

# THE CITY

(From Wednesday's Daily.)

### State Taxes From Wasco

State Treasurer Moore yesterday received a remittance of \$12,000 from Wasco county to apply on its 1905 state taxes.

### Getting Out Development Edition

Walter Lyon, editor of the Independent paper, was in this city yesterday. Mr. Lyon is preparing matter for a splendid "Development" edition of his sheet that is to appear May 12.

### Authorized to Sell Property

An order was yesterday made by County Judge Scott setting aside to Mrs. S. G. Crabtree certain personal property belonging to the estate of her late husband, J. I. Crabtree. The property set aside to the widow consists of livestock and farm machinery and is valued at \$137.50. The judge also made an order authorizing Mrs. Crabtree, as administratrix, to sell the balance of the personal property belonging to the estate at private sale.

### On Phone in Depot Now

A great many people will feel sorry to hear that the telephone company has removed its free telephone from the Southern Pacific passenger depot in this city. This phone has been a great convenience to the traveling public, permitting subscribers of the telephone system to learn of the probable arrivals of trains, when expecting friends or when about to depart, but the telephone company asked the S. P. Co. to pay for the phone and this the railroad company refused to do, declaring the phone was of service to the phone subscribers. It is to be hoped the difficulty may be settled and the phone replaced in the passenger office. The public phone remains there in the gentlemen's waiting room.

(From Thursday's Daily.)

### Will Catch Early Mails Now

The changing of time of the north-bound afternoon train will put the Semi-Weekly Statesman in postoffice along the Silverton branch the evening of publication heretofore. This will be satisfactory to Semi-Weekly subscribers.

### Change of Time on Northbound Train

This afternoon the overland train, bound north and known as No. 12, and which has been leaving here at 5:35, will leave at 3:51 p. m. The mail at the postoffice will close at 3:10 p. m. This train will arrive at Portland at 6:25. There will be no other changes in the time card.

### Seeking New Homes

D. V. Walker, brother of W. W. Walker, the nurseryman, arrived in this city yesterday from Arkansas. He was accompanied by John Truck and family and Flis Wood and family, all of whom expect to make their homes in Oregon. The party is stopping with Joseph Basick.

### Don Caps and Gowns

The members of the senior class of Willamette university wore their caps and gowns for the first time this year at chapel yesterday morning. On every Wednesday until graduation the class will appear in the gowns. The class includes Lila Swafford, Kinzie Miller, Burgess Ford, Edgar F. A. Verill, Eugene Whipple and Paul Beach.

### To Represent Oregon

F. A. Baker of Oregon Cedar Camp No. 5246, M. W. A., of this city, has been elected one of three delegates to represent the Modern Woodmen of America of Oregon at the head camp to be held in Milwaukee, Wisconsin, on Wednesday, June 14 of this year. The election took place at Baker City yesterday afternoon, where the state camp is in session.

### One Rate Fare

The Southern Pacific Railway Company announces that it will make a rate of one fare for the round trip from Portland to all points in Oregon, Ashland and north, for visitors from the east to the exposition at Portland, to enable them to look over western Oregon with a view of settling or investing. These tickets will be good for fifteen days, with stopovers at all intermediate points, and will be sold to holders of the exposition round trip tickets from points east of the Rocky mountains. This will afford the various counties and communities that will maintain exhibits and advertise in other ways at the exposition every inducement to have the eastern people visit their section.

### Bountiful Crop

There seems to be every reason for a bountiful crop of hops again this year, although it is a little too early yet to make much of an estimate on the setting. Hops are generally well up and are arming out in many places. Yesterday Secretary Frank Durbin of the State Agricultural Society brought a number of arms to this office that were from three to four feet in length. This is unusual for this time of the season, hops being usually a month later in arming. These were from the yard of Mackie, Kirkland & Owens at Independence, and the whole yard of eight acres is well advanced. There are a good many hills yet backward, and some that have not yet sprouted. It is sufficiently early for them, however, as yet.

(From Friday's Daily.)

### Fruit Growers to Meet

A meeting of the fruit growers of Salem and vicinity is called by President Hofer to meet at the city hall tomorrow at 1:30 o'clock.

### New Time Card On

The new time card on the S. P. road went into effect yesterday, the afternoon train for Portland leaving here at 3:51 instead of 5:30 o'clock in the afternoon. It is reported that the Albany local will be extended to Eugene during the Lewis and Clark exposition months.

### Arrested for Old Offense

Charles R. Ficklin, who is employed on the Durbin farm east of this city, was arrested yesterday upon a complaint charging him with the violation of a city ordinance by driving a vehicle over an unprotected fire hose. The complaint was sworn out by Chief D. W. Fugh of the fire department, and the offense for which Ficklin must an-

## The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs or the kidneys themselves break down and waste away call by call.

Bladder troubles most always result from a derangement of the kidneys and a cure is obtained quickly by a proper treatment of the kidneys. If you are feeling that you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. Swamp-Root is pleasant to take and sold by all druggists in fifty-cent and one-dollar sized bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention this advertisement in the paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Answer was committed on October 16, 1904, while the department was fighting the big brick mill fire. Ficklin was arrested at the time the offense was committed, but upon his promise to appear in the city recorder's court on the following day he was allowed to go. He failed to show up, however, and was not seen again by the officers until yesterday, when he was taken in. His case will be heard by Recorder Moore at 2 o'clock tomorrow afternoon.

### To Hear Final Account

Nancy J. Pfau and Mark Copps, as co-executors of the last will and testament of Jacob Pfau, deceased, yesterday filed their final account in the Marion county probate court. Saturday, June 3, at 2 o'clock p. m., was the time set by Judge Scott for hearing objections to the account.

### Development Meeting

The Independence city council and business men of that industrious and enterprising little city are making an effort to have the next meeting of the Willamette Valley Development League held there. If the convention can be secured they promise a large and elaborate preparation for the visitors. But Albany has put in a bid for it and the two cities will have to fight it out.

### Will Go to Silverton

About twenty members of the W. O. W. degree team, Company 118, Uniform Rank, Woodmen of the World, will go to Silverton this evening to help the lodge in that city organize a team. Elaborate preparations have been made by the Silverton lodge for the occasion and a grand time is anticipated. The party from this city will go by carriages and will return in the "wee sma' hours" of the morning.

### Polk County Crops

J. R. Shepard of Zena, Polk county, was in the city yesterday and discussed the crop situation there. He said that there could be less than a half crop of Italian and French prunes. Things are more favorable for a good crop of cherries, but the apple crop will be spotted. Some trees show full, but others have nothing on them. Grain gives a promising outlook. He favors the establishment of a cannery and the selling of unlabeled goods to the manufacturers.

### Here Again

The beautiful bronze monument ordered of T. B. Wait by Mrs. Wm. Greenwood for her deceased daughter, Mrs. Fannie G. Tolle, has arrived and was set on a beautiful cement base in City View cemetery Thursday; also four corner blocks with initial letters on them. Mrs. Greenwood is very much pleased with her monument and says she would not exchange it for any monument in a Salem cemetery. It stands just north of the gate going from the I. O. O. F. to the City View. Be sure to go and see it if you want to see a beauty.

### Tires of Dodging Officers

W. H. Whitt, the deserter from the barracks at Vancouver, Wash., gave himself up to Marshal Cornelius Wednesday evening and was placed in a cell at the city jail. Word was telegraphed to the officers at Vancouver and yesterday Marshal Cornelius received instructions to bring the man to this city. The soldier deserted his company last July and has wandered from place to place ever since, trying to avoid detection. Having become tired of dodging the officers he came to Salem and gave himself up and asked to be returned to Vancouver. The marshal will leave with his prisoner for the Washington city this morning.

## FOR FLAG DAY.

### Will Endeavor to Arrange Celebration of Anniversary of Stars and Stripes.

Colonel T. C. Smith, special aide on the staff of the grand commander of the G. A. R., is charged especially with the patriotic feature of the G. A. R. work, dissemination of the patriotic idea in the schools, says an effort will be made to secure the celebration of the 128th anniversary of the adoption of the Stars and Stripes as the American flag on June 14.

The flag will be hoisted to have the flag flown from every residence and school and public building all over the state if possible. Governor Chamberlain has been asked to issue a proclamation covering the subject. It is to be hoped the matter will be successfully carried out. Patriotic exercises will take place in the public schools also on Friday, May 26, preceding Memorial day, and of course Memorial day will be given the usual observance.

STATESMAN CLASSIFIED ADS BRING QUICK RESULTS.

## READY FOR BIDS

### PLANS AND SPECIFICATIONS ARE DRAWN AND APPROVED FOR WALLOWA HATCHERY.

### State Fish Apparatus Consecrating Law to Be Tested in Courts in Suit in Which Master Fish Warden is Made Defendant—Report for April.

(From Wednesday's Daily.)

The state board of fish commissioners held their regular May meeting yesterday afternoon, at which time Master Fish Warden H. G. Van Dusen made his report for the month of April showing the conditions of the hatcheries and reciting other data concerning the fishing industry of the state. There was nothing of importance to report in regard to hatchery operations during last month, as all of the stations are not operating at present, but they are preparing for the fall season. The only thing of interest in this connection is the prospective construction of the new Wallowa hatchery station, in which relation Mr. Van Dusen says:

The plans and specifications of the Wallowa river salmon fish hatchery building prepared by Ferguson and Houston, architects, of Astoria, have been accepted and submitted to contractors, and sealed bids on the construction thereof asked for up to May 20, 1905. The building is to be a one-story frame structure 56 feet 4 inches wide by 230 feet long, set on stone or concrete piers, framed sufficiently strong to withstand the snow that falls quite heavily in that section of the state. It will have a capacity sufficient to set up 336 troughs each sixteen feet long, in which can be taken care of properly 15,000,000 salmon fry and eggs.

A number of arrests and prosecutions were made during the spring closed season for salmon, and numerous seizures of fishing gear and apparatus were also made through the aid of the steam launch in the hands of the deputy fish wardens. As a result of these seizures Master Fish Warden Van Dusen has been made the defendant in a suit brought by Hans Peterson for the purpose of the replevin of a set-net, which was seized by Deputy Webster on the Columbia river during March of the present year. The plaintiff sets up that the net was seized by the deputy warden while it was in the hands of Nels Peterson, who was wading it in Washington waters, and he seeks to recover the net or its equivalent in value.

## PORTLAND BUSINESS DIRECTORY

SOME OF THE RELIABLE MEN AND CONCERNS OF OREGON'S METROPOLIS.

### EYE SPECIALIST.

**D. CHAMBERS**  
Wholesale and Mfg. Optician.  
Optical Parlors  
129 Seventh St. Portland, Oregon

### PHOTOGRAPHIC SUPPLIES.

**Blumauer Frank Drug Co., Portland, Oregon,** is headquarters for Photographic Supplies, Century, Pramo, Foco, Blair and Eastman Cameras. Every requisite for the Professional and Amateur Photographer. Write for complete catalogue.

\$200, together with damages assessed at \$2. The board yesterday decided to make a test case of it and instructed Mr. Van Dusen to notify District Attorney Harrison Allen of the state's desire to fight the suit for the purpose of making a crucial test of the confiscating law. In order to do this and hold the net which he has in his possession, Mr. Van Dusen will be obliged to furnish a bond in the sum of \$400.

The following is a brief review of the cases of prosecution and also of seizures made of fishing apparatus during the spring closed season:

### Arrests and Prosecutions.

April 13—Pearl Beeman was arrested by Water Bailiff W. R. Williams for fishing in the waters of Rogue river during the closed season period. On the 14th he was arraigned before Justice of the Peace Furman of Grant's Pass, and upon entering a plea of guilty was fined \$50 and costs, which were paid.

April 19—Water Bailiff W. W. Smith of the Willamette and Clackamas filed complaint against Carl Johnson and J. J. Edgren for fishing for salmon in the Clackamas river without a license. The case was set for trial today, and will be looked after by District Attorney Harrison Allen and Deputy C. Schuebel.

### Seizures and Confiscations.

April 8—One gill net, 130 fathoms long, 15 meshes deep, found in the waters of the Columbia river near the head of Puget island, together with three chinook salmon entangled therein.

April 8—One gill net, 130 fathoms long, 35 meshes deep, found in the waters of the Columbia river opposite Nayer, together with five chinook salmon entangled therein.

April 12—One gill net, 100 fathoms long, 40 meshes deep, found in the waters of the Columbia river below Coffin rock, together with three Chinook salmon entangled therein.

April 13—One gill net, 130 fathoms long, 45 meshes deep, found in the waters of the Columbia river abreast of Wallace's island.

April 13—One gill net, 95 fathoms long, 60 meshes deep, found in the waters of the Columbia river opposite Quinn.

## HOSTETTER'S

Today is as good a time as you can select to try the Bitters. If you are sickly and run down it is the medicine you need. It always cures

Indigestion, Dyspepsia, Constipation, Biliousness, Female Disorders, or Malaria, Fever and Ague.

Try it and see. All Druggists.

in the Willamette river at Roethe's place.

April 13—Six set nets found in the waters of the Willamette river below Oswego.

The total receipts from all sources for the month of April were \$5516.87, and the disbursements aggregated \$382.95. The following is a tabulated statement of the receipts as submitted by the master fish warden:

### From Contraband Salmon.

April 20—Received from sale of contraband salmon seized by Deputy Fish Warden Webster and Water Bailiff Ole J. Setten during the spring closed season period (March 15 to April 15, 1905), and sold as follows:

Portland Fish Company, twenty-five pounds at 6 cents, \$1.50.

8. Schmidt & Co., 142 pounds at 6 cents, \$8.52.

Tallant-Grant Packing Company, 307 pounds at 5 cents, \$15.35.

### Fines and Licenses Issued.

59 gill net licenses at \$2.50, \$1397.50.

55 set net licenses at \$1, \$55.

4 trap licenses at \$25, \$100.

1 scow fish wheel license, \$25.

5 stationary fish wheel licenses at \$35, \$175.

4 fish dealers' licenses (first class), at \$10, \$40.

2 fish dealers' licenses (seventh class) at \$150, \$300.

1 fish dealer's license (eighth class), \$275.

3 fish dealer's license (tenth class) \$375.

2 cannerns' licenses (first class), at \$175, \$350.

2 cannerns' licenses (third class), at \$325, \$650.

2 cannerns' licenses (fourth class), at \$400, \$800.

1 cannern's license (sixth class), \$500.

April 17—Received one third of fine imposed against Pearl Beeman for fishing for salmon in the Rogue river during the closed season, \$16.70.

19 gill net licenses at \$2.50, \$47.50.

34 set net licenses at \$1, \$34.00.

## REVISES COURSE

### SUPERINTENDENT ACKERMAN ISSUES NEW COURSE OF STUDIES FOR SCHOOLS OF STATE.

### Many Important Changes Made Over the Old Course, Especially in Language, Arithmetic and History—Final Adoption Postponed Until June 5.

Superintendent J. H. Ackerman has prepared a revised course of study to be used by the public schools of Oregon, which he is just having printed and bound into pamphlet form for distribution. The revised course was submitted to the state board of education at the last regular meeting and received the approval of the members thereof, but final action upon it has been postponed until the next meeting, the first Monday of June, in order to receive and consider any suggestions for change which the public may choose to offer in the meantime and which are solicited by the board and Superintendent Ackerman.

The list of books to be used under the revised system is cut down to such as are considered absolutely necessary to good training and all supplemental books, have been omitted by Professor Ackerman. All of the books in each course are to be purchased by the pupils, leaving it to the judgment and discretion of the boards of directors of the different districts to choose and pay for any additional books and studies which they see fit to add to the regular course. Superintendent Ackerman sent out circular letters in 1904 to all principals of schools of more than one room asking for suggestions and changes in the course and the changes made are in accordance with the suggestions received and his own judgment and experience. All the books in the revised course the state has contracted for and cannot be omitted if it were so desired.

The revised course shows several important changes, all calculated to better the system of instruction and learning. In language there is only two books below the high school, dispensing with the two-book optional course in arithmetic he has lightened the work in the lower grades and eliminated from the course bank discount, exact, annual and compound interest, present worth, true discount, stocks and bonds and all problems embracing these principles; also sections 7 and 8 of mental arithmetic. He has written arithmetic by topics and mental and written arithmetic as one book. There will be but one recitation per day in each class under the new system.

In geography he has outlined a one-book course in all schools which employ less than four teachers, and a two-book course in schools employing more than three teachers, when regularly adopted at a board meeting called for that purpose. In civics he omits part of the text book and there has been no change made in physiology and hygiene. He treats civil government as a special study and not to be taught in the seventh and eighth grades, but it is to be combined with history, and as many of the historical subjects as possible will be given a constitutional setting. There will be two years devoted to history work in the future instead of a year and a half.

The object of the course is to provide a good common school education for the children, especially those in the rural districts. Its aim is to introduce nothing that is not necessary, to make an intelligent classification of work, so regulating the steps of the pupil that not only is interest maintained, but full credit is given and to reduce to a minimum the loss of time through change of instructors; to place the work of the schools upon a common basis with a uniform system for its study; to strengthen the supervision of work and enlist the sympathy of the parents in the entire scheme.

In preparing the manual two plans have been followed—the division and the yearly. Under the former the work is divided into three classes of about three years each and this is recommended for schools of but one room. These are named primary, intermediate and advanced. In the matter of promotions the rule is strict that there shall be no advancing to higher grades until the work of the pupil in the lower grades is completely finished.

Under the caption of "Course of Study" mapped out for each year, emphasis is placed on the "Course of Study" is the caption of another paragraph which is calculated to assist the teachers in isolated districts who have not the advantage of being in close touch with the superintendent. In the matter of "Tests" for the pupils the teacher has also direction and there is a clear indication as to just what the limit of these examinations shall be and how they are to be conducted and what questions are to be covered. Upon a successful termination of the "Tests" certificates should be issued to the pupils in the primary and intermediate divisions and diplomas to those in the advance divisions. These latter are certifications of eligibility without further examination to any ninth grade in the state.

It is asserted that the manual will not only add to the burdens of the teacher, but rather lighten and assist them. It also sets forth the minimum of work that must be done by each pupil.

## BACTERIOLOGICAL ILLUSTRATOR.

In these days when one hears much of microbes and bacteria, says The Pilgrim for May, it is not surprising that women are giving their subject considerable as well as thoughtful attention. It is unusual, however, to find a charming young woman devoting her talent for drawing to such unique studies, yet Mrs. Katherine Montague Hill of Pittsburg seems to find such work fascinating. Mrs. Hill makes illustrations of the various bacilli and also of the tissues where they are found for the Rockefeller Institute of Medical Research. Sometimes two drawings are made—one of the normal, healthy tissue and one of the tissue changed and degenerated by the action of the microbes. The illustrations are done either in black or white or in colors, and are used in text books for students or by physicians to show the action of various disease germs.

Mrs. I. W. Starr and daughter Miss Georgia, left for Brownsville yesterday where they will visit for a few days with their husband and father, Dr. I. W. Starr, who is practicing his profession in that city.

## New Today

### EGGS WANTED.—WE ARE NOW buying eggs; call on us for prices before you sell. Commercial Cream Company.

### LUMBER, ROUGH AND DRESSED,

new posts, shakes and wood for sale at Veget Bros., Salem, Route 9; mill two and one-half miles east of Brooks.
