Signal Station.

The following communication will be of interest to the readers of the JOURNAL. It will give us to understand that the prospects of having a signal station established in Salem are doubtful, as we seek nothing at the loss of our neighbors, and also that our senators and representatives are wide awake to the interest of the state:

WASHINGTON, FEB. 27, '89.

HON. J. N. DOLPH:

I have the honor to acknowledge the receipt of your letter of February 24th, touching on a communication you have received from prominent citizens of Salem, Oregon, urging the establishment of a station at that place.

I have the honor to say frankly, that it does not seem to me that such a station is required in the best interest of the public service. There are now stations at Astoria, Portland, Roseburg, and on the U. S. Military-telegraph lines, at Ashland Linkville and Fort Klamath, as also a station at Walla Walla, just over the line to the north, and at Boise City, to the east. The Hon. Mr. Hermann has been very urgent that a station should be established at Baker City. The sentiment of all the officers connected with predicting duty is against the establishment of a station at Baker City.

I have had in mind the possibility of establishing a station there in the interest of Eastern Oregon, perhaps being obliged to move Boise City to Baker City. Of course if it was agreed by the Oregon delegation that Salem should have the station rather than Roseburg, such a change could be made, though in the interest of geographical distribution Eugene City would be the more preferable point. I am unfamiliar with the growth of the Oregon cities since 1880, and should be pleased to defer as far as possible, to the wishes of yourself in particular, and the Oregon delegation in general, in meteorological matters concerning the interests of that state.

Very sincerely yours, A. W. GREELEY, Chief Signal Officer.

TELEGRAPHIC TIDINGS.

Important Events of the Whole World for Twenty-four Hours.

Territorial Gold.

ELLENBURGH, March 6.—Considerable excitement was caused by the arrival of parties from the Methow valley bringing specimens of gold quartz assaying \$4500 per ton. Methow is a new district about 36 miles from Conocanally, in which several valuable finds have been made recently, but none so rich as this last. Several parties interested in mining are going to outfit for the Methow at once. A. I. Thomas, residing on the Wenatchee, came to town yesterday with specimens from a 54-foot vein of coal discovered on his ranch. There has been several discoveries of coal on the Wenatchee of fine, hard quality, and that section promises to develop a coal field.

Rioting Chinese.

SAN FRANCISCO, March 6.—The steamer City of New York, from Hong Kong, brings news that the anti-foreign riots at Chin-Kiang, were started by alleged cruelty on the part of the police.

Relief is now coming in from all sides for the starving people in North China, but it is feared many thousands will perish in the cold of winter. On February 12th a very serious rising of Black Flags and Annamites broke out on the Tong King frontier against the French. The military posts were destroyed and it is said over a hundred French soldiers were killed.

A Duds and Heir.

NEW YORK, March 6.—E. Berry Wall will come into another fortune. The size of it is placed at \$2,000,000, and it comes from his brother William, who was buried here. It is said that before his departure for the Pacific coast William Wall spoke to the members of his family about his property, and the advisability of leaving it to his brother. There had been some bad feeling between the brothers, it is understood, but the sick man agreed to put aside all unfriendly thoughts and make a will in Berry's favor.

Bill Watkins Again.

ALBANY, Or., March 7.—W. H. Watkins has brought suit in the circuit court in this county for \$10,528 damages claimed on account of injuries received recently at Lebanon by falling from a high sidewalk near the depot.

The sidewalk had no balustrade or light to show its dangerous condition and the plaintiff walked off and broke a few ribs. The case will come up for trial at the March term of court, which convenes next Monday.

A Burning Disgrace.

WASHINGTON, March 6.—The conduct of the Pennsylvania militia attending the inaugural ceremonies here was marked all along by disgraceful scenes. Their rowdyish acts and drunken debaucheries came near culminating in a riot.

The Mormon Monster.

ATLANTA Ga., March 6.—A party of fifteen Mormons passed through this city early this morning on their way to Utah. They came from Southern Georgia, and were in charge of two missionaries.

What Puzzled Patrick.

"Look at that, now," said an Irishman, as, in company with a friend, he passed a couple of Italians who were engaged in animated conversation. "Well, what of it? They are talking to each other, nothing more."

"Yes; but here's the wan thing that Oi want to know?"

"What is that?"

"How in the devil can they tell phwat they're talking about?"—Traveler.
