THE SAME OLD TROUBLE HAS BOBBED UP AGAIN

Wrangle in House and Senate Over Introduction of Revenue Legislation

TREATY MAY AGAIN FAIL

Because House Contends it Holds Prerogative

President Urges Adoption of Cuban Reciprocity Treaty

WASHINGTON, Nov. 10.—The President held a conference tonight with the leaders of both Houses. The Cuban reciprocity treaty was the main topic. It developed the old controversy between the House and the Senate over the introduction of revenue legislation broke out afresh. It now appears that the contention of the House is that it holds the prerogative of introducing all such measures and it is admitted that the treaty will again fail.

Mileage Comes First.

Washington, Nov. 10.—The House was in session less than a half hour today, adjournment being taken out of respect to the memory of two deceased members. The President's message was read and referred to the committee on ways and means, the membership of which is yet to be announced. The message was also ordered printed. The speaker announced the committees on rules and mileage. Aside from making provision for the payment of the mileage of members no further business was transacted.

The President Notified.

Washington, Nov. 10.—At 10:30 o'clock today the joint committee of the Senate and House called at the White House to notify the President that Congress was organized and ready to receive any message. After greeting the members the President informed them he would communicate with Congress very soon in writing.

His Message Received.

Washington, Nov. 10.—Today's session of the Senate as devoted exclusively to the reading of the President's message on Cuban reciprocity and to the routine incident to the receipt of the message.

The President's message to Congress follows:

"To the Senate and House of Representatives: I have convened the Congress that it may consider the legislation necessary to put into operation the commercial treaty with Cuba, which was ratified by the Senate at its last session and subsequently by the Cuban Government. I deem such legislation demanded not only by our interest but by our honor. We cannot with propriety abandon the course upon which we have so wisely embarked. When the acceptance of the Platt amendment was required from Cuba by the action of the Congress of the United States this government thereby definitely committed itself to the policy of treating Cuba as occupying a unique position as regards this country. It was provided that when the island became a free and independent republic she should stand in such close relations with us as in certain respects to some within our system of international policy; and it necessarily followed that she must also to a certain degree become included within the lines of our economic policy. Situated as Cuba is it would not be wise for this country to permit the strategic abuse of the island by any foreign military powers. It is for this reason that certain limitations have been imposed upon her financial policy and that naval stations have been conceded by her to the United States. The negotiations as to the details of these naval stations are on the eve of completion. They are so situated as to prevent any idea that there is the intention ever to use them against Cuba, or otherwise than for the protection of Cuba from the assaults of foreign foes and for the better safeguarding of American interests in the water south of us.

Cuba Loyal to America.

"These interests have been largely increased by the consequences of the war with Spain, and will be still further increased by the building of the Isthmian canal. They are both military and economic. The granting to us by Cuba of the naval stations above alluded to is of the utmost importance from a military standpoint and is proof of the good faith with which Cuba is treating us. Cuba has made great progress since her independence was established. She has advanced steadily in every way. She already stands high among her sister republics of the new world. She is loyally observing her obligations to us; she is entitled to like treatment by us. The treaty submitted to you for approval secures to the United States economic advantages as great as those given to Cuba. Not an American interest is sacrificed by the treaty, and a large Cuban market is secured to our producers. It is a market which lies at our doors which is already large, which is already capable of great expansion and which is especially important to the development of our export trade. It would be indeed shortsighted for us to refuse to take advantage of such opportunity and to force Cuba into making arrangements with other countries to our disadvantage.

Entitled to Assistance.

"This reciprocity treaty stands by itself. It is not demanded in consideration of our broad natio,— policy as well as our economic interest. It will do harm to no industry. It will benefit many industries. It is in the interests of our people as a whole, both because of its importance from the broad standpoint of international policy and because economically it intimately concerns us to develop and secure the rich Cuban market for our farmers, artisans, merchants and manufacturers. Finally, it is desirable as a guaranty of the good faith of our nation towards our young sister republic whose welfare must ever be closely bound with ours. We gave her liberty. We are knit to her by the memories of the blood and the courage of our soldiers who fought for her in war; by the memories of the wisdom and integrity of our administrators who saved her in peace and who started her so well on the difficult path of self-government. We must help her onward and upward; and in helping her we shall help ourselves.

"The foregoing considerations caused the negotiations of the treaty with Cuba and its ratification by the Senate. They now with equal force support the legislation by the congress which by the terms of the treaty is necessary to render it imperative, as failure to enact such legislation would come perilously near a repudiation of the pledged faith of the Nation.

"I transmit herewith the treaty as amended by the Senate and ratified by the Cuban government.

"THEODORE ROOSEVELT.

"White House, Nov. 10, 1903."

STRANGE, FATAL DISEASE.

NEW YORK, Nov 10.—A strange and fatal disease has become epidemic in the manufacturing village of Helmetta, New Jersey. The disease is accompanied by symptoms usual in scarlet fever, but its progress is much more rapid. In some cases death has ensued in three days, and the doctors so far have been unable to diagnose it. Seven deaths have occurred within the last two weeks. The public schools have closed and stringent quarantine measures have been adopted.

ALIENS RETURNING HOME.

NEW YORK, Nov. 10.—Thousands of immigrants who arrived at this port in the early months of this year are now crowding the east bound steamships in their efforts to return to their native lands. Never before have so large a number sought return passage. There is no cessation in the movement, and some of the steamship agents say their ships are now booked full to the first of the year. Business retrenchments, industrial strikes and the fact that many again wish to see their native lands are the reasons advanced by the agents for the exodus.

WAR ON BEGGARS.

NEW YORK, Nov. 10.—War has been declared on the professional beggars that infest the large Eastern cities. Operations ill begin in Philadelphia today, following out the campaign which has been going on in this city for several weeks. The campaign as planned by the charity organizations and societies and the police of the various cities is to pursue professional beggars from city to city toward the West until they are driven to seek honest employment. The professionals have been catalogued and hundreds of the worst characters photographed at various times, so the work can be carried on systematically.

GREAT CRISIS WAS AVERTED

Governor Toole Issues a Call For a Special Session

MONTANA LEGISLATURE

To Afford Relief to Extreme Conditions of Mining Properties

JOYFUL NEWS WAS RECEIVED IN BUTTE, WITH GREAT DEMONSTRATION—AMALGAMATED TO RESUME TODAY—20,000 TO BE GIVEN WORK AS RESULT.

HELENA, Mont., Nov. 10.—Governor Toole this afternoon caled a special session of the State Legislature, to meet on December 1 at Helena.

Joy Knew No Bounds.

Butte, Mont., Nov. 10.—The news that Governor Toole had called an extra session was received with the blowing of whistles at several of the mines and flags were also hoisted. In accordance with the promise of William Scallon, the president the Anaconda Company all the Amalgamated properties will resume tomorrow and several thousand men will go to work. John Gillis, superintendent of the Amalgamated property in Butte, issued the order this afternoon. The governor's action, followed the presentation of petitions to him from practically every labor organization and business men in Montana. The resumption of the Amalgamated properties means the return to work of approximately 20,000 men and averting an industrial crisis in Montana. In Butte alone it restores a pay roll of about $25,000 a day.

KILLED BY STUDENTS

INITIATION OF GREEK-LETTER SOCIETY TOO SEVERE--RELATIVE DEMANDS PUNISHMENT.

NEW YORK, Nov. 10.--Dr. Leo Hirschmann, of this city, a cousin of Martin Loew, a medical student whose death occurred recently at Baltimore soon after his initiation into a Greek letter fraternity, says he has received details of the affair from a fellow student. The latter declared that when Loew went to the fraternity hall to take the first degree he was met by twenty-five men. He was told to undress, and after doing so was blindfolded and taken into a room, where he was laid upon a cake of ice. He was then carried upstairs to the balcony, and thrown over the rail--a drop of twenty-five feet. On the floor beneath stood a number of students holding a sheet.

"When Loew fell into this," said the doctor, "he was tossed up and down until he was unconscious. After being revived he was beaten until his body was a mass of bruises.

"That night he was in such a wretched condition that his roommate stayed up all night with him. Whiskey and quinine were given to him during the night, and in the morning he felt relieved.

"The following Saturday he took the second degree. In the morning he was found dead, and his chum, who had just taken the first degree, was in a serious condition. The guilty ones should be sent to the gallows. They are murderers."

Young America, What Ails You?

The man who lives an out-of-door life, who earns his living by his brawn and muscle, is a being who can defy bad weather and wet feet. He is quickening his heart, driving the blood through unused channels, hastening the breathing and increasing the secretions of the skin. He may be able to abuse his stomach, drink or smoke to excess and yet be healthy. His red corpuscles will still keep their round shape. But the person who does not live so close to nature, who works confined in office, shop, or ill-ventilated house, or is risking his life in commercial habits that are ruinous to the stomach and heart, such as lunches consumed at racing speed, overwork and late hours, will have fewer red blood corpuscles and an increase of white corpuscles. The red corpuscles instead of being round will form into all kinds of various shapes, as shown in border of this article. The stomach, heart, and nervous system of Americans is being sorely overtaxed. Our young people are over-educated and over-strained in school houses and homes, and this is bringing a growing evil to Young America. Sleep is often broken; the ill-used brain will not permit one to enjoy "Nature's sweet restorer"—sleep in bed.

The blood is slow, sluggish and filled with white corpuscles. Stagnation of the blood causes headache, constipation, bad colds, coughs and a pale countenance.

RICH RED BLOOD

is gained by taking a medicine which is close to nature's way of making up for the abuse of the body, such as stated above. Dr. R. V. Pierce for many years studied this serious question while in the active practice of his profession and finally made a prescription of botanical extracts which had a wonderful effect in increasing the red blood corpuscles. He placed it on the market under the name of Dr. Pierce's Golden Medical Discovery.

To gain in fat is nearly always to gain in blood, but to fatten a person does not depend merely on the food eaten; something more is wanted in the way of a digestive and tonic to enable the system to prepare and appropriate the food taken in. That is what the "Golden Medical Discovery" does. The blood-making glands are assisted in their work, the poisons driven out of the body, the liver made active; that force-pump of the body—the heart, is stimulated to healthy action, and every nerve of the body is fed on rich red blood—blood with an abundance of red corpuscles. Languid, tired feelings, nervousness and irritability, lack of appetite and sleep, vanish quickly after using this nourishing tonic and blood purifier. Muscle and sound healthy flesh is put on at an astonishing rate if Dr. Pierce's Golden Medical Discovery is taken, together with mild physical exercise.

"Last summer during a severe hot spell," writes John Goetz, Senior Beadle, Foresters of America, Kodak 326, Corporal of 6th (regular) Artillery, heavy Battery B, First separate Company, National Guard of N. Y., "I became completely prostrated, unable to eat or sleep, with severe pains in groins and back, also blinding headaches. The doctors prescribed for me, but I did not seem to gain any strength, so decided try Dr. Pierce's Golden Medical Discovery, as I had heard it so highly spoken of. Am pleased to state that a complete change for the better set in almost as soon as I began using this medicine, and, within three weeks, I was fully restored to health and had gained eleven pounds in weight. I feel it a duty to write and tell you this."

"Please accept my thanks for your wonderful medicine, 'Golden Medical Discovery,' which has brought me from the bed to a healthy man again," writes G. W. Brisco, of Abilene, Kans. "When I began taking your medicine I was run down in health and flesh, had no appetite, had heavy pain in abdomen, headache, backache, dizziness, shortness of breath, also eyes were weak, could not do any work. After I got Dr. Pierce's Medical Adviser it told me just what was the matter and what I should take to gain health. My cure has remained permanent. After using five bottles of 'Golden Medical Discovery,' I am now able to do a good day's work and do it with ease. The relief was something that I could not describe. It has enabled me to do my work steadily ever since."

DO YOU KNOW YOUR OWN SYSTEM? A complete medical book and physiology of the body, is Dr. Pierce's Common Sense Medical Adviser, which can be had for the cost of postage, 21 one-cent stamps for the cloth-bound book, or 21 stamps for the paper-bound volume of 1008 pages.

GREETED WITH ENTHUSIASM

President Mitchell Presides Over Labor Convention

IT WAS ONLY TEMPORARY

Executive Council, in Report, Handled Miller Case With Gloves

THREE DELEGATES TO CONVENTION REFUSED SEATS BECAUSE THEY WERE NOT REGULARLY SELECTED--NO COMMENT MADE UPON THE MILLER MATTER.

BOSTON, Nov. 10.--John Mitchell, president of the United Mine Workers of America, presided for a time at the convention of the American Federation of Labor, and he received a greeting from the delegates which was as sincere and spontaneous as it was enthusiastic.

The day was largely devoted to the receiving of reports. The report of the executive council occupied the greater part of the afternoon session. It contained all the correspondence with President Roosevelt in the Miller case at Washington, but refrained from all comment upon the matter.

The feature of the afternoon session was the report of the committee on credentials, which recommended that Delegates Guild and Steel, of the International Journeymen Bakers and Confectioners, and Delegate Jones, of the Central Labor Union, of Burlington, Vermont, be not seated because irregularly selected to act as delegates. The report was finally accepted in toto.

WOMAN DIES IN FILTH

MRS. OLIVER, EIGHTY-SIX YEARS OLD, FOUND DEAD—WAS RICH.

NEW YORK, Nov. 10.—Mrs. Mary Oliver, a widow 86 years old, has been found dead in the basement of a tenament house in Second avenue, Harlem, where she had lived as a recluse for twenty-five years. When the police searched the premises they found United States bonds and other securities to the value of $50,000. Neighbors say the woman's estate is valued at more than $500,000. Her death was from natural causes.

Hardly a dozen feet from the spot where the old woman lay, they found James Alderice, an old man who had for years collected the rents from a number of houses owned by Mrs. Oliver and attended to all her business, who was dying from an apoplectic stroke. Mrs. Oliver had lived and died surrounded by the dust and dirt of years. It is said Mrs. Oliver was a native of England, and had two married daughters in Brooklyn. They seldom saw her, however.

Duke of Roxeburg Weds The Richest Heiress of America

CEREMONY WAS PERFORMED IN ST. THOMAS' CHURCH, FOLLOWED BY A RECEPTION—FIFTH AVENUE THE SCENE OF GREAT EXCITEMENT.

NEW YORK, Nov. 10.—The marriage of Miss May Goelet, the only daughter of Mrs. Ogden Goelet, to Henry John Innes-Ker, the eighth Duke of Roxburghe, was solemnized today at St. Thomas' church in this city, Bishop William Croswell Doane assisted by Rev. Ernest M. Stires performed the ceremony. Afterwards the Duke and Duchess went to the home of Mrs. Ogden Goelet on Fifth avenue, where an informal reception was held.

Fifth avenue in the vicinity of the church was a scene, before and during the ceremony, of excitement and disorder unparallelle at any of the previous great weddings in New York, from the church to the Goelet residence, a distance five blocks, the avenue contained a surging mob numbering fully 10,000 persons, mostly women, whom the force of 200 policemen was powerless to hold back.

The Duke and Duchess left the Goelet residence in a carriage and drove to the Grand Central station where they entered a private car attached to the 5 o'clock express for Newport.

Newport, R. I., Nov. 10.—The Duke and Duchess of Roxburghe arrived here tonight and will spend the first week of their honeymoon at Ochre Court, the home of the bride's mother.

MAY ATTACK PRISON

TOM HORN, CONDEMNED MURDERER, IS GUARDED WITH HEAVY GUNS.

CHEYENNE, Wyo., Nov. 10.--It is learned from a reliable source that Governor Chatterton will decide Tom Horn's fate next Thursday night, he then having only eight days to live. Work on the gallows and stockade will commence a week from today. A force of deputies, with a Gattling and a Hotchkiss gun, are constantly on guard at the jail in anticipation of an attempt of the cattlemen to release Horn, as the threat is common that the condemned murderer will be saved from the hangman's rope.

Another bit of startling information has fallen into the hands of Sheriff Smalley in the form of pieces of paper, on which the figures 11--11--11 are marked, and which were thrown into the court house yard where Horn could see them from his window. The same figures have been marked on buildings across the street from the jail in plain view of Horn's cell. This is taken to mean that Horn's friends will attempt to liberate him on the 11th of the month, 11th day and 11th hour, which would be tomorrow at either 11 a. m. or 11 p. m.

JIMMY BRITT GOT DECISION

Won Out Easily Over Charlie Seiger of New York City

BRITT HAD CLEAR LEAD THROUGHOUT GAME AND OUT-POINTED, OUT-BOXED AND OUT-GENERALED SEIGER AT EVERY STAGE—SEIGER WAS GAME.

SAN FRANCISCO, Nov. 10.—Jimmy Britt, the California light-weight, easily secured the decision tonight over Charlie Seiger, of New York. There was no stage of the contest in which the issue was in doubt.

In all but the fourteenth round Britt had a clear lead. He out-pointed, out-boxed and out-generaled Seiger at every stage of the game. Seiger put up a game fight, and his ability to take punishment was marvelous.

Time and again he seemed on the verge of going out for good, but always came back and forced the fighting.

Britt left the ring without a mark, while Seiger presented a pitiable appearance as he tottered from the ring. His mouth, nose and eyes were badly cut and his body plainly showed the effects of Britt's left hooks.

Ryan Beat Gardner.

Milwaukee, Wis., Nov. 10.—Buddy Ryan, of Chicago, got the decision over Gus Gardner, of Springfield, Massachusetts, at the end of a six-round bout tonight. Battling Nelson won from George Memsic in six rounds.

In the Third Round.

Philadelphia, Nov. 10.—Jimmy Handler, of Newark, New Jersey, was beated by Cyclone Kelley, of San Francisco, tonight in the third round of what was to have been a six-round go.

Was a Clean Fight.

Boston, Nov. 10.—Sandy Ferguson got the decision over Joe Walcott tonight after fifteen rounds of fast and clean fighting.
