LATEST BY TELEGRAPH. Important Events of the Whole World for Twenty-four Hours.

Not in the Trust. SAN FRANCISCO, April 12.—This afternoon Claus Spreckles, when asked by an associated press reporter if he had joined the sugar trust, as reported in New York, said: "I am not in the trust, and never will be in the trust at any price."
Centennial. A seventy-year-old received, among numerous Christmas presents, a little pocket diary. The entry: "Jan. 24, 1889; he didn't," created some surprise until she gave the following (in a tone of injury): "Johnny Smith" (a little neighbor) "said he was coming over to see me and—he didn't."
Alaska's New Governor. WASHINGTON, April 12.—The appointment of Lyman C. Knapp of Middleburg, Vermont, as governor of Alaska caused considerable surprise. Not a single paper in his case had been filed at the interior department, and the appointment was made from the White House direct. There was a score of applicants, and Michigan fully expected to secure the prize. Gov. Swineford had resigned, and there was no contest over the matter except between applicants.

The Street Car Samba. MINNEAPOLIS, April 12.—An attempt was made to run the cars with new drivers. The mob feared at the drivers and made a rush for the cars. The police charged on the mob, using their clubs vigorously. Peter Henry, a bystander, was seriously injured. Superintendent Goodrich announced that the cars would start on their regular trips at four p. m., but at that hour no attempt was made to start the cars on the motor line.
Many Hundreds Browed. NEW YORK, April 12.—The greatest excitement prevails in shipping circles over the loss of the Denmark. The Thingvall is probably the largest carrying immigrant line between this port and Europe. The Denmark had on board when she left Copenhagen for New York on the 25th of March, 650 passengers, presumably all emigrants, including the vessel's captain, R. M. Kunderesen, and crew which numbered 40 men. The office of the agents of the steamer, Funck, Edge & Co., No. 22, South William street, has been thronged with people all morning anxiously inquiring for the latest news of the vessel.
Mr. Edge, of the firm, does not credit the report. He has called his London agents and has sought by wire further particulars from the Copenhagen branch of the firm.

Called a Halt. WASHINGTON, April 11.—Secretary Noble, in a letter to the attorney general, has requested that the United States attorney for Montana be directed to suspend action, civil or criminal, against the Missouri company formerly the Montana Improvement company, and the Northern Pacific railroad, for fraud in trespass on the public lands in Montana until the same can be investigated with a view to a disclaimer as recommended by the United States district attorney. The amount of lumber involved is over 40,000,000 feet, besides a large amount of cordwood and railroad ties. This action is taken, it is understood, upon information that it will be extremely difficult, if not altogether impossible, for the government at this late date to secure sufficient evidence to maintain these suits.
The Greatest an Record. CINCINNATI, April 12.—Meredith Stanley of this city the well known athlete and bridge-jumper, who has challenged Brodie of New York, yesterday made the most remarkable leap on record. It was from the famous high bridge over the Kentucky river. He height is 25 feet. He selected water where it was twelve feet deep, and attained in six flights and slippers leaped into the air and doubling up his body, fell into the water, and a moment later bounded to the surface, where he was quickly seized by his assistant in a boat. He coughed blood a little while, but soon recovered and took the train for Cincinnati. He escaped without breaking the skin, and feels as well as ever.

Religious Stations. WASHINGTON, April 12.—Secretary Rusk has issued a pamphlet giving a history of the agricultural experiment stations which have been established under the recent law of Congress and are now conducting scientific and practical experiments in regard to soil tillage, manufactures, crops, stock feeding, dairying and horticulture in various States. All the States and one Territory, Dakota, now have agricultural experiment stations. The total number of stations in operation is forty, and including branch stations nearly sixty. They employ more than 370 scientists and agriculturists, and will this year receive \$350,000 from the National Government and about \$125,000 from the State and other sources. The most cordial feeling is said to exist between the stations and the Department of Agriculture, which is charged by Congress with the duty of supervising and aiding the work of the stations.

Sextuplets in Minnesota. PERHAM, Minn., April 17.—A little over a year ago a Finnish woman at New York Mills presented her husband with four children. This fact aroused a good deal of comment at the time, but a report comes now which, if true, goes it two better. The story as told, and it comes from a reliable source, is that Mrs. Andrew Thurber, a Finnish lady living near New York Mills, gave birth a short time since to six children, three of whom are alive, and three born dead.

Murder and Suicide. LOS ANGELES, Cal., April 12.—A murder and probable suicide took place here on Almoda street this afternoon. Chas. Scott, a blacksmith, called at the room of a woman known as French Mary, and had some trouble, when Scott drew a revolver and shot the woman in the right ear. Death was instantaneous. Scott then placed the weapon to his temple and fired. Jealousy is the supposed cause.
