But all her grandeur is comprised within the few years from the end of Carthage to the reign of Constantine the Great—only a few hundred years. Soon after came the invasion of the savages and Rome's downfall, when night and darkness settled over all the world, save a few towns of Italy and Asia Minor.

Worth Knowing.

Mr. W. H. Morgan, merchant, Lake City, Fla., was taken with a severe cold, attended with a distressing cough and running into consumption in its first stages. He tried many so called popular cough remedies and steadily grew worse. Was reduced in flesh, had difficulty in breathing and was unable to sleep. Finally tried Dr. King's New Discovery for consumption and found immediate relief, and after using about half a dozen bottles found himself well and has had no return of the disease. Are We to Have Another War?

Some political phrophets aver that we shall. Be that as it may, the battle waged by medical science against disease will never cease until we arrive at that utopian epoch when the human family shall cease to be affilieted with bodily allments. One of the most potent weapons which the armory of medicine furnishes, is Hostetter's Stomach litters, which is of special utility as a mully remedy, as it is adapted to inducediate relief and ultimate cure of those disorders of the stomach, liver and bowels which are of commonest occurrence. Indigestion, billionsness and constipation are inseparable companions, and these aliments are completely eradicated by the Bitters, but the remedial scope of this superfailively wholesome and genial medicine takes in also nervous alluments, theumantism and k ducy troubles; its action in these, as in the other complaints, being characterized by unequaled thoroughness.
