THURSDAY, APRIL 18, 1880.

The Government's Proclamation.

Proclamation of the President of the United States, George Washington, as first president of the United States...

SOCIAL NOTES.

THE JOURNAL hereafter, in each Saturday afternoon, will devote a portion of its space to the recording of movements in society.

ONE of the youngest men now in Washington is Humbert Haublin, who is not yet ninety years of age.

ONE of our religious contemporaries is responsible for the curious statement that "the literary remains of Emperor Frederick, which his widow has now begun to edit, will fill four large volumes."

CHICAGO Mongol population is growing very rapidly. The increase of number in the past two years is marked upon Clark street, between Van Buren and Twelfth streets.

THE Eiffel Tower has reached its full height, 1,178 feet. A newspaper correspondent who went to the top says that the ascent by the staircase took forty minutes, and by elevators it is to be made in five minutes.

SENATOR COKE of Texas is a firm believer in spiritualism. He is a large, fine-looking man in vigorous health, and not in appearance a person given to tampering with the other world.

THE large province of Ontario touches the whole northern bounds of New York and Michigan, part of those of Pennsylvania, Ohio, Wisconsin and Minnesota, and reaches to Hudson bay.

THE state of Nebraska was the first, in 1874, to inaugurate a movement to designate one day in a year in which everyone was urged to plant a tree, or do something to encourage a general tree planting.

Now is the time for susceptible young men to fall sick in Philadelphia. Thirty-six young ladies have just been made doctors in the Quaker city.

"Josiah." I never can forget that day That we went out on a walk; And sat down on the river bank, And kept on hours talking; He twisted up my apron string And folded it together, An' said he thought for harvest time 'Twas cur's kind of weather.

"SCRAPS."

Henry Labouchere generally describes General Wolsey as a "perfect gas-bag of self-interest."

It has been calculated that the sun's surface is raised by something like 750 degrees Fahrenheit, soon after the period of the full moon, and that it is depressed by the influence of radiation into space to something like 250 degrees below zero of Fahrenheit soon after new moon.

A NEW gunpowder has been tested, and the results point to it as a promising substitute for black powder for military and sporting purposes.

THE legislature of the state of Nebraska has recently fixed up the matter of carrying concealed weapons in a novel way.

ADAMANT LINDSEY is the only president who ever secured a patent. In 1840, when the future president thought to make a reputation as an inventor rather than a statesman, he took out letters patent on the novel of a boat for lifting vessels over shoals.

A newspaper in Vienna called the Schwarzwald has just been suppressed for publishing the following paragraph: "Prince Rudolph was assassinated for political reasons, and the prince of Hesse-Cassel, who on the 14th of October, in a trip from Batavia to Singapore, jumped overboard and perished, was not innocent, but the victim of a political plot."

For chapped hands, roughness of the skin, pimples, or blotches of any kind on the face or other parts of the body, apply Dutag's Specific. It works like magic and is warranted by the druggist. Sold by D. W. Matthews.

Bucklen's Arniea Salve. The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box.

The Illinois senate has passed a bill to regulate telephone charges in the state.

Merit Wins. We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's Arniea Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction.

Fifteen congressmen are ill in Washington, as a result of exposure on inauguration day.

Derangement of the liver covers a multitude of ailments. In all cases where the functions of the liver are interrupted or disturbed, and the bile, its constant secretion, left circulating in the blood, some disorder will follow.

The Racine (Wis.) basket factory is claimed to be the largest of its kind in the world.

"The One Boss Shay," of Dr. Holmes, is full of the genial author's exuberant humor.

Miss Hattie Carter of Kearny county, Kansas, has won several prizes at a horse race in competition with cowboys.

James G. Whittier pronounces the rumor that he contemplated a visit to Europe as utterly without foundation. "The time has long since past," he writes, "when such a trip would have been practical or desirable. At my age one travels easiest by proxy."

Some years ago Secretary Rusk bought a choice hog of an eloquent divine of Madison, Wis., but as the animal proved to be unsound he made the clergyman take it back.

A number of years ago the late John Ericsson was invited to hear Ole Bull play the violin. The inventor replied that he had no time for such frivolity, that he had no ear for music, and that his habits could not be changed.

THE widow of Gen. Logan is writing an article on the German army.

A Safe Investment. Is one which is guaranteed to bring you satisfactory results, or in case of failure a return of purchase price.

EX-Senator Tabor of Colorado began life under Secretary Proctor, working for some time in marble quarries in Vermont.

DO you ever have pains in the back and limbs? If you do, attend to them at once, don't wait, delays are dangerous. Sip the disease in the bud and save your health and doctor's bills.

DEAFNESS CAN'T BE CURED by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies.

Count Von Moltke is very old, deaf, and a martyr to a bad liver. Yet he carries himself easily and seems a well-preserved man.
