IMPORTANT FUTURE.

Purchasers Own Electric Plants Many Western Cities and Also in the East.

Is Prominent Pirm of Philadelphia Bankers, Who Have Seen Salem and Sized It Up as a Good Business Point-May Mean Improvements.

The Salem street car system has been battered from pillar to post for a number of years. Beginning as a horse car a few months ago it became the property of a syndicate who saw a future in the property.

The new purchasers began to im-prove the condition of the road beds, the equipment, the service. Salem people saw coming an era of great improvement in the lines in general. The cars were put in shape for business, the traffic was expedited and people were satisfied that Salem's car lines were a good property for the company owning them as well as a valuable service for the people of the city.

Imagine therefore the surprise of the people of Salem to learn yesterday that there had been another change in the ownership of the Salem street railway system. The first news of the entrance of a new syndicate into this field became general yesterday morning when who had been purchasers of the stock of the company when the Henry syndicate sold out, had sold their interests therein, and that still another company of capitalists were coming into Salem for the purpose of operating the street railways of this city of magnificent distances.

The Oregonian of Portland had the first story regarding the matter in its yesterday morning's paper, but the only truth in the Oregonian's story was that the Lowengart and Langerman interests had been sold to other capitalists, E. P. Macornack being the

ensible purchaser. The Oregonian surmised that the purchase had been made for the Oregon Water Power Company of Portland, the company that has the line running out of Portland to Oregon City and Gresham, but this is an eror. The purchasers are a Philadelphia syndicate, who are operating very largely in the West and that have large street car interests in the East also.

NEW YORK, Feb. 13 .- As the guest of honor of the Lincoln dinner at the President Roosevelt made a speech on the race problem. Following the President, Senator Dolliver, of Iowa, recoln;" George A. Knight, of Call.ornia, spoke on "The Republican Party," and James M. Beck, former assistant attorney general of the United States, on "Unity of the Republic." The din-ner was held in the main banquet hall of the Waldorf Astoria, and in the number of guests and eiaporateness of decorations it is believed to have excelled any function of its character ever held in New York. The guests numbered more than 1300, and not only crowded the main banquet hall, but the Aster Gallery, the Myrtle Room and even the Foyer, on the second floor. Among the guests were 275 women, who dined in the Astor Gallery. The President was introduced by
