Notice of the Sale of Lands Bid in by Marion County for the Delinquent Taxes of the Year 1900.

Notice is hereby given that by virtue of an order of the County Court of Marion county made on the 17th day of June, 1905, I will on Monday, the 7th day of August, 1905, at the west door of the court house sell to the highest bidder for cash in hand such property as was bid in by Marion county for the delinquent taxes of the year 1900 and has been unredeemed and to which Marion county has acquired title by reason of such purchase. Said sale will commence at 10 o'clock a. m. on that day and continue from day to day until completed. The lowest bid that will be received must cover the amount bid by the County at the sale of said property together with all subsequent taxes paid by the County, the accruing costs and interest allowed by law. The names and descriptions under which said property were advertised and sold are as follows:

ALLISON, C.—Begin 28½ ft. S. 41¼ deg. W. from S. E. corner of Depot Grounds of O. & C. R. R. in Woodburn; thence S. 41¼ deg. W. 50 ft.; S. 48¾ deg. W. 100 ft.; N. 41¼ deg. E. 50 ft.; N. 48¾ deg. E. 100 ft. to beginning; ⅛ acre.....$ 2.88

A SURPRISE PARTY.

A pleasant surprise party may be given to your stomach and liver by taking a medicine which will relieve their pain and discomfort, viz.: Dr. King's New Life Pills. They are a most wonderful remedy, affording sure relief and cure for headache, dizziness and constipation; 25c at Dan'l J. Fry's drug store.

CROP BULLETIN

INDICATIONS ARE NOW THAT THERE WILL BE A SMALL APPLE HARVEST.

Excerpts From United States Department of Agriculture's Crop Report Show Conditions of Fruit Throughout Country—Washington Hops Do Well.

Reports indicate an apple crop below average in all sections.

New England—Apples below average and dropping.

New York—Apples deteriorating; cherries and strawberries ripe; yields fair.

New Jersey—Melons very promising; rain badly needed in all sections for small fruits.

Pennsylvania—Small fruits plentiful; apples scarce; peaches fair.

Maryland and Delaware—Blackberries and raspberries plentiful.

Virginia—Apples short.

South Carolina—Melons and peaches being marketed.

Georgia—Melons plentiful but damaged somewhat by rain; large area of peas sown.

Florida—Citrus trees making good growth, but crop will be short.

Alabama—About half crop of peaches being marketed.

Texas—Fruit good.

Arkansas—Apples promise light; peaches fair.

Tennessee—Apples dropping; short crop promised.

Missouri—Apples a failure.

Illinois—Apples falling; peaches almost a failure; grapes and berries promising.

Indiana—Prospects for tree fruit fair, but apples falling; small fruit plentiful.

West Virginia—Apples promise half crop; other fruits poor, except blackberries.

Ohio—Apples, pears and plums less promising; peaches fair; grapes improving, some decay, but mildew checked.

Michigan—Apples dropping considerably, but still quite promising.

Wisconsin—Strawberries and cherries plentiful.

Iowa—Apples declining.

Kansas—Many apples blown off.

Oklahoma and Indian Territory—Fruit doing well.

Idaho—Early apples ripe.

Colorado—Fruit prospects generally good.

Arizona—Fruit drying extensive.

Utah—Fruit fair.

Washington—Hops growing well.

Oregon—Many hop lice; apples fair to good.

MARRIED.

CUNNINGHAM-BAKER — At St. Paul's rectory, Wednesday evening, July 19, 1905, Mrs. Norma Baker to A. A. Cunningham, Rev. Barr G. Lee officiating.

The groom is the popular paying teller of the bank of Ladd & Bush.

First application gives ease and rest. 50 cents. If your druggist hasn't it send 50 cents in stamps and it will be forwarded postpaid by Paris Medicine Co., St. Louis, Mo.

A MEASURE OF MERIT

Salem Citizens Should Weigh Well This Evidence

Proof of merit lies in the evidence,
Convincing evidence in Salem.
Is not the testimony of strangers,
But the endorsement of Salem people.
That's the kind of proof given here—
The statement of a Salem citizen.

William H. Spayd, living at the corner of North Winter and D streets, says: "I cannot express my opinion half strong enough of Doan's Kidney Pills. I have known their remarkable merits for the last eight years, having used them in Clinton county, Mich., where I was living. My kidneys were a source of annoyance for quite a number of years. I had much pain across my loins and the secretions from the kindneys were irregular in action causing me to rise often in the night and at times there was a scalding. I also had more or less dizziness. I procured Doan's Kidney Pills from Dr. Stone's drug store and gave some to a person visiting us and they gave her wonderful relief, and in my case I was benefited in every way. My backache was relieved and the trouble with the kidney secretions was corrected. You are at liberty to refer to me as one who can endorse the claims made for Doan's Kidney Pills and I also know of a great many others who have used them with the best of results."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

IT IS FAVORABLE

NEWS OF PAST WEEK GIVES A SUNNY APPEARANCE TO THE STOCK MARKET REPORT.

Government Crop Report, Predicting Fruitful Harvests, Has Direct Bearing on Affairs of Street—Largest Corn Crop Ever Reported.

NEW YORK, July 19.—(Special)—News of the week from the financial standpoint has certainly been favorable in character. The publication, after the market closed on Tuesday, of the government crop report contained the promise of exceptionally favorable harvests, removing to a measurable degree the recent fears of damage to the corn and spring wheat crops and confirming the report that a large and profitable winter crop has already been gathered. In addition there have, as factors in the stock market, been (1) the successful flotation of another large loan by Japan; (2) the increase in the semi-annual dividend of the Baltimore & Ohio whereby that road now enters the 5 per cent dividend paying list; (3) another favorable statement of foreign trade, which is of importance in connection with the money market of the immediate future, and (4) the fact that the market itself has so steadily resisted liquidation of a most extensive character by the large professional operators. With such a combination of distinctly favorable influences it might seem disappointing that instead of about holding its own the market has not further advanced; but this is readily explained by the fact that these developments have merely met the expectations of those who had taken the trouble to investigate matters, and who therefore were in a position where they could take profits at a time others were waiting for the facts to be presented in the usual routine channels. It has, for instance, been generally known and has been repeatedly pointed out in these advices, that the crop situation was an exceptionally favorable one this year; that the success of the Japanese loan was a foregone conclusion, and that the foreign trade movement of the country was on an ascending scale. Most of the week's influences were, in fact, matters of knowledge to careful Wall Street students and, as usual, were fully discounted.

While the government does not express in bushels its estimate of the corn prospects, it nevertheless furnishes the statisticians of the various grain exchanges of the country with tangible data for converting the monthly report into bushels. Thus the department indicates an increase of 2,080,000 acres in the area planted to corn and an initial condition of 87.3, as against 86.4 at the corresponding date a year ago. This increase in both the acreage and condition is interpreted by the accepted system of figuring the department's returns as an indication of a harvest of 2,651,000,000 bushels of corn. At this date last year a similar hadling of the government's figures of condition and acreage promised a crop of 2,537,000,000 bushels, while the official harvest as reported in December claimed 2,467,000,000 bushels, showing the substantial reliability of the system of figuring. If the current indication is maintained—if the weather during the next few weeks should remain favorable—the 1905 corn crop will be the largest ever reported by the Department of Agriculture. In 1899 the Census Bureau, as a result of actual canvass, reported a crop of 2,666,000,000 bushels, which was considerably in excess of the Department of Agriculture's estimate for that year, the latter's estmate being based on percentages rather than on actual farm to farm canvass. The July report of the department indicates a yield of 413,000,000 bushels of winter wheat, or 80,000,000 bushels more than was harvested last year, and a combined harvest of 705,500,000 bushels of spring and winter wheat which, if the spring wheat maintains its present position reasonably well, will give, with the exception of 1901, when the harvest was 748,000,000 bushels, the largest crop of wheat ever reported. These are certainly exceptionally fine prospects for the material welfare of such an essentially agricultural country as our own, especially in view of the high prices the farmer is able to obtain for his product, No. 2 red wheat, for instance, selling at New York above $1.00 per bushel and No. 2 mixed corn at something above 60 cents per bushel. This material welfare of the country must readily be reflected by the traffic statements of the roads carrying these tremendous harvests to market, and by the return traffic in the form of supplies and luxuries which the prosperity in the agricultural sections encourage the farming element to purchase.

On the other hand, we should not lose sight of the fact that many stocks are on such a high basis that additional advances would require a much further improvement over present dividend prospects. Since the latter part of May there has been an advance of about eight points indicated by the average quotations of twelve leading industrial stocks and of fully ten points as indicated by the average quotations of twenty usually active railway stocks This is certainly a large advance on an already high price level, the average quotations now being more than twenty-five points higher both on the twelve industrial stocks above noted than a year ago on the average of the twenty railroad stocks already referred to. This is a situation that certainly suggests caution on the buying side and the wisdom of taking profits on any further substantial advances. It should be remembered that the larger the crops the greater the banking facilities necessary to move them—facilities that must be furnished within the limits of a few weeks and must of necessity to a measurable extent disarrange loans.

The surplus reserves of the New York Clearing House banks, according to last week's statement, had fallen to about $8,000,000, and with the withdrawal from the banks of government funds, which, under the latest call of the Secretary of the Treasury, has today been completed, there is every indication that a period of higher rates for money is at hand. Time money is already showing evidence of this condition, and the new Japanese loan must also be accorded its due significance as a money market influence. The new loan means that $150,000,000 are to be taken out of the world's markets by Japan; and the important point in connection with it is the uncertain manner in which this money will be used. The fact that it was necessary to float a new loan may be considered good evidence that Japan needs money, and that while, as semi-officially announced, she may not call upon the proceeds of the American subscriptions until the autumn, she may be relied upon to continue making liberal drafts on the proceeds of her previous loan that are on deposit here. This balance, it is generally understood, is now considerably below $50,000,000.

Aside from her entrance among the world's powers as a first-class military and naval nation, the war may also be considered to have entitled Japan to recognition as a financial power; and the world's leading financial centers may now be looked upon as London, Paris, Berlin New York and Tokio. The last named will unquestionably figure as such during the immediate future at least, and the rapidity of the rise to this eminence is certainly phenomenal. At the beginning of the war, as a precaution against what Russia's powerful navy might possibly do, the Mikado sent his gold reserves to London; later, finding it necessary to secure the sinews of war, he issued two 6 per cent loans. These were received with such overwhelming favor that the next two loans offered were 4½ per cents, and were both largely oversubscribed—an evidence of such great credit that it will be surprising if the next loan is above a 4 per cent basis. But as already stated, the fact that Japan has found it necessary to make a new loan seems to indicate that the Mikado needs money, and this must be considered a potent factor in the international financial situation during the next few months.

As the recent shipments of Japanese funds have been made through the regular sterling exchange channels, the steady improvement that has been shown in our exports of breadstuffs and cotton during the last few months, and the prospects of a continuance of this improvement, will militate to that extent toward restricting the volume of gold exports and in the meantime constitute a distinct source of relief to the local monetary situation. Thus, the monetary situation is not at the moment an alarming one; it is, however, one that merits close watching. It will tend to discourage large operations for the rise, but hardly promises to itself assume sufficient importance to cause any pronounced liquidation. The prospects, therefore, continue favorable for a good trading market during the summer, with opportunities for profit in both directions in accordance with the customary changes at this season in crop prospects especially in corn, spring wheat and cotton, and also with the development in the monetary situation, all of which are primary principles of Stotek Exchange speculation that can be studied and promptly acted upon with good prospect of profit by market students generally.

—Henry Clews.

WASHINGTON BANKERS MEET

Tenth Annual Convention of State Association Convenes in Portland.

PORTLAND, July 20.—The tenth annual convention of the Washington State Bankers Association assembled in Portland today. The convention will conclude Saturday. Routine matters occupied the fore part of today's session. After appointing the credentials committee President Latimer delivered his annual address in which he gave a summary of the development of the state of Washington during the year just closed. Secretary Kauffman read a report showing a membership of 205 banks, 96 per cent of the active banks in the state. E. W. Purdy of Bellingham, chairman of the executive council, in his report spoke of the unsuccessful attempt to secure the passage of a bill by the state legislature regulating banking in the state.

W. D. Vincent of Spokane, read a report of the protective committee which showed that the committee had secured the imprisonment of 108 men guilty of forgery or obtaining money under false pretenses during the past year. The session today also adopted a new constitution and by-laws. At the afternoon session, among the addresses delivered was one by Walker Hill of St. Louis. Another was the address of J. H. Cameron of Chicago.

HE QUITS THE JOB

ILL-HEALTH AND PRESSURE WAS TOO GREAT FOR STATISTICIAN JOHN HYDE.

Chief of Bureau of Statistics Resigns Because of Failing Physical Condition and Unequal Fight Waged With the Cotton Growers.

WASHINGTON, July 18.—The resignation of John Hyde, statistician and chief of the bureau of statistics of the department of agriculture, was handed to Secretary Wilson today and was promptly accepted. Willett N. Hayes, assistant secretary of agriculture, was placed in charge of the bureau temporarily.

Secretary Wilson and other officials of the department stated that Hyde was not implicated in any manner in irregularities that resulted in the dismissal of Edwin S. Holmes, the associate statistician, whom the secret service operatives charged with being guilty of giving brokers the advance figures of the cotton crop statistics. In a letter to the secretary, Hyde takes notice of the fact that he may be criticised for resigning under fire and in defense says there never had been a time when he was not under fire. He declares that the organization, meaning the cotton growers, were bent upon getting him out of the government service and that his health would not permit him to continue so unequal a struggle. There is considerable speculation as to the probable successor of Hyde. One name suggested is that of B. W. Snow, a Chicago statistician, well known to farm journals and once assistant statistician under J. R. Dodge, chief of the bureau about twelve years ago. Dodge was in charge at the time the present system of gathering crop statistics was devised.

IDAHO LAND FRAUD CASES.

BOISE, July 20.—The following indictments were returned by the federal grand jury investigating the alleged land frauds in Idaho, and bench warrants were issued for the arrest of George F. Kester, cashier, and William F. Kettonbach, president of the Lewiston National bank; Jackson O'Keefe, Asotin, Wash.; William Dwyer, Clarkston, Wash.; Clarence W. Robnett, bookkeeper for the Lewiston National bank; Iven Cornett, and three others whose names have not been made public. Kester, Kettonbach, Dwyer and O'Keefe are charged with conspiracy to defraud the United States. Kester and Robnett are indicted with subornation of perjury, and Cornett and the three others unnamed for perjury.

DOLLAR WATCHES

AT

DR. STONE'S DRUG STORE

Are guaranteed for one year.

G. A. Waggoner's Book,

Stories of Old Oregon,

Which is declared by competent judges to be the most in eresting sketch book that has ever appeared in the west, is now being sold by subscription, but it has also been placed with G. W. Putman, druggist, 135 North Commercial street, who will be pleased to show it to all who desire to see the work

Price in Cloth, $1.50

STOP DRINKING!

STOP CHEWING TOBACCO!

STOP SMOKING!

These things are made easy if you really want to quit. If you have no desire to quit and abstain afterward, don't waste your money.

TRIB

the great liquor and tobacco remedy, will take away from you all desire for the use of intoxicants or tobacco. You need not go away from home to use it. No expensive board bills to pay. The cure is quick and permanent.

Remember TRIB will cure you if you are sincere in a desire to be cured. It is only $12.50 for a complete treatment. For sale by
