

ALL READY TO START GRADING

N. P. SEEMS DETERMINED TO BUILD INTO PORTLAND.

GRADING OUTFITS DISTRIBUTED.

Indications Are That Company Is Ready to Start Railroad Along Columbia.

President Levey and Chief Engineer Said to Be in Vancouver to Superintend the Work—Rumor in Portland Falls of Confirmation.

PORTLAND, Or., Sept. 11.—There is a rumor in this city to the effect that men in the employ of the Northern Pacific railroad today landed grading outfits at various points along the north bank of the Columbia river, preparatory to immediately starting active railroad work.

Efforts were made to reach the points where the outfits were said to have been landed, but the places are mostly without telegraph or telephone facilities.

and it is impossible to verify the truth of the statement.

A statement purporting to come from Vancouver, Wash., says Vice-President Levey is at Vancouver with the chief engineer of the Northern Pacific, and in personal charge of the work.

Part of Story Is Denied. Tacoma, Sept. 11.—The Northern Pacific officials here deny that Vice President Levey and Chief Engineer Pearson are at Vancouver, Washington.

NEW CANDIDATE IN SIGHT.

Governor Folk of Missouri Recommended for Democratic Nomination for Presidency.

SALT LAKE, Sept. 11.—Governor Joseph W. Folk of Missouri was recommended for the democratic nomination for the presidency by former Congressman William H. King at a banquet here tonight. The sentiment was warmly applauded even by Governor John Cutler of Utah, Senator Reed Smoot and other prominent Republicans present. The Missouri party left this afternoon for Portland.

DINED BY MANAGER STONE.

NEW YORK, Sept. 11.—Mr. Witte was the guest of honor at a farewell dinner given by Melville E. Stone at the Lotus Club tonight. Invited to meet him and Baron de Rosen were a number of distinguished public men and newspaper representatives.

HOPES GOV'T WILL RESIGN

MASS MEETING AT TOKIO ADOPTS FLAGRANT RESOLUTION.

WANTS PEACE TREATY BROKEN.

Japan Forfeits Fruits of Victory and Sows Seed of Future Danger.

Declares Empire's Honor Has Been Soiled and the Spirit of the Constitution Is Lost—Generals in Field to Outline Neutral Zones.

TOKIO, Sept. 11.—A mass meeting at Osaka passed the following resolution without hindrance on the part of the police:

"The peace just concluded between Russia and Japan forfeits the fruits of victory and sows the seeds of future complications and danger. The government's high-handed and unconstitutional measure resulted in an unexpected disturbance of the peace of the city in which the mikado resides. The empire's honor has been soiled and the spirit of the constitution is lost. Never has a country been brought to face greater danger. Therefore, resolved, that we hope the humiliating peace agreement will be broken and the government will resign."

Generals Agree to Armistice.

Gunshu Pass, Manchuria, Sept. 11.—General Linevitch's answer to Field Marshal Oyama's letter requesting an armistice was dispatched today by special messenger. The Russian commander accepts the proposals of the Japanese, which not only refers to armistice length to the question of armistice, but also to the neutral zones on land and sea.

General Fukushima and General Ovanosky, their respective plenipotentiaries, will meet next Wednesday at Chakozha, on the railroad, as proposed by Oyama. The place is midway between the Japanese and Russian lines.

Waiting for Ratifications.

St. Petersburg, Sept. 11.—No orders are yet given for the return home of the interned warships in accordance with the terms of the peace treaty. The admiralty can do nothing until notified of the exchange of ratifications. The period of internment has been used to repair all the damages sustained in the battle of August 10, and the battle of the sea of Japan.

EXCLUDES NEGRO STUDENTS.

Twenty Colored Pupils Turned Away at Kansas City—Parents Will Contest.

KANSAS CITY, Mo., Sept. 11.—Twenty negro pupils were refused admittance to the white schools at Kansas City, Kas., today, and it is said they will contest the case in the courts. The Kansas legislature last winter passed an act separating the negroes in the Kansas City high school. Bonds were voted for the erection of a school for the negroes, but the structure has not been erected. Until the negro school can be built there will be two sessions of the white school. The white children will be permitted to attend in the morning and the negroes in the afternoon.

At Bonner Springs, Kas., near here, fifty negro pupils left the school building when the members of the board of education notified them that they would have to occupy the same rooms as the whites. In both instances the negroes withdrew quietly and there was no show of a clash.

INCOMPETENTS WILL SUFFER.

Employees of Navy Department to Be Promoted at Expense of Inefficient.

WASHINGTON, Sept. 11.—Many employees of the navy department at Washington and the various navy yards will be affected by the adoption of a new policy by the department respecting promotions where increases in salary have heretofore been paid out of the lump fund for an increase in the navy. It has been decided that hereafter the expenditures of this account will not be increased, consequently if the employees to be promoted are affected only by a readjustment of salaries, which involve corresponding reductions in the case of employees whose records for efficiency are not of the best. In other words, the best employees will be promoted at the expense of the less efficient.

CHURCH MEMBERS GET WROTH

LOS ANGELES, Cal., Sept. 11.—Prominent men and women called each other "devils" in the course of a factional fight in which the members of the First Baptist church engaged during Sunday morning services yesterday. Because Pastor Joseph Smale espoused a sect known as the "Holy Jumpers," scandalized members of his church attacked the pastor and his supporter, Deacon McVilvie Dozier, when the former appeared in his pulpit yesterday morning. The congregation, almost as a unit, charged the pastor and his friends, the "Holy Jumpers," as being engaged in the service of the devil, instead of righteousness. The storm broke out anew at the evening session, when McVilvie was summarily expelled from membership in the church, and Smale's resignation was demanded. Smale was pastor during dissensions in the church a year ago, when he went abroad. He returned a few weeks ago, thinking quiet had been restored, but his appearance was the occasion of a fresh outbreak which had its culmination yesterday.

TO POOL NEW WHEAT CROP.

Central Washington Growers Will Combine to Boost the Price of the Cereal.

SPOKANE, Wash., Sept. 11.—Farmers of central Washington have formed a pool to control from 1,000,000 to 2,000,000 bushels of this year's wheat and to boost the price of the cereal up to 75 cents net for the growers. A mass meeting was held at Sprague Saturday afternoon to complete arrangements for the pool, and at that time the farmers signed an agreement binding each man to hold his wheat crop until December 1, unless the whole quantity can be sold prior to that date for 75 cents a bushel. Last year farmers shipping from Sprague and Keystone doled 325,000 bushels and sold it three cents higher than the ruling market price. It is believed that an equal degree of success can be reached by this year's combination. Farmers represented at Ritzville and the number of bushels of wheat they control are as follows: Ben F. Berry, 58,000; W. R. Cunningham, 20,000; J. F. Collier, 20,000; Fred Kember, 17,000 and J. F. Irby, 18,000.

ON THE VERGE OF REBELLION

IMPLEMENTS OF WAR BEING SMUGGLED INTO FINLAND.

FOUND BY CUSTOMS OFFICIALS

Guns and Cartridges Hidden on Island in the Gulf of Bothnia.

Steamer Loaded With Rifles and Ammunition Discovered Outside of Jakobstad and Crew Scuttles and Sinks Ship and Escapes in Lifeboats.

HELSINGFORS, Finland, Sept. 11.—The customs officials Saturday discovered 600 carbines of Swedish manufacture and 120,000 cartridges on an island in the Gulf of Bothnia. Sunday a boat belonging to the customs service discovered a 300-ton steamer outside Jakobstad loaded with rifles and cartridges. The officials ordered the captain to take the vessel into port.

The steamer proceeded toward shore. Suddenly explosions were heard from the steamer and the customs officers on returning found the vessel sinking and her crew in lifeboats disappearing. The steamer's name was painted over. American and German flags were found on board.

Looks Serious to Russia.

St. Petersburg, Sept. 11.—News from Finland of the discovery of an importation of rifles and ammunition in large quantities is the most serious disclosure regarding the revolutionary movement in Russia yet made, as it indicates the intention to form a regular military organization.

STILL SPITEFUL

TURKISH GOVERNMENT REFUSES TO GRANT VARTABIAN PRIVILEGES OF AMERICAN.

Naturalized Armenian, Sentenced to Death for Murder, Will Be Treated as Turkish Subject—Turkey Will Dump Armenians into America.

WASHINGTON, Sept. 11.—Minister Leishman's report to the state department indicates the Turkish government is disposed to maintain strongly its position that the naturalized Armenian who was sentenced to death for murder at Stamboul, be treated as a Turkish subject and not be allowed the privileges of an American citizen. The minister is continuing his efforts in behalf of Vartarian.

Armenians to Be Deported.

Boston, Sept. 11.—Advice received by the local immigration office are that 500 Armenians have been gathered at Harpoon and 200 at Malatia, Turkey, and thrown into prison to be deported to this country. The prisoners, it is said, are all returned immigrants, some having gone from the United States as far back as 1898.

TROUBLE AHEAD

TYPOGRAPHICAL UNION TO ENFORCE COMPLIANCE WITH EIGHT HOUR RULE.

Union Committee and Committee from Indianapolis Fail to Agree at Conference and Unions Have Orders to Strike When Demand is Refused.

INDIANAPOLIS, Sept. 11.—The international typographical committee and a committee from the typographers of this city failed to agree to an eight-hour day at a conference today. The local typographical union ordered all members in this city to strike at once in every shop where the eight-hour day it not in effect. James Lynch, the president of the typographical union, said: "I have instructed the unions of the respective cities to demand contract immediately for an eight-hour day to commence January 1. Where the demand is refused they are instructed to strike at once."

MAY EFFECT AUSTRIAN POLITICS

Hungarian People Will Not Be Granted Universal Suffrage on That Account.

VIENNA, Sept. 11.—All hope of peace between the crown and the united opposition in the Hungarian diet seem to have come to an end. It is understood that Emperor Franz Joseph, who was apparently inclined to acquiesce in the plan of the Hungarian ministers for granting of universal suffrage, has been induced to change his mind by the Austrian ministers, who feared the effect on the political conditions of Austria, if universal suffrage were granted the Hungarian people.

BRIEFS FROM VALE.

VALE, Or., Sept. 11.—Circuit court convened in this town today; there are several important cases on the docket. The public school reopened today with a large attendance of pupils. The school grounds have been cleaned up and new walks built and other improvements made, which add greatly to the general appearance as well as the convenience of the pupils. The school house has also been encased, the seats all varnished and new window curtains ordered.

DOUBLE BEING SHADOWED.

Remarkable Resemblance to Absconding Forest Grove Banker Cause of Mistake.

FOREST GROVE, Or., Sept. 11.—Owing to the remarkable resemblance to Anton Pfanner, the banker who disappeared from Forest Grove seven years ago with \$40,000 of deposits in the bank over which he presided, and which straightaway suspended, an unknown man in San Francisco is being shadowed by detectives. J. N. Wilkins recently sent word to City Marshal Cronin that he had seen Pfanner in the city and steps were taken to secure his apprehension. It now appears that this person is none other than a double of Pfanner.

John Becker, a basket maker of Greenview, a village near here, who was acquainted with Pfanner, and who is now in San Francisco, says there is a man now living in San Francisco who looks so much like the absconding banker that it would be impossible for a person knowing each of them to tell one from the other. The report is here that Pfanner had been seen in circumstances, and it is believed that a remarkable resemblance is responsible for the mistake. However, an investigation is now being carried on to determine beyond dispute the identity of the man who answers the description of Pfanner.

The latter is believed to have died in Switzerland in prison some years ago.

CHILD'S FRIGHTFUL INJURY.

Both Feet of Baby Cut off by a Reaper Operated by Her Father.

VICTORIA, B. C., Sept. 11.—Through an accident of the harvest field the family of J. A. Kew of Salmon Arm, this province, has been plunged into the acute grief, the little 2½-year-old daughter being cut off by the knives of the reaper which her father was operating. Kew has a farm about a mile and a half from Salmon Arm station, and was cutting his crop of oats. The little girl was playing in the big field unseen when the machine came along, the knives with their strong sweep severed both feet. Dr. Sutherland was telephoned for and sent the little sufferer to Revelstoke hospital. Adding to the pathos of the affair, the mutilated baby's mother is at present very low indeed at Kamloops hospital.

AMERICAN MINING CONGRESS.

Official Call Is Issued for the November Session at El Paso, Texas.

EL PASO, Texas, Sept. 11.—The call for the next annual meeting of the American mining congress has just been issued. The meeting will open on November 14 and will be in session a solid week. The membership of the association is composed of the leading mine owners and engineers of the country and the meetings are always attended by several thousand delegates.

According to the call of the convention, each city, chamber of commerce, state, county and mining organization in the country can appoint delegates, and all states having mining interests, which include almost every state in the union, will send delegates.

HOME IS BROKEN UP.

So Shoemaker Jerszyski Seeks Revenge With Knife.

SAN RAFAEL, Cal., Sept. 11.—J. Bogdan, a contractor, living at 154 Fifth street, San Francisco, narrowly escaped death yesterday at the Polish society's picnic in Fairfax park. Joseph Jerszyski, a shoemaker from the same city, lay in wait for Bogdan at the park gate with a dirk, and as Bogdan passed he made a lunge at Bogdan's neck. His aim was bad and he only cut the contractor on the left jaw, narrowly missing the jugular vein. Jerszyski was arrested and admitted the crime, saying he was sorry he had not killed the contractor, as Bogdan had stolen his wife's affections.

TO PUT DOWN ANARCHY.

MADRID, Sept. 11.—The cabinet meeting authorized the minister of the interior to organize a body of special police for the supervision of the anarchists in Barcelona.

TWELVE LIVES ARE SACRIFICED

FRIGHTFUL ACCIDENT UPON NEW YORK ELEVATED ROAD.

SWITCH SIGNALS SET WRONG.

Ninth Avenue Car, Loaded With Human Freight, Plunges Into the Street.

Horrible Sight Is Viewed by People Passing Along Street—Motorman Is Fugitive, but Conductor, Switchman and Guard Arrested.

NEW YORK, Sept. 11.—The death list of today's accident on the Ninth avenue elevated railroad, when a car crowded with early morning workers on their way down town, pitched headlong into the street, stands at twelve. Three men are in the hospitals with fractured skulls, one of these yet unidentified at the Roosevelt hospital is unconscious and not expected to live.

More than two score of persons were injured, many seriously. The cause of the accident and immediate responsibility are not yet known. The motorman of the wrecked train is a fugitive, while the switchman, conductor and four guards are under arrest. Whatever may have caused the mistake, the accident, the worst in the history of overhead railroads in New York, came when a southbound train on the Ninth avenue line switched to the Sixth avenue line at Fifty-third street junction. The motorman, expecting a clear track on the direct line of Ninth avenue, without regarding the warning signal that the switch was open, rushed the train along at a high rate of speed. The first car swung around the right angle curve, holding to the rails because of the weight of the train behind. Then the couplings broke and the second car was whirled about almost end for end and pitched into the street.

The first indication the people on the sidewalk had of the wreck was a loud rumbling along the overhead structure. Looking up they saw a shower of sparks. Then followed splinters and the sound of splitting timbers. Suddenly the outer guard-rail of the railroad structure gave way, a score of bodies were hurled through space and with a deafening crash the car fell to the street. For an instant it stood fairly on end, then the sides gave way, belching out a mass of humanity.

The passengers who had not jumped from the platforms and windows before the plunge came, were thrown into a mass at the forward end of the car and as the injured men and women were struggling to free themselves the heavy front trucks of the third car on the train fell across their midst as the car itself jumped partly off the elevated structure. Almost every ambulance in Manhattan was summoned and the injured and dead were hurried away with all speed. Eight persons were dead when they were taken out of the wreck and four did in the hospitals.

Before the great crowds collected by the news of the wreck could be cleared away, the police were compelled to use their heavy night sticks on a number of men who were attempting to snatch jewelry and other valuable from the victims. The officers had no time to make arrests, contenting themselves in drubbing the miscreants as heavily as they could. Conductor Johnson in a statement said: "The signals were set wrong. That was the trouble. They were green and yellow which is for the Sixth avenue train."

AVERAGE RAN HIGH.

Five Principal Wheat Producing States Give Large Yield of Spring Wheat.

WASHINGTON, Sept. 11.—The department of agriculture crop bulletins show the average condition of spring wheat when harvested was 87.3. The condition of the five principal states follows: Minnesota, 84; North Dakota, 89; South Dakota, 89; Iowa, 91; Washington, 91.

Severe Thunderstorm

A heavy thunderstorm passed over the city yesterday afternoon which upset the nervous system of not a few and just think of the condition of your system by having those old decayed teeth in your mouth. Poor teeth mean poor mastication and that means stomach trouble. So, if not for appearance sake, for your stomach's sake see B. E. Wright, the painless dentist, about having those teeth out and replaced by a perfect fitting plate. I guarantee to extract your teeth without pain and if I can't fit you better than any dentist in Salem and save you money, I don't want a cent. That's fair isn't it?

CHICAGO STORE

PEOPLES BARGAIN HOUSE

FALL OPENING

OF
