

TURNED DOWN "NEW PLAN"

OREGON GRAND LODGE OF WORKMEN RETAIN "OLD SHOE."

NO CHANGE IN ASSESSMENT

"Sinking Fund" And Graduated Scale of Rates Not Popular With Delegates.

Columbia River Fishermen's Union Begin a Suit to Test the Fishing Laws in Force in Oregon and Washington—Fishermen Arrested.

PORTLAND, Or., July 22.—The Grand Lodge of Oregon, A. O. U. W., today refused to change the assessment rate as advocated by the Supreme Lodge, and adopted by many states of the Union. The "new plan" provided for a sinking fund, and a slight increase in the rate at which the members above 55 years are assessed.

Will Test the Law. Astoria, July 22.—A suit was commenced today by representatives of the Columbia River Fishermen's Protective Union against three California fishermen who have been fishing at Astoria. The case is to test the constitutionality of the fishing laws in force in Oregon and Washington, providing fishing licenses may be issued only to the citizens of the two states.

WANT INFORMATION.

Grand Army Post Wants Military Record of the Soldiers Buried Here.

The following named old soldiers are buried in the G. A. R. burial plot in City View cemetery, and the local Grand Army Post has been and is very desirous of securing the service record of each man, in order to place a headstone on each of their graves. The record should give the company, regiment and state from which they enlisted. The stones cannot be secured without this data. The Statesman will be glad to help them secure this information and thus oblige Sedgwick Post No. 10, Department of Oregon G. A. R. The names of the soldiers buried there are J. S. Gilmore, Alfred Madhant, Henry Bowerman, A. R. Brown, Geo. Witt, Joseph Leig, A. W. Campbell, Samuel E. Midlin and Asa B. Swain. Any information regarding the history of any of these men may be sent to the Post Adjutant or any other member of the Post.

DOUBT THE REPORT.

Russians Can't Find Kiao Tung on Any of Their Available Maps.

ST. PETERSBURG, July 22.—There is no official Russian confirmation of the report sent by General Kuraki that the Japanese have captured Kiao Tung. No such place as this is laid down on the available Russian maps. If the Japanese column which Gen. Herschelmann was opposing on July 18 and 19, has continued to advance, a general engagement might already be progressing. The general staff gives no credit to this view and is inclined to think the incident is a Russian retirement from Sikhoyan to Gontzianzi, reported in Gen. Kurapatkin's dispatch July 19.

CARRIE NATION FLOORED.

Saloon Keeper Knocks Saloon Smasher Down With a Chair.

ELIZABETHTOWN, July 22.—Carrie Nation's career was temporarily but violently interrupted tonight when A. E. Neighbor, a saloon keeper, struck her twice with a chair, knocking her down and producing a scalp wound. The assault occurred in Neighbor's saloon after Mrs. Nation had berated Neighbor.

MAY HAVE BEEN SAMBIA.

Said No Such Steamer as Scandia Registered as Hamburg American.

SUEZ, July 22.—The Hamburg American line steamer seized by the Russians in the Red Sea, has just arrived here. None of the maritime registers available publish the name of the Scandia as a Hamburg American line steamer. It is believed the vessel referred to may be the Sambia.

MURDER IN IDAHO.

LEWISTON, July 22.—A special to the Tribune from Grangeville says.

Rudolph Wetter, a Salmon River miner, shot, and instantly killed, L. D. Long and Chris Wain, and wounded the former's fourteen-year-old boy on Tuesday afternoon at their camp near Seesh Meadow in the Warren mining country. Wetter had some trouble regarding mining ground and approached the cabin where the victims were temporarily stopping, he opened fire with a rifle, killing the men. Long's boy escaped in the brush after receiving a bullet in the leg. Wetter was brought to Grangeville today. He declines to make a statement. He has resided in mining country several years. Wain was formerly a resident of Seesh, Idaho, and leaves a wife and two sons. Long was a married man, and located in the Seesh country last year from Walla Walla.

MAY BE MOVING ON MUKDEN.

LIAO YANG, July 22.—News was received from Ta Tche Kiao yesterday that the Japanese had broken through the Russian left flank between Lieutenant General Keller's position and that of General Rennenkampf and that they were marching on Mukden. This is the effect of persistent rumors but there is no official confirmation.

HAYTER-FULLER.

Announcements have been received here of the marriage of Oscar Hayter and Miss Ethel Fuller at Dallas on Wednesday of this week. Miss Fuller is well known in Salem.

VOTE FOR SYMPATHETIC STRIKE.

CHICAGO, July 22.—The various unions that would be affected by a sympathetic strike have already voted to walk out at the discretion of their leaders.

MADE NEW DEMANDS.

Reason Given Out Why Packers Refused to Accept a Settlement.

CHICAGO, July 22.—Late tonight it is learned that the obstacle which prevented the settlement of the strike today was the fact that the strikers made new demands. When the first strike was settled on arbitration basis, it included the provision that strikers all be reinstated within forty-five days. After the renewal of the strike today when a joint conference was held, Donnelly demanded that all strikers be reinstated within ten days.

WANTS CAMP SITE.

Uncle Sam Looking for 40,000 Acres for Military Reservoirs.

TACOMA, Wash., July 22.—General MacArthur is given as authority for the statement that the Government will make an offer for land near Tacoma, surrounding American Lake, for a permanent military encampment site. The offer, it is said, will embrace 40,000 acres, already surveyed by the Government Signal Corps at Vancouver Barracks.

GREAT MACHINE.

INVENTION TO UTILIZE FLAX FIBRE MEANS MUCH TO THE NORTHWEST.

Eugene Bosse, Flax Expert, Tells of Demonstration of Fibre-Brake Which He Witnessed While in Chicago—Expert's Opinion Also.

During his trip to the World's Fair, at St. Louis, and also to Minnesota, Mr. Eugene Bosse, the flax expert, took particular pains to study up the various improved methods of flax culture, processing and linen and cordage manufacture from its product. While in Chicago, where he had gone with that particular purpose in view, Mr. Bosse witnessed the demonstration of a new fibre-brake, recently invented by the American Brake and Fibre Company, where he also met with several other flax experts in the country. Mr. Bosse pronounces the machine an entirely new idea. In speaking of the machine and its merits and importance to the flax industry of the Northwest, Mr. Bosse says:

"The purpose of this machine is to extract the fibre from the flax, hemp, ramie, jute and other fibre bearing plants. The methods heretofore used have been of ancient historical times, by which the shive or stem was removed in a general way by hand machines or by various kinds of heavy rollers. This merely loosened the shive from the fibre. Then came the laborious task of scutching, which was shaking or beating by the scutch wheel. This process required expert labor.

"The new machine breaks and scutches at the same time, and has a very large capacity, and furthermore, it does the work so perfectly that no hand scutching can compare with it. "It was pronounced by the flax experts a perfect marvel. I predict that this machine will do for the fibre industry what the cotton gin did for cotton, revolutionizing the fibre industries in the next few years."

Mrs. O. N. Oberg, of Minneapolis, Minnesota, a fibre expert of wide repute, also witnessed the demonstrations of the new machine. Mrs. Oberg was a member of the jury on fibres at the World's Fair, Chicago, and spent the entire summer at the Omaha Exposition, in charge of the flax exhibit. She was one of the organizers of the National Flax, Hemp and Ramie Association, of which she became the secretary, and she still holds the office. While at the World's Fair, Mrs. Oberg's knowledge of fibres and fitness for the work was recognized by the foreign jurors.

Mrs. Oberg is widely known as a fibre expert. She was a member of the jury on fibres at the world's fair, Chicago, and spent the entire summer at the Omaha exposition, in charge of the flax exhibit. She was one of the organizers of the National Flax, Hemp and Ramie Association, of which she became the secretary, and she still holds the office. While at the world's fair, Mrs. Oberg's knowledge of fibres and fitness for the work was recognized by the foreign jurors.

In an interview with a Minneapolis paper, Mrs. Oberg spoke of the Loppens tank system of retting, which is now in use in this country. The fibre retted by this process brings such fine color to the fibre that in comparing it with European fibres it has been thought by spinners to have been chemically retted.

"I feel satisfied now," remarked Mrs. Oberg, "that with this new braking machine and the tank system of retting, the time is not far distant when we shall not only manufacture our own lines but become exporters as well. Already the large amount of waste in the Northwest in being utilized. By recently discovered processes the straw is converted into paper pulp and made into the finest linen paper. By another process the flax straw is used for making the flax fibre floor deodorizer—which meets the requirements of a first class deodorizing material and has the advantage of being very cheap. It also affords complete insulation against heat and cold. As an insulator it can be used for refrigerators, cold storage, etc. In fact, I cannot begin to enumerate the various purposes to which the flax fibre or hemp can be put—such as ropes, twines, threads, carpets and all kinds of linen. But the new machine will so simplify and cheapen the production of fibre that much of it will be used for making the higher grades of goods, which will bring more money to both the farmer and manufacturer."

CRUISER DAKOTA LAUNCHED.

SAFETY DAKOTA, July 22.—The cruiser South Dakota was successfully launched here this afternoon at the Union iron works.

IT IS CERTAIN TO BE TAGGART

GORMAN'S REFUSAL TO MANAGE DEMOCRATIC CAMPAIGN

CAN'T FIND A LEADER

Neither Sheehan Nor August Belmont Willing to Father a Losing Political Campaign.

Combined Disciples of the Sphinx and the Volunbit Are Having Hard Time Finding Man to Direct the Political Battle Now Supposed to Be On.

NEW YORK, July 22.—The statement that came from Washington today that Senator Gorman had reiterated his declaration that he could not be the chairman of the Democratic National committee, has simplified the situation, according to the views of those earnestly urging Thomas Taggart, of Indiana, and they express the belief that he will be unanimously chosen chairman by the National committee on Tuesday. The suggestion previously made that William F. Sheehan would be urged to take the chairmanship if Gorman positively declared himself out does not disconcert the Taggart men. They have been told by Sheehan that his health would not allow him to take the position, and he could not be "dragged" into accepting the place with its responsibilities.

Esopus, July 22.—Information reached Esopus today that Senator Gorman cannot be induced to undertake the care of managing the campaign. William F. Sheehan was asked whether he would permit his name to go before the meeting of the National committee, to be held at the Hoffman House in New York on Tuesday. He replied laughingly: "Oh, nobody wants me for chairman." Then seriously he discussed briefly his own position, making it plain that he has not allowed his name to be considered by the party leaders, and he stands firm in his refusal to serve as the manager of the campaign. From his attitude he no longer can be regarded as a possibility. August Belmont also has asserted that he will not accept the active part in the campaign management and Taggart is apparently the only one left in the race.

SENATOR MITCHELL HOME.

Will Take a Rest and Then Campaign the State for President Roosevelt.

Hon. John H. Mitchell, senior Senator from Oregon in the National Congress, has arrived in Portland, much wearied from his legislative duties and pleased of the opportunity to secure a rest. He will remain during the summer. According to an interview had with the Senator, he has not the slightest doubt of the re-election of President Roosevelt, this fall, and thinks that the only state in the Union which Parker stands a show of carrying, if any at all, will be New York, and there are grave doubts of his ability to carry that.

When asked as to the outcome of the election Senator Mitchell said: "Everybody in the East feels confident of President Roosevelt's election. I believe that he will be elected by a great popular and electoral majority, and that the late President McKinley." He intends stumping the state in the interest of President Roosevelt's candidacy. In regard to irrigation in Oregon, he said:

"Yes, the Government is going to do a great deal for irrigation in Oregon. The greatest difficulty thus far encountered has been that of conflict with private irrigation schemes. Delay has been occasioned through the occupancy of rights of way by private companies, and the adjustment of these differences has served to retard progress of the Government's work. The Department of the Interior has set aside \$300,000 for carrying on irrigation work in Oregon, and I believe the enterprise will be pushed. This will in the end be of very material assistance to the state by way of developing its latent resources through the reclamation of now arid tracts, and will lend a special impetus to encouraging Westward immigration."

Senator Mitchell is not in favor of the removal of the land office from Oregon City and says that he has been using his influence toward having it remain there.

RARE MUSICAL TREAT.

Professor Thacker's Band of Soloists Renders Excellent Musical Concerts.

One of the many features that will be appreciated by those who visit the Great Flax Shows, which will exhibit in Salem on Wednesday, next, is the grand concert rendered every afternoon by Prof. Thacker's Military and Concert Band, composed of twenty-five of the best concert musicians that could be obtained. They are all soloists and many of them are composers of note.

This band is stationed in the first large tent as you enter the exhibition, and at 1 o'clock in the afternoon and 7 o'clock in the evening, immediately upon the opening of the doors, they render a concert of one hour's duration.

It is not such a concert as is usually called a concert by similar traveling organizations, but the program contains numbers that are rendered only by the leading concert bands of the country. While classic music is presented the leading popular airs of the day are not forgotten.

SQUADRON GOING SOUTH.

Ships of Vladivostok Fleet Are Going South Of Japan's Coast.

TOKIO, July 22.—The Vladivostok ships of the squadron were seen at noon yesterday (Friday), eighty miles off Hitachi Province. The squadron was going in a southerly direction.

STORIES VARY IN DETAIL.

Chinese Refugees Tell of Japanese Torpedo Attack on Russian Fleet.

CHEFOO, July 22.—Thirty Chinese refugees, who have just arrived from Port Arthur, report that the Japanese made another torpedo attack on the Port Arthur fleet on Thursday night. The stories of the refugees vary in the detail. Some state that the Japanese were repulsed with the loss of three torpedo boats, while others declare the movement was merely an attempt which failed owing to the vigilance of the Russian searchlights and that the Japanese escaped unhurt.

CLINCHED THE VICTORY.

Illinois Democrats Put Through Hopkins Slate For Officers.

CHICAGO, July 22.—The new Democratic state committee held its first meeting tonight and organized for the campaign. The adherents of ex-Mayor John P. Hopkins put through a slate of officers of their own selection, thereby clinching the victory they won at the state convention.

ON INSPECTION.

RURAL FREE DELIVERY ROUTES RECEIVING REGULAR VISIT FROM INSPECTOR.

Question of Establishment of New Routes Open, on Account of Neighborhood Strife—Some of Present Routes May Be Changed.

Rural Inspector Clement of Spokane, Washington, is in the city for the purpose of looking over the various mail routes that form a net work about Salem.

Mr. Clement has not yet made his inspection, but was able to say that important changes were to be made upon several of the routes. A few of them will perhaps be left as they are, as many of the farmers have petitioned for the service. This plan however, is not opposed by the carriers as upon former occasions, nor under the present mileage system it is "more miles, more money."

It is probable that Route No. 4 will be shortened, as it covers the most dangerous road in the county, being a continuous climb or precipitous descent throughout its length. Several accidents have taken place along the road in the delivery of mail during the winter months, and although the route is an important one, passing, as it does, through the thickly settled districts of Rosedale and Liberty, until further work is done upon the roads the daily risk to carriers is regarded as very great.

Mr. Clement, who inspected the proposed routes before their establishment a few years ago, and who inspects them now at intervals, is in a position to say that the rural free delivery service has done more to promote good county roads than anything else could have done, as private individuals have frequently made needed repairs at their own expense, when the district seemed neglected, and when, in order to have the mail service continue, the road had to be brought up to a certain standard.

An outline of new routes has not yet been made, nor is it definitely assured that they will be established, as there are a few persons living along the proposed routes who are engaging in unprofitable contentions among themselves regarding the improving of roads and the right of way, and thus placing the benefits of the daily mail in the distant future.

The prospective changes along the routes, while they do not in every case increase the distance to be travelled by the carrier, are made with a view to accommodating a larger number of persons. It may be said that a route is never really established in the sense of being fixed or permanent, as some sections of the country settle up more rapidly than others, and are thus entitled to the mail service. It seems to be Uncle Sam's rule to do the greatest good to the greatest number, where this can be recognized.

Mr. Clement will be here for several days.

WILL RUSH WORK THROUGH.

Expected That Breyman Memorial Fountain Will Be Erected in Near Future.

(From Saturday's Daily.) Under the directions of the committee of the city council on parks County Surveyor B. B. Herick started in yesterday afternoon to make a survey of the Breyman fountain site, at the west end of Wilson Avenue. Stakes are being set in order that the work of filling in, etc., may proceed and of the putting in of the curbing and cement sidewalk may be begun.

The surveying work will be completed this morning and it is undoubtedly the intention of the committee on parks, in accordance with the authority vested in them by the council, to start the curbing and sidewalk work to moving right away, in order that nothing may be left in the way of the placing of the fountain at the earliest date possible, as they realize that much valuable time has already been lost in the matter. Everybody seems desirous of seeing the fountain in place before the State Fair.

ELECTRIC LINE OUT OF SALEM.

The Telegram says "The people of Salem are largely interested in the proposed electric railway to be run from that city south to the towns of Liberty and Rosedale. The vicinity to be benefited by the road is being thoroughly canvassed, and the committees in charge of the work are meeting with much encouragement. It is believed that a strong effort will be made by all concerned to consummate this project, and that the few objections who may be encountered will be overruled. Mayor F. W. Waters is chairman, and J. M. Kyle is secretary of the committee.

Mrs. Glen Applegate, who has been visiting relatives in this city, left yesterday for her home in Portland, accompanied by Mrs. A. Applegate, who will visit with her in that city.

OFF AGAIN ON AGAIN

DISSATISFIED WITH FAILURE OF EMPLOYERS TO REINSTATE

BUTCHERS WALK OUT AGAIN

Men Lined Up Like Cattle, Said Donnelly, and They Don't Like That.

Allied Trades Will Join in Sympathetic Strike to Aid Butchers Win—Another Conference This Morning—Strike May Be General.

CHICAGO, July 22.—The stock yards strike was renewed this morning in Chicago and all other points where the big packing companies have branches, because the strikers were dissatisfied with the manner in which the employers proposed to reinstate their former employees. The joint conference between both sides of the controversy and representatives of the allied trades in an attempt to bring about a peaceable adjustment was unsuccessful, and the meeting adjourned tonight at 8:30 o'clock with the understanding that another conference will be held tomorrow morning. Whether the difficulty can be satisfactorily settled tomorrow is problematical as both packers and strikers maintain that they are living up to Wednesday's agreement. No written statement of what occurred in the meeting was given out. Unless a settlement is reached tomorrow the general belief is that a sympathetic strike of the allied trades in the packing industry, which was threatened last week, will be called. All these unions have signified a willingness to stand by the butchers in their struggle for supremacy. In the following statement, given out tonight by President Donnelly, of the Butchers' Union, the reason why the strikers refused to return to work today is given: "The packers signed an agreement that there would be no discrimination in rehiring the men. On the return of the men this morning they were lined up like cattle. The foremen, walking through the line would pick out a man and say, 'you come up.' The next man would be pushed out of the line and told that he could not be used, and it was always a good, active union man whom they could not use."

"Superintendent Pension of the Armour canning department addressed his employees in the following language this morning: 'You went away like cattle, and we will take you back like cattle.'"

IMPROVING THE SERVICE.

The New Company Means to Give Salem a Good Electric Transportation and Light Service.

The Salem Light and Traction Company is getting along very well with the work of changing the road bed equipment of their road between the corner of State and Commercial streets and the State Fair Grounds, the workmen now being on the south of the last curve at Highland addition. It is expected that they will have the track all changed to the corner by Bush's bank within ten days at the latest.

In talking with one of the employees of the company yesterday the writer was assured that it was the intention of the company to continue improving the present plant until the company would be able to offer Salem a service that would be appreciated by all those who had occasion to use its lines.

"We know," said he, "what it means to have a line that does not give the people a satisfactory service, for we have all been through that and we intend as soon as possible to make our lines of value to the people of Salem. As it is now, we appreciate that a business man who misses his car can make the service of such value to them that they cannot take the time to walk home, as they will save time waiting for one."

"Another thing we intend to do," said this gentleman, "as soon as we can get our machinery in the proper shape is to make such rates and do such work that the people will have to use electric lights in their homes, instead of the old coal oil lamps or gas. Gas is better than coal oil; electricity is as much better than gas as an illuminator as gas is better than coal oil. Put in order that the people may appreciate it it is necessary to give them a perfect service, and this is what we are going to do."

"We are putting in new shafting and more machinery at the power house and as soon as that is all in we will be able to show something different from the usual thing in Salem."

CASTORIA.
The Kind You Have Always Bought Bears the Signature of *Chas. H. Fletcher*

RAINBOW PARADE.

The "Rainbow Parade" is the form one critic has used in describing the daily street parade given by the Great Flax Shows.

No more worthy synonym could have been used, for this pageant, more than a mile in length, comprises one of the most beautiful and highly colored pictures imaginable.

Never before has such a costly caravan passed through the streets of your city, and no one should miss seeing this free display of the world's most beautiful tented exhibition. They will be here July 27.

ONE WAY OF PROPOSING.

John (sheepishly)—I s'pose you'll be gettin' married some time?
Betty (with a frightened air)—Oh, I dare say I shall some time.
"I dare say I'll get married, too."
"Oh."
"By'r's same time."
"Wouldn't it be a mistake, John, if the person should make a mistake and marry us to each other?"
"I—Isouldn't mind."
"No—neither should I, to tell you the truth, John."—Tit-Bits.

CASTORIA

for Infants and Children.

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance.
