

CAPITAL CITY NEWS.

Recital of the Daily Doings Compiled From Various Sources.

Happenings Over the City and News From the Country.

The School Census.

David Simpson, who is engaged in taking the school census of the Salem district tells us that he finds many new people and that this year's census will be very much larger than that of last.

These are pertinent straws, showing that Salem is receiving a good share of the immigration. Still there is room for many more here.

Did You See the Sea, C?

The three "C" entertainment at the Congregational church last night was a most attractive one. The attendance was small but the program was well rendered and very entertaining.

It Grew, It Grew.

The woolen mill subsidy continues to grow satisfactorily. To-day the committee are again working individually, but are doing well.

The Silver Anniversary.

The order of Knights of Pythias of Salem last night celebrated their twenty-fifth or Silver anniversary.

Real Estate at Albany.

On Monday the Oregon Land Co. at Albany sold forty lots. This would surely indicate that realty in our sister city was on the move.

Silverton's Saloon Again.

The city council of Silverton last night decided to once more issue license to the saloon there.

Smallpox at Drain.

Word has reached us that Mrs. Jones of Drain, wife of Rev. Jones, has taken the smallpox and her husband, and who has been aiding in a protracted meeting at East Portland, has been telegraphed for.

A Grange Convention.

A convention composed of three delegates from each subordinate grange in Marion county, will be held at Salem Grange hall on Saturday, March 16, at 10 o'clock a. m.

W. M. HILLEARY, Deputy.

THE CITY COUNCIL.

The Regular Session Held Last Night—Proceedings.

The city council met in regular session last evening, Mayor Williams presiding.

The following councilmen present: Hirsch, Farrar, Collins, Lafore, Strang, Hutton; Recorder Cohn, Marshal Ross and Street Commissioner Thompson.

The committee on accounts and current expenses reported and recommended the payment of a number of bills.

The petition of Ford, Ladue and others to have wooden building in bank block removed was read and the marshal was instructed to remove the same.

The recorder was instructed to notify the chairman of the committee on lights to be present at next meeting.

A warrant was ordered drawn in favor of Thos. Holman for \$273 for electric lights for January.

The matter of the sewer assessment of the First National bank was called and the recorder was instructed to apportion the same between First National bank and Mrs. A. A. Wheeler in the ratio of the number of square feet owned by each and fronting on Chemekete street.

The matter of a nuisance existing in the block between Court and Chemekete, High and Liberty streets was called up and referred to the committee on health and police.

The street commissioner was instructed to blockade the bridge on High street in front of the agricultural works and to serve notice on the Salem Flouring Mill company to repair the same.

Boys Can't Buy Tobacco.

The bill prohibiting the sale of tobacco to minors is now a law, the Governor having approved it to-gather with the emergency clause.

The Bible.

By it we prove all mankind depraved and under the eternal curse of God, unless rescued by faith in Christ.

By it we prove faithless idlers and moral heathen are saved; by it we eternally damn moral Americans. What is this book?

When and how made? These questions will be answered by Mr. Ferk in the opera house on Sunday, Feb. 24th at 7 p. m.

A Good Sale.

I. A. Manning this morning sold to Squire Farrar and Joseph Myers the forty acre Ainsworth tract.

This is a part of the Harvey Walker claim which sold two months ago for \$90. per acre. To-day it brought \$125. It is located two miles northeast of Salem and is very desirable property. Who says real estate around Salem is not advancing does not speak the truth.

The Bull Run Waterworks.

We are in receipt of a lengthy communication on the Bull Run water bill, but as final disposition has already been made by the legislature of the all important subject, we withhold the correspondence.

A Telling Name.

A lawyer of one of our courts was looking over some papers his German client had brought, and every signature had a menace in it as it stood: "A. Schwindler." "Mr. Schwindler, why don't you write your name some other way; write out your first name, or something? I don't want people to think you are a swindler." "Vell, vell, how much better you think that looks?" and he wrote, "Adam Schwindler."—Ex.

How They Read.

Some of the rich old skin-flints of the Sound, engaged in business, do not even take a daily newspaper. They read a weekly, or have it read to them, to economize on loss of voice. It would paralyze them to pay for an advertising bill.—Tacoma News.

An eminent physician says: A healthy liver secretes from two to three pounds of bile every twenty-four hours and disposes of this secretion where it will do the most good. Now if the liver is out of order, the whole system is in trouble, the spirits are depressed, the mind is not clear, and a person whose liver is not performing its duty is very soon unfitted for regular business.

Dr. Henley's Dandelion Tonic rouses the torpid liver and enables it to perform its proper functions, thereby regulating the whole system.

W. C. T. U. COLUMN.

Annual Meeting of the W. C. T. U.

This society, which represents the organized motherhood of our nation, is ever an increasing wonder. The world declared that woman's sphere was the home, and for ages kept her within the confining walls of a house. So long as her loved ones were safe when they left her prescribed "sphere," she labored on, content in the happiness of her family. But, alas! institutions which she had no hand in planting in that all-outside-the-house sphere, and of which she was supposed to have no knowledge whatever, were a set snare and digged ditch for the unwary feet of her children.

The annual meeting was held in the Metropolitan opera house, of New York City, which, with its large capacity, was filled to overflowing. The address of Miss Frances E. Willard, whose peer it would be difficult to find as a presiding officer, was of unusual length and interest, and treated of nearly every question within the circumference of needed reform, from the doll question to national arbitration.

State vs. Holtzclaw, fined \$100 and committed.

State vs. Lawton, appear for sentence 9 a. m. to-morrow.

Board school land commissioners vs. Smith, sale confirmed.

Patterson vs. Hayden, file motion for new trial.

State vs. Shackelford, now on trial.

A Good Cup of Coffee Is a great attraction for a restaurant. The coffee drawn from Heltenbrand's Patent Coffee Receptacle is one of the many Great Attractions of his eating parlors.

Can you imagine any ailment that will make a good natured person so peevish, dissatisfied, ill tempered and cranky as biliousness? There is no reason, whatever, why anyone should suffer from indigestion, dyspepsia, torpid liver and loss of appetite, when Dr. Henley's Dandelion Tonic, which everyone knows is a certain cure, can be so easily obtained.
