

THE WEATHER.

PORTLAND, Jan. 26.—Following is the weather forecast for the twenty-four hours ending midnight, Friday, January 27: Oregon and Washington, occasional rain.

THE CITY

(From Wednesday's Daily.)

Bond Approved—Judge Scott yesterday approved the bond of Thomas Holman as administrator of the estate of John J. Dugan, deceased. The undertaking is in the sum of \$200.

Should Have Read Monroe—In last Sunday morning's issue of the Statesman appeared a dispatch from Philomath of the headlines of which made it appear that that city is now being lighted with electricity by a plant installed by Wilhelm & Sons, proprietors of the Monroe flower mill. The town of Monroe and not Philomath has put in electric lights.

Appraisers File Report—T. D. Allen, C. P. Hicks and George Given yesterday filed their report in the Marion county court as appraisers of the estate of John E. Elsworth and Eugene C. Riches, minor children. The appraisers' report shows an undivided one-seventh interest in 488 acres of land, being a part of the donation land claim of G. P. S. Riches, deceased, and was appraised at \$1898.25.

Stopped Over Visit—J. L. Mitchell and his brother-in-law, Joan Schlenk, of Portland, were in Salem yesterday en route home from Sublimity, where on Monday morning they attended the funeral of Mr. Mitchell's father-in-law, the late E. Schott. Mr. Mitchell is the supreme secretary of the Order of Washington, and Mr. Schlenk is a prominent German of Portland and a part owner in the Queen's saloon in that city. They will proceed on their journey home by this afternoon's Overland train.

A Trio of Drunks—Milton Sweeney, E. L. Donovan and John Doe answered roll call in the police court yesterday morning. The three individuals had been taken in on the previous evening by Officers Murphy and Shedeck and booked upon charges of drunkenness. A fine of \$5 was imposed upon each by Recorder Moore, but Joe Doe was the only one of the trio who was able to liquidate. Sweeney and Donovan were assigned to positions in the street department, to serve the city for a period of two and one-half days.

The Ollschlager Estate—Theodore M. Barr, administrator of the estate of Henry Ollschlager, deceased, has filed a motion by his attorney, Hon. P. H. D'Arcy, to strike from the files of the county court the objections filed by J. M. Widmer and others to the final account in said estate. This motion is based on the grounds that the right of the parties objecting to any portion of the Ollschlager estate was tried out and determined in the county court and in the circuit court for Marion county. It was there held that Mary Ollschlager was the widow of Henry Ollschlager and the sole and only heir of his estate.

No appeal was taken from the decision of the circuit court, hence it is claimed by the administrator that neither of the parties objecting have the right to do so.

Administrator Discharged—James A. Gibson was yesterday discharged as administrator of the estate of William Stewart, deceased, the estate having been fully administered upon.

Fruit of Inheritance Tax—The state treasury yesterday was in receipt of \$476.96 as the amount due the state as inheritance tax upon the property of the estate of E. C. Keyt, Sr., late of Perrydale, Polk county. The total value of the estate was \$94,990.55 before the exemptions were deducted as provided by law.

Typhoid Causes Insanity—Mary Myrtle Hagley, a native of this state, aged 24 years, was yesterday brought to the insane asylum from Yamhill county. She is a resident of Dundee, and this is her second commitment, the first one being in 1902.

TAINED BLOOD
Columbus, Ohio, May 19, 1903.
Some four years ago I was suffering from impure blood and a general run-down condition of the system. I had no appetite, was losing flesh, and had an all-gone tired feeling that made me miserable. I began the use of S. S. S., and after taking only a few bottles, I can testify to it as a blood purifier and tonic. My blood had been restored to its normal, healthy condition. My appetite was restored, as I could eat anything put before me, and as I regained my appetite I increased in weight, and that "tired feeling" which worried me so much disappeared, and I was once again my old self. I heartily recommend S. S. S. as the best blood purifier and tonic made, and strongly advise its use to all those in need of such medicine. VICTOR STUBBS, Cor. Barham and Washington Aves.

Wheeling, W. V., May 28, 1903.
My system was run down and my joints ached and pained me considerably. I had used S. S. S. before and knew what it was, so I purchased a bottle of it and have taken several bottles and the aches and pains are gone, my blood has been cleansed and my system has built up. I can testify to it as a blood purifier and tonic. JOHN C. STERN.

According to the commitment papers, Miss Hagley suffered of typhoid fever about eight years ago and she never had the right use of her mind since. She has developed homicidal tendencies.

To Foreclose Mortgage—J. P. Rogers has commenced an action in Judge Galloway's department of the circuit court against Henry B. Oswald and wife for the purpose of foreclosing a mortgage. The mortgage was executed to secure the payment of a promissory note for \$1500, and covers 293 acres of land in township 9 south, range 1 west, Carson & Adams are attorneys for the plaintiff.

Chickens Killed by Mink—Yesterday morning when F. A. Baker, who lives at the corner of Eighteenth and Chenoweth streets, went to the barn to feed his chickens, he discovered a shortage in his flock. Of course Mr. Baker thought a chicken thief had visited his premises, but an investigation revealed the fact that an even dozen of his choice Plymouth Rock fowls had been killed and dragged under the hen house. They had all been bitten through the head, showing the work of a mink.

Wind Causes Damage—R. H. Wakers and family came to this city a few weeks ago from Perham, Minnesota. Mr. Wakers purchased some lots in Englewood addition, back of the asylum store, and proceeded to build a house; his house was well under way, having the roof and the siding on all but the gable ends. Tuesday night the wind played havoc with the house, completely demolishing it. This is quite a loss, as most of the window casings had been put in. The building is so badly wrecked that most of the material will be wasted. Workmen commenced yesterday morning to tear the wreckage apart, and will build another house. Mr. Wakers says he will see to it this time that the roof is not put on until the sidings are all complete.

Miller Estate in Probate—John H. Martingale was yesterday appointed administrator of the estate of the late George B. Miller, of Fairfield. The appointment was made by Judge Scott by request of Mrs. I. B. Miller, the widow of deceased and G. A. Miller, a son. The estate consists of real and personal property valued at about \$15,000, and the administrator's bond was fixed at double that amount. The heirs to the estate are Mrs. I. B. Miller, widow; G. A. Miller, of Everett, Washington; H. J. Miller, of Republic, Washington; E. A. Miller, of Clintonville, Wisconsin; and Brentford Miller of Gervais, sons; and Mrs. M. J. Fowler, of Azle, Texas; Myrtle L. Myrene J. L. Imogene, Corrinne, Cita M., Iwan Z. and Nellie Miller, daughters, residing at Gervais. Hon. P. H. D'Arcy has been engaged as attorney for the estate.

Health Board Meets Monday—The Salem health board commissioners will hold a meeting at the police court room in the city hall on Monday evening at which time some important matters pertaining to the sanitary conditions of the city will be taken up for consideration. There is plenty of work for the health board and now since the city has a health officer good results may be expected.

A New Oven—McLwain & Rutherford, the proprietors of the Capital Bakery, on Court street, between Liberty and High, have recently finished the construction of a new oven. It is the largest oven in Salem, or in this part of the state, and is up to date in every particular. Messrs. McLwain and Rutherford naturally feel proud of their new oven, and they are in position to accommodate their increasing trade, and to help in the feeding of the thousands of strangers who are coming to Salem this year, on account of the 1905 Fair.

To Sell Real Property—By order of County Judge Scott, John E. Loughmiller, the administrator of the estate of Vesta E. Loughmiller, deceased, was yesterday authorized to sell at private sale certain real estate belonging to the estate and located in Silverton. W. J. Culver, as guardian of the persons and estate of Adolph and Charles Mathes, minor children, also petitioned the court for an order authorizing him to sell the real property belonging to the wards, the court ordered that the next of kin of the children be cited to appear before the court on February 28, at 2 o'clock p. m., to show cause why the guardian's petition should not be granted.

He Broke His Promise—E. M. Sweeney who on Monday was sentenced by City Recorder Moore to serve two and one half days in the city jail for drunkenness, but who was given his liberty on Wednesday morning upon a faithful promise that he would go to work without delay, was again run in by the police on Wednesday evening, being found in an intoxicated condition. Upon the second offense Sweeney was given five days in the city jail and was assigned to a place on the "street gang." At first he refused to work, but later "changed his mind" and expressed a willingness to go out and shovel dirt. Having broken his promise to Recorder Moore on Wednesday he will also be required to serve the balance of the first sentence.

Have Shipped Potatoes—H. S. Gile & Co. have recently shipped a dozen or so of car loads of potatoes, bought some time ago at \$7 1/2 to 40 cents a bushel, and they have a few cars on hand now. But they could not at this date pay as high prices as they were able to offer a few weeks ago. The car loads that were shipped went mostly to San Francisco, and to supply a trade for the best goods in the potato line. An article printed in the Oregonian of last year in showed that the crop of potatoes in the United States was 332,830,800 bushels, or 40,000,000 bushels larger than the previous greatest crop, in 1896. Potatoes are the fourth largest crop grown in the United States. The shortage in the Willamette valley was not experienced in any other section of the country. So there does not seem a likelihood of potatoes being higher. They may be lower in price.

HE IS MASTER

HOP GROWER IS IN A POSITION TO DICTATE THE PRICE OF HIS PRODUCT.

English Growers Have Formed a Pool Consisting of About Forty Thousand Bales—Situation Looks Good to the Grower—Local Dealer Gives Opinion.

Tacoma, Wa., Jan. 24.

"Jas. Winstanley, Salem, Ore., Sec'y Oregon Hop Growers' Assn." "Cable today English growers pooling entire holdings. Forty thousand bales taken out of market indefinitely."

ISAAC PINTUS & SON.
The above is a dispatch which has been received by Secretary James Winstanley of the Oregon Hop Growers' Association, which is self-explanatory. This message conveys in a meager way, the exact situation which exists in London and England today, which should have a rejuvenating effect upon the growers of this country. There is unmistakably a shortage in the world's supply, and it remains for the growers to make up as much of the deficiency as is possible with the supply on hand and it, therefore, remains with the grower also to fix the price upon his product, since there seems to be no acceptable market offerings.

There seems to be very little or no movement in the local market of late, and, according to prominent dealers, there will be none until the price raises to meet the demands of the grower who seems to have the situation well in hand and is determined to make the best of it. Although quite strong the market is exceedingly quiet and the dealers, as well as the growers, seem to be playing a waiting game. When shown the telegram which heads this article and asked as to an opinion upon the matter, one of the members of the firm of Kretz Bros. in this city said last evening:

"We believe this will have a good effect on our market because it will create a demand from London for Pa-

to fill January sales, while they have mostly been bought from speculators. This one feature causes a strong situation, as no one gets weak-kneed as quick as the speculator.

"As I understand the situation now, there are but one or two speculators left that are carrying any stock to speak of and after this month the dealer will have to go to the grower for the future wants.

"The whole situation today (now that the speculative feature is removed) lies entirely in the hands of the growers and if they hold out until April or May they have everything to gain and nothing to lose.

"As it is now a one-sided play, with everything in the growers' favor, there is no possibility of hops coming off in price more than from 1 to 3 cents at the most. There is every possibility of their going 10 to 20 cents per pound higher.

"The London market advanced its quotation 5 shillings today, which in itself is a strong feature.

"There are but 2500 bales left in New York state in growers' hands, and very few in speculators' hands. There have been 2500 bales bought from growers here in the past three weeks, so the growers of the coast have nothing to contend with now but their own actions for future development of market price.

FOR SEWER CONNECTION.
That Salem is short of adequate sewer privileges has been a well settled fact for a long time, and there is now to be made an effort to secure from the state the permission to connect with the state sewer running down Center street. This would relieve the condition materially and would make possible the extension of the drainage facilities of the capital. As it is now it is almost impossible to get rid of the water that gathers on the surface, let alone the waste flow from the houses in the district along Center street and tributary thereto.

PRODUCE BUYERS AT HUBBARD, AUROBA AND CANBY AND WHAT THEY BUY.

Messrs. Hurst and Hinkle Now Buying Potatoes, or Trying to—They Have Been Shipping Onion Sets, a Valuable Product for That Section.

(From Thursday's Daily.)

A Statesman reporter found W. S. Hurst on the train last evening, coming from Aurora to Hubbard. Mr. Hurst lives in Hubbard and he goes to Canby every morning, spending the time between trains there, then to Aurora, where he occupies himself the rest of the day. He is able in this way to do business in the three towns dividing his time with each. With the help of his partner, Harvey Hinkle, this makes a strong team. They have warehouses in each town.

Just now they are buying potatoes, or attempting to buy them. Many of the farmers are holding their potatoes, hoping to get better prices later. On account of the large supply from Colorado, going into the territory in Arizona and Texas, formerly supplied by the Oregon growers, Mr. Hurst thinks potatoes will not be any higher this season.

They have also been buying onion sets. They have so far shipped about 70,000 pounds from the Aurora and Hubbard neighborhoods. Other shippers have secured some of the product of that section, which is considerable. Some farmers near Hubbard have gone into the growing of onion sets on a large scale, and they have been making good profits. The price so far paid has been mostly five cents a pound, or a shade higher. The price is now six cents a pound.

Messrs. Hurst and Hinkle buy hops during the hop season. They are also buyers of grain and hay. But just now they are shipping in grain and mill feed and selling it to the farmers and others, owing to the short crop last year.

This part of the business is not likely to last, for an increased acreage of
