JOHN P. IRISH,

The Fresno Republican has this to say about the great democratic orator that canvassed Oregon so disastrously to the democratic cause last spring:

"The wild, unchained flapdoodle has been turned loose to prey upon an unsuspecting, helpless commu nity. Coming like a thief in the night-yea, like unto the burglar to whom Ferg, gave the g, b,-the alldestroying flapdoodle swooped down dire destruction follows in its wake! How can this long-suffering community survive; build brick blocks, sell real estate and cat lee cream, It such deluges of superannuated hogwash as that 'John P. "Most fluent men are like riversthey flow past, a stream of words with, now and then a ship; sometimes you can see the publics on the bottom, but in the main only monotonous waves go by, one but little dif-ferent from the other, each one for-gotten almost before it passes, and the sameness of them wearisome.'

Spartans! If you have any love of country, any hope for the future, rise up as one man and let blood flow like watermelon juice down a nigger's neck! Your cause is just. "

EVENING CAPITAL JOURNAL between good, pure water and fine, good keeping products.

Clearly, if the above is true, and there is no doubt of its truth, great care should be exercised by dairymen who supply milk for the public, and by persons keeping cows for their own use, to prevent the animals from drinking bad water. If the milk contains living organisms, why will not the butter made from this impure milk contain the same impure organisms? The churning process is not sufficient to

kill the germs. There is no doubt but our people generally need a waking up on all these questions for we are consuming many kinds of unwholesome

Nor is there any doubt that application of the laws of the state of Indiana and of the United States will prevent the culmination of the fraud and inflict exemplary punishment upon those engaged it it. The chastisement should be so prompt and severe as to serve as notice that those who may be attempting similar villainieaelsewhere will be exposed and punished." We like to see enthusiasm in a good cause. Let every illegal voter be prosecuted to the full extent of the law and let every man who attempts to thwart an honest vote and an honest count be as equally exposed and punished.
