A Hint to the Ladies. A lady entered a drug store on Broadway and called for this mixture: One quart of odorized benzine, one drachm of sulphuric ether, one drachm of chloroform, two drachms of alcohol, and just enough cologne to make it pleasant.

Called For Squire. WASHINGTON, March 15.—Telegrams are pouring in upon President Harrison asking the appointment of ex-Governor Watson C. Squire of Seattle to be governor of Washington territory.

UNIVERSITY NOTES.

Points of Personal Mention and Notes of News.

Miss Hansee has been absent from her classes for a few days on account of sickness.

Homer Hilleary, a student the first part of the year, will begin teaching Monday at Squirrel Hill.

The regular semi-term rhetorical of the academy will take place next Thursday at 2:30 p. m.

Miss Lillie Bennett will re-enter school Monday after two week's absence on account of sickness.

A week from next Tuesday and Wednesday are the dates for Dr. Houghton's second series of lectures. He will give three lectures during the two days.

Misses Carrie Gleason and Laura Dimick, took the morning train for Hubbard, to spend Sunday at their homes.

Miss Mary Magee returned to school Monday after a week's absence from the results of being thrown from a horse while spending a Saturday at her home in Polk county.

B. F. Fletcher, an enterprising farmer of north Howell Prairie, but recently from a few months' sojourn in eastern Oregon, spent a few days during the week visiting his son, E. B. Fletcher, who is attending the university.

Monday of this week seems to have been a popular day with the university, as about a dozen visitors took the opportunity to pay their respects to the school.

Both the boom and real estate fever seem to have struck the faculty with full force, nor are we able to predict what the results may be.

Geo. Randall of Clackamas county spent a few days in the capital city, the first of the week visiting his son who is a student.

Thos. P. Boyd, an old time and much respected student, at present a resident of Ashland, stopped while on his way to Portland and paid his respects to the university.

N. L. Conn left Wednesday for his home at Roseburg where he will spend a few weeks visiting and will then go to California where he will remain during the summer for health.

Mrs. Dr. J. H. Wood and Miss Ida Harvey of Portland, while visiting their friend O. N. Nelson, yesterday, took a look through the university and were much pleased with the outlook of the school.

The Philadorians at the meeting last evening discussed the question, Resolved: That women have had more influence in civilizing the world than men. The question was opened on the affirmative by O. F. Tower, on the negative by F. T. Howell. The discussion was lively and was decided by the chairman in favor of the affirmative.

Occidental Jottings. The Lane county agricultural association has disbanded.

The altitude of Yreka, by Surveyor Palmer's map is given at 2,620 feet.

Salem has men of enterprise pushing her car of progress.—Ashland Tidings.

Astoria claims that city to be the second largest in the state with a population of 8000.

Oregon contains a greater variety of timber and more of it, than any other state on the coast.

The Republican says the steamer Yaquina Bay may yet make regular trips in and out of Yaquina Bay.

The bed of the Yaquina river from Yaquina city to near Toledo, is full of the finest oysters on the Pacific coast.

Pendleton is raising an advertising fund to show immigrants its advantages as a home and business point.

About 1,000 emigrants are reaching Oregon every day over the various lines of railways from the East and South.

Sixty of the crews of surveyors who have been locating lines in Southeastern Oregon, are now at Redding, California.

Based on the report of its school clerk, Salem claims a population of 10,000. At the same ratio Albany has a population of 5,000. Are the figures correct?—Democrat.

S. A. Clark will put out two thousand more trees—1000 pears and the remainder peach and prunes—at his fruit farm near Salem, this spring, making altogether eight thousand trees in his orchards.

The latest railroad news, says the Astorian, is that the Union Pacific is going to Tacoma, and the Chicago & Northwest is coming to Astoria. Work on a ten-mile contract on the Astoria & South Coast Railroad has begun, running south from Skipanon.

The late legislature made provision for a health officer at Yaquina bay in addition to those at Astoria, Coos bay and the mouth of the Umpqua. The particular or right-enrolling clerk, who copied this bill made Coos bay read "Coast" bay. As there is no such bay in Oregon, Coos bay gets left.

Following the example set by Salem a large amount of land near Jacksonville has been purchased by a syndicate, which will divide it up in five and ten acre tracts and sell it for fruit land at a slight advance for cost of surveying and platting. This is done with a view of attracting immigration.

IT'S COMING. Sentimental People Losing Their Grip And the Day of Retribution Here.

From the Tacoma Globe. The following extracts are made from the old Connecticut "blue laws," which were so called because they were printed on blue paper.

The Navy Yard Located. SEATTLE, March 15.—Residents along Port Orchard, on Dyer's Inlet, directly across the sound from Seattle, in Kitsap county, are much stirred up over the action of the naval commission in securing one year's option on about 2000 acres of land in that vicinity, for a consideration, if the bargain is closed, of about \$50,000. This action of the commission is considered by the people of Port Orchard to settle definitely the question of the location of the navy yard, and in consequence property upon which an option has not been obtained by the commission has increased greatly in value.
