THE GREATEST

FOOTBALL CONTEST OF THE YEAR IS SCHEDULED FOR CHRISTMAS AT PORTLAND..

An All-Salem Team Will Meet Multnomahs on Their Ground and Are Prepared to Bring Home Portland Sculps—Strong Aggregation to Go Down.

The greatest football contest of the year in this state will be played at Portland on Christmas day between the Multnomahs and an All-Salem team, composed of such players as will be able to protect the athletic honors of the Capital City.

Owing to the fact that W. U. football team had disbanded and that the trustees of the university have ruled that no games shall be played by that organization after November 30, it was necessary to pick an All-Salem team for the coming game.

The management is negotiating with the Southern Pacific Company to run an excursion to Portland on that date and hopes to be able to announce within the next few days a one-fare rate for the round trip. The team hopes that the citizens of Salem will take an interest and accompany them in large numbers to cheer them on to victory.

MURDERS IN BROAD DAYLIGHT.

Believe Letts Are Preparing for Wholesale Slaughter of Germans at Riga.

Peasants Burn Estates and Kill Land Owners and Officers Are Afraid to Interfere—Government Troops on Way to Protect Foreigners.

STOCKHOLM, Dec. 14.—A Dagens Nyheter correspondent, who returned here today from Riga, says: "The Letts, constituting a majority of the population of Livonia, control the situation there. Their hatred toward the German speaking population, which is unrelenting, is caused by years of oppression on the part of the German nobility.

Peasants around Riga are burning estates and murdering the land owners. The Germans of Riga expect a St. Bartholomew any night and it is evident the Letts are preparing for a wholesale slaughter.

In each block one house has been prepared as a fortress, in which to shelter the Germans when the massacre starts. Besides this the householders have established various refuges. Murders are being committed in broad daylight, mostly for revenge, and the police are afraid to interfere. The governor general does not dare to command the troops, not knowing whether they would obey or not.

Several country communities have established republics, intending later to confederate into a Baltic republic. The revolutionaries are preparing an irresistible strike for January, and the workmen are being armed.

The revolutionaries have refused to allow either the Germans or Russians to leave Livonia.

The correspondent says he fears that the deep hatred felt by the Letts for the German nobility and German capitalists will lead to an awful calamity.

Government Sends Troops.

St. Petersburg, undated.—The government is sending several columns of troops to the Baltic provinces of Estonia and Courland and to Riga. In response to appeals from the German embassy demanding the protection of the German subjects the government replied that ample troops were now on the way to ensure protection to all foreigners. August Von Hennings, a prominent member of the Baltic nobility and assistant chief in his district, was atrociously murdered at his residence near Riga by a revolutionary band. Two dragoons who had been detailed to guard his residence were also killed.

A message from Moscow, just received, says that according to reports received there Kantonius, the bishop of Volhynia, in southwest Russia, is instructing the priests to calm the agitation in that section. Nevertheless it is said that some priests are inciting the population against the Jews, Poles and students, as enemies to the country.

TRADE DEPRESSION.

Reports Just Issued in England Show Change of Rate of Wages and Hours.

WASHINGTON, D. C., Dec. 14.—Consul Daniels, of Sheffield, Eng., writes that a report just issued by the labor department of the board of trade shows the change in rate of wages and hours in 1934 shows the effect of trade depression in the United Kingdom. So far as could be ascertained by the department nearly 801,000 people had their wages changed during the year, and of these, while 785,000 sustained decreases amounting to about 196,996 pence equivalent to \$5,839 per week. The net result of all the changes therefore was a decrease of about \$190,766 per week. If, however, the effect of the wage changes be calculated from the date of each change to the end of the year it is found that the aggregate decrease in wages due to these changes during the year 1934 was \$4,564,777. The industries principally affected were coal mining, iron mining, iron and steel manufacture, ship building, glass bottle making and building.

COAL MINERS

DIGGERS OF BLACK DIAMONDS AGAIN THINK OF STRIKING IN PENNSYLVANIA.

Convention May Demand Eight-Hour Work Day and Recognition of Union In Such Case Trouble Is Sure to Arise.

SHAMOKIN, Pa., Dec. 14.—The miners of the three anthracite districts met in convention here today to decide the question as to whether there will be a strike or lockout at the termination of the agreement between the mine workers and mine owners next April.

The convention was called to order in the opera house by President John Mitchell of the United Mine Workers. The convention will be in session several days, during which time a list of demands will be prepared for submission to the operators. The chief demands, it is said, will be an eight-hour day, wage payments according to weight, uniform wages for all employes, a uniform scale for rock slate, water and dead work, and the recognition of the union.

Philadelphia, Pa., Dec. 14.—If the report from Shamokin proves true that the convention of the anthracite miners begun today will demand an eight-hour workday and recognition of the union, it is regarded as a settled fact that there will be trouble with the operators. There appears to be a difference of opinion among the miners in regard to the attitude the union should assume next year. Some are said to be of the opinion that since the last strike they have been greatly bothered and are able to make more money. There are, however, a large number who will insist upon the union being recognized and will fight for an eight-hour day.

The Shamokin convention is expected to show definitely how the men stand regarding the new contract to be made with the operators. Just what will be asked is not known. It is thought that President Mitchell is desirous of gaining at least one point, perhaps by compromise, and one of the principal things the union desires is for the various operators and companies to collect the dues from the miners. This request, however, will be refused by the coal companies.

The request for a shorter workday and for recognition of the union will also be turned down. This may then lead to another strike. It is thought, however, that the miners will not risk all this time, as they will ascertain what the feeling of the public is and what stand President Roosevelt will take. It is said that President Roosevelt believes the miners have done very well under the present agreement.

THREE JURORS ARE ACCEPTED

ATTORNEYS MAKE SLOW PROGRESS IN CHOOSING MEN.

TO TRY THE BEEF TRUST CASE

Many Clashes Occur Between Opposing Counsel in Examination of Venemen.

Commissioner of Corporations and Chief Assistant Becomes Witnesses for Defense, Which Will Endeavor to Prove Packers Secured Immunity.

CHICAGO, Dec. 14.—Three jurors, two of whom are carpenters and one a real estate dealer from the interior of the state, have been accepted by both the government and packers' lawyers in the "beef trust" case now at the bar before Judge Humphrey.

Considerable difficulty in securing competent men is being met with and during today's examination of the venemen, clashes between the opposing counsel were frequent. When the court adjourned tonight each side had exhausted three of their seven peremptory challenges.

It developed today that Commissioner of Corporations Garfield and his chief assistant, Dr. Durand, have practically become witnesses for the defense, inasmuch as Garfield has been served with a subpoena duces tecum, issued at the instance of the defense to produce every book, paper, record or report he has now or did have. By this it is declared the defense will endeavor to show that Garfield has sworn statements in his possession made by the packers during Garfield's investigation and that in view of this fact the packers gained immunity from criminal prosecution.

HAZING MUST STOP.

Authorities Determine to Stamp Out Brutal Practices at Annapolis Naval Academy.

WASHINGTON, Dec. 14.—Hazing of every kind, it was announced today, will be stamped out at the naval academy, regardless of the number of dismissals from the brigade of midshipmen that may be necessary to bring about this result. Two midshipmen will be dismissed from the academy within a few days, one for hazing and the other for countenancing it by failure, while on duty, to report its occurrence. Other dismissals will follow as often as the midshipmen are found guilty of hazing or countenancing it.

No secret is made at the navy department of the determination of the officials to make short shift of hazing, "running" and all such practices at the academy. If necessary, it is understood the president will be appealed to to veto any bill passed by congress providing for the reinstatement of midshipment expelled for hazing or countenancing it.

VICTIM OF MOB

M. L. RYAN, THE HOLINESS LEADER, IS ROUGHLY HANDLED IN CALIFORNIA.

The Victim of a Slanderous Report, He Is Accused of Immoral Practices and Subjected to Persecution by an Irate Gang Near Eureka.

EUREKA, Cal., Dec. 14.—(Special to The Statesman.)—That M. L. Ryan was the innocent victim of an irate mob, incensed without just reason or cause, is the opinion of the Eureka public and many good people of Kohnerville. A number of letters from various individuals of that place testify in his behalf. The mother of one of the proposed students became hysterical when her daughter was about to leave. The father had given his consent previously, but with his son, stirred up the mob, which perpetrated the act which is now condemned by all. Ryan was horse-whipped, put in the middle of the road and made to walk several miles amid the jeers and taunts of the instigators. There is talk of prosecuting the instigators and leaders.

(The foregoing dispatch refers to Mr. M. L. Ryan, who is conducting the holiness mission on Twelfth street, near the woolen mills, in connection with which is a school or college. It appears that Mr. Ryan, while soliciting or procuring students for the institution in northern California a few days ago, was roughly handled by a mob on account of a false report which was circulated to the effect that he was obtaining girls for immoral purposes. No such charge is justified against these people. They are zealous in the cause in which they are engaged—perhaps some might think overzealous—but they are well-behaved, good, moral people, laboring along the lines of charity, education and general helpfulness, and their work here seems to be deserving of encouragement and not censure or contumely. Mr. Ryan was not, certainly, a fit subject for mob violence.)
