Recital of the Daily Doings Compiled From Various Sources.

Happenings Over the City and News From the Country.

Avery Has Gone.

Frank A. Avery, the man who was shot on the train near Gervais several weeks ago, left last night on the overland train for San Francisco, where he will remain with his parents until completely recovered. The one ball remains in his back yet, the surgeons being unable to extract it.

There is considerable of Jekyll-Hyde about Avery, after all. In appearance he is a gentleman and so conducted himself in the presence of the writer. But those who constantly attended him during his confinement say he is one of the vilest of men, with no ambition above a life of pleasure and excesses.

Oregon Grows Tobacco.

There was some tobacco raised at Eugene last year of which samples were sent to San Francisco, to test its value for manufacturing purposes, says the Register. The report is to the effect that the product shows a healthy growth. There is no question about the success of the growing, but in the matter of curing there is much to be learned that is essential to success. There is an immense consumption of tobacco on this coast and a marketable product would meet with prompt sale at remunerative figures.

A Sadly Peculiar Accident.

Joe Avery of Corvallis, who is very ill and has been for some time, had a very peculiar accident happen to him Sunday, which, it seemed for awhile would terminate fatally. The doctor placed a thermometer in the boy's mouth to take his temperature, and the little fellow, unconscious of what he was doing, closed his teeth on the thermometer, breaking it. Before he could be prevented he had swallowed the mercury. He may recover, the Leader is informed.

A Bad Week for Feet.

We hear of several severe accidents among those who are engaged in chopping wood in the timber. Tuesday two brothers in a German family, living near Turner, hurt themselves severely, their axes having slipped and severed their toes. Also yesterday George Jackson met with the same misfortune. He was chopping within two miles of Salem.

A Relief of Former Days.

The first printing press brought to the North Pacific coast is now in the state library at Salem. It was brought to Lewiston, Idaho, from the Sandwich Islands in 1840. At Clear Water, twelve miles from Lewiston it was used for the publication of a paper, the first one established west of the Rockies.

That Big Picture.

Catterlin the artist has been successful beyond all expectation or previous efforts in securing a perfect group of the members of an Oregon legislature. His pictures are perfect and when arranged as they are the appearance is fine. The work is the best and each likeness is clear and distinct. Go and see him.

Jim Drake and Dick Jong.

The decision in the case of Dick Jong against Jim Drake was rendered by Justice Chase this morning. Drake was discharged. The suit grew out of a fight between the colored man and the Chinaman, during which the latter was knocked down and stuck against the floor by a molasses pitcher.

The Evangelists.

Burk and Studd continue their meetings of revival at the Presbyterian church. They are meeting with flattering success and will remain in Salem the entire week. Good congregations greet them each evening.

No School To-morrow.

To-morrow being the 22nd, a holiday, there will be no school. Washington's birthday is thus honored by the loyal pedagogues who are teaching the young ideas how to shoot.

A Peculiar Affliction.

A number of our exchanges speak of a peculiar disease that has been discovered among some horses down the valley. It baffles the skill of the veterinary surgeons.

Putard's Specific is an absolute cure for all eruptive diseases of the skin, such as Salt Rheum, Barbers Itch, Ring Worm, Head-itch and all itching or inflamed conditions of the skin, whether arising from disease or exposure. It is guaranteed in every case.

OUR PEN PICTURES.

Short Sketches of Our Law Makers And Prominent Men.

HON. T. J. KIRK

Belongs on the majority side in the House of Representatives and represents the county of Umatilla. He was born in the state of Missouri, in Platte county, August 12, 1839. When he was seven years of age his parents came west, and located in Oregon. That was in 1846, which makes Mr. Kirk one of our early pioneers. He is now settled down in life at the town of Centerville, where he is engaged in farming. Mr. Kirk is now serving his first term in the House, and although his voice is not often heard, yet he is an earnest thinker and a strict attendant to business.

HON. E. O. MCCOY.

Mr. McCoy is a republican representative from the county of Wasco. He is located at Grant, where he is extensively engaged in mercantile business. Mr. McCoy is a genuine "web foot" having been born in this state June 7, 1858 in Benton county. One year later his parents moved to Umatilla county. At that time it was hadly safe in Umatilla and very few white people were located in that part of the state. His early life is devoid of any particular occurrence, as he lived on a farm until he had reached the age of twenty-two, when he boldly went forth in business pursuits and has been unusually successful. He is a plain good natured, pleasant gentleman, who will in the future as in the past, make his power felt in the circles of daily friends.

HON. WILLIAM M. LADD

Is one of the well known and highly respected members in the House of Representatives. He is one of Multnomah's republican representatives. He is a native Oregonian—was born in the now city of Portland September 16, 1855, and was educated at Amherst College. Mr. Ladd is quite a business man, and has been so connected for several years. He is a director of school district No. 1, embracing the whole city of Portland, and a member of the old and well known banking firm of Ladd & Filton. He is also connected in a large extent with a number of important business enterprises throughout the Northwest. His personal appearance is attractive and his voice is often heard in debate. He is considered a shrewd politician, is genial as an acquaintance, faithful as a friend and honored as a citizen.

THE WOOLEN MILLS.

The Subsidy Continues to Rise—It is Now \$15,623.

The committee yesterday succeeded in adding \$865 to the woolen mill subsidy, raising the total amount of subscriptions to \$15,623.

To-day the members of the committee are performing individual service and the list is growing up perceptibly. The \$16,000 notch will be passed this evening and they think the total amount will be raised by Saturday night.

A Chicken Ranch.

Enlarging upon the item taken from the CAPITAL JOURNAL regarding Fredrick Lockley establishing a henry in the hills of Polk county, the Oregonian says: A plucky farmer in the Polk county hills is going into active competition with an Iowa industry. He is about to establish an extensive chicken ranch for the purpose of placing Oregon eggs in Oregon markets. This is presumptuous, but the chances are that he will make the venture pay.

The Salem Creamery.

There are a number of farmers in the vicinity of Salem who are anxious to see a creamery established here. The several meetings held have so far resulted in no final disposition of the matter. Another meeting is called for Saturday afternoon at the office of the Oregon Land Company. At this time it is hoped and expected some final arrangements will be decided upon. A creamery for this part of the country would be a grand thing.
