MARCUS A. HANNA.

The result of the election in Ohio Tuesday was a vindication by a tremendous popular majority of Senator Hanna, such as few public men have ever received. Senator Hanna was the issue. His entrance into the Senate six years ago, as the successor of the venerable John Sherman, was by appointment by Governor Bushnell for one year only. At the next meeting of the Legislature he was elected to fill the remainder of the vacancy and for the succeeding full term of six bitter contest. From that moment the nothing undone which would lay the foundation for a contest that would defeat his re-election at the expiration of his term. Every popular prejudice has been appealed to and no species of misrepresentation has been allowed to slumber that held out the least promise of being instrumental in furthering the plans of his enemies. When the time came he submitted his record to the people to be decided by popubefore,

The use of live animals as political emblems in the New York campaign is not wnolly new. It is recalled that raccoons were carried in the torcolight processions when Henry Clay was running for the Presidency. The sign in a New York window, "Do you want to turn the tiger loose on N. L. C. New York again?" doubtless is effective to some persons when they see beneath it a live tiger lashing his tail and licking his chops. It has been suggested that it would be more effective still if he were a trained tiger that gnashed his teeth and roared at every climax of the noonday orators. The Tammany plan to represent its opponents by a real elephant is probably an effort to fight fire with fire, but it does not make the same appeal. Persons are affaid of tigers, but who cares for an elephant? Give him the run of the town, and his depredations would probably be confined to a few peanut stands. He might even pick up little calldren in his trunk and give them rides on his broad back. As a matter of fact, the wild elephant is an ugly beast, but in captivity he is years, but only after a prolonged and ordinarily kept in a state of such complete subjugation that the mass of Democratic leaders of Ohio have left people come to regard him as the perfection of docility.
