Recital of the Daily Doings Compiled From Various Sources.

Happenings Over the City and News From the Country.

### Linn County's Mines.

That distance lends enchantment to the view is as true about mines as other things, and that is the trouble about Linn county's mines. They are too near home. G. A. Dyson says: "Only a couple of weeks ago J. P. Coshov of Albany, who had spent some months in Butte City, Montana, came home and brought some fine specimens of ore from those justly celebrated mines, and comparing these afore-said specimens with some here, brought from Blue River, some people laughed at the idea of their resemblance, and yet careful comparison shows that the quality, color and grain of the quartz are exactly the same—the same colored and shaped sulphurets of iron, and the galena is the same."—Albany Democrat.

### Empire State Apples.

Among some of Portland's more recent importations was a car load of New York apples. They were the Baldwin variety and those who have a curiosity to fix their teeth in an Eastern grown apple can be accommodated at Weller Bros. These apples are not large but are sold at two for five cents. Those who had an idea that Oregon apples wanted anything in flavor are now free to admit that they are equal to the New York product. Oregon against the world, every time.

### Salemites in California.

From a letter received to-day, by a relative of one of the parties, we learn that George Pearce and wife, Frank Gilbert and wife, Eugene Willis, Wm. England and wife, and Eugene Breyman and wife, were at the Palace Hotel, San Francisco, on the 17th, and left on the 18th for Monterey, Del Norte, Santa Cruz, San Jose, Lick's Telescope, etc., intending to reach Salem about the 4th inst. All were in good health, and having a "way up" time.

### Oregon's Arbor Day.

Heretofore the afternoon of the second Friday in April will be known as Arbor Day. On that day the children of the public schools are required to assemble and plant trees, the object being to "stimulate their minds toward the benefits of the preservation and perpetuation of our forests and the growing of timber."

### Gone to Kalama.

Imus Bros. have pulled up stakes in Salem and gone to Kalama, W. T. They will there start a weekly newspaper, having among their possessions a hand press and some printing material. There is as yet no paper at Kalama, and they may succeed, possibly.

### Another Marion Patient.

John Riggs of Silverton was this morning tried before Judge Shaw for insanity. The result was his commitment to the asylum. Riggs is thirty-eight years of age and a native of Indiana. His insanity is the result of seclusion, and is of a mild type.

### Noody's Followers.

Burke and Studd drew a large congregation again last night to the Presbyterian church, where the usual evangelical services of song and sermon were conducted. They remain with us the balance of this week. Hear them to-night, ere it is too late.

### The Supreme Court.

The regular term of the Supreme court convenes on Monday, March 4th. A good docket will be presented, although the establishment of a session of the court at Pendleton, the first term being held in May next, will shorten it not a little.

### Home Again.

T. M. Patton and wife returned home this morning, after a pleasant tour of California cities. They report a most pleasant journey in the land of unending summer.

### Queen Anne Sales.

P. H. D'Arcy this morning purchased lots in the fashionable Queen Anne Addition. He paid \$1800 for them. I. A. made the sale.

Owing to this changeable climate, it is difficult to preserve a fair complexion and our fair sisters are annoyed by roughness of the skin, chaps, red nose, etc. If Dular's specific is applied to the face and hands night and morning, a clear and healthy complexion can be preserved. Portland, Oregon, March 25. Sold by D. W. Matthews & Co.

## NEARING THE END.

The Woolen Mill Committee on the Last Thousand.

Already the soliciting committee begins to see the end of the work of soliciting, as they are to-day endeavoring to gather in sufficient subscriptions to complete the \$20,000. The list this morning footed up \$19,020, and by noon to-morrow the entire amount will have been raised.

The additions to the list yesterday amounted to \$110, and those who are placing their names to-day are subscribing small sums.

Before many hours the news will go forward that Salem has raised a \$20,000 subsidy for a woolen mill, and before many more days the work of constructing the necessary buildings, purchasing the machinery, etc., will be going on.

Hurrah for Salem, and hurrah for her woolen mills. But be sure and see that your name is on the list for a goodly sum.

### Manufacturing Ice.

The various cold storage companies now springing up promise to work wonders in trade and household affairs. And as an ice manufactory and cold storage is soon to be established in Salem, the following concerning the process of its manufacture may not be uninteresting: The anhydrous ammonia, which is the cooling agent, comes from the soft coal used in making gas. It costs nothing but for fixtures to refine and make use of it. A ton of coal yields twenty gallons of ammoniated water, from which the ammonia is separated in vapor, then forced into liquefaction by a pressure of 120 pounds to the square inch. When allowed to return to gas, it takes away the heat of whatever it touches. As it can be sent through pipes and come back to be used over and over again, there is little cost to the process.

### Another Chemawa Item.

T. D. Marcum of Kentucky returned last evening from Chemawa, where he has been conducting an investigation. He is a U. S. Indian Inspector and took in Chemawa in his regular round of the reservations and schools of the Coast and Western states. He found nothing of a startling nature to report from Chemawa. Mr. Marcum says the newly appointed superintendent, Mr. Beall, will arrive here before the first of April.

### The New Postmaster.

To-day it is Postmaster Dearborn, he having assumed the responsibility connected with the Salem post-office. He is a good democrat and will have the exquisite pleasure of serving just three days under democratic rule of national affairs. His republican friends wanted him to wait until the 4th and go in with the new administration but he said he wanted to serve a day or so at least under Grover.

### A Good Cup of Coffee.

Is a great attraction for a restaurant. The coffee drawn from Helenbrand's Patent Coffee receptacle is one of the many Great Attractions of his eating parlors. Thousands of cups of his excellent coffee are sold every week. And as for oysters and meals he cannot be equaled in the state.

### Capital Park Addition.

Many of those who have purchased lots in the Capital Park Addition are improving them. Several houses are in course of construction, while many lots are already fenced. Jacob Bartelle this morning purchased one lot in this addition, paying \$300 for it. H. E. Bellinger & Co. made the sale.

### Living Fossils.

Princeton College will send an expedition to Oregon next summer to hunt for fossils.—Exchange.

That's right. Keep on sending. We have more fossils here than anywhere else in the world. They are partly alive too and that is the great wonder.

### Pay for a New Academy.

At Dallas to-night the citizens will hold a mass meeting to take steps looking to the erection of a fine new academy building. Many lots in the old campus have already been sold and if the people want a fine academy building now is the time to act.

### Drunk and Disorderly.

Samuel Gaines was before Recorder Conn and entered the plea of guilty to the charge of drunk and disorderly. He went to the city jail for a term of four days.

Wright's Myrrh Tooth Soap gives Pearly White Teeth. Purifies the Breath, Prevents Tooth Decay. Sold by all druggists.

—'Tis not all of life to live nor all of death to die, but you get more choice fancy groceries than you can carry away for a very little money at Squire Farrar's. Don't take our word for it, but go and see for your self.

—Good new two story house, barn, full lot, hydrant water, in Albert's addition, near depot and street cars for only \$1800. House and two full lots, close, in North Salem, \$750. Five bargains in farm property. DUNCAN, ELLIS & BOOTH.

### CLOSING UP STREETS.

EDITOR CAPITAL JOURNAL:—There appears to be a disposition to close up two more streets, one east and west of the state house, and the one thing strange is that nobody appears interested in the matter. We have enough land already closed to business and improvement, by Wilson's Avenue and the University grounds, to make a good farm which is neither useful nor ornamental. Business must ever be retarded by them. If we need the land east of the state house, we need it as well north and south. Why not? So far as the interest of the state is concerned, it might be good policy to buy all that joins the ground. But there is some doubt about it.

### KICKER.

A Centenarian—Almost. Old Mr. Durbin of this town, who is often met on the streets, is undoubtedly ninety-three years of age. He was married April 26, 1821, and his son was born just one year later. His venerable spouse still survives. They have raised a large family. Soon they will have been seventy years married. The mother is about four years younger than the father. How few survive to keep company in this vale during such a long time. Most of their children are living in Oregon. The old gentleman is very active and lively and few would suspect that he is so old. The dates above given are taken from his family Bible.

### A Grand Text.

Last night Mr. Studd took his text from the gospel of St. Matthew "Consider the lilies of the field how they grow; they toil not, neither do they spin; and yet I say unto you, that even Solomon in all his glory was not arrayed like one of these." The sermon was a most impressive one and resulted in awaking an interest in the hearts of the many auditors. This text is one rich in argument and is among the most poetical parables in the Bible.

The services of Burke and Studd will be continued evening and Sunday. To-morrow this evening they will rest.

"We are not hospitable, compared to the French," says the New York Star. Right you are. It seems good to meet a real duke in Paris and hear him say: "George, old boy, come up and make my palace your home while in Paris."—Ex.

"Are you the superintendent of this railway?" "Yes sir, why?" "I want a pass." "Are you employed by this road?" "Yes sir."

"In what capacity?" "I am a member of the legislature."
