HOP HOUSES BURNED

KILNS TOTALLY DESTROYED—COVERED BY INSURANCE—WAREHOUSE SAVED.

The three hop drying houses of Lee King, at what is known as the Look farm, on the A. W. Giesey farm, and a half mile west of Aurora,

were burned to the ground yesterday afternoon. The hop warehouses, containing the hops so far picked and dried, was saved. In knocking down the elevated roadway leading from the kilns to the warehouse, in order to save the latter from burning, "Charley," one of the Chinamen regularly employed on the place, was severely hurt by a falling timber, but not dangerously. It is understood that the loss is fully covered by insurance, and the main loss or inconvenience will be in the curing of the hops remaining in the yard, though it is likely that some kilns in that neighborhood will be available, the picking in some yards there having been finished.

THREE HUNDRED TURKS REPORTED KILLED IN ENGAGEMENT WITH INSURGENTS AT SIRBINO—PORTE GIVES NOTICE IT CANNOT PROTECT LEGATION

SOFIA, Sept. 5.—Bands of revolutionaries continue to cross the frontier, but scanty news of the fighting in Northern Macedonia is received here. The insurgents are believed to be waiting until a larger force shall have assembled.

The Turkish forces are reported to have entirely devastated the district of Kostear in the vilayet of Monastir and to have burned every village in the district. Numerous rumors of the mobilization of the Bulgarian army are declared to be absolutely false.

War is Inevitable.

Berlin, Sept. 5.—A dispatch from Constantinople to the Tageblatt says: "A war with Bulgaria is in sight. DETERMINED TO SUCCEED

Commander Peary Will Again Penetrate Arctic Regions

SEARCH OF NORTH POLE

Was Granted Three Years' Leave of Absence by President

WILL START NEXT JULY, WINTER AT GRAND LAND AND START DUE NORTH IN FEBRUARY, 1905—THE TRIP MAY REQUIRE TWO YEARS.

WASHINGTON, Sept. 5.—Commander Robert E. Peary, the well known Arctic explorer, will make another dash for the North Pole. A leave of absence for three years has been granted him with the permission of the President. Commander Peary hopes to start with his expedition about the first of July next. He will take a permanent base at Cape Sabin. Thence to Grand Land, where he hopes to establish winter quarters.

The following February he will start due north. The commander expects to accomplish the distance to the pole and return in 100 days. If the winter is more than average severe it will require two years. Acting Secretary of the Navy Darling, in the letter granting the leave of absence, says: "The discovery of the pole is all that remains to complete the map of the world. That map should be completed by our countrymen. If it is claimed the enterprise is fraught with danger and privation, the answer is the geographical discovery in all the ages has been purchased at the price of heroic courage and noble sacrifices."

A NARROW ESCAPE

W. J. CULVER'S BUGGY ANIMAL TOOK A LIVELY SPIN YESTERDAY.

(From Sunday's Daily.)

W. J. Culver, the well-known civil engineer of this city, was mixed up in a runaway yesterday and narrowly escaped being seriously injured. Mr. Culver was going east on State street, driving his high spirited horse hitched to a buggy, and after crossing Liberty street, he caught up with a man on horseback, who was leading another horse, when suddenly the horse being led turned and backed into Mr. Culver's buggy, which caused the animal to kick, its heels striking and completely demolishing the front wheel of the buggy. This frightened Mr. Culver's horse, which started at a mad pace up State street, and the driver being helpless in a broken rig, jumped out of the buggy, and in doing so fell, striking his face and head on the hard graveled street, and sustaining a painful bruise on his forehead and several scratches on his nose. The horse ran into a telephone pole in front of the Jessup property, where he stopped, being uninjured with the exception of a slight cut on one of his hind feet. The buggy was badly damaged and had to be hauled to the repair shop in an express wagon.

Mr. Culver congratulates himself on escaping from the mix-up without more serious injury, and has no desire to go through another experience of a similar nature.

It was announced last evening, by the local management of Shields' Park, that on account of the threatening condition of the weather, it was decided not to give a performance as advertised for tonight, but that the park would remain closed for the season.
