

CAPITAL CITY NEWS.

Recital of the Daily Doings Compiled From Various Sources.

Happenings Over the City and News From the Country.

Col. Lee and Chemawa.

John Lee of Crawfordsville, Ind., who was appointed upon the recommendation of Senator Voorhees soon after the advent of this administration, to be superintendent of Indian schools in a section of the far west, has been removed by Secretary Vilas. Mr. Lee is the father-in-law of Maurice Thompson, the well known novelist and state geologist of Indiana, and his official decapitation will create surprise. Secretary Vilas was requested by Representative John A. Stone to state the charges upon which Mr. Lee was removed, but the Chicago News says they have not as yet been announced. The investigation was made by Gen. Gordon, but his report has not yet been submitted to the public gaze.

Maxwell Cared by His Friends.

Yesterday the house clerks assembled in the office of the secretary of state and presented Hon. J. W. Maxwell, the member from Tillamook, with an elegant gold-headed cane, as a token of their appreciation of his efforts in their behalf during the present session. It is suitably inscribed, "From his devoted friends, clerks of the Fifteenth Biennial session—1889." J. T. Gregg, chief clerk of the House, made the presentation speech on behalf of the donors, and in fitting terms expressed their good wishes and gratitude. In his reply Mr. Maxwell showed the deepest feeling and sense of appreciation, thanking all his friends for such a valuable gift, a token of which he would ever be proud.

A Total Wreck.

The incorrigible Harry Dunn was up this morning to receive his semi-occasional sentence for drunk and disorderly. He goes to the city jail for three days. Harry is a good worker but the smell of ardent spirits enrages him and he is not satisfied until he is drunk. Recorder Conn gave him the usual moral lecture, and Harry as is customary, promises to leave town upon the expiration of his sentence.

A Converted Tin-Horn.

Mason Long, the once famous and wild gambler, has been converted and is now telling of the new life. He created great excitement in the Sound country, and in fact wherever he appears success attends him. He will be in Salem Monday and will occupy the pulpit of the M. E. church during his stay here.

His Memory Honored.

Last night the literary societies of the University conducted a joint musical and literary entertainment in honor of the father of this country. The program was rendered was enjoyable and many of its members brought forth cordial applause. The memory of our first president was honored fittingly.

The Street Railway.

The Commercial street survey to North Salem has been completed and the estimates have been completed for the material required in the construction of the line. The rails, etc., will be ordered at once and the work of building the line will be pushed.

The Last Night.

Burke and Studd conduct services to-night at the Presbyterian church, this being the last night of their evangelistic work here. During their stay here success to a remarkable degree has been with them and Salem is much better for their visitation.

A Vile Act Repeated.

One of the commendable acts of the recent legislature was to repeal the vagrant act. It was a bad law and worked hardship as well as injustice against many. With its repeal is cut off a great expense to each county in the state.

The Picture Copyrighted.

Catterlin the artist has made such great success with his excellent group of the legislators that he has obtained a copyright on the picture. His sales are rushing and he can't employ sufficient hands to clear his order book.

THE SUBSIDY GOING UP.

The Total Amount Subscribed is Nearly \$17,000.

The woolen mill subsidy is slowly growing larger, and the \$20,000 will soon be raised. The subscription gathered in yesterday amounted to \$700, raising the total sum to \$16,543. This has been subscribed by two hundred and sixty-four firms or individuals.

The committee to-day are doing some good work and the subscription will be completed shortly, it is thought. There remained but a trifle over \$3,000 to be raised this morning and the additions to the list to-day are quite numerous and the amounts subscribed liberal.

No doubt can be had from any source that Salem will not have woolen mills soon, and with them the city will stride steadily onward and upward.

The Alliance and the Grange.

In the proceedings of the State Temperance Alliance which has just closed its labors at Albany appears the following: "A motion was made to amend the section on membership so as to allow granges to be represented. Mrs. Tucker of Arlington made the statement that granges were not temperance organizations, that at the feasts and dinners wine was used and that she had been urged to partake of it. Quite a discussion followed, several persons showing that the grange had protected and encouraged temperance, and that the largest vote for the prohibitory amendment was where granges existed and worked, and members of the grange from its inception emphatically stated that in their knowledge wine had never been used at feasts and temperance was strictly inculcated. It was also stated that churches were not strictly temperance organizations. This statement was emphatically denied by others, and the amendment was withdrawn and granges were excluded from the regular organizations entitled to delegations. By this action the Alliance drew the mantle of holiness about itself and said we do not desire temperance assistance from secular organizations."

If your face is marked with blotches, And eruptions mar the skin, You may bet your bottom dollar There is something wrong within. 'Tis the blood. To purify it There is nothing half so good, As the G. M. D. is—try it. To be clearly understood I will explain that G. M. D. means "Golden Medical Discovery" (Dr. Pierce's), the popular remedy for debility, lung-troubles and weak, impoverished blood, which, like scrofula, shows its presence in the system in blotches and eruptions, and pimples. Perfection is attained in Dr. Sage's Catarrh Remedy.

CIRCUIT COURT PROCEEDINGS.

OUR PEN PICTURES.

Short Sketches of Our Law Maker And Prominent Men.

JOHN B. DIMICK.

Is a republican Senator from Marion county, and is a well known and highly esteemed resident of his county. He is an active, energetic citizen and one who takes a lively interest in the welfare and prosperity of our fair state, of which he has been a resident for over two score years. He was born in Boone county, Illinois, September 26, 1840, and came to Oregon with his parents when only seven years old, and has made this his home since his arrival here in 1847. At the first call for troops he enlisted in Co. B, First Cavalry, where he served for three years, when he was commissioned first lieutenant of Co. E, First Oregon Infantry, in which position he remained up to the close of the war. He is now located at Hubbard, Oregon, where he is engaged in farming and is considered one of the foremost farmers of that section of the country. Mr. Dimick has been a faithful and diligent worker in the past Senate and too much praise cannot be said in relation to his labors. Being at his desk both early and late he has performed an unusual amount of work. It has been said and truly said that he was one of the hardest workers in that august assembly. Space forbids any lengthier detail of this gentleman, suffice it to say he has gained many warm friends in the performance of his duties as a Senator.

MARTIN L. CHAMBERLIN.

Mr. Chamberlin is a republican representative from Marion county. In starting to write a life like picture of the above mentioned gentleman we realize that our pen cannot do justice to such a man, who is probably better known or has more warm personal friends in this section of the country than any other our pen has undertaken to describe before. He has the proud distinction of being what the world calls a "self made man." He was born in Almonts Lapeer county, Michigan, May 17, 1847. At the age of ten years his parents came west and in 1858 arrived in Oregon and settled in Yamhill county. He spent about nine years on a farm in said county and in 1867 moved into Salem where he has continually resided up to the present date. He deserves great honor for the bravery and earnestness in which he has battled with the troubles of this world. At a youthful age he was placed at the head of his father's family, he being the only son of eight children. The load was a heavy one for one so young as he to carry, however he has discharged that duty in such a manner that he has gained the love and esteem of all who are conversant with the circumstance. He aided and assisted his sisters in securing a good education and his reward is now before him. He was elected city treasurer in 1879 and in 1880 his friends placed him in the office of county clerk, which position he filled to the utmost satisfaction of all. In 1882 he was selected by a handsome majority. Mr. Chamberlin is now engaged in the real estate business in this city and is looked upon as one of our most worthy citizens. During the present legislature he filled his seat in the senate to the utmost satisfaction of all. He has carefully looked after all public interests intrusted in him and has made an efficient member.

WOMAN'S ARMED SAVER.

The best savior in the world for hemorrhoids, sores, ulcers, salt rheum, eye sores, teeter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, no pay required. An eminent physician says: "A healthy liver secretes from two to three pounds of bile every twenty-four hours and disposes of this secretion where it will do the most good. Now if the liver is out of order, the whole system is in trouble, the spirits are depressed, the mind is not clear, and a person whose liver is not performing its duty is very soon unfitted for regular business. Dr. Hentley's Bile Beans Tonic restores the torpid liver and enables it to perform its proper functions, thereby regulating the whole system." Sold by D. W. Mathews & Co.
