tion. Office, corner Court and Liberty Streets. SATURDAY ....

"PAUPEBOCRACY" is a new word just coined by the N. Y. Tribune. By the way, it is a very suggestive one as a careful reflection upon prevalent expressions will reveal.

DURING 1888 there was an averthe United States.

should be man's good angel.

Ir Eastern people knew what a country we have here in Oregonwhat great mineral resources, rich agricultural lands and a climate unsurpassed by any country in the world, there would be a rush for this of men with capital who could, realize a larger percentage on money invested here than perhaps in any other state in the Union.

the stories of the early struggles of its heart, not so much altogether to the American pioneers against the end its sufferings, as to end the savage tribes who originally possess sufferings of other and better fish, sed the land. Nearly every county and probably a human being or two has its chapter of Indian history, at some time in the future. now rapidly becoming mere legends

THE LOST ATLANTIS.

For many centuries there has been a tradition of a long lost island called

The Greek geograffie e located it in

and inhabited by a race of superior people. For ages this island has existed only in legendary lore. But now, when the light of modern research is turned full upon the investigation, behold the lost Atlantis at

our very doors.

So the bigoted medical fraternity goes groping about in the dark, seeking for an Atlantis or Esculapius, when if they would investigate, they would behold the lost Atlantis at their very door. With their ancient text book, a case of physic, a paper in their waistcoat giving them license to practice, experiment and dose with their injurious drugs, cauterize and perform unnecessary acts, with no person or laws to hold them accountable, they continue their bigoted, unjustified practice, staring into vacancy, and imagining that they see in themselves city and suburban lots and farms of all descriptions.

an Esculapius. Wrapped in ancient bigotry, they are crying out against all improve-ments that have been made in medi-cal science. They denounce any new idea advanced by a layman or an op-position school as a fraud.

Why? Because humanity will not be ben-efited? Not at all, but because their

specialism did not make the discovery. Yet they concede that there is no remedy known to the materia medica that will cure an advanced kidney malady and the diseases arising therefrom—although many of them know from crowning proof that Warner's Safe Cure will—but unscrupulously treat symptoms and call them a disease, when in reality they know they are but symptoms.

A few of the more honest physicians admit that Warner's Safe Cure is a valuable remedy, and a great blessing to mankind, but say, in so many words, when asked why they do not prescribe it, that they cannot, according to their code.

Nevertheless, the world is fast be-coming satisfied that the cure for kidney and liver diseases, in whatever form or condition, has been discovered, and there is no doubt but what Warner's Safe Cure and its fame will live long after such bigotry as we have instanced is dead and buried. The late eminent physician and

writer, Dr. J. G. Holland, published in "Scribner's Monthly," and showed his opinion of such bigotry, and no doubt was satisfied that Atlantis n.ight possibly be discovered in a proprietary medicine, when he wrote editorially, as follows:

Nevertheless, it is a fact that many of the best proprietary medicines of the day were more successful than many of the physicians, and most of them, it should be remembered, were first discovered or used in actual medical practice. When, however, any shrewd person, knowing their virtue, and foreseeing their popularity, se-cures and advertises them, then, in the opinion of the bigoted, all virtue went out of them."
