Arriving trains early this morning brought scores of visitors from points throughout the state. The center of interest was the state fair grounds where President Roosevelt delivered a speech at noon. The president was escorted to the grounds by a detachment of the state guard. President Roosevelt was introduced in a brief but cordial address by Governor Glenn. The president spoke for a half hour, his principal topic being the Chinese exclusion policy. His reception by the crowd was most cordial and at the conclusion of his remarks there were loud cheers, which were repeated at the station as the presidential special resumed its journey toward Atlanta.

In his speech here the president said: North Carolina to have a chance to greet so many of the sons and daughters of your great state. PITTSBURG, Oct. 19 .- The investigation of the condition of the Enterprise National bank closed by the controller of currency vesterday, shows beyoud doubt the institution was conducted in a manner entirely unknown to the directors. Since the investigation began, papers and notes have been brought to their attention which they never saw before. Among these two were notes bearing the name of W. H. A statement made by the Santa Fe Central and Pennsylvania Development companies, on behalf of whom the dead cashier is said to have negotiated loans seems to place all the blame on Clark, who, so far as known, left no statement of the bank's relations with the two companies. Supplementary statements by the signers of the statement show they will take the position that Clark was the fiscal agent of their companies and as such his duty was to raise money whenever necessary.
