## BEFORE IT IS BORN.

Some Startling Statements of Gen-  
eral Interest.

Dr. Oliver Wendell Holmes, on  
being asked when the training of a  
child should begin, replied, "A hun-  
dred years before it is born."  
Are we to infer from this that this  
generation is responsible for the con-  
dition of the race a hundred years  
from now?

Is this wonderful generation the nat-  
ural result of the proper diet and med-  
icines of a hundred years ago?  
It is conceded in other lands that  
most of the wonderful discoveries  
of the world in this century have  
come from this country. Our an-  
cestors were reared in log cabins, and  
suffered hardships and trials.

But they lived and enjoyed health  
to a ripe old age. The women of  
those days would endure hardships  
without apparent fatigue that would  
startle those of the present age.

Why was it?  
One of the proprietors of the popu-  
lar remedy known as Warner's safe  
cure, has been faithfully investigating  
the cause, and has called to his aid  
scientists as well as medical men, im-  
pressing upon them the fact that  
there cannot be an effect without a  
cause. This investigation disclosed  
the fact that in the olden times  
simple remedies were administered  
compounded of herbs and roots, which  
were gathered and stored in the lofts  
of the log cabins, and when sickness  
came on, these remedies from nature's  
laboratory were used with the best  
effects.

What were these remedies? What  
were they used for? After untiring  
and diligent search they have ob-  
tained the formulas so generally used  
for various disorders.

Now the question is, how will the  
olden time preparations affect the  
people of this age, who have been  
treated, under modern medical  
schools and codes, with poisonous  
and injurious drugs. This test has  
been carefully pursued, until they  
are convinced that the preparations  
they now call Warner's Log Cabin  
remedies are what our much abused  
systems required.

Among them is what is known as  
Warner's Log Cabin sarsaparilla, and  
they frankly announce that they do  
not consider the sarsaparilla of so  
much value in itself as it is in the  
combination of the various ingredi-  
ents which together work marvelously  
upon the system. They also have  
preparations for other diseases, such  
as "Warner's Log Cabin cough and  
consumption remedy," "Log Cabin  
hops and bichu remedy," "Warner's  
Log Cabin hair tonic." They have  
great confidence that they have a  
cure for the common disease of catarrh,  
which they give the name of "Log  
Cabin rose cream." Also a "Log  
Cabin plaster," which they are con-  
fidently believe to supplant all others, and a  
liver pill, to be used separately or in  
connection with the other remedies.

We hope that the public will not be  
disappointed in these remedies, but  
will reap a benefit from the in-  
vestigations, and that the proprietors  
will not be embarrassed in their in-  
troduction by dealers trying to sub-  
stitute remedies that have been so  
familiar to the shelves of our drug-  
gists. This line of remedies will be  
used instead of others. Insist upon  
your druggist getting them for you if  
he hasn't them yet in stock, and we  
feel confident that these new reme-  
dies will receive approbation at our  
reader's hands, as the founders have  
used every care in their preparation.

## Proposals for Wood.

THE BOARD OF TRUSTEES OF THE  
Oregon State Insane Asylum hereby  
invite sealed proposals for wood as follows:  
Four hundred (400) cords dry pine oak.  
Two hundred (200) cords dry body oak.  
Fourteen hundred (1400) cords dry body  
fir out of large trees.  
The pine oak need not be less than three  
inches in diameter. Three hundred to  
five hundred cords of fir, and two hundred  
to three hundred cords of oak are to be de-  
livered by June 1, 1889, and the remainder  
by October 1, 1889.

Bids will be received in amounts from  
fifty cords up. The wood must be four feet  
in length and of the best quality, subject  
to the approval of the medical superin-  
tendent of the asylum, and to be delivered  
at any point on the asylum grounds de-  
signed by him.  
The right to reject any and all bids is re-  
served.  
Bids will be opened at 2 o'clock Tuesday,  
Nov. 6, 1888.

## "Her Age Cannot Withstand Her."

Remarked an old gentleman, as he  
gazed fondly upon the comely little  
woman by his side: "but frankly,"  
he continued, "at one time I  
thought cosmetics would." The  
silly little woman, in order to appear  
youthful, plastered her face with  
different varieties of whitewash,  
yelect, "blams," "creams," "lo-  
tion," &c. "Yes," interrupted the  
little woman, "I did, until my skin  
became like parchment, and so  
pimpily and coarse." "Well," said  
the listener, "what do you use now?"  
"Use," was the reply, "nothing but  
common sense, and Dr. Pierce's  
Golden Medical Discovery. Com-  
mon sense told me if my blood was  
pure, liver regulated, appetite good,  
that the outward woman would  
take on the hue of health. The  
"Discovery" did all those things,  
and actually rejuvenated me."  
Its thousands of cures are the best  
advertisement for Dr. Sage's Catarrh  
Remedy.

## Didn't Know It Was Loaded.

ALBANY, Nov. 6.—Edward Will  
received a painful pistol shot in the  
leg yesterday, from the accidental  
discharge of the weapon in the  
hands of A. Bernheim. Mr. Will  
had accompanied him to his board-  
ing place for the purpose of trading  
for the pistol. It was a 38-calibre,  
self-cocking revolver and was loaded.  
Mr. Will removed the cartridges  
before examining it and then re-  
placed them and handed the weapon  
back to Mr. Bernheim. The latter  
thought it was still unloaded and  
while handling it carelessly it was  
discharged, the ball entering the  
thigh of Mr. Will's right leg and  
inflicting a painful but not danger-  
ous wound.

## What Estee Thinks.

SAN FRANCISCO, Nov. 5.—M. M.  
Estee, chairman of the last national  
republican convention, made the  
statement that California will po-  
sitively go republican to-morrow.  
He places the minimum plurality at  
10,000, but will not be in the least  
surprised to find that the plurality  
is larger. The southern counties of  
the state have been steadily gaining  
republican votes ever since the last  
election, as a majority of the new  
comers are from the New England  
states. He hopes for larger repub-  
lican pluralities in many of the in-  
terior counties, especially in those  
counties directly affected by the  
proposed tariff.

## Another Mine Horror.

LOCKHAVEN, Pa., Nov. 5.—There  
was an explosion last night in the  
Kettle Creek Coal company's mine,  
three miles west of this city. The  
explosion occurred in a new drift in  
which twenty-four persons were at  
work. As soon as possible after the  
explosion the mine was entered and  
fifteen dead bodies taken out. Four  
other men badly injured were found,  
one of whom has since died, and  
the others are likely to die. The  
cause of the explosion is unknown  
but is supposed to have been the  
striking of a fissure or pocket of gas.

## Down in Linn.

ALBANY, Or., Nov. 5.—Consider-  
able betting on the election is being  
done in this city, which is about  
even. The election to-morrow  
promises to occur without excite-  
ment. The banks of the city and  
all the saloons will be closed. The  
law requiring voters to be kept back  
from polling places will be enforced.  
The democrats claim Linn county  
will give Cleveland 250. The re-  
publicans claim that the democratic  
majority will be less than 200.

## Sackville Goes Up.

NEW YORK, Nov. 5.—It is in-  
timated England will advance the  
United States mission to second if  
not first class and send a representa-  
tive who is able to deal with every  
exigency that may arise. It is  
whispered one of the probable re-  
sults of the recent unpleasantness is  
that Lord Sackville may be made  
governor-general of Canada.

## Let the Volapuk Sleep.

LONDON, Nov. 5.—The announce-  
ment of the death of John M.  
Schleyer, the inventor of Volapuk,  
is contradicted by Schleyer himself.  
He says he has been dangerously ill  
and even received the last sacra-  
ments of the church, but has been  
cured by the baths at Baden.

## Outrage By Hayti.

BOSTON, Nov. 5.—The brig, R.  
Green, from St. Marc, Hayti, report-  
ed that on October 18th, when off  
St. Marc it was ordered to heave  
to by a Haytian man-of-war, whose  
armed officers and men came on  
board three times taking the ship-  
ping register and all of her papers,  
also threatening to take her to Port  
at Prince as a prize. After delaying  
them some time, the papers were re-  
turned and the vessel allowed to  
proceed.

## CONDENSED DISPATCHES.

In the supreme court of Pennsyl-  
vania, Justice Williams decided  
that the mechanics' lien law is  
unconstitutional.

Never in the history of North  
Carolina has such political excite-  
ment prevailed. Republicans have  
had federal supervisors appointed  
for many western counties in the  
state. A dispatch says many of  
these supervisors are negroes and  
they are armed at the polls to-day.

A London special states that Jem  
Carney has issued a challenge to  
McAuliffe, in which he says he is  
ready and willing to fight Jack Mc-  
Auliffe, the American champion, in  
Spolne, France, Australia or any  
other part of the world, for £1000 or  
£10,000 a side, or as much more as  
he likes.

Elaborate preparations have been  
made for collecting the presidential  
vote to-night. In New York, New  
Jersey and Pennsylvania the returns  
will be collected by the associated  
press alone. In all other states the  
work will be done by the associated  
press and the Western Union Tele-  
graph company acting together.

## More About Peak.

Ex-Convict Peak, who is now in  
jail pending examination for obtain-  
ing money under false pretenses  
while leading the Jekyll-Hyde ex-  
istence, says that he has been trying  
to secure the pardon of his cell-mate,  
Kerns. He claims to have been get-  
ting up petitions which are being  
circulated about Princeton. The  
officials of this place received a  
telegram from the Kerns people at  
Cottage Grove this afternoon, which  
says they do not care to prosecute  
the matter. What will be done in  
the premises remains to be seen.

Some grains of wheat taken from a  
mummy exhumed near the ruins of Mem-  
phis, and belonging to, as was believed,  
to the period of the Ninth Dynasty, or about  
3,000 B. C. were sent from Alexandria last  
year to a gentleman in Massachusetts. He  
planted the seed, which grew rapidly but  
the product of the plant was very different  
from modern wheat; for instead of grow-  
ing in an ear, there is a heavy cluster of  
small twigs which hang downward from  
its weight, and each twig is thickly set with  
kernel, each of which is in a separate husk.  
The wheat excels our modern grain in  
quality, and the experimenter will grow  
a larger crop from that which is threshed  
this year.

Mr. Jackson, the husband of the late  
lamented authoress, Helen Hunt Jackson,  
was married recently and is now residing  
at Colorado Springs, Col. Hunt married a  
niece of his first wife, and there is still,  
therefore, a Helen Hunt Jackson. The  
grave of the first Mrs. Jackson, known to  
fame as "H. H.," is literally covered with  
visiting cards left by tourists who climb  
mountain near Colorado Springs to visit  
the last resting-place of this remarkable  
woman.

A passenger train on the Florida  
Southern road struck an alligator on the  
track near Micanopy Junction the other  
day. The engineer thought he had run  
over a man and when he stopped the train  
he was surprised to find the dead body of  
an alligator which measured twelve feet  
and two inches in length.

## Delicate Mechanism Disordered and Righted.

The most delicate and intricate piece of  
mechanism in the human structure is the  
nervous system. As the telegraphic wires transmit  
the electric force, so do these sensation,  
the focal point being the brain, where sen-  
sation centres. Mental anxiety weakens  
this mechanism, sudden shocks paralyze  
it, but dyspepsia is its most obdurate foe.  
This foe is utterly defeated by the irremis-  
sible tonic, Hostetter's Stomach Bitters,  
and the cessation of disorder in the  
stomach is reflected in brain and nerves  
by restored tranquility and tranquillity of  
the nerves implies, in this instance, re-  
newed vigor. A distinguished medical au-  
thority says, "The victim of nervous disor-  
der who finds chills at night and  
brimades by day necessitate, should know  
that a cure must be sought among agencies  
which strengthen the nerves," and as-  
suredly Hostetter's Stomach Bitters has  
proved to be the best of these. Malaria  
complaints, constipation, biliousness, in-  
activity of the kidneys and rheumatism  
often involve nervous troubles by sym-  
ptoms, and all are eradicated by the Bitters.
