SAN FRANCISCO, Nov. 1st, 1888.

MORSE & WELLS BROS., Salem, Oregon.

Gentlemen: - We had the pleasure recently of making shipment to you of our new "White Cross" Extracts, and send you by mail to-day a very neat show card which we would like you to place prominently in your store, and which will call the attention of your trade to the goods.

It has been our intention for some time past to place upon the market, the finest line of flavoring extracts manufactured in this country, and after months of study and experimenting with the prominent brands now before the public we have at last succeeded in placing before you a quality which beyond doubt has no superior.

We can not too strongly impress upon you that you can unhesitatingly recommend them to your customers as the finest that can possibly be manufactured. The package and style generally is such as to attract attention, and we predict that when your trade have tested the quality of the goods your sale for "White Cross" extracts will be large.

By complying with our request you will confer a favor upon yours truly, A. SCHILLING & CO.

The Oregon Land Company

Is a corporation duly organized and operated under the laws of the State of Oregon. It began business in March, 1888, with a capital stock of \$20,000.

The First Sale Made By This Company Was in April Last.

During the nine months which have since elapsed it has made 107 sales to 104 different persons. Of the purchasers 85 have bought farming lands. It has also, during this time sold 61 residence lots in Salem. Of those purchasing but 25 were residents of Marion county prior to purchasing. The remainder were from the following localities, viz: Jackson Co. 1—Polk Co. 3—Multnomah Co. 4—Clackamas Co. 1—Yamhill Co. 1—Montana 4—Minnesota 4—Kansas 10—England 2—Colorado 2—Washington Territory 7—Iowa 5—Dakota 3—Indiana 2—California 8—Nebraska 7—Ohio 3—Wisconsin 1—Missouri 1—Illinois 1—Pennsylvania 2—Unknown 7.

This shows that sales are not confined to former residents of this locality, but that people are swarming in from the East to make their homes among us. The business of this company is constantly increasing. More than half of its sales have been made within the past three months, although this is a season of the year when sales are usually dull. The company has from 15 to 20 men constantly employed. It has representatives on Puget Sound. It has three men in Portland, two of whom give it their entire time. Rev. F. J. Strayer, who last year introduced so many immigrants into this State, is now in the East lecturing and distributing advertising literature exclusively for this company. He will start to this State with his first excursion on the 4th of April next.

This company is now spending more money to advertise Salem and the surrounding locality than

The Salem Board of Trade and All Other Agencies Combined!

Within the past twelve days it has paid for and contracted for advertising to the amount of

Over Fifteen Hundred and Twenty-Five Dollars,

The second edition of the company's pamphlet descriptive of Salem and the Willamette Valley is now in press. This is an edition of

TWENTY THOUSAND COPIES

Of a beautifully illustrated fifty page pamphlet. We cannot advertise so extensively in our home papers as we wish, for the reason that parties whom we most desire to reach are residents of the Eastern States, where these papers do not circulate. We do not advertise every sale we make in the local press, but we have advertised in more than

ONE THOUSAND PAPERS

In the East, as we depend upon Eastern buyers for the great bulk of our patronage. During the next few months our advertisements will be read by millions of readers of Eastern newspapers, who will thus be placed in direct communication with us, and nearly all of those who come to this coast will come ticketed for the office of

THE OREGON LAND COMPANY.

For these reasons parties desiring to sell will find it to their interest to place their lands in the hands of this company. If you wish to sell property leave it where

BUYERS COME TO BUY

If you wish to buy property come where property is left for sale. Your neighbors have land and don't want to buy.

EASTERN PEOPLE DO.

Our advertisements catch the eyes of Eastern people everywhere. We have five teams and comfortable conveyances ready at all times day or night, to convey parties to the properties we have for sale.

DON'T BE MODEST.

You are welcome to ride with us whether you buy or not.

CHRISTIAN SCIENCE.

Several Victims of the Latest Craze at Buffalo.

CHICAGO, Feb. 25.—The Times Buffalo, N. Y. special says: This city is so full of the Christian-science craze that the clergy are beginning to preach against it. It has obtained a strong hold in the western part of the city and is making inroads on the churches. What is worse several converts have died within a few days under the care of these praying doctors. As they claim to use no medicine, it is hard to get hold on them as practitioners without a license, but since fatalities have come to light the District Attorney has begun to look up the question and will be able to catch them on the clause of "any expedient whatever." Mrs. W. H. Chamberlain was buried from a hospital where she was sent after being treated for pneumonia by a Christian scientist named Hardy. Blood-poisoning had set in and she could not be saved. The District Attorney promises to bring Hardy to justice, and said that he should at once take steps to present his case to the Grand jury. The feeling against the Christian scientists is booming strong, yet they are so well entrenched in their practices that it will not be easy to dislodge them.

BIG RAILROAD NEWS.

A Report that a Rival Company to the Oregon Pacific Wants the Pass.

ALBANY, Or., Feb. 25.—A Herald special says: J. F. Hoffman, a contractor who has been getting out ties for the Oregon Pacific, has just returned from a trip to the summit of the Cascade mountains, where he says a party of twenty-five surveyors, claiming to be employees of the Wabash & Pacific Railroad Co., are camped and are attempting to hold the pass for their company. Mr. Hoffman talked with the men and they said they would have the road located in a short time. The road they said would come to Albany, and thence north-west to connect with the Astoria & Coast railroad at or near Tillamook.

As the Oregon Pacific company's road is already located and several miles of track already built, it looks very much like a big canard, although there have been some rumors afloat that the Union Pacific contemplates building a line through Eastern Oregon and across the mountains to connect with the Southern Pacific at this city.

That there is a party of surveyors of some road in the field in the locality named there is no doubt.

New Stars on the Flag.

WASHINGTON, Feb. 25.—It will devolve upon the state department as soon as the new states are admitted to provide a new flag for each consulate, naval vessel and naval station abroad and every Federal building in the United States, the flag to contain additional stars to represent the new states of the Union. It is the custom to unfurl these flags with a national salute when received and a good deal of gunpowder will be burned in different parts of the world to celebrate the event. As South Dakota will be admitted in advance of the other territories provided in the bill the official star-spangled banner will undergo at least two changes within the next twelve months.

News of the Canal.

NEW YORK, Feb. 23.—The news of the passage of the Nicaragua bill was received with much satisfaction at the office of the Nicaragua Canal Construction Company, which has taken the contract of constructing the canal for the Maritime Canal Company of Nicaragua. A representative of the former company said: "We will begin work as soon as we can close the contract we have now and make other arrangements necessary."

Four Washington Items.

WASHINGTON, Feb. 25.—Sam Randall and Chairman Mills have locked horns for a fight in the House that bids fair to make the last two weeks of the fiftieth congress long remembered. The question at issue between these two eminent democrats is the seemingly never-to-be-disposed-of tariff. Mr. Mills, from the committee on ways and means, has reported the Senate substitute for his tariff bill to the House, accompanying it with a resolution declaring that the Senate bill is unconstitutional, and directing the clerk of the House to return it to the Senate. This of course is just so much gammon, and only means that the committee will oppose the Senate bill in every way possible.

The new secretary of agriculture, Norman J. Colman, says he contemplates no changes; he will leave that to the secretary that Gen. Harrison shall select to preside over the destinies of the new department.

It is a fortunate thing that we have had no war since Mr. Endicott has been at the head of the War Department. He is entirely too fast for this slow going age. For instance, sometime previous to the presidential election the Senate passed a resolution calling on the Secretary of War for information as to a circular order sent out prohibiting the employment of republicans under that department. He has just answered that resolution. He says the department issued the order; and that his only reason therefor was to give the places to democrats. And yet some democrats call Mr. Endicott a mugwump.

Senator Spooner has introduced a bill providing for a system of farmers' institutes, in various sections of the country, under the control of the agricultural department. The institutes are to give instructions, furnish illustrations by lectures and discussions, make experiments and in fact, to endeavor in every manner to enhance the value of the farmers' land and products. If properly conducted, these institutes would be of great benefit to the farmers of the country.

CONDENSED DISPATCHES.

Over 82 thousand cars were added to the equipment of the railways last year, and 2,562 locomotives, mostly built by seventeen firms.

Small doses of nitro glycerine of from one-twenty-fifth to one hundredth of a grain are found infallible as a remedy for that horrible agony, neuralgia of the heart, or angina pectoris.

The cold snap of the 21st over the East, passed down as far as Georgia and South Carolina where, even to these southern borders, it ended in a blinding snow storm, that left several inches of snow on the ground.

If your face is marked with blotches, and eruptions mar the skin, you may bet your bottom dollar there is something wrong within. 'Tis the blood. To purify it, there is nothing half so good, as the G. M. D. - try it!

To be clearly understood I will explain that G. M. D. means "Golden Medical Discovery" (Dr. Pierce's) the popular remedy for debility, lung troubles and weak, impoverished blood, which, like scrofula, shows its presence in the system in blotches and eruptions, and pimples.

Perfection is attained in Dr. Sage's Catarrh Remedy.

Nominations are in Order.

A bill has been introduced in congress providing for postmasters to be elected by the people the same as a justice of the peace or other officers. As the president knows nothing about the competency of the men he is appointing, it seems to us that the idea is a good one.

An eminent physician says: A healthy liver secretes from two to three pounds of bile a very twenty-four hours and disposes of this secretion where it will do the most good. Now if the liver is out of order, the whole system is in trouble, the spirits are depressed, the mind is not clear, and a person whose liver is not performing its duty is very soon unfitted for regular business. Dr. Henley's Landelion Tonic rouses the torpid liver and enables it to perform its proper functions, thereby regulating the whole system.
