DRS. DARRIN ARRIVED.

One of the Drs. Darrin of Portland, Has Arrived.

He Has Taken Rooms at the Chemekete House for a Brief Season.

NINE DOCTORS FAILED.

Three Most Remarkable Cures—How They Were Done by an Advertising Doctor.

A card to the public: I feel that I ought not to be doing my duty to woman-kind if I did not let them know how badly afflicted I have been and how and where to be cured. Ten years ago I was taken with a painful illness, and I have been troubled that way since that time, accompanied with womb trouble in every conceivable way. About three months ago the climax came, and I was prostrated with pain through the heart, chest and lungs, and confined to my bed. After nine doctors of different schools of practice gave me up, I applied to Dr. Darrin, and they have cured me so I can walk from my residence to their office. I am overjoyed with the result of the cure. Mrs. E. A. ABLE.

The following tribute to the gift and skill of Dr. Darrin is a remarkable instance of a generous impulse worked out against powerful professional prejudice, and is worthy of record:

Card to the public—I have for the past two years been afflicted with chronic pericarditis, accompanied with great pain around the heart all that time with excessive circulation, sleepless nights, fear and distress. I was unable to attend to the duties of my profession. I had exhausted my knowledge of medicine, as also that my colleagues, and found no relief until coming under the electro-magnetic treatment of Dr. Darrin. A little more than a month elapsed since I received this treatment, and I can truthfully say that I am cured. I have none of my former trouble, and wish to give my personal experience in the interest of humanity. I have been a practicing physician fourteen years, and am well known in this city and in Marshfield, Oregon. I deem it but justice to the public and to Dr. Darrin to write the above.

DR. STRELL.

TOTAL DEAFNESS CURED SIXTEEN YEARS AGO AND REMAINS PERMANENT TO THIS DAY.

Mr. Editor:—In 1872 my daughter was taken with the membranous croup and upon her recovery was left totally deaf. I called on two eminent physicians who said they could do nothing for her. As a last resort I took her to Dr. Darrin, who cured her, and she has never been troubled with deafness since. I consider it one of the greatest cures of electro-magnetic treatment on record, and with great satisfaction give this testimonial. I reside in Berkeley, Alameda county, California, and will take great pleasure in answering any inquiries concerning this most remarkable cure. Yours respectfully, WILLIAM S. DIBBLE.

OFFICE HOURS AND PLACE OF BUSINESS.

DRS. DARRIN can be consulted free at the Chemekete Hotel, Salem, Or., December 13 to December 23 only. They will under no circumstances take a case they cannot cure or benefit. Charges are reasonable, and the poor treated free from 9 to 10 a. m. daily. Office hours from 10 to 12 daily; evenings, 7 to 8; Sundays, 10 to 12. All curable chronic diseases, loss of manhood, blood taints, syphilis, gleet, gonorrhoea, stricture, spermatorrhoea, seminal weakness, or loss of desire of sexual power in man or woman, earache or deafness, are confidentially and successfully treated. Cures of private diseases guaranteed and never published in the papers. Circulars sent free. Most cases can receive home treatment after a visit at the Doctor's office.

An Eastern exchange says that a man, stopping his paper, wrote to the editor: "I think men ought to spend their money for payers, my dad didn't and everybody said he was the intelligentest man in the country, and he had the smartest family of boys that ever dug taters."

Delicate women who complain of a tired feeling, pains in the back and loins, desire to sleep, dizziness, painful or suppressed menstruation, will find in Oregon Kidney Tea a faithful friend. It can be relied upon in every instance to give immediate relief from kidney and urinary troubles. Thousands of women suffering every day from some disorder of the kidneys or liver, who might be permanently cured by using Oregon Kidney Tea. Sold by D. W. Matthews & Co.

SOME TIMELY TOPICS.

CLERK, OR., Dec. 12, '88.

EDITOR CAPITAL JOURNAL:—As the elections are now over, and it becomes us to settle down to business, the law making powers soon come together for the purpose of looking after the vast and varied interests of our young state. The question naturally presents itself, what can be done to most benefit the masses, and bring out and assist in developing the great resources of our naturally rich country. Shall we, through the press, and by other usual methods, try to direct them to the importance of appointing an Immigration Commission, and appropriating a few thousand dollars therefor, ever looking for somebody to come with money and turn up something for us, like the old man and his lazy sons. Or shall we, like the industrious husbandman or like Franklin's poor Richard either hold or drive. Perhaps we had better direct them to the importance of finding some favorable place to build another fish ladder, at a cost to the people of a few thousand? Or anything else just to reduce the surplus in the state treasury. Perhaps we can encourage them to buy the state fair, or at least furnish money enough to run it for the next two years. They could possibly foot away a good part of the session bartering with some great railroad corporation, or electing some railroad man to the U. S. Senate, thereby losing the grip that the agricultural, commercial and laboring world hold upon the general government. And certainly, a power that already has too great a hold upon the people.

I hope not to be understood to be particularly down on state fairs, railroads, fish ladders, etc., but the truth is, we have thrown away more money already than it would have taken to stimulate various interests, that would have been of almost incalculably more benefit than either. Fish have never seemed to be so plenty since the introduction of the fish ladder, whether they have escaped over it and all fled to the mountains. In question, they don't seem to be found in the upper waters more than formerly. Toll roads have been supplanted with railroads. The state fair, if it makes money and keeps out of debt, will no doubt continue to be successful.

I see that the people of Salem are talking up the propriety of the Astoria, South Coast and Salem railway. It certainly would be a fine thing for the central and upper Willamette valley, and perhaps help Salem to become more of a shipping center, and would no doubt cheapen the transportation of our valley products to the sea. Under the present system we have too much to pay, such as lockage, lightage and pilotage—all helping to enepen the product at home.

But while the people are waiting for the introduction of more railroads, would it not be well for us to try and open up some other industries, whereby profit might accrue not only to one section but to the country at large? Why not ask the legislature to offer a bounty on the manufacture of beet sugar? Almost the whole Willamette valley is adapted to the growth of sugar beets, and if the industry was only once put in motion, hundreds of thousands of dollars would be saved to the people of Oregon. Money that now must go out to sustain laborers and build up the cities of other countries. Suppose that there was a sugar manufactory in Salem to-day, you would probably have an accession of two or three hundred workmen and their families, many of them to make permanent homes, making and spending their money with you. It would not stop here, many of the great grain farms would be bought and divided up by beet raisers, where they would build comfortable homes, beginning near the manufactory, and then like a wave upon the water, spreading until the surrounding country would be dotted for miles with neat houses and barns, all pouring their trade in upon you. Salem is an inland town and the only sure way to make it grow, is to make it a manufacturing center. It has fine water power, and ought

to make a city, but never until her people go to manufacturing. Her people want to talk up manufactory—beet, sugar, woolen, binding twine, and other kinds, until the very atmosphere is impregnated with it. The goal is never reached without effort. Let Salem offer a water power, and subsidy also. All pull together and she will move. Look at South Bend, or Richmond, Indiana, they have given their tens of thousands to stimulate factories, that have proven the life of their cities.

You have contracted a habit of sitting back in your easy chairs and counting your little old ten to fifteen per cent interest, and you are losing your vigor. If you are not careful your progeny will even be wished. Some of you have lost sight of public spirit and business principles? No longer ago than last year, you had your agents out buying wool; authorizing them to pay from three to four cents more per pound, twenty miles away from your own town than you were willing to pay within your own doors; discriminating directly against the trade of your own houses, instead of trying to attract business to your city. Can you wonder that you do not build faster? You have not three miles of decent road for a drive leading off in any direction, even one of your main streets, leading out past the public buildings, until the last season, has been one of the worst pieces of road that could be found in the whole valley.

Salem has one of the finest natural surroundings for an inland city on the Pacific coast; perhaps could not be surpassed in any country. Look what a vast amount of fertile land, stretching away in every direction; plenty of fine timber, water power, etc. She has all the public buildings, and more lawyers than any other town of its size.

Go to work; spend a little money. Hire the convicts and improve your streets far out into the country, until people will like to go to town purposely to drive over your roads. More anon. FARMER.

TELEGRAPHIC TIDINGS.

The Federation Trade Meeting. ST. LOUIS, Dec. 12.—The American federation of labor resumed its session this morning. President Gompers appointed a special committee to report on the eight hour part of his annual address. In it he suggested the formation of eight hour organizations in all the cities and towns as a concerted movement, and that on Feb. 22 next a mass meeting to discuss the subject be held all over the country. A recess was then taken until afternoon.

An Interesting Decision.

KANSAS CITY, Dec. 12.—The faculty of the Warrensburg normal school in 1884 expelled Rosa Clark for attending an entertainment without permission of the principal. The court of appeals has ordered that she be reinstated, holding that the school authorities had no power to make or enforce such a rule.

Old Colorow is Dead.

DENVER, COLO., Dec. 12.—Colorow, the celebrated chief of the Southern Utes, died at the agency yesterday of pneumonia. The old chief was the most famous in the West, and was the leader in the Meeker massacre, and also in the Colorow war in Garfield county a year ago last August.

The court house at Georgetown, Ohio, was almost destroyed by an incendiary fire Monday night to get rid of evidence being prepared for the Grand Jury against the White Caps.

Many Inmates.

To-day Willis Tripp, a Canadian, was tried before Judge Shaw for insanity, and committed to the asylum. He has a hallucination that he is constantly pursued and is seeking to evade capture.

A Write-up of Salem.

An early number of the Overland Monthly will contain a descriptive article on Salem and surrounding country. This magazine is among the first. A. Pringer is the agent for Salem, and orders left at Starr's for him will receive careful and prompt attention. d-17

D. W. MATTHEWS & COMPANY, 106 STATE ST., SALEM, OR. SNELL, HEITSHU & WOODARD, Wholesale Depot.
