

NORTHWEST NEWS

To Lather Prunes.
Prune picking in the Yoncalla section of Oregon will be commenced in about a week.

Engene's Telephone.
The new switchboard is being installed at the telephone office. It will be about a month till the new system is in operation.—Guard.

Best People.
Several Eugene people are rejoicing over the departure of the merry-go-round that disturbed their tympanums for several weeks.

Berries at Bend.
"Dad" West's strawberry patch is now bearing its second crop this year. The vines are in full bloom and the berries are beginning to ripen and a fair yield is promised.—Bulletin.

Stage Runaway.
A runaway that might have resulted seriously befell the Roseburg-Marshall stage, near Sumner, Sunday morning. Six passengers, three men and three ladies, besides the driver, were riding on the stage which was drawn by four horses. As the stage was going down a small hill the driver was thrown from his seat onto the ground at a sharp turn in the road. The horses then released from guidance dashed at a tremendous speed along the road and two of the male passengers jumped out of the stage. The other gentleman managed to climb down onto the tongue of the stage and secure the lines, immediately bringing the horses to a stop. Nobody was hurt. The horses had run for over a half a mile and it is remarkable that the stage did not overturn as in some places the road is rough and comparatively narrow, with a declivity on one side.—Review.

Will Soon Be Whiter.
The effect of last winter's light snow.

SCROFULA FROM PARENT TO CHILD

The laws of heredity are invariable and the diseased blood of parents is handed down to children in the form of Scrofula. Being thus deeply rooted nothing can reach the disease but a constitutional remedy. The very foundation of the blood is diseased, and until it is purified and made strong, those who are born with a scrofulous tendency cannot have the blessing of robust health.

Cleveland, O., 122 Brownell St.

Inherited Scrofula from my ancestry and this means, of course, weak, impure blood and a run-down, debilitated condition of the system. Treatment of physicians did not do anything like good. S. S. S. did last winter when I took it. It promotes appetite and digestion, gives strength and energy, builds up the general health in every way, and in addition to being an excellent blood purifier it adds its success as a remedy for Scrofula. It did more for me than anything I have ever used. Those who are afflicted with it, S. S. S. completely cured me of this blighting disease.

MRS. LOUISE COHEN.

S. S. S., the king of blood purifiers, is the medicine that is required, because it changes the quality of the blood by cleansing it of all impurities. It imparts building it up and strengthening the entire system. When S. S. S. has restored the blood to a healthy condition, an forced out the scrofulous deposits, there is a sure return to health. No remedy has ever been found to equal this great vegetable preparation for the cure of all diseases arising from a diseased or impure blood supply. If you have Scrofula or any tendency that way write us about your case and we will send you a book describing the disease and give, without charge, any medical advice you may need.

THE SWIFT SPECIFIC CO., Atlanta, Ga.

Dr. Stone's Drug Store

Does a strictly cash business; owes no one, and no one owes it; carries a large stock; its shelves, counters and show cases are loaded with drugs, medicines, notions, toilet articles. Wines and liquors of all kinds for medicinal purposes. Dr. Stone is a regular graduate in medicine and has had many years of experience in the practice. Consultations are free. Prescriptions are free, and only regular prices for medicine. Dr. Stone can be found at his drug store, Salem, Oregon, from six in the morning until nine at night.

DR. C. GEE WO

GREAT CHINESE DOCTOR

Formerly located at 253 Alder Street, Corner of Third Street.

HAS MOVED

to the large brick building at 212 1/2 Cor. of First and Morrison Streets.

Entrance: 162 1-2 FIRST STREET

Dr. C. Gee Wo, the Great Chinese Doctor, is well known and famous throughout the U. S. because his wonderful and marvelous cures have been heralded broadcast throughout the length and breadth of this country. He treats any and all diseases with powerful Chinese roots, herbs, buds, barks and vegetables that are entirely unknown to medical science in this country, and through the use of these harmless remedies. He guarantees to cure catarrh, asthma, lung troubles, rheumatism, nervousness, stomach, liver, kidney, female troubles and all private diseases.

This famous doctor cures without the aid of the knife, without using poisons or drugs. Hundreds of testimonials on file at his offices. Call and see him. Charges moderate.

Consultation Free.

Patients of the city write for blanks and circular. Enclose 4 cent stamp. Address: Dr. C. Gee Wo Chinese Medicine Co., 162 1/2 First Street, Corner Morrison, Portland, Oregon.

Please mention this paper.

fall and this summer's unusual heat is quite visible in the snow peaks of the Cascades that puncture the sky in our western horizon. Every peak is getting drier and seamy. We shall have to send them all to the laundry if snow does not come to cover the dust and smoke that has settled on the perpetual ice fields.—Bulletin.

Among the First.
The old Leasure yard in the river bottom right up against Engene was one of the first hop yards of the state, having been planted nearly forty years ago, and till a few years ago, when washed away till too little was left to warrant cultivation, produced as generous crops as when first in bearing.—Guard.

Something Will Be Done.
J. M. Anderson of Spokane, A. Welch of Salem, and J. W. Rhodes, Jr., of Philadelphia, all interested in the Laue County Electric Co.'s plant at Springfield, which was recently purchased by a Philadelphia syndicate which owns plants at Spokane, Walla-Walla, Baker City, Salem and other northwest cities, spent Sunday in Eugene and were taken over to the Springfield plant by Superintendent J. F. Robinson.

Mr. Robinson, when asked by a reporter if there was anything for publication, replied that there was not at present, but thought that in the not far distant future something would turn up. This trip was made to show the local plant to Mr. Rhodes, who is said to be one of the capitalists of the syndicate.—Eugene Guard.

Business Course in Public School.
A full business course, including bookkeeping, stenography and typewriting, will be added to the public school work at Pendleton the coming year.

A Municipal Building.
Springfield (Oregon) is to have a new city hall.

Railroad Bridge.
Nothing sensational has happened this week in the way of railroad news. Everything is moving along smoothly with a large force of men at work getting the ground ready for the east pier, which will be the first one built. The pile driver and donkey engine have been hauled to the bank of the river and made ready for immediate use. The preliminaries are nearly all finished and work will commence in dead earnest within a few days.—Springfield News.

No Free Delivery Yet.
Postmaster Randall up to last Saturday expected that free delivery would be installed in Oregon City without delay, but his hopes were blasted by a communication from the department in which it was stated that the service would eliminate to a great degree the item of box rent receipts, amounting to \$1100 annually. The gross receipts of the local office for the fiscal year ending June 30, 1905, were a trifle in excess of \$10,000. The postoffice department evidently takes the position that the establishment of free delivery service in Oregon City would decrease the receipts from box rents to such an extent that the gross income would fall below \$10,000. This amount of receipts is necessary before the service can be granted.—Courier.

To Have Races.
The Independence Driving Club will hold a two days' race meet on September 27-28.

Tall Corn.
A corn stalk is on display at Seattle which measures 13 feet 8 inches in height. It is the ninety-day variety.

Over Three Million.
To operate the various municipal departments during the ensuing year and to provide for the improvements which they think necessary, the heads of the Seattle city departments have filed estimates aggregating \$3,093,420.92.

Picking Early Hops.
The first hop picking of the season began in one of the Hill Bros.' yards yesterday. It was the picking of fugles, an early variety that is always harvested in advance of other hops. Hop picking proper will begin Monday.

WHAT CUTICURA DOES FOR WOMEN

Too much stress cannot be placed on the great value of Cuticura Soap, Ointment, and Pills in the antiseptic cleansing of the mucous surfaces, and of the blood and circulating fluids, thus affording pure, sweet, and economical local and constitutional treatment for weakening ulcerations, inflammations, itching, irritations, relaxations, displacements, pains, and irregularities peculiar to females. Here the Cuticura remedies have wonderful influence in restoring health, strength, and beauty to weary women, who have been prematurely aged and invigorated by such distressing ailments, as well as such sympathetic affections as anemia, chlorosis, hysteria, and nervousness.

Women from the very first have fully appreciated the purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy which have made Cuticura the standard household remedy of the civilized world.

TORTURING HUMOR

Cured by Cuticura.

"I suffered five years with a terrible itching eczema, my body and face being covered with sores. Never in my life did I experience such awful suffering, and I longed for death, which I felt was near. I had tried doctors and medicines without success, but my mother insisted that I try Cuticura. I felt as if I had found a new life. Cuticura cured me. I am now as well as ever. Mrs. A. E. Eison, Bellevue, Mich.

HER LAST SLEEP

ANOTHER OLD RESIDENT OF SALEM JOINS HAPPY TRIO ON OTHER SHORE.

After Living Noble Life of Nearly Seventy-Nine Years, Mrs. Christina C. Frickey Departs This World—Relatives and Friends Mourn Loss.

Mrs. Christina Frickey was born near Giffhorn, province of Hanover, Germany, December 23, 1826, and entered this world August 30, 1905, aged 78 years, 8 months and 6 days. On September 12, 1850, she was united in marriage to Christian Frickey, with whom she lived and labored fifty-five years. On September 12, 1850, they embarked for America on the sailing vessel Fannell Hall, landing at New Orleans after a voyage of three months. Thence they went to Evansville, Ind., remaining for two years, thence to Cannelton, remaining three years. After this the family moved to Minnesota, where they lived twelve years. Seeking a milder climate, they moved to California and later to Oregon, where they have lived since 1871. Thirty years of this time was spent in Salem, they having been among the oldest residents of this city.

In the old land deceased was a devout member of the established church. On coming to this country both she and her husband became identified with the Methodist Episcopal church, they together helping to build up new churches in various places where they settled. Her home in earlier years was a place of Christian worship. Although in later life unable to attend public worship regularly, hours of reverent worship in her home were faithfully observed. She was one of five children of a widow who had been robbed in the old land of a beautiful estate. It was thus her lot early to make her own way in the world, and she did so with a noble strength of character, a rare judgment, thrift, firm reliance upon God and a living faith in the atoning merits of the Saviour.

During the Sioux Indian war, while her husband went out to the fight, she cared for her own little family, besides many refugees who crowded her home in the winter of these lands.

She tripped lightly over trouble, and her many voluntary hardships for others' good already yield the fruitage of true sacrifice. She was ever cheerful and earnest, faithful, unostentatious, self-denying, ardently devoted to the interests of her home, and many a liberal gift went silently on its way of relief, while the world saw only her self-denial and wondered why there was reason for such sacrifice. She was energetic and patient in her duties as wife and mother and lavish in love for her children.

During her last illness she gave abundant expression to a joyous hope, and a husband and six children attended during her long sickness. The children are: William of Fossil, Chris of Plateau, Cal., Mrs. Christina Griesler of Weston, Mrs. Mary Casbeer, Mrs. Emily Jory and Miss Minnie Frickey of Salem. Two great-grandchildren and eleven grandchildren also remain to mourn their great loss.

Among these are: Royal Frickey, student at Berkeley, Cal.; Frank Frickey of Salem; Mrs. Minnie Maley of Alville, Or.; and Corde Casbere, in the employ of Fossil & Co. at The Dalles.

The funeral services will be conducted by Rev. J. Bowersox of Portland, assisted by Dr. Selbeck and Dr. Kantner of Salem. The services will be held at 2:30 o'clock tomorrow afternoon in the Methodist Episcopal church, corner of State and Church streets. Interment will be in City View cemetery.

Liver Disease.

THE liver is the great filtering apparatus of the alimentary, or digestive, system. It filters the poison-laden bile out of the blood. When the liver lacks active capacity to do this work, then the bile passes through into the general circulation and begins its poisonous work. Through the circulation of the blood it is disseminated throughout the body, gradually sapping the strength, clouding the brain, weighing down the energies, weakening the heart's action, and undermining the system. Eventually the poison begins to accumulate at the skin, the kidneys, the bronchial tubes, or the lungs, until at last it settles and fastens itself at some point, which location may be far away from the liver; yet it is stagnation or congestion of the liver which is the immediate cause of the whole trouble.

SYMPTOMS OF LIVER COMPLAINT.

Not infrequently, in liver disease, the complexion becomes pale and sallow, there may be frequent attacks of bilious or sick headache, bitter taste in the mouth, tongue coated white, or covered with a brown fur, unnatural, dry, harsh, or branny eruptions, pimples, dark blotches, and troublesome itching. There are likely to be "backache" and tired feelings, lassitude and a sense of debility. There is depression of spirits and a decided tendency to be discouraged and despondent. There is loss or irregularity of appetite, unsteady or irregularity of the stomach, oppression, sometimes sour stomach, "heartburn," nausea and "water-brash," flatulency, and acid eructations; the bowels become irregular, usually constipated, and occasionally subject to diarrhea, attended with colicky pains. The foregoing symptoms are not all present in any one case, nor are any two cases alike in every respect.

The only way to help a disordered liver is to treat it as it is;—the great, organic, human filter, Doctor Pierce's Golden Medical Discovery cleanses it clear of all impurities and revitalizes this most important organ by its wonderful alternative power. For biliousness, indigestion, weak stomach, and kindred ailments, the "Golden Medical Discovery" is a most efficient remedy.

Dr. E. P. Pierce, Buffalo, N.Y.

Dear Sir: In the year 1860 I had an attack of indigestion and got so bad that my home doctor said he did not see any chance of my getting well. He advised me to use Dr. Pierce's Golden Medical Discovery, so I bought a bottle and when I commenced taking it I was so weak could hardly walk about the house. By the time I had used one bottle my stomach and bowels were all right, and I was able to do as much work in a day as I ever could. I do not know what I could not do without having much distress afterward, but by the time I had taken a second bottle of your "Golden Medical Discovery" I was sound and well, and could eat anything I pleased. I would not have believed it possible to do so much work in a day as I ever could. It was four years ago that I saw you.

G. T. TERRY, Gordonville, Texas.

If you are looking for a perfect laxative, try Dr. Pierce's Pleasant Pellets.

YOU KNOW

what YOU want. It's the dealer in medicines upon you something else, he's thinking of the larger profit he'll make, not of YOUR welfare. Show such a dealer.

HE URGES ACTION

GOVERNOR THINKS RECLAMATION SERVICE SHOULD ACT OR GET OUT OF WAY.

Government's Delay in Acting Upon Important Irrigation Projects in Prospect in Oregon and Idaho Brings Out Interesting Letter from Governor

As evidenced by the tenor of his remarks, uttered in his address of welcome before the recent convention of the trans-Mississippi Congress in Portland, Governor Chamberlain is interested himself in the development of the desert west of eastern Oregon to the extent that he is urging the government reclamation service to take prompt action in the matter of whether or not it is going to project irrigation in that district. In his address referred to he called attention to the government officers' tardiness in the matter and urged them to make haste in arriving at a decision as to whether or not they thought certain projects under the supervision of its officers it ought to stand aside and let private capital step in and do the work. I am reliably informed, as you have been, that there are persons of abundant means who are anxious to take hold of this work, and it seems to me that if the government does not intend to do anything further than has done, or does not act with greater expedition than it has been acting, it ought to allow these private persons to step in and do the work under the Carey act.

Recently he was in receipt of a letter from Governor Gooding in relation to the proposed reclamation projects on the Snake and Owyhee rivers. In Oregon and Idaho to which the government reclamation service has a prior claim. Governor Gooding urges in his letter the co-operation of the Oregon and Idaho administrations in an effort to bring about the early reclamation of this vast arid and semi-arid empire.

Yesterday afternoon Governor Chamberlain made reply to the communication from Governor Gooding, assuring him of his hearty co-operation and informing him of his activity in the matter, and also addressed a letter to Chief Engineer F. H. Newell of the government reclamation service, calling his attention to his position and urging him to prompt action in the interest of the early development of that arid territory.

The text of the governor's letter to Engineer Newell of the government reclamation service follows:

The Government Should Act.

"You have doubtless been advised that in an address of welcome to the trans-Mississippi congress I complained at the tardiness with which the officials of the reclamation service were proceeding in the matter of projects in this state, having for their purpose the reclamation of the arid and semi-arid land. Since that time I have seen Mr. Lippincott and he assured me of the early commencement of work in Klamath county, but there is still one important project in this state that does not seem to me to receive the attention which it deserves at the hands of the reclamation service. I refer to that in Malheur county.

"I know that obstacles have been interposed by the successors in interest of a certain land grant corporation and possibly by some individuals as well, but I am advised that a company has been organized for the purpose of reclaiming the lands along the Snake river in Oregon from the vicinity of Mitchell Butte (near the head of the present Owyhee ditch) up the Malheur river to Vale and again along Snake river to a point in Oregon nearly opposite Weiser in Idaho, and along Snake river south of the Owyhee river in Oregon and up the Snake river in Idaho to a point near Murphy in that state. The area proposed to be covered by the company aggregates approximately 150,000 acres. I am advised that the honorable commissioner of the general land office rejected the application of the company referred to on the ground that the reclamation service might need it in the proposed irrigation project near Ontario, Oregon.

Willing to Co-operate.

"It has always been my purpose to co-operate with your department and to do everything in my power to assist in its work, nor have I any disposition now to suggest an abandonment of any project the government has in Malheur county, but it seems to me that you ought to determine at once whether or not you intend to carry out your intended project there, and if it is not feasible or will not be carried out in the near future, then that your department should satisfy itself as to the responsibility of the company having in hand the project referred to, and if they are able and intend to do what they propose to do, that the government should permit them to proceed.

"It is of the utmost importance to this state as well as to the state of Idaho that the semi-arid lands in the section referred to be as speedily reclaimed as possible, and if the government does not intend to act itself with promptness it ought not to stand in the way of the irrigation of these lands by private enterprise and capital if satisfied of the ability and good faith of those behind such proposed work.

"I suggest that you take this matter up and give it your immediate and careful consideration, because the people of the section herein referred to are becoming restless under delays which the government does not seem to be able to avoid."

Should Encourage Government.

In replying to the letter of Governor

Money to Invest?

See the Real Estate We are Offering

This opportunity doesn't come every day: 160 acres, 80 acres in cultivation; 7-room house; all fenced; running water; 2 acres of orchard, level and located 2 1/2 miles from railroad. You can buy it for \$35 per acre, including 2 horses, 12 head of cows, 20 head of goats, hogs, chickens and farm implements of all kinds. Part time.

132 acres, 100 acres in cultivation; new 8-room house, large barn; all fenced; located 1 1/2 miles from Salem. Terms to suit.

25 acres, 4-room house, 7 acres of cherries, 5 acres of walnuts; located 3 1/2 miles from Salem. Price \$3,400; \$5 cash, balance to suit.

For sale or rent—No. 89, 160 acres, 100 in cultivation; 6-room house, good barn 40x40, one 40x24, sheds, etc.; good orchard, 200 cords oak wood, 1,000 cords of fir; 1/2 mile from school, near railroad, 7 miles from Salem. Price \$32.50 per acre.

We have a fine corner lot in New York Park. Pay \$10 down and balance \$3 per month.

Cottage of five rooms, large lot, fine location on car line; small payment, balance to suit.

See this, 11-room house; barn; two acres of good land; located on car line. There is a bargain in this property at \$2250; part time.

If you are wanting city property of any kind see what we have to offer. We can sell you a number of properties in different locations; small payment, balance monthly.

A large exchange list. Houses for rent. Wir eruchen deutsche Kundschafft.

A GUARANTEED CURE FOR PILES

Itching, Blind, Bleeding or Protruding Piles, Druggists refund money if PAZO OINTMENT fails to cure any case, no matter of how long standing, in 6 to 14 days.
