

## BRYAN OFFERS A SUGGESTION

### SUBMITS PLAN FOR BRINGING ABOUT PERMANENT PEACE.

### THINKS QUESTIONS OF DISPUTE SHOULD BE SUBMITTED TO INTERNATIONAL COMMITTEE FOR INVESTIGATION AND REPORT.

### If This Plan Were Adopted Believes Danger of War Would Be Reduced to Minimum—Tries to Throw Cold Water on President's Brilliant Success

LINCOLN, Neb., Sept. 14.—A letter addressed to President Roosevelt from William J. Bryan, in which a plan for permanent peace was suggested, was made public this evening. Bryan says: Why not ask congress for authority to submit all international questions (when an agreement cannot be reached by the parties interested) to an impartial board for investigation and report. The investigation will in nearly every case remove the cause of complaint and reconcile the parties.

"It was a glorious thing to end the war between Russia and Japan, but it would have been more glorious to have prevented the war and saved the frightful loss of life. The congratulations you received from the heads of the European governments strengthened the chances of success. If the leading nations of the world would enter into an agreement to join in the creation of such a board and pledge themselves to submit all disputes to a board for investigation before declaring war the danger of war would be reduced to the minimum. Few men have had the power to do much for humanity; will you improve the opportunity?"

—W. J. Bryan.

### President Roosevelt Endorsed.

LINCOLN, Neb., Sept. 14.—The Nebraska Republicans at the state convention nominated the following ticket:

Justice of the supreme court, Charles B. Lott of Fairbury.  
Regents of the university, U. G. Lyford of Falls City, and Frederick Abbott of Columbus.  
The platform endorses the administration of President Roosevelt, and praises him for bringing about peace between Russia and Japan. The platform continues:

"We believe strictly in the principle of equality before the law as applied to the transportation business and therefore demand immediate relief through the enforcement of existing laws or through amendatory legislation from the payment of rebates to favorite shippers and the unlawful and wrongful discrimination between communities and individuals both in the state and the nation."

## WITH BIG LOSS

### GRANGEVILLE, IDAHO, IS VISITED WITH FIRE WHICH DESTROYS MUCH PROPERTY.

Sweeps the Heart of the Business District and Inflicts Damage Approximating Two Hundred Thousand Dollars.—Communication Is Destroyed.

GRANGEVILLE, Idaho, Sept. 14.—Fire swept the heart of the business district at an early hour this morning and the loss is approximately \$200,000. The fire is created to a fire long. With remarkable rapidity the fire leaped from building to building until the flames were visible at Denver, ten miles away. Telephone communication was destroyed, but the fire itself served the purpose of summoning help and a number of fire fighters came from miles around.

The heaviest loser was the firm of Alexander & Friederich, their loss be-

## NOT A CANDIDATE

### WILLIAM J. BRYAN DEFINES HIS ATTITUDE REGARDING PRESIDENTIAL NOMINATION

### His Place in History Will Be Determined by What He Will Do for the People and Not What the People Are Able to Do for Him.

CHICAGO, Sept. 12.—"I want to say that not only am I not announcing my candidacy, but I am not permitting my candidacy."

These words Wm. J. Bryan administered to check the enthusiasm which, at the Jefferson club banquet tonight in Bryan's honor, greeted the speeches advocating his nomination for a third time for the presidency.

"I am not now," said Bryan, "a candidate for any office. The talk of candidacy for office does not affect me as it once did. My place in history will be determined not by what the people are able to do for me, but what I am able to do for the people. It is too soon to choose a candidate for president to make the race three years from now; it is too early to pledge ourselves to any one man. I trust that before the time comes to name a man for the next presidential nomination more light will be thrown upon the party's pathway and that man be chosen who will be the best able to do for the party more than I have yet been able to do."

## VICTORY FOR GROWERS.

### Smutty Wheat Will Not Be Graded Lower Than Formerly.

TACOMA, Wash., Sept. 14.—Washington wheat growers are happy over the announcement by the state grain inspection department that there will be no change in the present system of grading smutty wheat. Wheat containing smut will be graded as No. 1, smutted, although the growers will have to submit to the higher charges made by the combine for smutting the grain.

The charge for smutting will, however, be from 5 to 20 cents against a charge of 3 and 4 cents in former years, the commission deciding that it has no authority to say what shall be charged by the buyers for this work. The commission will experimentally, for a month, fix the dockage on each car of prove successful, it will be adopted permanently.

## POLITICS OF NEW YORK.

### NEW YORK, Sept. 14.—Representatives of the citizens union withdrew tonight from a conference of the various political organizations opposed to Tammany hall. A conference has been called for the purpose of determining upon the mayoralty candidate to oppose Mayor McClellan, who, it is generally understood, will stand for re-election as the Tammany nominee.

## GOVERNOR REMOVES AUDITOR.

### Charges Indiana Official With Investing State Trust Funds in Own Private Interests.

INDIANAPOLIS, Sept. 14.—David E. Sherrick, auditor of the state, was removed from office by an executive order issued by Governor Haney at noon today. The order charges that the official is guilty of a plain and inexcusable violation of the law and a gross betrayal of public trust in the investment of trust funds belonging to the state in private interests of his own.

## LIFE IS CRUSHED OUT.

### Canadian Miner Dies From Caving Gravel in Cariboo District.

VICTORIA, B. C., Sept. 14.—News of the tragic death of John Campbell, a miner, has just reached here from Harper's camp, Cariboo district. July 1 Campbell left Harper's camp and went to the Horseshy river to claims about twenty miles upstream. Not returning when expected an investigation was made and the body of the unfortunate man was found close to where the gravel had caved on him, his tools lying at his side, where he had struggled to release himself until he died of asphyxiation. The deceased was a pioneer miner of the camp, and was one of the original locators of the property now owned by the Ward Horseshy Mining Company, one of the richest mines in the district. He was about 65 years of age and came to British Columbia from St. Paul, Minn. He is believed to have relatives in that state.

## REPORTS SEEM CONTRADICTORY

### SITUATION BETWEEN NORWAY AND SWEDEN IS SERIOUS

### BREACH IS GROWING WIDER

LONDON, Sept. 13.—Dispatches from Christiania represent the situation between Norway and Sweden as serious on account of the determined attitude of the Swedish commissioners. Dispatches from Stockholm, however, are less pessimistic, and express the hope that a modus vivendi will be arranged.

Much interest is aroused by the presence in London of Pritof Nansen, the Arctic explorer, who, in February, was considered a likely candidate for the premiership of Norway and who, since the dissolution of the union, has been spoken of as first minister of Norway to Great Britain.

According to a dispatch from Gothenburg, it is believed Norway will accept the Swedish terms and that Sweden will agree to the arbitration of a treaty.

## ENDS IN KILLING

### RANCHMEN QUARREL AND ENGAGE IN BATTLE WITH RIFLES AND REVOLVERS.

### 'Dick' Bennett Shot to Death and His Slayer Gives Himself up—Trouble Arises Over Alleged Insult to Wife of Dead Man.

### THE DALLES, Sept. 14.—A terrible battle occurred at Dufur springs on the Deschutes river, forty miles south of The Dalles, last Tuesday morning, resulting in the death of Richard Bennett Darnell, better known as 'Dick' Bennett, and the arrest of his slayer, Chas. Underwood, who is held on a charge of murder. Underwood was brought in by Sheriff Sexton last night, and from him the particulars of the killing were learned.

It appears that Underwood, his half-brother, Maurice Woodward, and Darnell had the Dufur Spring ranch leased in partnership. On Monday evening Mrs. Darnell went to the rented place to gather fruit, when she and Underwood engaged in a quarrel. Mrs. Darnell returned to her home across the river and that night told her husband of the trouble she had with Underwood.

This so enraged Darnell that he summoned his hired man, J. A. Simmons, and crossed the river to the place occupied by Underwood and Woodward, and routed them out of bed about 11 o'clock at night, declaring that he would kill both of them unless they accompanied him home and apologized to Mrs. Darnell.

At the point of his revolver he forced them out of the house. Woodward ran away and Darnell fired a shot at him, but without effect.

Underwood accompanied Darnell to his home and made due apology for what he had said and was permitted to go, though with the statement from Darnell that he would be killed unless he left the country.

On returning home Underwood borrowed a Winchester rifle from a neighbor and took it with him when he and Woodward went to work next morning. About 8 o'clock the young men saw Darnell and Simmons approaching. Darnell with a drawn revolver in his hand.

After the shooting Underwood went to Tygh Valley and surrendered himself to Justice of the Peace Harper, who held him until the arrival of Sheriff Sexton.

Underwood is 25 years of age, unmarried and has heretofore borne a good reputation. Darnell is 46 and leaves a wife and several children. He was known to his neighbors as a quarrelsome and desperate man.

## CRATER VOMITS FIRE.

### People Around Volcano Stromboli Are Terrified—Veuvius Has Subsided.

NEW YORK, Sept. 14.—The Herald's European edition publishes the following from its correspondent at Naples: The eruption of Mount Vesuvius continues as in the last few days, but without tending to any increase. On the other hand, according to a telegram to the Mattina, Stromboli is causing great alarm, its crater vomiting a high pillar of fire and dense smoke accompanied by loud noises. The ground prescribes numerous crevasses and many houses have been abandoned. The custom house and telephone stations have collapsed.

## HOUSES BURNED

### ELECTRICAL STORM AT SILVERTON CAUSED CONSIDERABLE DAMAGE ON MONDAY.

### Two Barns and a Hop House Reported Destroyed by Lightning, While Trees Were Struck in Many Parts of the County.

SILVERTON, Sept. 12.—The electrical storm on Monday evening did some damage in this community. The barn and chicken house belonging to Mr. Steen, near the university, was struck and burned down. The hook and ladder company responded to the alarm and made the run three-fourths of a mile, but too late to do any good.

The large barn on the John English farm is reported as being destroyed by lightning. Several trees near town were struck. It is also reported that a hop house on the Abiqua was struck and burned down. No lives were lost that we can learn of. Old timers call it the longest electrical storm remembered at Silverton.

J. H. McKorkle is building a neat little barn on his lots on Oak street. It seems that building will continue all winter, the demand for houses is so great.

At the Eoff place, in the south end of Howell prairie, a large tree was struck within 10 feet of the house, but doing no damage except to the tree.

## MEXICO HARBERS ORANGE PEST

### California Growers Fear Danger to Crop From Destructive Orange Maggot.

SAN FRANCISCO, Sept. 14.—John Inase, after acting as representative for California in conference with the horticultural authorities of Mexico, has just reported that he has discovered that six and perhaps more states in Mexico are harboring a foe of oranges which there is reason to dread if it should be permitted to enter California.

He reports that he found thousands of oranges and mangoes have been destroyed within three months by the Mexican in an attempt to eradicate the orange maggot, which has occasioned much damage. The orange maggot proceeds from the ends of the insects known as the trypetes ludens. The fecundity of this insect is something astonishing.
