

HIS PRESENCE MUCH DESIRED

ATTORNEY HAMILTON TO BE BROUGHT BACK FROM EUROPE

AN ACCOUNTING IS DEMANDED

Attorney in Charge of New York Life's Legislative Matters Must Explain.

Absent Lawyer Said to Be Heavily Indebted to Insurance Company—President McCall Produces Statement in Which He Promised to Pay Debt.

NEW YORK, Nov. 13.—President McCall of the New York Life was called before the Armstrong board of investigation today and was peremptorily requested by the committee to order the return from Europe of Lawyer Andrew Hamilton, who had charge of the legislative matters of the New

York Life. McCall was further ordered to demand an accounting from Hamilton of the money expended by him and the balance he owes the company. McCall denied it was the policy of the company to have Hamilton remain abroad until the investigation had been concluded and said on the other hand he would like very much to have Hamilton return. In replying to Hughes, McCall gave Hughes a copy of the statement of the trustees of the company, in which McCall promised to pay the company \$235,000 by December 15, if Hamilton did not.

Another interesting line of the examination, which was interrupted by the adjournment for the day, was that of John McGuinness, an employee of the Equitable. He produced a memorandum containing instructions from Thomas D. Jordan to A. C. Fields, relative to killing or assisting the passage of every bill introduced in the legislature affecting the interests of the insurance company or any of its officers. President Hageman was recalled today to testify regarding the routine business of the Metropolitan Company.

AT POINT OF DEATH.

CODY, Wyo., Nov. 13.—Colonel Frank D. Powell, noted scout and friend and partner of W. F. Cody, who has been ill here several weeks, has suddenly taken a turn for the worse and death is liable to occur at any time.

CONDEMNNS THE PROCLAMATION

LEAGUE OF LEAGUES OPPOSES MARTIAL LAW IN POLAND.

SAYS THE MEASURE IS ILLEGAL

Governor Scallion Refuses to Permit Organization of Municipal Militia.

Conditions in Poland in Unsettled State and Final Result is Feared—Eminent Diplomat Says Enormous Difficulties Confront Count Witte.

ST. PETERSBURG, Nov. 13.—The League of Leagues has adopted a resolution condemning the proclamation of martial law in Poland as an illegal measure directed against the Polish emancipation movement. The Ruskye Slovo prints a dispatch from Warsaw describing the conversation which Governor Scallion had with a deputation of prominent Poles during which the governor distinctly announced he would not allow the organization of a municipal militia. Moreover, he added, he would neither remove the troops from the city nor streets, and warned the deputation that he is prepared to deal with the situation should the agitation be communicated to the masses.

Under ordinary circumstances, in view of past experiences with Poland, the Russian people would be apt to sympathize with the coercive measures for the suppression of the nationalist movement in Poland, but in the present state of public opinion, the coercion is more likely to create a bad impression, especially as many liberals immediately greeted the proclamation declaring martial law with charges of bad faith. They assert if the government can suspend the reform manifesto in Poland for an indefinite term by imperial ukase, aristocracy can likewise suspend it through the whole of Russia. On the other hand, according to a government official, if the government allows the Poles to continue the present agitation they will inevitably force the government to suppress the movement with the bayonet, which the government desires to avoid. If Poland's demand for autonomy is yielded to, the same demand will cause the surrender of the Baltic provinces and perhaps Caucasus and later all alien races, which so decentralize the power of the empire and its disintegration will be inevitable.

Printed and reliable reports from Warsaw say all parties joining the nationalist movement are following the tactics of Finland, for a complete strike. So long as the attitude of passive resistance continues the issue will be one of endurance. The danger is that the Poles may provoke the active measure which will mean nothing short of a civil war. It would be extremely difficult under the present circumstances to attempt to withdraw the troops from European Russia. The number of troops in Poland, however, is sufficient to cope with the situation. Disquieting reports of the progress of agrarian disorders were received today. The military authorities are rushing troops and machine guns to the affected areas. The inhabitants of Karsk and Tugansky are organizing for the protection of their respective towns. The village of Baslanda in the government of Sartoff has been fired by a wholesale pillage and murder of Jews and intelligentsia by the "black hundred" have not entirely disappeared, although the strictest precautions have been taken against the probable outbreaks. Several murders occurred here last night and several servants left work, announcing that work was no longer necessary as everybody was now on an equality and would receive government pensions.

An eminent diplomat said today "the difficulties confronting Witte are enormous and would overawe a man with a less dominant will and capacity. His task is almost superhuman, but I do not regard it impossible."

Aides Will Take Charge.

St. Petersburg, Nov. 14.—(4:10 a. m.) For the purpose of restoring order and the public security in and around the city, the government has decided to send to the provinces of Sartoff, Cherignoff and Tamboff, aids de camp of the emperor, with almost dictatorial powers. They will not only have power to report directly to the emperor, but also to supersede all local officials and take over the complete control of affairs.

The instructions to the aides instruct them with direction of all troops and police subordinate to them and all organs of the government and department of judiciary, and directs them to discharge officials at their discretion, arrest all persons considered dangerous to public safety and take other measures necessary for public safety.

Military on Guard.

Warsaw, Nov. 13.—In consequence of the discovery of plots to blow up the St. Petersburg & Berlin railroad, all railroads in Russia-Poland are now guarded by the military. A patrol today discovered the line between Warsaw and Tomsk mined. Powerful charges of dynamite had been placed in an underground chamber, to be exploded by the first passing train. A short distance the other side of Warsaw an internal machine exploded and destroyed the track, but the damage was discovered before the arrival of a train.

PITTSBURG, Nov. 13.—When President Gompers called the American Federation of Labor together today, the Old City hall was filled to the doors with delegates from every state in the Union and Canada and visitors. The welcoming address and routine matters occupied the day. When the afternoon session was opened the president read his annual report.

At the conclusion of the president's report, Secretary Morrison presented his report, as did also Treasurer Lennon. After the several reports had been disposed of the convention adjourned until tomorrow.

WILL RELY ON DECISIONS.

McClellan's Attorneys Hold Meeting and Plan for the Defense of Their Client.

NEW YORK, Nov. 13.—At a meeting tonight in the office of Judge Parker, at which were present twelve attorneys, all of whom are retained to represent Mayor McClellan tomorrow, when the board of canvassers meet, decided to rely entirely on the existing election decisions and law as recorded in the statutes. Parker pointed out that there was only one question involved, and that was covered by a decision of the court of appeals written by him. He said it was a dangerous practice to open the ballot boxes, and in his opinion, not within the province of the law.

DEDICATIONS POSTPONED.

HARRISBURG, Pa., Nov. 13.—The dedication of the Pennsylvania monuments at Andersonville, Ga., to have taken place today, has been postponed until next month. The event will be attended by Governor Pennypacker and a large delegation of Grand Army veterans of Pennsylvania.

TROUBLE IN HAVANA.

HAVANA, Nov. 13.—It is believed the government fears a coup d'etat as the number of police at the palace was trebled and for the last two nights the policemen were compelled to sleep on the palace floor.

KING NOTTOC VII.

His Majesty Ushers in Festivities of No-tu-oh Carnival Week in Texas City.

HOUSTON, Tex., Nov. 13.—The arrival of King Nottoe VII. this morning ushered in the festivities of No-tu-oh week, for which Houston has been preparing for months past. Already the city is filling up with carnival visitors, every in-coming train bringing in strangers. The city is crowded as it has not been in years, and it is strictly a holiday crowd. The stores and buildings along Main street are gaily decorated with bunting and flags, and strings of colored lights add to the brilliancy of the scene at night. Everybody in the city is imbued with the carnival spirit, and throughout the week people will give themselves up to a whirl of pure pleasure.

The arrival of King Nottoe, announced by the booming of cannon and the shrieking of whistles, was followed this afternoon by the formal opening of the carnival season bearing the name of "Hike-Along." The grand night parade of Nottoe and the Prince of Tekram will occur tomorrow night. Other features arranged for the week are a grand ball, a spectacular parade of secret societies, a poultry and pet stock show and a week of horse racing.

IS ACCUSED OF FORGERY.

Percy Stock Fawns Worthless Check and Is Arrested by the Police.

A young man giving his name as Percy Stock was arrested by Officer Murphy last evening and will this morning probably be charged with the crime of forgery. Stock, who is about 22 years of age, arrived in this city Saturday evening and engaged a room at the Hutchinson lodging house on State street. He pawned a \$25 check with the landlord signed by F. Williams, and drawn on the Ladd & Bush bank for \$5, and on Sunday tried to get \$15 more but the request was refused. Yesterday it was found that the check is worthless and Stock's arrest followed.

BAD FIRE AT ALBION.

ALBION, Wash., Nov. 11.—Last night at 10 o'clock the flour mills belonging to the Gonz Milling Company, was discovered to be on fire. Before sufficient help to extinguish the blaze could be summoned the large plant was enveloped in flames. A large warehouse fronting the O. R. & N. track was consumed with the mill, and 15,000 bushels of wheat stored in it burned up. The aggregate loss sustained in the fire is \$35,000, on which there is insurance amounting to \$24,000. Fortunately no wind was blowing or the warehouses of the Pacific Coast Elevator and of the Interior Warehouse Company and of the Farmers' Warehouse Company would have gone up in fire. No definite information has been obtained as yet as to how the conflagration started.

NATIONAL FOX HUNTERS.

BARDSTOWN, Ky., Nov. 13.—The National Fox Hunters' association began its ninth annual meeting in this county today. While the association is open to all, and numbers among its members many fox hunters residing in other states, it has never held a meeting outside of Kentucky, where it originated ten years ago. Rudolph J. Fink, president of the association, with a party of Louisville lovers of the chase, are already on the grounds, as are a number of fox hunters from other parts of the country. The meeting lasts one week, there being three races in which some three or four trials are necessary to reach a decision. Several balls will be held, at which the hunters will dance in riding costume.

MINERS AND RAILROAD RATES.

LOUISVILLE, Ky., Nov. 13.—Operators and mine owners representing practically the entire Kentucky field met here today to discuss the question of railroad rate legislation. It is asserted that under the operation of the Esch-Townsend bill the output of Kentucky and Tennessee coal mines would be confined to Kentucky and Tennessee, whereas these mines now compete with Indiana, Alabama, Pennsylvania and West Virginia coal fields.

DISCUSS ROCKEFELLER'S GIFT.

WASHINGTON, Nov. 13.—The presidents and faculty members of state universities throughout the country are rounding up here for the annual meeting of their national association. The meeting is attracting considerable attention owing to the announcement that the association will probably discuss and take action on the subject of Rockefeller's gift to general education. The association will be in session two days.

Banqueters Assemble on Flaggship Maine and Alabama, Then Board Steamers for Steeplechase Pier—Jolly Crowd Receives Notry Welcome.

NEW YORK, Nov. 13.—The famous statement that blood is thicker than water never found a more impressive expression than tonight at a dinner at Bowery, Coney Island, where the enlisted men of the first squadron of the United States Atlantic fleet gave to the enlisted men of the second cruiser squadron of the English navy, commanded by Prince Louis. The British and American sailors assembled on the Flaggship Maine and Alabama this afternoon. They boarded three steamers which landed them at the Steeplechase pier at 6:30. From there they marched to the pavilion, receiving a noisy welcome on route.

Twenty-five hundred sailors took seats, the British and American sailors alternating, without the slightest confusion. By 10 o'clock the fifteen rounds of beer which each sailor received had been disposed of and the men started out to do Coney Island. At midnight various attractions were being a midsummer business and 2500 sailors were having the time of their lives. Boats will come along the Steeplechase pier tomorrow morning at 5 o'clock to take the banqueters to their respective ships.

The dinner tonight was a return to the entertainment which the American squadron received when in England some years ago. While the men enjoy merry at Coney Island the warrant officers of the British squadron entertained the warrant officers of the American ships at a ball on the Drake.

COAL OIL PRODUCTION.

WASHINGTON, Nov. 13.—A report issued by the United States geological survey today shows that the production of petroleum last year was greater than that of any previous year. The total output of crude petroleum in the United States in 1904 was 117,093,421 barrels. The total value of all the petroleum marketed in the United States in 1904 was \$191,170,466. The gain over the production of 1903 was 16,602,081 barrels in quantity and \$6,476,416 in value.

For the first time in the history of the petroleum industry the quantity of oil produced west of the Mississippi river was greater than that produced east of that river. New pools were discovered during 1904 in Texas, California, Kansas, Indian Territory and Oklahoma, and many extensions were made to the old fields. Another notable fact revealed in this last petroleum report is that the automobiles would seem to have set the pace for the rise in the demand for refined petroleum. According to the report, demand was made in 1904 especially for the lighter grades used in internal combustion engine of motors.

CHARITIES CONFERENCE.

ST. PETER, Minn., Nov. 13.—The Minnesota state conference of charities and correction began its fourteenth annual meeting here today with a large and representative attendance. The proceedings will continue several days, and will be devoted to the consideration of such subjects as the care of the insane, the tramp question, county poorhouses, and the care of the sick and destitute. Governor Johnson and Senator Nelson are among the persons of promise whose names appear on the programme.

PASSENGER TRAINS COLLIDE.

PUEBLO, Nov. 13.—Five were injured, two seriously in a rear-end collision between a Denver & Rio Grande passenger train and Rock Island passenger train at 6 o'clock tonight here. The injured were removed to hospitals.
