIED TO CHLORO-FORM FAMILY.

HILLSBORO, Or., Sept. 2.-Rev. R. H. Kennedy, formerly pastor of , the Congregational church here, was arrested today on a charge of burglary. Early Monday morning the house of E. H. Warren was entered by a masked burglar, who tried to chloroform the family. He entered the room of Mrs. Mackinde, who was aroused by the burglar and commenced to scream. Miss Warren and her father ran upstairs and all three were confronted by the burglar, who held a revolver in his hand. He made them hand over about \$10 in money and a gold watch. Miss Warren claims she recognized the minister by his voice and clothing.

Kennedy is a cultured man, and has a wife and three children. He came here nine months ago from Albany, but was soon dismissed as pastor, because of Europe was a dead one.-Exchange, he did not devote enough time to church work. He has been timber

IS CROSSING DIVIDE

JIM WARDNER, POPULAR MINING PROMOTER, DYING FROM BLOOD POISONING.

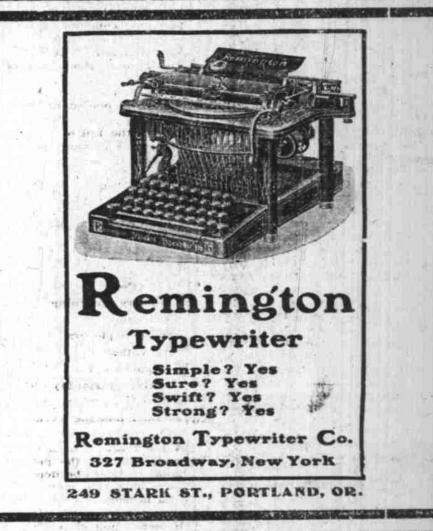

VANCOUVER, B. C., Sept. 2,-The

call has come for Jim Wardner to cross the Great Divide, and in the hills there is profound sorrow. The most popular mining promoter and raconteur in the Pacific Northwest is dying from blood poisoning, in Milwaukee hospital. Several months ago Wardner traveled through the mining districts in vada, and in the course of the trip drank from a stream by the readside. A cyanide mill discharged into stream, close above, and he inadvertently swallowed a chemical solution used in the process. The poison entered his system, and he was unwell for several weeks, but finally was thought recovered. A relapse occurred, and he was sent to the hospital at Milwaukee, where his daughter resides. The latest telegraphic reports are to the effect that the physicians have given up all hope, and this intelligence has been

ASKED FOR NEW BIDS

CEMENT WALKS NOT TO BE LAID AROUND POSTOFFICE THIS FALL

A second set of bids for the filling of the grounds surrounding the best postoffice building has been received and forwarded to the U. S. Treasury Department for approval, but this time the bids only embrace the filling of the grounds and the sowing of the same

to grass.

About three weeks ago bids were asked and received for the filling of the grounds, the sowing of them to grass and the laying of a cement walk clear around the square, also the construction of a semi-circular driveway in front of the building, but these bids were all rejected on account of the lowest bid being far in excess of the estimated cost of the improvements (\$10,000), there being no appropriation for the same. Thereupon the department has decided to cut off the cement work for the time being, or until after priation for it, and the last bids received cover all of the work originally planned with this exception, the department being desirous of having the filling work completed before winter

The first lot of bids received, which included the laying of the cement walks, were: C. A. Gray, \$12,440; 13. sample of which must be sent to the

department for its approval. Mrs. H. P. McNary and Mrs. Ger-
