

LATE CITY NEWS FOUND

By the Reporters on Their Round of the Town.

A Bold Canard—Nuisance—Presbytery Synod—Doings of the Courts.

Deed Commissioners. The following named persons were to-day appointed commissioners of deeds for Oregon: F. A. Wegener, San Francisco, Cal.; W. J. Carroll, Omaha, Neb.; T. F. Cooper, Crescent City, Colorado.

Gov. Penoyer to-day appointed the following persons to be notaries public for Oregon: E. L. Reed, Portland; Morris M. Barkness, Grant's Pass; J. R. Buttolph, Florence; Will H. Parry, Salem; James K. Sears, McCoy; J. J. Shellwood, Coquille; E. L. Bradley, Malheur.

A Disgrace to the State. A correspondent from Silverton finds great fault with the Oregonian railway company and thinks it should be abated as a nuisance. He says the road is in a dangerously loose condition, ties rotted out, rails twisted and ballast minus. He suggests as a remedy that the citizens call a public meeting and compel the road to come to time or shut up.

Circuit Court. J. H. Miller vs. F. Levy, appeal; verdict for plaintiff in sum of \$120. J. D. Lee vs. W. B. Magers et ux., action for money; dismissed.

Winnie Graham vs. Mary E. Greenwood, suit in equity; demurrer of plaintiff to defendant's answer sustained.

Thos. Gilbert vs. Geo. Watt, appeal; verdict for plaintiff giving possession of horse in question.

The Upper Willamette. The Willamette has begun to rise perceptibly, but not enough to allow the Oregon Pacific Company or the Oregon Railway & Navigation Company to start their Upper Willamette boats. Even the Three Sisters, which is the lightest draft of them all, could not carry much more than her unloaded weight. A general impression prevails among river men, however, that the coming week will see rain enough to cause sufficient rise in the river to allow navigation to start.

Supreme Court. SALEM, Oct. 11.

M. C. Cross as administrator et al, appellants vs. Mary L. Baskett as administratrix, resp.; appeal from Polk county. Argued and submitted; G. G. Bingham appeared for appellant and no one for respondent.

A. W. Lambert appellant vs. Rose G. Lambert respondent; appeal from Multnomah county. Judgment of the lower court modified; opinion by Thayer C. J.

John Paulsen et al, respondent vs. city of Portland appellant; motion for rehearing denied; opinion by Strahan J. Thayer C. J. concurring.

The Oregon Land Company's ten acre lots are selling rapidly, 50 having been sold since the 8th of Sept. There is no probability that 10 acres of good land within four miles of Salem will ever again be offered for \$30 per acre on easy terms. There are now five houses in process of construction on lots already sold and roads are being opened and bridges built so that the value of all of the lots is being rapidly enhanced. Any one wishing to buy ten acres of good land for much less than the price of a city lot will do well to look at this property at once as there is no doubt but that it will all be sold inside of thirty days. Call at the office of the Oregon Land company on Commercial street and you will be shown the property free of charge.

Evidently a Canard. Yesterday evening Minto Bros., of this city, received a telegram from Corvallis bearing the intelligence that Frank Smith, the Salem barber, had been drowned in the Willamette and his body found seven miles below Corvallis. The telegram purported to want to know what disposition should be made of the remains and inquired where his relations were. In so much as Frank Leslie, who arrived last night from Albany, said he had seen Smith at noon in Albany and talked with him there it would seem there was nothing in the report. Leslie said that he showed him a ticket for San Francisco and said he was going there on last night's train and ere this is no doubt speeding on the journey.

WORK ON THE OREGON PACIFIC.

An Invoice of Fresh and Breezy Notes From the Railroad Front.

From a party who has just returned from the O. P. front on the Santiam the JOURNAL gathers the following items of news:

Messrs Myers & Company have employed on their contract, above Brightenbush fork of the Santiam, about three hundred men and are pushing the work with all the energy at their command. There are daily large numbers of recruits joining their forces, and although some occasionally quit they expect to soon have five or six hundred names on their pay rolls. Henness Brothers are supplying the camp, and now employ some fifty packs for that purpose.

The parties in charge of the work from Don Smith's to Brightenbush are also crowding their work and are adding new camps almost daily; some five hundred men are reported on this division.

The gap between Smith's and the end of the track is being re-dressed and graded up where skipped before and put in order for the ties.

The bridge carpenters are getting along finely with their work and now think they can keep in advance of the track layers.

New iron was laid yesterday and it is expected to keep right along until Don Smith's is reached, where a turn table is being constructed and a breaching spell will be taken.

There is a vast amount of rock work along the line above Smith's and the progress will not be as fast as it was below that point.

The piles are nearly all driven on the division below Smith's and thousands of ties are delivered along the line of the track.

The bridge across the Santiam at Mills City is progressing finely. The two west piers are in and the stay cords and temporary work is all in place, while a good working crew are rapidly pushing the work along.

Several new saw mills will be erected in various places along the line to furnish the necessary timber for construction. The mill of Simms & Co. at Mills City is expected to start up Monday. The machinery is nearly all in place and the force at work on the race expect to have it finished by Saturday night.

The logging contractors were to commence operations to-day and by the first of next month. Times will be lively thereabouts.

There appears to be a severity of blacksmiths along the line of the road as the disciples of Vulcan were enquired after at nearly every camp.

The health of the employes appears to be splendid, as not a case of sickness was seen or heard of along the entire line.

HARRISON AS A CITIZEN.

Some famous men, like prophets have least honor in their own country; but truly great men, those whose greatness is inherent and not borrowed, are as able to bear the every day scrutiny of their neighbors as the occasional glimpse of strangers. Of the latter class is Benjamin Harrison, for here is his pastor Rev. M. L. Haines of the First Presbyterian Church of Indianapolis, a man who has known the republican candidate for years, writing of him in a leading journal:

"There is about General Harrison an utter absence of pretence or affectation. He discards any attempt to make a show of himself, and would be the last person to speak or act for mere effect. Open and straightforward in both language and actions, he lacks that quality of politician which makes one expert at 'pulling wires' and 'laying pipes'."

"He impresses one as being a man of balanced mind and clear convictions, who would give any truth brought before him a fair chance, but who would allow nothing to swerve him from the path of duty. With him a promise is sacred; with him 'yes' means yes and 'no' means no. He is not a man desirous of dictating to others, nor will he allow himself to be dictated to."

"Decided in his convictions, broad in his views, inspired by a high moral purpose, ruled by a conscience both strong and informed, he has led a life in this city conspicuous for its probity and its stainless integrity."

A Requisition Issued. Gov. Penoyer to-day issued a requisition to governor of California for Peter Pierce who is wanted in Lane county, charged with obtaining money under false pretenses.

OCCIDENTAL JOTTINGS.

News And Notes of a General Interest to the Westerner.

The shipments of lumber from the mills at Gray's harbor are estimated at about 6,000,000 feet per month.

A Presbyterian church will soon be established at Oregon City. It will be the second one of that denomination in Clackamas county.

It is estimated that the expense of picking and drying the hop crop of King and Flores counties, Washington territory, this season was \$200,000.

The population of Oregon is 300,000 and the next census which is to be taken in 1890 will certainly show that Oregon is entitled to another congressman.

A man near this city has dried and packed fifty thousand pounds of choice fruit from a 25-acre fruit farm. That shows that fruit raising pays in Oregon.

The Lane county fair this year was a better success in every way than ever before. The exhibits were superior and the attendance and receipts much larger.

The citizens of Prineville offer a reward of \$250 for the arrest and conviction of any person caught attempting to set fire to any building within the city limits.

The Columbia waterway convention met in Portland this week. Every city in Oregon interested in the opening of the Columbia river should have been represented.

Everything is now in readiness for starting up the works of the Oregon Iron and Steel Company at Oswego. The ore road is ballasted, and ore is being hauled from the mine to the stock house.

The steel rails to complete the Oregon Pacific's line to Boise City are in San Francisco and work is being pushed so rapidly that but few more months will elapse until another rich region of Oregon will have the means of development.

The snagboat Corvallis has commenced putting in bouys at Rock island, and will work on up the river. The Willamette has not been sent up, but has been sluicing at Skamokawa, where she is still working. Some dissatisfaction has been expressed by transportation companies that this boat, which was designed to work upon the upper river, and built out of its appropriation, should not be sent up. It is said on the contrary, however, that the Corvallis is better adapted to that work, being of lighter draft.
