DEMOCRATS ARE TURNING

ONE MEMBER OF THE SENATE FAVORS THE CANAL TREATY.

SENATE PASSED A MEASURE

Granting Citizens of Porto Rico and Philippines Rights of Naturalization.

Vote Was Reconsidered, However, and the Question is Left Undecided—Smoot Investigation Taken Up in the Senate—Members of the House Discuss Various Questions.

WASHINGTON, Jan. 27.—The senate proceeding today included a speech by Simmons of North Carolina in support of the Panama canal treaty and the passage of a number of bills and resolutions. Simmons was the first Democratic senator to favor the measure on the floor of the senate.

Among the bills passed was one granting to the citizens of Porto Rico and the Philippines the right to take advantage of the naturalization laws of this country, but Spooner moved to reconsider the vote, thus leaving the question undecided and the elections to proceed with the investigation of the charges against Smoot was passed.

Politics in the House.

Washington, Jan. 27.—The general debate in the House on the urgent deficiency bill digressed to a discussion of political topics, race question and aerial navigation. Burkett (Nebraska) led off with a discussion of the political situation from a Republican standpoint and Cochrane (Missouri) spoke for the Democrats. Hardwick (Dem. Georgia) made an extended address on the race problem. The discussion of flying machines was precipitated by a report of the appropriation committee who recommended tabling the resolution calling on the Secretary of War asking for information as to the expenditures that have been made with the flying machine tests. The Resolution was tabled.

HER NAME IS LEARNED

Carrie Anderson the Girl Who Saved Many Lives at the Iroquis Fire.

CHICAGO, Jan. 27.—At the Samaritan Hospital, her head and left side swathed in bandages, lies Carrie Anderson, the child whose deed of heroism at the Iroquis fire was recounted in brief during the coroner's inquest, but whose name has never been learned until today.

Through the steadfast bravery of this 14-year-old girl at least fifty lives were saved on the fatal afternoon. She it was who, despite the fact that her entire left side was being lapped by flames, caught the end of the ladder thrown across the alley from the Northwestern University building and guided it to a firm resting place on the fire escape of the second balcony. Across this ladder many men, women and children scrambled to safety.

The girl was in the balcony with her mother, who was employed as a cleaner at the theatre, and while she escaped, her mother perished. The child does not know yet that her mother is dead.

THEY WILL FIGHT AGAIN

Tommy Ryan Was Clearly Bested By Jack O'Brien in Philadelphia.

PHILADELPHIA, Jan. 27.—Jack O'Brien and Tommy Ryan fought the fastest six rounds ever seen in this city tonight and the Philadelphian had a slight advantage. O'Brien clearly out-fought Ryan in the first four rounds and in the fifth dropped him with a hard blow to the jaw.

In the sixth honors were about even, both men having received severe punishment. When the gong sounded ending the fight, both men were in very bad shape. The men agreed to meet here in a six-round bout for a $5,000 purse, split equally, as under the laws governing boxing in Philadelphia, no decision can be given.

HE WAS FORTUNATE.

Iner Mortenson Involved in a Runaway Accident But Escapes Uninjured.

Mr. Iner Mortenson, a well known hop grower residing near Lincoln, Polk county, met with a slight disaster in the form of a runaway. About 10 a. m. Mr. Mortenson was driving into town from his farm. Upon reaching the approach on the east end of the big bridge one of his horses became frightened and jumped ahead so suddenly that Mr. Mortenson lost control of his team. The singletree was broken, letting the tongue fall, which was driven deep into the ground and broken.

The team was stopped when they reached Commercial street. No harm befell Mr. Mortenson and he deems himself fortunate in escaping injury.

MAY GO HARD WITH THEM

Thomas Davis, Accused of Brutally Assaulting Mrs. Ames, Is Bound Over.

SAN FRANCISCO, Jan. 27.—The case of Thomas Davis, accused of assaulting Mrs. Ames, of Marshfield, Oregon, on the high seas, and indicted yesterday by the United States grand jury, has been remitted by Judge De Haven, of the district court, to the United States circuit court. He was at first allowed bail which order is now vacated and he must remain in jail.

Can't be perfect health without pure blood. Burdock Blood Bitters makes pure blood. Tones and invigorates the whole system.

LIST IS STILL INCOMPLETE

MAY HAVE BEEN SOME BOYS IN THE ILL-FATED MINE

WHEN THE EXPLOSION CAME

The Known Dead Now Number One Hundred and Seventy-Five Men.

Seventy-One Bodies Have Been Recovered From the Mine and the Third Day After the Disaster Has Been One of Horror to the Little Village of Hardwick.

PITTSBURG, Jan. 27.—Three days have elapsed since the terrible catastrophe at the Hardwick mine, and at midnight seventy-one bodies have been recovered. The day has been one of horror in the little village. At the shaft mouth, huge fires have been built and groups of men are gathered there trying to keep warm. In the blacksmith shop above the mouth of the shaft are twenty-seven coffins, each containing a body.

The Allegheny Coal Company tonight in an official statement positively admitted that all of the men who were in the mine when the explosion occurred are dead. There are 171 names on the list, which does not include Selwyn M. Taylor, or the two men who were on the tipper above the mine shaft when the explosion came. Nor does the list include the name of Daniel Lysle. He was one of the men who went down in the mine to work last night. His body was found sitting with his back to the wall in one of the rooms. He had evidently been overcome by the after-damp. This list may still be incomplete, as it is possible some boys may have gone into the pit to work under their fathers' direction.

POSSESSION OF THE CHILD.

Little Son of Reed Emerson, Deceased, in a School For Foundlings.

Attorney Webster Holmes was in Oregon City yesterday, where he endeavored to secure possession of a little child on behalf of his client, Mrs. Mary A. McIntire, of this city. The child's parents, Mr. and Mrs. Reed Emerson, who formerly lived in Salem, afterwards moved to British Columbia, where both died suddenly, about one year ago, leaving a little child, which was taken in charge by a Catholic priest and placed in a home of the Catholic Foundling Association. He has since been transferred to the home in Oregon City, and Mrs. McIntire, who is a sister of Mrs. Emerson, is now endeavoring to secure possession of him. Mr. Holmes instituted habeas corpus proceedings to obtain possession of him and free him from the institution. This action is resisted by the authorities of the institution, and the trial of the case was postponed until next Tuesday, as the priest who was appointed guardian of the child, and administrator of the estate of the parents, is in Spokane, and desires to be present and offer his defense.

Granted Extradition—

Governor Chamberlain, upon requisition of the Governor of Washington, yesterday issued a warrant for the extradition of one, William Van Winkle, who is held by the authorities of Portland, and is wanted in Hoquaim, Washington, to answer to the charge of larceny. I. B. Cooper, the Washington state agent, was expected to arrive with the papers last night.

Congressman Hepburn's memory spans full half a century of Iowa history, running back past the time when he earned his first money planting sod corn at 25 cents a day for a farmer across the Iowa river.

MAY HASTEN HOSTILITIES

RUSSIAN NEWSPAPERS EXPIATE UPON EASTERN SITUATION

RUSSIA NOT INTIMIDATED

And If Japan Persists in Her Warlike Attitude Something Might Happen.

Is No Confirmation of Japan's Having Urged Russia to Make Reply to Her Latest Note—Rumor That Germany and Denmark May Join in the Melee.

ST. PETERSBURG, Jan. 27.—While the exchanges regarding the Russian response to the Japanese note are still progressing and the foreign office here announces today there is no change in the situation. The Japanese Legation does not credit the report from Tokio that Japan has requested Russia to hasten her reply.

M. Kurino, the Japanese minister has received no instructions on the subject. On the contrary, he apparently realizes the delay is consequent upon the exchanges between St. Petersburg, Viceroy Alexieff and Baron De Rosen, the Russian minister at Tokio.

M. Kurino reiterates his opinion that some of the Russian newspapers are again becoming bellicose. The Bourse Gazette declares Russia has reached a parting of the ways and must now choose her position and maintain it. The Gazette concludes its article by saying if Japan persists in her warlike attitude, Russia is not going to be intimidated.

Germany May Take Hand.

PARIS, Jan. 27.—The St. Petersburg correspondent of the Paris edition of the Herald has telegraphed an extraordinary story to the effect that Germany and Denmark have reached an understanding that in the event of Great Britain fighting with Japan against Russia, Germany would amicably occupy Copenhagen with a powerful force, thus effectively closing the Baltic and preventing the Russian fleet from leaving or the British from entering that sea.

Calm Before the Storm.

London, Jan. 27.—Dispatches received today on the far Eastern situation do not reveal any change therein. The Japanese government is holding conferences with bankers and others with regard to providing the sinews of war. Cablegrams from Tokio comment significantly upon the calm and confident attitude of the Japanese people.

Will Be the Last.

Berlin, Jan. 27.—The Paris correspondent of the Berliner Tageblatt claims that the forthcoming Russian note to Japan will be Russia's last word in the matter.

HEADS A NEW COLONY.

Holy Roller "Apostle" Has Shack in Forest of Lebanon—Two Follow Him.

CORVALLIS, Or., Jan. 27.—That "Apostle" Brooks is at the head of an independent colony of Holy Rollers, who make their home in the forest near Lebanon, Or., and gather their food from the lap of nature, is the statement made here by W. H. Hulbert, a farmer of the Lebanon district, who visited in Corvallis yesterday.

"Locust and wild honey is, figuratively speaking, their diet," said Mr. Hulbert. "Brooks has two others with him, and the three have put up a shack in the woods and live there, all by themselves."

It is claimed that Brooks declares he will streagthen his little colony until it becomes large enough to justify the effort, and then begin building a tabernacle in the wilderness.

Following the tar-and-feathers operation at Corvallis, Brooks found temporary asylum with friends. Later, however, he left the house where he had been staying and went into the woods where he now is. The names of those who are with him in his strange home are not known.

WANT THE TAXES

Meeting of the Taxpayers of the Seventh Ward to Consider Street Improvement.

(From Thursday's Daily.)

For the purpose of improving the roads in South Salem, a meeting of the tax payers of the Seventh ward has been called for next Friday night, at which time it is hoped a movement will be launched, which will result in a vast amount of work being done on the roads in that part of town during the next year.

The county road tax which has been levied for the coming year is one and a half mills, as provided by the state law and as the levy was made before the limits of the city were extended the money which they will pay will go into the county fund, and it is for the purpose of securing the money to be paid on the levy just made that the meeting is to be held tomorrow night. A committee will be appointed to confer with County Judge Scott, and if necessary, secure legal advice. It is thought if this money can be secured to be spent in the ward, it will be an easy matter to secure large donations for continuing the work, and it may be only a matter of time until the streets of the Seventh ward are the best in the city, especially of the outlying wards, instead of the worst, as they have been in the past.

Another measure which is contemplated by the residents of the Seventh, after the movement is well started, is to petition the Citizens Light & Traction Company to move the track on the cemetery line to the center of the road, where it will not interfere with the drainage of the road or occupy so much room. In its present position it occupies about one-third of the road, and if moved to the center of the street, will practically exclude traffic from no part of it.

TEACHER RESIGNS.

Boy's Preference Considered Before Hers at Eugene — Then She Quit.

EUGENE, Or., Jan 27.—Miss Carrie Hall, one of the teachers in the Geary school, of this city, has resigned her position because of an unruly boy being transferred from the Patterson school to Miss Hall's room in the Geary school. It seems the boy in question is very hard to manage, and upon the suggestion of his parents Superintendent Bechdolt transferred him to the Geary school and put him under Miss Hall's care, in hope that he would like her better than his former teacher and improve in his deportment. Miss Hall declared she would not take the boy, and said she would resign if the superintendent insisted in putting the boy in her room. The change was made and Miss Hall forthwith banded in her resignation. The matter has caused considerable comment in school circles.

Kind words pay big interest on the investment.

A MILK FACTORY

W. O. HEMLOW, ASTORIA, WANTS TO PROMOTE SUCH AN ENTERPRISE IN SALEM.

Idea Not Received With Favor Among Business Men of City, As It Would Interfere With the Business of the Creamery—Commercial Cream Co. Does Not Care to Take Matter Up.

An opportunity has presented itself to the enterprising people of the Capital City to secure the location of a milk condensing plant in this city, provided capital can be interested to a sufficient extent. Mr. W. O. Hemlow, constructor of canning plants, of Astoria, has written the Commercial Club in regard to the subject, and it would seem that if such an institution was desired in this city, now would be a good time in which to push it. A Statesman reporter yesterday investigated the feeling of the Salem business men to some extent on the subject, and found that the general impression which prevails, is that at this time the factory is not wanted in this vicinity. It is thought that milk enough could not be secured to make a paying investment, and that it would be a blow to the creamery interests of the community.

At the present time sufficient milk cannot be secured within a reasonable distance of Salem to supply the demand of the Commercial Cream Co. If such a plant were built, no other firm would be so well prepared to undertake it as the company mentioned above, and inquiry at the creamery developed the fact that they would not consider such a project at this time, as it is now necessary for the company to send wagons over the country for twenty miles in every direction, in order to keep the plant running. The local company has considered the project of building a condensed milk factory, either in this city, or in some of the smaller towns near by, preferably the latter, as they would then be in closer touch with the producers of the milk. It would be necessary for the milk to be delivered at the factory every morning, and the whole milk would be bought, whereas the creamery gathers cream, calling at the farm houses once a week, and takes only the separated product, or about one-twenty-fifth of the milk.

Almost as large a price is obtained for the separated cream, as for the entire milk at the factory, and where the dairymen have separators, they keep the milk at home to feed the calves and pigs. Skim milk used in this way is claimed to be worth 25 cents per hundred pounds. Thus it is plain that the establishment of a milk factory would not stimulate the production of milk, more than is done for the creamery, and it is hardly likely that the project will be viewed with great favor. It has been observed that where such plants are established, and milk is produced in sufficient quantities near the plant, creameries have been driven from the field. The letter, which was read before the club, and referred to a committee for consideration, follows:

"Gentlemen: I would like to ascertain if there has been an effort made in Salem to promote a milk condensing plant. The writer is local manager of one of two firms in the U. S. building and teaching the secret processes of making condensed milk. 'The American Condensary Supply and Equipment Co.,' of Detroit, Michigan.

"The contracts beginning October 1, are the prices paid per 100 pounds of fresh milk in the condensaries in the U. S. October, $1.35; November, $1.45; December, $1.55; January, $1.55; February, $1.50, and March, $1.40, so that you can see there need be no fear of competition with any other enterprise which might be using milk and I will assure you that the enterprise will be for the betterment of the dairy and condensary business.

"Do you think that such an enterprise could be started there? My plan would be to incorporate a company of local capitalists and in the event of such an enterprise, I would take $2,000 in stock. I would like to ascertain how many good clean milk cows would be available. If the chamber of commerce is not interested would you kindly hand my letter to the creamery company, or any one else who is interested in the dairy interests, and you will oblige, W. O. Hemlow."

Organize High School Senate—

The boys of the Salem high school met last evening and organized a society for the purpose of debating and studying parliamentary law. The society is patterned after the Senate of the United States, and is known by the name of the High School Senate, the different members representing different states. The society will meet once a week at the high school. The following officers were elected: Horace Sykes, president; Perry Reigelman, vice president; Charles Siegmund, secretary. Rea Utter will act as reading clerk.

DETERMINED TO SUCCEED

WHITAKER WRIGHT DEFEATED LAW BY SUICIDE.

THE DOCTORS WERE CORRECT

He Had Swallowed Several Tabloids of Deadly Cyanide of Potassium.

Also Carried a Loaded Revolver Upon His Person and Was Prepared For Any Emergency—Calm and Peaceful Expression on His Face Did Not Betray Suffering.

LONDON, Jan. 27.—The post mortem examination has shown that Whitaker Wright committed suicide by taking cyanide of potassium. His features showed no trace of the suffering he must have endured before death. His face was calm and peaceful. His brain was found to have been abnormally large and as the examination proceeded the doctors found evidence of cyanide of potassium, which confirmed their previous impression of the cause of death. Portions of the deadly tabloids, still undissolved were found in the stomach, Wright evidently having swallowed several of them. The report that a loaded revolver had been found on his person has been confirmed.

WAS A WALK-OVER.

Albany Militia Basket Ball Team Defeated by the Salem Y. M. C. A.

The basket ball game between the Albany militia and the Salem Y. M. C. A. teams last night resulted in a victory of the latter by a score of 23 to 8. The Y. M. C. A. boys started off with a goal soon after the referee's whistle was blown and kept the lead throughout the game. The line-up of the teams was as follows:

Albany.		Y. M. C. A.
Barnes	Forward.	Rhodes
W. Bilyeu	Forward.	Allen
Rupert (Capt.)	Center.	Yantis
V. Bilyeu	Guard.	Myrs (Capt.)
Cleek	Guard.	Winstanley

Referee—McDaniels.
Umpire—Matthews.

MISS DAVIDSON LEADS.

She Has Over a Thousand Votes to Her Credit in Subcription Contest.

Miss Mary E. Davidson of Liberty, is now at the head of the list in the Statesman's 1904 subscription contest, but she will have to look to her laurels if she remains there, or very near there as she has only 1075 votes to her credit and there are now several canvassing outfits out in the hands of those who are ambitious to get some of the Christmas presents, or to have their friends at the head, or near the head, of the list when the voting is all over.

There has been no increase in the number of contestants since the last report. There are as yet only seventeen, but there will surely be scores, if not hundreds, before the close of the contest.

There will be another count for the Sunday Statesman, and those interested will be frequently informed through the news columns concerning the state of the contest.

The following is the way the contest stands now:

Miss Mary E. Davidson, Liberty	1075
Miss Edna Wilson, Macleay	765
Miss Jessie Reed, Aumsville ...	750
Miss Beatrice Shelton, Salem...	600
Miss Clara Jones, Brooks	500
Mrs. Cal Patton	375
Cleavie Shields, Gervais	250
Miss Orletta Kraus, Aurora	225
Miss Willow Pugh	225
Miss Minnie Ireton, Liberty	200
Miss Morcom, Woodburn	200
Miss Opal Hatch	175
Miss Grace N. Babcock, Salem..	100
Miss Ruth Gabrielson, Salem...	100
Miss Eva McAllister	100
Miss Thelma Durbin, Tangent ..	100
Robert Whitney, Hubbard	100

A TEXAS WONDER

HALL'S GREAT DISCOVERY.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder trouble in children. If not sold by your druggist, will be sent by mail on receipt of $1. One small bottle is two months' treatment. Dr. Ernest W. Hall, sole manufacturer, P. O. box 629, St. Louis, Mo. Send for testimonials. Sold by all druggists and Dr. S. C. Stone's Drug Stores.

READ THIS.
To Whom It May Concern.

This is to certify that I was down for nine months with kidney and bladder trouble, and tried all known remedies to no avail until a neighbor induced me to get a bottle of Texas Wonder, one-half of which cured me sound and well; this I would cheerfully swear to, and for the benefit of those who are afflicted and wishing to be permanently cured, they ca obtain a bottle at my house, located on West 11th street. Yours trul J. J. SEALE,
Medford, Oregon.

Baby Mine

Every mother feels a great dread of the pain and danger attendant upon the most critical period of her life. Becoming a mother should be a source of joy to all, but the suffering and danger incident to the ordeal makes its anticipation one of misery. Mother's Friend is the only remedy which relieves women of the great pain and danger of maternity; this hour which is dreaded as woman's severest trial is not only made painless, but all the danger is avoided by its use. Those who use this remedy are no longer despondent or gloomy; nervousness, nausea and other distressing conditions are overcome, the system is made ready for the coming event, and the serious accidents so common to the critical hour are obviated by the use of Mother's Friend. "It is worth its weight in gold," says many who have used it. $1.00 per bottle at drug stores. Book containing valuable information of interest to all women, will be sent to any address free upon application to
BRADFIELD REGULATOR CO., Atlanta, Ga.

Mother's Friend

Rheumatism
Is Not a Skin Disease.

Most people have an idea that rheumatism is contracted like a cold, that the damp, chilly air penetrates the muscles and joints and causes the terrible aches and pains, or that it is something like a skin disease to be rubbed away with liniment or drawn out with plasters; but Rheumatism originates in the blood and is caused by Urea, or Uric Acid, an irritating, corroding poison that settles in muscles, joints and nerves, producing inflammation and soreness and the sharp, cutting pains peculiar to this distressing disease.

Exposure to bad weather or sudden chilling of the body will hasten an attack of Rheumatism after the blood and system are in the right condition for it to develop, but have nothing to do with the real true causes of Rheumatism, which are internal and not external.

Liniments, plasters and rubbing will sometimes reduce the inflammation and swelling and ease the pain for a time, but fail to relieve permanently because they do not reach the seat of the trouble.

Bowling Green, Ky.
About a year ago I was attacked by acute rheumatism in my shoulders, arms and legs below the knee. I could not raise my arm to comb my hair. Doctors prescribed for me for over two months without giving me any relief. I saw S. S. S. advertised and decided to try it. Immediately I commenced its use I felt better, and remarked to mother that I was glad I had at last found some relief. I continued its use and am entirely well. I will always feel deeply interested in the success of S. S. S. since it did me so much good.
311 12th St. MRS. ALICE HORTON.

S. S. S. cures Rheumatism because it attacks it in the blood, and the Uric Acid poison is neutralized, the sluggish circulation stimulated and quickened, and soon the system is purified and cleansed, the aching muscles and joints are relieved of all irritating matter and a lasting cure of this most painful disease effected.

SSS

S. S. S. is a harmless vegetable remedy, unequalled as a blood purifier and an invigorating, pleasant tonic. Book on Rheumatism will be mailed free.
