Butte, Mont., Oct. 23 .- According to son to blame for it, as it was evidently every indication tonight, the Amalgamated Copper Company is preparing for a long shut-down, as several of the IS PREPARING pumps in the big mines have suspended operations. The Amalgamated officials are reticent as to expensions an opinion as to the probable length of the suspension, saying it may be of six or eight months' duration and perhaps a greater period. An effort will Charles M. Schwab Is Already be made by the leading citizens of the state to have the supreme court advance the hearing on appeal from Judge Clancy's decision in the hope a reversal of judgment by the tribunal will induce the Amalgamated Company to resume.

Indignation among the Amalgamated people is rife and they are loud in denouncing the present state of affairs and declare all business on the part of the company will remain at a standstill until the Boston & Montana rereivership matter is settled satisfactorily Throughout the state a general state of depression is reflected, and in Butte business is practically paralyzed. Business men are canceling their orders for winter supplies.

As yet no acts of violence have been reported to the police, though it is feared some difficulty will be experienced in holding the big army of idle miners in check any length of time. Tonight the principal streets are blocked with the miners and indignant mutterings can be heard on all sides. Extra police have been sworn in, with orders to prevent the gathering of large crowds.
