

LOCAL AND GENERAL NEWS

Condensed Account of Doings in City and Country.

LOCAL NOTES.

P. H. D'Arcy, Esq., is to deliver the Fourth of July oration at Turner. J. O. Goltz of Portland has been in the city for a few days, and returned to Portland this morning.

There will be a call meeting of the Y's at the residence of Prof. Parvin on Saturday (to-morrow) afternoon at three o'clock. All the members are urgently requested to be present.

The Catholic Church. Bids for the construction of the superstructure of the new St. John's Catholic church were opened at the office of Architect Robert last night, and were as follows: D. T. Campbell, of Portland, \$5900; Littell & Stephens \$4900; Rogers & Southwick, \$4,375.50; C. A. Roberts, \$3,995; A. Olinger, \$3,800. The bids are now being considered by the building committee.

Mr. Olinger's bid was withdrawn this afternoon, and the contract was awarded to Mr. C. A. Robert.

Mr. D. D. Prettyman, who has just returned from a sojourn in Idaho, brings in a fine box of seedling cherries raised by his brother, H. W. Prettyman, on his nursery in East Portland. They were started from the Luelling seedling, and are remarkable for their size, and rich flavor.

Arthur E. Holgate left yesterday, after an extended visit here among friends, for Portland and Seattle. He will likely go to the latter place to make his home, as he has concluded not to return to Dayton. Arthur's friends here wish him success wherever he may go.

In compliance with general orders, the members of B company will assemble at their armory, Friday, June 29, at 8 p. m., for inspection and muster. SAM'L L. LOVELL, Captain Commanding B. Company.

M. E. Goodell, the new justice of the peace of East Salem precinct, has filed his bond in the sum of \$1,000 with J. D. McCully and J. W. Hodson as sureties. He will have his office in the southeast corner of the old court house for the present.

Just after the 4th the republicans of this city will hold a grand ratification meeting, which will be a regular justification over the nomination of Harrison and Morton. Prominent speakers will be present.

On Monday evening, June 25th, 1888, Mrs. H. T. Wilkins, mother of M. G. Wilkins of this city, died at Corvallis, at the age of 65 years. She came to Corvallis from Mississippi eleven years ago.

Henry Croft, who was arrested yesterday at the instigation of Elmer Reese, for assault and battery, appeared in Justice O'Donald's court this morning, and settled the case by paying costs.

Dr. Richardson has moved into the elegant residence of A. F. Wheeler adjoining the state insurance building on Commercial street, Mr. Wheeler having removed his family to Portland.

After all the "pow-wowing" over the postoffice matter in Silverton, Mr. Mosler, the new appointee, has qualified, and will take charge of that office next Monday.

Dr. J. W. Wyatt and family have taken charge of the rooms of the Woman's Christian Temperance Union in this city.

COMMENCEMENT AT CHEMAWA.

Graduating Exercises of the Indian Pupils of the U. S. Training School.—The Graduates.

A large number of visitors from this city attended the graduating exercises of the U. S. Indian Training School at Chemawa yesterday. The exercises were held in the large chapel hall in the main building, which was very handsomely decorated.

The exercises were quite lengthy, occupying the entire afternoon, and were very enjoyable. They consisted of music by the Chemawa band, an institution of the school; songs by the school, exhibition of the musical talent of the students, orations, essays, declamations, etc. Prof. J. M. Coomer gave a cornet solo, and the address to the class was by Prof. L. S. Rogers.

Perhaps a short sketch of this institution will not prove uninteresting. The school, as will be remembered, was moved to Chemawa from Forest Grove 1885, and the grounds now embrace 256 acres, much of which has been cleared by the students since that time, and placed under cultivation. There are about twenty of the school buildings, dormitories, offices, etc.

The attendance during the past year has averaged 175. The school course occupies a term of five years, and students enter at all ages between six and thirty years. The graduates now return to their homes, either to elevate the condition of their fellows in the tribes, or to be dragged down in a few years, again, to their former state. This depends largely on the character of the students.

The graduating class consists of Flora Pearne, Henry Steve, Luella Drew, Louis Amor, Phoebe Nelson, Charles Bobb, Hattie Corbett, Rosa Whitley, Nathan Parsons, Addie Hill, Jacob Norman, William Depoe, Charles Lott, Sarah Pierre, James Maxwell, Cowley Spenser, Caleb Charles, Louise Isaacs, Eva Helm, William Fletcher, Ida M. Barker, Silas Whitman, Agnes Pearne.

There have been a great many changes in the officers and faculty of the school under Supt. Lee's administration. The officers now are John Lee, supt.; S. M. Briscoe, clerk; F. M. Woodard, physician; D. E. Brewer (Indian), disciplinarian; Mrs. Letitia M. Lee, matron; Miss Elsie L. Murphy, asst. matron; John Gray, carpenter. W. H. Utter, tailor; W. S. Hudson, blacksmith; S. A. Walker, shoemaker; Wm. Herkenrath, plumber; Mrs. M. J. Walker, seamstress; Mrs. Elizabeth Hudson, cook; Mrs. A. D. Gray, asst. cook; Mrs. Annie Herkenrath, laundress; John Ashue, Alex. Duncan, Indian farmers; R. A. Lee, postmaster.

The faculty consists of Prof. L. S. Rogers, principal teacher; Miss E. Josie Pitman, first assistant; Mrs. H. E. Bristow, second assistant; Miss Leona Willis, music teacher.

This paper had an item a few days since about Ed. Abbey's restaurant at Los Angeles burning, and since then Ed. has been arrested, charged with setting fire to the building. He went to Los Angeles, and at once gave bonds for his appearance at the next term of court. Ed. denies having done the act and found it an easy matter to get bondsmen and says he will come out all right.

Mr. R. D. Murray brought to this city yesterday three young coons which he had captured on his farm near Albany. They were bought by James V. Pipe and Frank Arnberger, Postal telegraph operator, who will domesticate them. These little animals, about which so many frontier yarns are told, are not very plentiful in Oregon.—Albany Herald.

Mr. D. D. Prettyman, who has been absent from this city for some time in the Cour d'Alene mining district, Idaho territory, has returned to his old love, and favored this office with a call to-day.

Klamath County Star: Maj. Brock-embrough and party, government employes, who have been suspecting fraudulent land enclosures in the southern portion of Klamath county and Northern California, were in Linkville a few days since and report the finding of between 50,000 and 60,000 acres inclosed by one man alone and a number of others who have also inclosed more land than they can hold by law.

BULLETIN OF INFORMATION.

Supt. McElroy Still Trying to Enlighten the Teachers on the National Association Question.

State Supt. E. B. McElroy has issued a bulletin of information regarding the National Educational Association, setting forth rates and all information that might be desired by parties contemplating attending. The Oregon and California has established the following rates to San Francisco: From Portland, Oregon City and Salem \$33 35, from Albany \$33 15, from Eugene \$30 80, from Roseburg \$26 80, from Grant's Pass \$21 55, from Medford \$19 80. These round-trip tickets include the \$2 00 fee for membership in the association. All persons holding such are entitled, free of any other charge, to have mailed to them the bound volume of the proceedings of the meeting of 1888; also will be entitled to all of the free excursions in California, etc.; but care must be taken while in San Francisco, to obtain a certificate of membership from the secretary, and ample arrangements have been made for the issuance of the membership certificates, and official souvenir badges, without imposing on members loss of time or serious trouble. These tickets will be placed on sale from July 10th to 15th, inclusive, good for going passage until July 18th, and good for return passage until September 30th inclusive.

The Oregon Railway and Navigation Co. names a rate of \$25 from Portland and return, by steamer. This rate will include meals and berths on the steamers, and the \$2.00 membership fee. These excursion tickets will be placed on sale from July 7th to July 15th, inclusive, and will be good for return passage until September 30th. These excursion tickets will be placed on sale at all the leading stations in Eastern Oregon on the line of the O. R. & N. railway, and will be sold to teachers and others from July 2d to July 15th, inclusive. This arrangement will enable all persons to attend the State Teachers' Association at Salem, July 5th, 6th and 7th, and then reach San Francisco in ample time prior to the National Association.

The Oregon Pacific Railroad company will sell round-trip excursion tickets from Albany or Corvallis to San Francisco and return for \$14, and will include meals and berths on the steamers. These tickets will be placed on sale on or about July 7th, and will make them good to return on or before September 30th. The steamer will sail from Yaquina City on or about July 13th.

The circular quotes Pullman car rates, and gives much necessary information concerning hotels and hotel accommodations. Oregon headquarters will be established in parlors 105 and 106 Occidental hotel at San Francisco. Supt. McElroy will be glad to furnish all needed information to any one desiring. It is important, perhaps, to say that these excursion rates are open to everybody, and are not confined to teachers.

Court House Block For Sale—Not a Bidder.

Sheriff Bentley, at public auction, in front of the court house, offered the Court House block, one lot at a time, for sale to-day, according to terms stated in advertisements which have appeared during the past several months. Not a bid was made for any part of the property, so the attempt to sell was futile in the extreme. It is the general impression that the county cannot give a good deed to the property, while others are impressed with the idea that Moses Goodman, deceased, who gave the property to the county about sixteen years ago, did it with the intention that the county would use it for all time to come, as county court grounds, and would never attempt to divert it to speculative purposes. Then again the values that have been placed on that property by the county court are exceedingly high and far above the real value of similar property in the vicinity. This is one of the main reasons why no bids were received, intending purchasers believing the assessed values far too high.—[East Oregonian, the 27th.

Committed Suicide in Ashland.

John Drummond, aged 73 years, committed suicide at Ashland day before yesterday, by shooting himself in the head. Speculations in San Diego real estate had bankrupted him, and he killed himself for despondency.

Cream soda, ice cream soda, milk shakes, lemonades, at Strong & Co.'s

THE LATEST IN JEWELS.

Marquise rings are far and away the favorite.

For a plain ring dull gold in rope pattern is quite as stylish as anything.

A miniature sky rocket, complete in every detail, is the latest novelty in scarf pins.

A pink, a black and a white pearl make a fashionable combination in scarf and bonnet pins.

A shamrock of diamonds, with ruby center, ornaments the outer side of a golden egg locket.

Leaf patterns in platinum and gold are much in favor for sleeve links among people of taste.

A four leaved clover of seed pearls, with a turquoise stem, is a handsome design in bonnet pins.

A pretty lace pin consists of a crescent of hammered gold, within which lies a spray of enameled forget-me-nots.

A beautiful penholder is made of a hollow silver tube, the upper end of which turns gracefully into a script initial.

A pink, a blue and a yellow daisy, on a scintillated silver background, combine into a striking design for bombonieres.

In silver jewelry the rock finish, etched in quaint designs, is rapidly superseding the hammered patterns so long worn.

Three silver batons, with gold knobs, among which are set a diamond and a ruby, make a pretty pattern in lace pins.

Marchal Neil and moss roses in enamel, on a clouded silver surface, are dainty and stylish designs for bracelets and brooches.

Pencil point protectors of gold, richly chased and encrusted with diamonds, are among the novelties recently produced.

An enameled rose and bud, with diamond center and stems of flexile gold, is the very handsomest flower brooch of the season.

A small gold circle, set with turquoises and pierced by a tiny arrow of dull gold, is a pleasing pattern for children's ear drops.

A gold canoe, with oars beneath the thwart and an anchor all ready forward, is a scarf pin favored by the amateur yachtsman.

A square knot in Roman gold and platinum, having either a ruby or a diamond in its center, is a handsome pattern in cuff buttons.

An artistic novelty in garter clasps is a square of partly oxidized silver, in which is sunk a dainty floral design in bright colored enamel.

A gold crescent studded with diamonds, pearls and sapphires, and in the center of which sits a griffin, is a unique pattern in scarf pins.

A large central star of pearls and turquoises, having a smaller similar star at the apex of each ray, is a handsome design in garter clasps.

An oblong shaped cuff button much in favor has half its surface richly chased on a bright gold ground, while the rest is plain in sparkling frosted silver.

A unique pendant for a queen chain is a lady's shopping bag in colored gold. The drawing strings which close its mouth are continued to form the chain.

A combination hat or jersey pin has a long needle of dull gold, topped by a polished moonstone, toward which a gold spider, with moonstone body, is crawling.

A handsome gold watch case bears a "swirl" pattern starting from a central sapphire. Each ray of the "swirl" alternately holds at the end a diamond and a sapphire.

An "electric light" scarf pin represents the globe by a spherical moonstone, the wires by thin oxidized silver bars, and the pole by the pin, which but partly enters the scarf.

A disk of Roman gold nearly two inches in diameter, and chased in semblance of alligator skin, is a peculiar pendant for a gentleman's watch when worn in the fob pocket.

A dainty knife edge bracelet bears six delicately chased buttercups mounted at equal distances, each flower holding as a dewdrop a differently colored stone.

A unique brooch represents in varicolored gold the Tam o' Shanter cap now so fashionable. The rakish plume which adorns it is handsomely embellished with tiny stones.

In sleeve links a combination of the swirl and the corrugated patterns, in white enamel and on a Roman gold ground, starting from either a Cape ruby or a green garnet, is unique and handsome.

BASEBALL TALK.

Tim Keefe signed with the New York club at a salary of \$4,000.

Ed Williamson will enter the throwing tournament at Cincinnati.

Two of the best outfielders produced by the Association last season are Tebeau, of the Cincinnati, and Griffin, of the Baltimore.

Hallman, of the Philadelphia club, started out as a pitcher. In 1885, while pitching for the Atlantic City team, he retired Storey, of the Athletic club, three times in succession on strikes.

Manager Morrill says of "Smiling Billy" Bowdler: "I think he will prove to be one of the finest pitchers Boston has ever had. He delivers the ball as straight and as sharp as an arrow. His motions resemble those of Whitney in many particulars. He is a hitter and a worker."

Two or three parties have claimed the credit of bringing Clarkson out as a pitcher and player, and the right one was not mentioned. The one who gave Clarkson his first lessons in pitching, and gave him that instruction which has formed the basis of his success, was Tom Hood, the famous pitcher of the Boston team of 1877, '78, '79, '80 and '81.

Save the Pennies.

Many parents permit their children to spend for candy or toys every cent that is given to them. Others are continually instructing their children to save all their "pennies." In either case the parents evince a deplorable ignorance of the true uses of money, spending with discretion, saving and giving. Even very young children can be taught, to a certain extent, the real value and best use of money. Wise parents will ever strive to impress upon their children the necessity of forming prudent habits of spending money to advantage, so that some article of utility or value is always obtained for it, the duty of exercising systematic and judicious charity, and that the purest happiness that can be experienced upon earth springs from the practice of benevolence.—American Agriculturist.
