(From Thursday's Daily.) The last roll call of the Senate, for

n at midnight last night, in ce with the resolution adopted in the early part of the session, also wunded the death knell of the flat salary bill, upon which many of the mem-bers of both houses placed so much yet placing the date 1907, when it credence and based their fondest hopes, would have no effect." fore it. From the manner in which it was a passed by the House, it was looked upon as a settled fact that it would have no trouble whatever in the Senate, but in this prediction all prognos- cise them. votes. This was enough, however, and its doom is probably scaled forever.

This matter was the bone of contention throughout the last regular sesion of the Legislature, with no results, and it promised to go the same way this session had not a compromise present session, but it did not meet with the favor that it should, and it Chamberlain Governor. was sent to the committee upon ways and means, where it met its fate, and never saw the light of day again. Mr. with an emergency clause, but it did not meet with popular favor, because it was thought that it cut too deep stitution! Vote for this reform, conin the compensation of some of the offidraw a happy medium, and with a few wayside with a hopeless wail, perhaps never to arise again. The bill, as it stood, regulated the

mlaries of the different officials of the state as follows: Governor, \$5000 per annum; Secretary of State, \$5000; Treasurer, \$5000; Justices of the Su-General, \$3000, and State Printer, of \$6016, as follows: \$3000. By the provisions of the measure all of the officers are deprived of all fees, necessories and perquisites, all of which is intended to revert to the state treasury, at I the bill would have E. P. Weir to M. C. Weir, 20 gone into effect ninety days after adournment of the Legislature, there being no emergency clause attached.

This raised the Governor's salary about \$500 per annum; the Secretary of State's, \$3500, but cut off his fees and perquisites to the estimated extent of \$15,000; the State Printer had W. T. Hogg to A. L. Schnockes, no salary, but it cut him out of about \$15,000 in annual fees; left the Attorney General's salary as it was; raised State Treasurer from \$800, with fees amounting to about \$34,000, and raised the Supreme Justices from \$3500 to \$4500 each.

Through the efforts of Senator Farrar the Kay flat salary bill was called ip in the Senate at 9:30 o'clock last night and placed upon final passage. His first attempt was blocked by Kuykendall, who insisted upon the regular routine being followed, but later he succeeded, and then the opponents of the measure attempted to go into committee of the whole, in order to tack on amendments which would make its passage impossible, but this movement was blocked, only to cause the bill to meet defeat on final vote, because so many members were absent. Although the 1 ill received a majority of those voting: the number of ayes were three start of sixteen votes, the number required to pass it.

Smith, Multnomak, spoke in favor of the bill. He was not in favor of referring the bill to a committee of the whole. He knew it would greatly reduce the expense to the state, and the income to certain pets, so that is where the shoe pinches.

Pierce demanded a fair and square vote on the measure, without being referred to a committee of the whole.

Said he: "We all know how we stand; we know how we stood before, and why enter into a discussion of questions which have been discussed in every

paper in the state." By a small majority, the motion to go into a committee of the whole was efeated, and Senator Miller, of Linn, de another attack by asking to introduce an amendment in the shape of an emergency clause w hich was severely criticized by Smith, of Multnomah, as he knew an amendment at this hour sold be its death knell.
