#### GREAT ADVANTAGES.

A decided advantage Marion county has over many others is the di-versified farming interest that can be carried on throught the entire year; notwithstbnding this is a wet climate during the winter months, the uplands are seldom too wet to work, and long before the prairie farmers are through with their seeding, the hill farmer is preparing for his summer work. And yet the low lands are much preferred by many, the yield per acre is generally greater, and perhaps less labor is re-quired to place the soil in proper condition for crops; and then should CALIFORNIA! the Land of Discoveries. the season prove dry, the bottom lands are sure to bring the best crops. No better farming land can be found in the United States than Those who have used it "Your dies are giving satisfaction, and a cus-tomer with Bronchills says it is the only remedy that gives instant relief. SEBBELL & COVER, Druggists, Riverside, Cal." Have you that your Preparations are meeting with large sales. \* We hear Nothing the Design from any be found in the United States than that on the noted Howell prairie, French prairie, Santiam prairie and Salem prairie. The soil of these are wonderfully productive. With good cultivation, forty bushels of wheat and sixty of oats per acre can be readily secured.

Nothing but Praise from any n too use them. NANSCAWEN & Co., Druggists, Visalin, Cal.
