

LATE CITY NEWS FOUND

By the Reporters on Their Round of the Town.

Sad Accident River New-School Notes-Crisp Items.

Attention and Music. Miss Bell Stuart, the noted pianist from the east, and Miss M. Macrum, of the conservatory of music, will be among the attractions at the social to be given next Friday night by the ladies of the Christian church.

The Upper Rivers. Operations have already been resumed at Coquille river, where a number of men are at work on the jetty, which has been built out 1900 feet. It is the intention simply to make permanent the work already done.

A PAINFUL ACCIDENT. A Man is Thrown From an Engine, and Seriously Injured.

Yesterday afternoon Conductor Nash, of the yard engine of this city was ordered to take some extra freight cars to Portland. When he got to Woodburn he invited Mr. J. H. Richards of that place to take a trip with him.

PERSONALS.

B. Messier has returned from Portland. W. H. Eysar is out on the O. P. front on a business trip. Miss Laura Miniorne of this city is visiting friends at Newberg.

Fashionable Dress Notes. The sombre tints that the fall styles usually reflect, as it were, from the autumn sky, are late this year in casting their shadows.

HERE MENTION.

Yesterday at Albany, wheat went up to eighty cents.

Strongly dramatic and exceedingly interesting.—Star.

"Unknown" entertains right royally.—Sunday Dispatch.

County court has adjourned, after a brief and unimportant session.

The dialogue throughout is sprightly.—Commercial Advertiser.

A notarial commission was this afternoon issued to J. L. Atkinson, of Portland.

Last year the synod of the Columbia gave to the support of extension work nearly \$60,000.

The raising of the spire of the new Catholic church was successfully accomplished this afternoon.

A marriage license was this afternoon granted to Mr. Chas. O. Greene and Miss Enid E. Cornelius.

An old convict in the penitentiary Carling by name, had the misfortune to fall and break his arm yesterday afternoon.

There are no new cases of smallpox at McMinnville, according to reliable advice, and the malady is now entirely under control.

Mr. Cronkite and family who have been the guests of H. V. Matthews for some time, returned to their Nebraska home to-day.

The Register says thorough vaccination has been inaugurated throughout Yamhill county, and there is little chance of smallpox spreading.

F. M. Conn has a band of thirty-two fine young horses which he will offer for sale cheap during the next few days. They are at Ford's corral near the Chemekete hotel.

Rev. A. S. Mulligan, now of Columbus, W. T., was married on Wednesday to Miss Ida A. Saunders. They were each at one time students in the Willamette University.

S. E. Davis of Albany, has gone to Pennsylvania and will return in the spring with forty families, who will remain and locate on bottom lands in the Santiam country.

A Marion county woman "yanks the bun" as it were, for fast hop picking and discounts all previous records. Her time was eight boxes in one day. Each box holds nine bushels.

A sum of \$250 is to be expended by Salem and Polk and Multnomah counties in protecting the bridge. The top cords are to be enclosed in galvanized iron, to protect them from the weather.

Our schools, we are pleased to note, are taking practices in fire drills. Wednesday a test was made and the building was cleared in less than four minutes. These drills are good and may yet be the means of saving many lives.

Miss Minnie Bruzzell, who is connected with the Baptist Union in Swatow, China, and is supported by the union circles of Oregon, will deliver an address at the Baptist church to-morrow night. Services to commence at 7 o'clock.

The fifth doctors (?) of Portland, in their advertisements tell of a man who was blind and could not walk. He was brought to them for treatment and after eight or nine manifestations and chances, could see well enough to thread a needle by moonlight and had sufficient use of his limbs to walk a rail. All of this leads us to the belief that in Portland there are some of the most wonderful healers or else some of the biggest liars on this beautiful sphere—with the scales down for the latter.

Oregon and Her People.

Commenting on the JOURNAL's remarks on the people, the Josephine Courier adds: "The world is beginning to realize that Oregon fruit is far superior to that of any other portion of the coast, and when our fruit-growers realize, also, the necessity and importance of carefully nurturing their orchards and vineyards, the demand will increase very materially. By planting and cultivation of trees and vines with nature be assisted in the development and maturity of the fruit. It is not always the largest of our fruit that in the most luscious—those which have the needed care will always excel in flavor those neglected, no matter if much smaller. The eater must be foremost in the mind's eye of fruit raisers if ultimate success is to be reached. We notice in our own immediate vicinity that orchards which have care are more profitable than the forgotten ones, and the fruit's flavor more delicate."

OCCIDENTAL JOTTINGS.

News And Notes of a General Interest to the Westerner.

There are several school districts in Linn county wanting teachers.

The amount appropriated for the improvement of Yaquina bay is \$150,000.

Beef cattle in Eastern Lake and Grant counties are selling this fall at \$18 to \$23 per head.

Joseph Watson of Newport says that strawberry vines began to bear on the 27th of May and have continued to furnish berries ever since.—News.

The schooner Twilight from San Francisco, loaded with steel rails for the Oregon Pacific, about two weeks overdue, arrived at Yaquina yesterday.

A band of 2,200 head of sheep recently lost in the mountains of Grant county, have not yet been found and there is probably no clue to their whereabouts.

Miss Leona Propst, daughter of John Propst, of Albany, died yesterday at the home of her parents near that city, after a protracted illness, aged 21 years.

At Baker City work is being pushed vigorously on the burnt district and it is only a matter of a few weeks when the buildings will be completed and business resumed again.

Grant county was in debt \$44,501.29. In a suit between that county and Lake county the courts have just decided that all the indebtedness above \$5,000 was illegal and void.

The Ashland depot hotel, built by the Pacific Improvement company, opened business Wednesday morning, the first meal, breakfast, being served to passengers of the south-bound express.

No where else in the world, in this latitude, do things generally bob up so serenely and prolifically as in the Willamette valley, state of Oregon. We never cease being astounded at the way trees and plants grow here.

A couple of gentlemen were in Astoria a few days ago making arrangements to start an evening paper. They expect to issue about the first of November, but will have solicitors in the field in a couple of weeks, to contact "ads" and "subs."

Reports from the east being threatening promises that the coming year will send higher large numbers of visitors and permanent settlers, and the prospect is that many home seekers of modern means will be buying land in Oregon and Washington Territory next year.

The town of Sparks, situated in the southern portion of Union county, and about 30 miles northeast of Lake City, is the center of a mineral belt extending for miles in either direction, and miles, both going and coming, are being worked with most gratifying results.

You couldn't find an old Oregonian to locate in any other country; but the same plenty of old settlers from other countries willing to locate here. There's the difference. We have a climate that, when once acclimated with, no one will give up for any other climate.—Deaconet.

Work on the Portland Harbor oil mill goes forward as rapidly as possible. The machinery has been heard from and is daily expected. It will be put in place at once upon its arrival. Nearly three cords of flaxseed are in readiness for the mill to begin work upon, and in about three or four weeks the raw oil will be ready for the boilers.

A New Clue.

LONDON, Oct. 5.—Sir Charles Warren, chief of the metropolitan police, has decided to employ bloodhounds to discover the perpetrator of the Whitechapel murders. The police place confidence in the story of Geo. M. Dodge, a seaman, who testified in August last he met a Malay crook named Aleska in London, and that Alaska told him he had been robbed of all he had by a woman of the town, and threatened, unless he found the woman and recovered his property, to kill and mutilate every Whitechapel woman he met. The police are searching everywhere for the Malay. Acting on information developed in the investigation of the Whitechapel murders, the police have seized and occupied several houses in that section.

Waste paper and exchanges for sale at this office.

FACTS FOR THE FARMER.

SWINE MANAGEMENT.

Bad feeding and bad breeding are the direct causes of hog cholera. Bad feeding comes under the head of confined and confined feeding. Men will not breed their hogs or cattle, but will let their hogs breed in until almost worthless before an infusion of new blood is given. Poor selection of breeding stock comes in here, and it is a matter of importance to all stockmen.

HEGS IN HOG-FATTENING.

Fattening hogs will do better if allowed a piece to dig the dry earth, as the earth is a natural antidote for acidity of the stomach. Fattening hogs should always have access to salt. Coal ashes and screenings are excellent for them, and this sort of refuse should find a place in the hog-yard or in the pens. The hogs will eat every bit. It is an excellent corrective for them, and helps to give them an appetite.

FATTENING POWERS QUICKLY.

This matter of fattening fowls quickly does not receive the attention it deserves. For a week or ten days before the fowls are sent to market they should be confined to close quarters and fed on strictly fattening food. This should be kept up as long as they eat greedily and keep gaining in weight. Milk is excellent to use in moistening their food and also for them to drink, if it can be obtained without too much expense. It is not only valuable as an aid in fattening them quickly, but also greatly improves the quality of the flesh produced.

BIRDS AND INSECTS.

Readers of the JOURNAL have now and again been urged to protect useful birds because they were great destroyers of injurious insects. Here is a very suggestive article touching the same matter, and one which should induce action in the right direction: "Man prayed to God to destroy the insects which devoured his vines, trees and fruits. And God answered, 'I made birds sufficient to feed upon the insects; what have you done with the birds?' And man replied, 'I have killed them.' And God said, 'Then kill the insects!'"

VALUE OF APPLES.

There is scarcely any article of vegetable food more widely used and more universally liked than the apple. Let every family in autumn lay in from two to ten or more barrels, and it will be to them the most economical investment in the whole range of culinary supplies. A raw, mealy apple is digested in an hour and a half, while boiled cabbage requires three hours. The most healthful diet that can be placed on the table is baked apples. If families could be induced to substitute the apple—baked, roasted, or steamed—for the pie, cake and candies and other sweetmeats, with which the children are so often indulged, there would be a diminution of doctor's bills sufficient in a single year to lay up a stock of this delicious fruit for a season's use.

FALL PLOUGHING.

The farmer should plough all the land he can, as it puts him so far ahead with his work in the spring. Plough deep; bury the trash and weeds so deep that if the land be ploughed in corn next year the shovels will not drag the rubbish on the surface. Help is cheaper in the fall than in the spring, and that is an item to be considered; and horses are more used to work, and consequently have more endurance. The work will be done better, for the reason that there is more time to do it properly. Small grain can be sown at the proper time. On some soils crops do better on spring ploughing; then some soils are light, and a good deal blows away. On all such soils it is better to plough just before planting. Each one must determine for himself the proper time to plough his particular piece of land, yet no one should neglect fall ploughing, which if done advantageously.

"Unknown" will be presented next Tuesday evening at Reed's opera house.—It is not unknown to the people of Salem that S. Farrar & Co. keeps the largest and best assortment of staple and fancy groceries in the city.

MARRIED.

BAILEY-FITZEL.—At the court house, on Oct. 4, 1898, by Rev. J. H. Smith, pastor of the First M. E. Church, of Portland, Ore., at 11 o'clock A. M., Miss M. E. Bailey, of Portland, Ore., and Mr. J. H. Fitzel, of Portland, Ore.

The young couple will make their home in The Deltas, where the JOURNAL will visit them weekly.

Dr. H. SMITH. Now in possession of a new discovery in medicine, which is purely a local anesthetic, and acts almost instantaneously on the surrounding tissues of the teeth. It is in no way injurious or unpleasant to the teeth. The manufacturers of it claim that no equal has ever been known before, and by applying it to the sensitive or sore teeth, they can be cleaned and filed without pain. So all those that want all kinds of dental work done without pain, would better call on Dr. H. Smith. Teeth extracted for 50 cents.
