WEEKLY. One year, \$1.50; six months, \$1.00; three months, \$0.50.

Republican National Ticket.

For President, BENJAMIN HARRISON, Of Indiana. For Vice President, LEVI P. MORTON, Of New York.

FRIDAY, AUGUST 3, 1888.

SENATORIAL CANDIDATES.

In Colorado there is a number of ambitious aspirants for Senator Bowen's seat, which becomes vacant next March. There is something peculiar about the politics of that state, it runs into rings, and money exercises a corrupting influence.

Ex-Senator Nathaniel P. Hill is also in the race. He is an extensive mine and mill owner, his wealth is set down at \$5,000,000, but his reputation was sullied with some very unsavory developments when he entered into controversy with Henry M. Teller, appointed secretary of the interior by President Arthur.

A third contestant is E. O. Wolcott, attorney for the Denver & Rio Grande railway, and also a millionaire. He is backed by Moffatt of the First National Bank of Denver, said to be the richest man in Colorado, and lots of money will be used to elect him.

Ex-Gov. Rount is another notable personage, a former friend of President Grant, and father-in-law to Col. Fred. He dropped quite a pile when the firm of Grant & Ward collapsed. Rount has been long in public life, has conducted large operations in cattle and land, has been connected with several rings, and is now a tri-millionaire.

You may save money, time and trouble by it. Call on Squire Farrar & Co. for your groceries. The best place in town.

Mr. D. L. Wilcoxson, of Horse Cave, Ky., adds a like testimony, saying: "He positively believes he would have died, had it not been for Electric Bitters."

The crops in Kansas are good this summer, still the people keep up a movement from that state. On Tuesday ten Kansas families passed through Walla Walla on their way to Dayton where they propose to settle.

THE SMUGGLING OF CHINESE.

There has been a good deal of angry talk in the newspapers lately about the evasion of the Chinese restriction law. It is reported that Celestial immigrants land in British Columbia and find their way to Washington Territory whence they spread in all directions.

As a matter of fact, the restriction law is as well enforced on the north-west coast as the framers of the act expected. A good many Chinese do, with or without the knowledge of the officers, enter the country by small boats; others by traveling in the night, reach the Sound cities afoot, but there is a disposition on the part of the citizens to assist in carrying out the law.

The time will come, with the settlement of the northern border of this territory, when a force of frontier police will be necessary, but the alarm just now is premature.

THE CONFEDERACY'S EFFECTS.

In response to a senate resolution, requesting the secretary of the treasury to furnish information relative to property wrongfully withheld from the government, the secretary, in his response lately sent in, encloses several communications, among them one from H. B. Littlepage, a special agent of the department of justice, formerly of the Confederate navy.

The list of goods belonging to the confederate states includes ships, stores of all kinds, bar silver, cotton, specie, etc., aggregating in value over \$30,235,000. The items of money deposited to the credit of the rebel government abroad foot up to \$11,000,000. Another item includes rebel iron works in Scotland, valued at \$350,000. All of this property has been traced to responsible persons.

A MODEL TEMPERANCE MAN.

Dr. R. H. McDonald, who ran for Governor on the Prohibition ticket in California, is very generous in the temperance cause. He sustains a band of Hope and a school for the waifs of the city of San Francisco. He gives largely to the W. C. T. U. Besides mailing 25,000 prohibition tracts every week to California citizens, and sustaining some speakers in the present campaign, he has just sent \$200 to help in the non-partisan amendment campaign in West Virginia, a contest similar to the one that engaged Oregon's attention last Fall.

WORTH REMEMBERING.

You may save money, time and trouble by it. Call on Squire Farrar & Co. for your groceries. The best place in town.

A SOUND LEGAL OPINION.

E. Bainbridge Munday Esq., County Atty., Clay Co., Tex., says: "Have used Electric Bitters with most happy results. My brother also was very low with Malarial Fever and jaundice, but was cured by timely use of this medicine. Am satisfied Electric Bitters saved his life."

THE WEEKLY CAPITAL JOURNAL \$1 a year.

RELIGIOUS GLEANINGS.

The Methodist Episcopal general conference of 1892 will be held in Omaha. There are said to be several churches in Illinois without a single male member.

The Irish Catholic archbishops and bishops have issued an address declaring that the pope's decree affects morals only and does not interfere with politics.

The first American Sabbath school of which we have any definite knowledge was started in Ephrata, Lancaster county, Pa., about 1730, by Ludwig Haecker, a teacher in the common schools.

A new church is organized every two days by the Presbyterian church. Every three days a Presbyterian minister dies. The denomination imports from other Christian bodies sixty ministers per year to fill vacancies.

Bishop Andrews, of the Methodist Episcopal church, whose episcopal residence hitherto has been in Washington, D. C., now goes to New York. Bishop Foss leaves Minneapolis for Philadelphia; Bishop Hurst, Buffalo for Washington, while the newly elected bishops, Bishop Vincent goes to Buffalo, where he will be near Haultanqua; Bishop Fitzgerald to Minneapolis; Bishop Joyce to Chattanooga; Bishop Newman to Omaha, and Bishop Goodell to Texas.

SCIENTIFIC SQUIBS.

The Sheffield free library has adopted the plan of fumigating the books. They are exposed for fifteen minutes to the fumes of carbolic acid at a temperature of from 150 degs. to 200 degs.

One of the most remarkable mechanical changes of the day is the setting aside of steel and the adoption of iron for some of the most important parts of locomotives on many railroads. It is only comparatively a few years since the change was made, on most roads, from iron to steel.

Dr. Grundman, of Hirschberg, has patented a new process of making magnesia into a carbonate by exposing it to carbonic acid as produced by burning coke in close apartments. It thus forms a substance as hard as magnesite, and capable of taking a fine polish. Mixed with marble dust it forms an artificial dolomite; with soluble silicates an artificial stucco.

The power of various explosives has been calculated to be equivalent to the following pressure, the figures giving tons per square inch: Emuagite, a new explosive, for which important advantages are claimed in addition to great power, 283; nitro-glycerine, 304; explosive gelatine, 253; forcite, 350; oxonite, 240; piculastite, 305; gun cotton, 198; dynamite, 144; atlas, 133; rackarock, 117; roborite, 94; and blasting gunpowder, 28.

"Railway train" is a term applied by Dr. Thompson to a neuritis or general derangement of the nerves produced by a shock received by the head on a railway car. In the particular case described no wound was received, and consciousness was preserved at the time of the injury. Afterwards the patient became melancholic and complained of insomnia, headache, spinal pain, weariness and failure of appetite. A hygienic and palliative treatment was given.

W. A. Lyman, of Milford, Conn., is making the smallest possible specimen of an engine. It will be made with a silver half dollar. The boiler is to hold about eight drops of water, but with four drops the engine can be worked several minutes. When finished it is to be placed under a glass case three-quarters of an inch in diameter and an inch and one-eighth in height. Some of the parts will be so fine and delicate that they cannot be made without the use of a magnifying glass.

TRACK TALK.

The stakes to be decided at the great Tennessee fair, Sept. 21-25, closed with good entries.

The Oakland Trotting course and the Bay District association, San Francisco, have been consolidated under the management of J. W. Hinchman.

Red Bank stock farm, Montreal, has bought from John Wilson, of Ottawa, the bay stallion, 4 years old, by Red Wilkes, dam by Shelby Chief, for \$2,000.

H. W. T. Mail, president of the National Association of Trotting Horse Breeders, has been confined to his bed since last November with a violent attack of gout, and his doctors have ordered him to Europe to take a course of baths at Royat, France.

BASEBALL TALK.

Louisville is trying to get Barney Gilligan. Now they call John Ward "Helen's Baby."

This is the first year since 1884 that the St. Louis Browns have not been in the lead of the American association by this time of the year.

In a Virginia church, at the end of a revival, there were three persons who were expected to unite with the church. Only two were present; the third, quite an old lady, was prevented by the inclemency of the evening. A lay brother was called to pray, which he did very fervently, "especially for the sister with one foot in the grave and the other galloping on to eternity."—Harper's Magazine.

The Whole Business—Countryman (to dealer)—"I see ye advertise outside 'Everythin' supplied for weddin's.' Dealer—"Yes, sir." Countryman—"Ye go the hull business?" Dealer—"Yes, sir." Countryman (earnestly)—"I say, mister, how much would ye tax me for a good healthy gal what kin milk, an' ain't afraid to work?"—The Epoch.

What Florida People Live On.

"What do you Florida people live on in the summer?" "Fish." "What in the winter?" "Yankees." Alas! how many northerners draw their last breath in Florida, slain by that fell destroyer, consumption, who would have lived, had they used at first that marvelous specific for consumption, when not too far advanced, Dr. Pierce's Golden Medical Discovery—better than hypophosphites and cod liver oil, because more nutritive and tonic; also an invaluable liver corrective and blood purifier, cleansing away all scrofulous humors (which cause consumption), and all other impurities of the blood, curing glandular swellings, goitre or thick neck, old sores, and ulcers. Of druggists.

An Absolute Cure.

The ORIGINAL ABIETINE OINTMENT is only put up in large two-ounce tin boxes, and is an absolute cure for old sores, burns, wounds, chapped hands, and all skin eruptions. Will positively cure all kinds of piles. Ask for the ORIGINAL ABIETINE OINTMENT. Sold by D. W. Matthews & Co., 106 State street, Salem, at 25 cents per box—by mail 30 cents.

Fruit Farms!

FINE LOCATION, BEST SOIL, EASY TERMS.

OREGON LAND COMPANY

Has now for sale twenty-five 10-acre lots on the west side of the river, from 5 1/2 to 4 miles from Salem and near the 150-acre fruit farm owned by Mr. R. S. Wallace, of Salem. These lots are all nicely situated within sight of the Capital City, and having a grand view of the snow-capped peaks of the Cascade range.

The Soil is of the Very Best Quality

All Lots Front on a Road

And the road leading to Salem is now being graded, and will be one of the FINEST DRIVES leading out of the city. It is generally conceded that investment in FRUIT LANDS at the present time offers a better assurance of large returns than any other form of investment. Prices now being paid for fruit in Salem by the Willamette Valley Fruit Company.

Insure, at a Low Estimate, from \$250 to \$500 per Acre!

The close proximity of Mr. Wallace's fruit farm of 150 acres to these lots insures a Fruit Cannery, and thus a convenient market, as soon as the trees are old enough to bear.
