Solidified Sea-Foam.

A McMinnville man, according to the Telephone, recently was so fortunate as to have been the discoverer of a large quantity of Ambergris.

This ambergris which commands a high price for perfumery and is prized in the east in medicine and as a flavor in cookery, was once absurdly guessed to be hardened foam of the sea, or fungoid growth in the ocean, but is now known to be a secretion of the liver of the sperm whale, and is evidently a product of some disease in the animal. It is a soft fatty substance of variegated gray or blackish color, and emits an agreeable odor when rubbed or heated. It is principally found floating on the seas of warm climates, though it is also obtained from the intestines of whales. The largest known piece weighed 182 pounds, and was bought from the king of Tydore by the Dutch East India Company. A piece weighing 130 pounds was found in a whale near the Windward Islands, and sold for £500 sterling.

Silverton Notes.

Subscriptions are out to get a new hotel.

The postoffice fight here is getting red hot and is still heating.

Every building in Silverton is now occupied and more room is needed.

Silverton is going to build a school house next spring to be occupied by a graded school.

There will be a school entertainment given by Prof. Arnold assisted by the pupils on February 22nd.

The lumber is on the ground for a saw and planing factory. Some persons recently from Michigan are the owners.

O. G. Sparks, one of the disfranchised voters in the recent city election will shortly bring suit against two of the judges.

Where Is He?

Newspaper "send-offs" are not unfrequently a little overdone. The McMinnville Reporter, in speaking of a man recently married there, says "he is without a peer in all the qualities that constitute a true man."

All of which makes us doubt our hat to the wonderful man.

His Papa Was Willing.

A marriage license was this morning issued to Phillip Gillham, aged 20, and Miss Deborah Higgins, aged 25. The father gives his written consent to the union and Phillip takes unto himself an elder bride.

Katie Putnam.

Considerable interest is being manifested by our amusement goers relative to Katie Putnam's farewell engagement in Salem. Miss Putnam has visited our city a number of times and has always met with a good house and cordial reception.

During this, her last visit, will be produced her new play, "Dad's Girl!" No better proof of the popularity of Miss Putnam than to quote the following opinion of New York's best critic, William Winter:

Miss Putnam revealed a sensibility and personal worth that attracted regard. She is intelligent, forcible, agile, frolicsome and bizarre; and these qualities, shining through an active physique and much technical proficiency, make her an effective actress. Miss Putnam's grace is a certain infantile tenderness in quality of voice. Her most effective talent is proficiency in mischievous pranks. With this she pleased her audience, and to this she added cleverness and art in vocalism.
