road; well improved; stream
running through the place.
\$90,000.—400 acres (4 miles west O &
C R R) good house, barn and
orchard, 120 in cultivation, bal-
ance oak grove pasture land.
\$800.—10 acres, 1 mile from Salem, ad-
joining fair ground. Good land;
no improvements.
\$1,200.—40 acres, 5 miles Salem; all in
cultivation; no buildings; near
school house. Excellent fruit
land.
\$4,000.—370 acres, 6 miles from O & C R R;
all fenced; well watered. House,
barn, and small orchard; 150
acres in cultivation.
\$2,750.—3 lots, with good house and barn,
East Salem. Desirable location.
We have besides this a large list of city
and farm property. Buyers would do well
to call and examine our holdings before
making their purchases.
WILLIS & CHAMBERLIN,
Opera House, Court St.,
Salem, Or.

BEFORE IT IS BORN.

Some Startling Statements of Gen-
eral Interest.

Dr. Oliver Wendell Holmes, on
being asked when the training of a
child should begin, replied, "A hun-
dred years before it is born."

Are we to infer from this that this
generation is responsible for the con-
dition of the race a hundred years
from now?

Is this wonderful generation the nat-
ural result of the proper diet and med-
icine of a hundred years ago?

It is conceded in other lands that
most of the wonderful discoveries
of the world in this century have
come from this country. Our ances-
tors were reared in log cabins, and
suffered hardships and trials.

But they lived and enjoyed health
to a ripe old age. The women of
those days would endure hardships
without apparent fatigue that would
startle those of the present age.

Why was it?

One of the proprietors of the popu-
lar remedy known as Warner's safe
cure, has been faithfully investigating
the cause, and has called to his aid
scientists as well as medical men, im-
pressing upon them the fact that
there cannot be an effect without a
cause. This investigation disclosed
the fact that in the olden times
simple remedies were administered
compounded of herbs and roots, which
were gathered and stored in the lofts
of the log cabins, and when sickness
came on, these remedies from nature's
laboratory were used with the best
effects.

What were these remedies? What
were they used for? After untiring
and diligent search they have ob-
tained the formulas so generally used
for various disorders.

Now the question is, how will the
olden time preparations affect the
people of this age, who have been
treated, under modern medical
schools and codes, with poisonous
and injurious drugs. This test has
been carefully pursued, until they
are convinced that the preparations
they now call Warner's Log Cabin
remedies are what our much abused
systems require.

Among them is what is known as
Warner's Log Cabin sarsaparilla, and
they frankly announce that they do
not consider the sarsaparilla of so
much value in itself as it is in the
combination of the various ingredi-
ents which together work marvelously
upon the system. They also have
preparations for other diseases, such
as "Warner's Log Cabin cough and
consumption remedy," "Log Cabin
hops and buchu remedy," "Warner's
Log Cabin hair tonic," "They have
great confidence that they have a
cure for the common disease of catarrh,
which they give the name of "Log
Cabin roe cream." Also a "Log
Cabin plaster," which they are con-
fident will supplant all others, and a
liver pill, to be used separately or in
connection with the other remedies.

We hope that the public will not
be disappointed in these remedies,
but will reap a benefit from the in-
vestigations, and that the proprietors
will not be embarrassed in their in-
troduction by dealers trying to sub-
stitute remedies that have been so
familiar to the shelves of our drug-
gists. This line of remedies will be
used instead of others. Insist upon
your druggist getting them for you if
he hasn't them yet in stock, and we
feel confident that these new reme-
dies will receive approbation at our
reader's hands, as the founders have
used every care in their preparation.

Proposals for Wood.

THE BOARD OF TRUSTEES OF THE
Oregon State Insane Asylum hereby
invite sealed proposals for wood as follows:
Four hundred (400) cords dry pole oak.
Two hundred (200) cords dry body oak.
Fourteen hundred (1400) cords dry body
fir out of large trees.
The pole oak must not be less than three
inches in diameter. Three hundred to
five hundred cords of fir, and two hundred
to three hundred cords of oak are to be de-
livered by June 1, 1889, and the remainder
by October 1, 1889.
Bids will be received in amounts from
fifty cords up. The wood must be four feet
in length and of the best quality, subject
to the approval of the medical superin-
tendent of the asylum, and to be delivered
at any point on the asylum grounds desig-
nated by him.
The right to reject any and all bids is re-
served.
Bids will be opened at 2 o'clock Tuesday,
Nov. 5, 1888.

THE BUYER'S GUIDE
Issued March and Sept.,
each year. It is an ency-
clopedia of useful infor-
mation for all who pur-
chase the hardware or the
accessories of life. We
can supply you and furnish you
with all the necessary and unnecessary
accessories to ride, walk, dance, sleep,
bat, fish, hunt, work, go to church,
or stay at home, and in various cases,
style and quantities. Just figure out
what is required to do all these things
comfortably, and we can make a fair
estimate of the value of the BUYER'S
GUIDE, which will be sent upon
receipt of 10 cents, or pay postage,
MONTGOMERY WARD & CO.,

The Goose-Egg in Courtship.

A decidedly romantic little story, which
is strictly true, has been the source of
much talk for the good people of Law-
renceburg, Mass. Near that town lives
Miss Clara Huntington, a bright and pretty
young girl, who, like a dutiful daughter,
assists her father on the farm. Some
time ago Miss Clara was helping her
father pack eggs for shipment. In a spirit
of fun she wrote her name, age and ad-
dress on a goose-egg. The young lady
forgot all about the incident, but in three
or four weeks she was surprised to receive
a letter from a gentleman connected with
a produce commission house in Boston.
He told her that the egg upon which she
had written her name came into his pos-
session. In concluding his letter, the Bos-
tonian gave his name and references and
asked Miss Huntington to correspond.
The girl accepted the proposition. In
a short time photographs were exchanged,
and lately it is known that the goose-egg
has resulted in an engagement, and a wed-
ding will shortly come off. The Boston
gentleman has been West to see his inter-
ested, and he found her exactly his ideal.
It is said by those who know that the
marriage will be a good one for both. There
is, however, some danger that marriage-
able girls will all follow the example of
Miss Huntington and write their names on
goose-eggs, since that course brought her
a husband.—Cincinnati Enquirer.

An Absolute Cure.

THE ORIGINAL ABIE TONIC
OINTMENT is only put up in large
two-ounce tin boxes, and is an
absolute cure for old sores, burns,
wounds, chapped hands, and all
skin eruptions. Will positively
cure all kinds of piles. Ask for the
ORIGINAL ABIE TONIC OINT-
MENT. Sold by D. W. Matthews
& Co., 106 State Street, Salem, at 25
cents per box—by mail 30 cents.

PROBABLY the only town in the United
States without a living inhabitant is sit-
uated in Huguenot county, Kansas, and
once known as Orwell. Four years ago it
was a flourishing little village, supporting
a good newspaper, and showing various
other signs of prosperity. Two years
later the railroad was completed to Jemore,
which proved a death blow to Orwell.
It began at once to decline, and until some
time ago remained only a postoffice and a
small trading post. Even this condition of
affairs has been numbered among the
things that were, and to-day not a living
thing remains to tell the story. Most of
the houses still remain gazing complacently
on the vast extent of surrounding prairie.

Nothing is more disagreeable to a young
lady or gentleman than to have the face
covered with pimples, black heads and
bloaches. Duttard's Specific, the new skin
remedy, will remove all disfigurements
from the face and hands and produce a
clear and beautiful complexion. Try it and
be convinced.
Sold by D. W. Matthews & Co.

"Her Age Cannot Withstand Her."

Remarkable an old gentleman, as he
gazed fondly upon the comely little
woman by his side; "but frankly,"
he continued, "at one time I
thought cosmetics would." The
silly little woman, in order to appear
youthful, plastered her face with
different varieties of whitewash,
yelept, "blams," "creams," "lo-
tion," &c. "Yes," interrupted the
little woman, "I did, until my skin
became like parchment, and so
pimply and coarse." "Well," said
the listener, "what do you use now?"
"Use," was the reply, "nothing but
common sense, and Dr. Pierce's
Golden Medical Discovery. Com-
mon sense told me if my blood was
pure, liver regulated, appetite good,
that the outward woman would
take on the hue of health. The
'Discovery' did all those things,
and actually rejuvenated me."
His thousands of cures are the best
advertisement for Dr. Sage's Catarrh
Remedy.

Nipped in the Bud—Chinese Troubles.
Political Rumble—Dispatches.

Mormons in Canada.

OTTAWA, Ont., Nov. 4.—Over 200
Mormons have emigrated from Utah
to the Canadian Northwest during
the past season. Settlements have
already been established south of the
Canadian Pacific and are thriving.
The Mormons cannot take up land
before agreeing to abandon poly-
gamy. They are devoting them-
selves to cattle raising.

A Bold Bad Robbery.

NEW YORK, Nov. 3.—The United
States express messenger on the
New Orleans & Northwestern rail-
way, which arrived here this morn-
ing, was robbed at 5 a. m. between
Lacey and Derby stations, fifty
miles from this city. The express
officials decline to state the amount
of the robbery, but it is understood
the loss is between \$40,000 and
\$50,000.

Cheaper Than By Mail.

NEW YORK, Nov. 3.—Dr. Harris
of Washington has invented a new
system of machine telegraphy, by
which messages are printed at the
farther end, the sending instrument
being similar to a typewriter. It is
claimed to be able to send 200 words
a minute, and will revolutionize tele-
graphy, making it cheaper to send
by wire than mail.

Wisconsin Is All Right.

MADISON, Wis., Nov. 4.—On a
round-up the republicans claim they
will elect every county officer in this
county, and the state senator. A
claim made by Chairman Usher of
the democratic state central com-
mittee, that Wisconsin is likely to
go democratic, caused a broad smile
to illumine the faces of both democrats
and republicans. The state is good
for from 15,000 to 20,000 plurality for
the republican state officers.

What Hermann Thinks.

WASHINGTON, Nov. 4.—Congress-
man Hermann, the only one of the
Pacific coast delegation now in the
city, in speaking to-day on the com-
ing election, said that the result
would be a surprise to everybody.
"While the majority of the two
parties," he continued, "are in a
state of suspense over what the
result will be, I have never yet had
any doubt about our success. I
think the vote in the close states of
Indiana, New Jersey and Connecti-
cut, will astonish the democrats as
well as the republicans. This time
the quiet democratic vote will be
given to Harrison. It was this quiet
vote that surprised everybody with
Oregon's large majority."

Where the Fight Is Hot.

INDIANAPOLIS, Nov. 4.—At the
rooms of the democratic central com-
mittee to-day Chairman Jewett ex-
pressed confidence that the demo-
crats would carry the state by over
10,000.

Chairman Huston of the republi-
can committee, when asked about
the probable result, gave it as his
opinion that Harrison's majority in
Indiana would range from 9000 to
15,000. The people are beginning to
think that in view of the efforts
made by both parties the contest
will be exceedingly close, and the
final result will not be known for a
week after the election. Speaking
continues day and night throughout
the state.

More Chinese Complications.

OTTAWA, Nov. 4.—Before taking
action with regard to the removal
of the Chinese interpreter from Victoria
the department will see what effect
the United States exclusion bill will
have on the Chinese immigration
into Canada. It appears from re-
cent returns to the department that
a large majority of the Chinese en-
tering Canada of late landed at
Vancouver. The necessity of keep-
ing an interpreter of some kind at
either port depends on the trade of
the future, but no doubt, owing to
the large Chinese trade done at
Victoria, an interpreter of some

kind will have to be kept at that
place. The customs preventive of-
ficer at the New Brunswick outpost
collected duty recently on a casket
containing a body being brought in-
to Canada from Boston for burial.
An application has been made to
the department asking that the
duty collected be refunded.

Stanley Heard From.

ZANZIBAR, Nov. 4.—Couriers from
Tabara bring direct news from the
Stanley expedition, a portion of
which was met at the end of No-
vember, 1887, by Arabs. The Arabs
met Stanley's rear guard at a point
west of Albert Nyanza. The Arabs
did not see Stanley. The detach-
ment seen consisted of thirty men.
They stated that Stanley was two
days ahead. The expedition had
suffered greatly on the march
through the thick forest. They had
also suffered in the marshes, where
many had disappeared or died.
Forty were drowned in crossing a
great river, flowing from east to
west. One white man had died.
Stanley was obliged to fight some
tribes that refused to supply him
with provisions.

The Robber Captured.

ALBANY, Nov. 4.—James Hanon
was arrested yesterday morning on
suspicion of being one of the parties
who attempted the robbery of the
Lebanon bank. He was found in
bed at the Depot hotel about 6
o'clock. Some of the witnesses tes-
tified that a drill found under the
bank was very similar to one which
was among the supplies in Hanon's
charge. A lot of plaster of Paris
was found under the bank and Yates
& Beard, druggists of Lebanon,
testified that Hanon had bought it
at their store, although the prisoner
denied it on the stand. He testified
that he was a railroad contractor
and knew nothing of the attempted
robbery until his arrest. A vest was
found in the excavation which the
deputy city marshal swore he had
seen him wear, or one just like it.
Hanon was held in \$1000 to await
the action of the grand jury, in de-
fault of which he went to jail.

Running A Big Steamer.

The steamer City of New York carries
a crew of 394 men. What such a crowd
of men can find to do in a small structure
like a steamer is a mystery to the land-
man. But of those 400 men thirty-eight
are sailors, who manage the rigging and
sails, auxiliary to the steam power, and
in case of accident taking its place. Then
there are twenty-eight engineers, a day
force and a night force. A force of 100
firemen and stokers feed the great boilers
that drive the mammoth engines and
the steward has 146 people at his com-
mand, to look after the wants of the pas-
sengers and crew. Among these are
counted four bakers, three butchers and
cooks, not to speak of waiters, cabin boys
and stewardesses. In fact, a ship like
the City of New York is a city in itself,
and has every requisite from the barber
to chaplain to make its passengers com-
fortable. The sudden and total loss of such
a vessel would be terrible to contemplate,
and yet it would be hardly felt in the
vastness of worldly interests and the
growth of commercial and pleasure travel
on the Atlantic.

A Woman's Discovery.

"Another wonderful discovery
has been made and that too by a
lady in this county. Disease fast-
ened its clutches upon her and for
seven years she withstood its severest
tests, but her vital organs were un-
dermined and death seemed im-
minent. For three months she
coughed incessantly and could not
sleep. She bought of us a bottle of
Dr. King's New Discovery for con-
sumption and was so much relieved
on taking first dose that she slept all
night and by one bottle has been
miraculously cured. Her name is
Mrs. Luther Lutz." Thus write W.
C. Hamrick & Co., of Shelby, N. C.
—Get a free trial bottle at H. W.
Cox's drug store.

KANSAS is anxious to annex the strip of
land called "No Man's Land," adjoining
the State. Not, the newspapers say,
"for boom purposes," but for protection.
Every thief and murderer who commits a
crime in western and southern Kansas
makes a break for No Man's Land, where
he is as safe as the man-slayer of old in
the city of refuge.
