

THE CAPITAL JOURNAL.

PUBLISHED DAILY, EXCEPT SUNDAY, BY THE

Capital Journal Publishing Company.

Entered at the postoffice at Salem, Or., as second-class matter.

CLARE B. IRVINE, Manager.

See fourth page for terms of subscription.

Advertisements to insure insertion (for the same day) should be handed in by 1 o'clock.

Correspondence containing news of interest and importance is desired from all parts of the state.

No attention will be paid to anonymous communications.

Persons desiring the CAPITAL JOURNAL served at their homes can secure it by postal card request, or by word left at this office.

Specimen numbers sent free on application. Office, corner Court and Liberty Streets.

FRIDAY, MAY 17, 1899

CALIFORNIA workmen will celebrate their victory over Chinese immigrants.

COMPLETE returns show that the new state of Washington is all right for the republicans.

A STORY is in circulation in New York that Gordon Bennett has undertaken a journey to Khartoum, based upon the belief that Chinese Gordon is alive and held a close prisoner by the Mahdi, who demands a large ransom for his distinguished prisoner.

AMONG the topics to be discussed at the meeting of the general assembly of the Presbyterian church in New York will be the advisability of a change in the confession of faith concerning predestination and the use of wine at the communion.

A MANUFACTURER in Duluth has solved the vexed question "is marriage a failure," to his own satisfaction at least. He has given his men notice that all married men will be retained in his employment and that single men will be discharged unless they marry within a month. His practical common sense has taught him that married men can be depended upon for work better than single men.

THE next will be the paper age. Shirts are now being made out of paper in a little New Jersey town. They are made of manila paper combined with other properties, and are peculiarly adapted for winter wear owing to the properties possessed by the paper as a non-conductor of heat. They have a warmth preserving power far out of proportion to their thickness and weight, and are said to wear and wash as well as linen.

THE elopement of two young people in New Haven brings to light the existence of a queer organization. Lizzie Fletcher, the daughter of a prominent surveyor, eloped with Carl Fretlein, an intelligent and good looking German, and journeyed to Port Chester, N. Y., where they were married. Miss Fletcher is a member of a society called the "Secret Union." When organized it consisted of twelve young ladies. Six of the twelve are now married and four of the six eloped. The girls are very close mouthed, but their companions say that when the Union was formed each girl made a vow to get married within a year.

THERE is every reason for encouragement in the outlook for the North Pacific coast. It is generally conceded by railroad companies (which are perhaps the keenest discerners of signs of the times) that Oregon and Washington are now the central figure of the nation's observations. Thousands of people will come here in the next few years, millions of capital will be poured into our laps, and industries of all kinds will be inaugurated. The time of great things for Oregon has been long delayed, but the dawn of the day of triumph is at hand. The time is ripe for that display of public spirit which is the tailman of commercial success.—Dallas Mountaineer.

ONE of the most sensational scenes that has occurred in a San Francisco court room was enacted in Judge Finn's court Wednesday, when E. R. Eaton was arrested in the jury box for attempted jury bribery. In connection with the same matter Felix O'Brien, who acted as a go-between for Eaton, had approached J. L. Crittenden, attorney for the defense in the case of Smith vs. Waterman involving \$20,000 in which case Eaton was juror. He offered on behalf of Eaton, a consideration of \$800 to influence several jurors in favor of the defense. The matter was reported to the authorities by Crittenden, who arranged for a final interview with the would-be bribers, and during the interview, at which, however, only O'Brien was present, sufficient evidence was secured by detectives in hiding, to secure the conviction of the prisoners. O'Brien was immediately taken into custody and Eaton's arrest followed. The grand jury at once presented indictments against Eaton and O'Brien for attempting to bribe the jurors. Bail was fixed at \$10,000.

A GOOD LAW.

The legislature of Minnesota has passed a bill making drunkenness a crime, and it is a good law. Many men get drunk in order to screw their courage to the point of committing worse crimes, and may unintentionally commit worse crimes while drunk than they would if sober. Yet the law does not excuse anyone for committing outrages, while drunk, on the old law principle that "no one may take advantage of his own wrong." One who cannot drink without becoming besotted should never touch liquor and if he cannot see the thing in that light he should be made to feel the penalties of his weakness in a way which would teach him a better lesson than mere physical suffering can do. A law making drunkenness a crime will do more good in a year, if it is executed, than all the prohibition legislation that ever was thought of or ever could be thought of, would do in forty years. The Minnesota bill only waits the governor's signature to become a law. The penalties prescribed are severe enough to take away the element of indifference, and are, first offense, a fine of not less than \$10 nor more than \$40, or imprisonment for not less than ten nor more than forty days; second offense \$30 or \$40 fine, or thirty or sixty days' imprisonment; third offense sixty to ninety days' imprisonment. Tacoma a globe.

Turned to Stone.

A remarkable case of petrification of the human body has just been reported at Oswego, Clackamas county. One of the old and well known residents of Oswego is John Confer. Some ten years ago he had the misfortune to lose his wife, and caused the body to be inhumed near the village on the place owned by him. A short time ago the Narrow gauge railway company applied for and obtained the right of way through the piece of land belonging to Mr. Confer. On running the line for the road the surveyors found that it would pass directly across the grave of Mrs. Confer, and that it would be necessary to exhume the body. Accordingly this was done a few days since. When the coffin was reached, which was in a badly decayed condition, it was discovered that the entire body, with the exception of a few fingers on one of the hands, had become petrified. The form and features of the dead woman were said to be perfect and strikingly lifelike in every detail. So heavy had the remains become in being changed to solid stone that it required eight men to lift them from the grave and convey the same to another burial spot.—Ex.

Ink An Important Factor.

The machinery of government is run by ink. When Congress is in session it is sometimes assisted by wind, but ink it is that keeps the ball going all the year round, causing us to be a prosperous and contented people. Were it not for the constant and liberal supply of the murky fluid the wheels of Government would cease to go round; not even Keely's "etheric" or "dynamophoric" force could make them move. Thousands of little streams of ink pouring in eccentric curves keep the machine going. Stop these and the government would stop.

Unlimited.

If you travel through the coal country of Pennsylvania you will notice two sets of cars, railway cars, drawn by the locomotive; these are all limited in capacity; you see the limit painted on the car, "capacity 2500 pounds," or whatever it may be. Then plodding along the trackway comes the patient, much-enduring, long-suffering mule, hauling a car that has no limit or capacity. No; all that car will stand is piled on; there is no question as to the mule. He is never overloaded. Nobody worries about him. Nobody fears that there may be more coal than the mule can stand. No wonder he is a kicker.—Burdette.

Mighty Uncertain.

We have often heard about the uncertainty of the law, and have read some things in regard to theology, but it seems there is quite as much uncertainty in medicine.

A reporter of the Boston Globe tells us in that paper, that recently he called upon ten regular physicians on the same day, and described his symptoms in exactly the same language to each. The physicians gave him ten different prescriptions, many of them utterly inconsistent with each other.

The darkest hour in the history of any young man is when he sits down to study how to get money without honestly earning it.—Horace Greeley.

Pineapple culture in Florida yields \$400 per acre.

"SCRAPS."

Joseph was the first deadhead of whom any record is known. He was passed into the pit by his brethren.

Since March 1, 1888, there have been sixty one divorces in dramatic circles. The most important are Pauline Hall, Fannie Davenport and Maggie Mitchell.

The war is being carried into Africa in good earnest by the Germans. That people attempted to found a colony on the coast of that vast continent, and the attempt is proving futile.

A paper of a business turn of mind, in alluding to the serious illness of Edwin Booth, says: "His death would be a public calamity. The Booth oysters are a very choice brand."

Oakland has adopted a most forcible method of curing the cigarette evil among the boys of that city. An ordinance making it a misdemeanor for boys to smoke cigarettes has been passed, and the police are enforcing the law strictly.

The high mountain peaks of Washington are: Adams, 9,570; Baker 10,900; Constance 7,777; Rainier 14,444; St. Helens 9,750; Oregon's highest peak is Hood, 11,025 feet, and Mt. Whitney, California, with a height of 15,988, is the highest peak in the United States.

Ten years ago the superintendent of an Iowa railroad booted a tramp out of his office for having the check to ask for a pass. To-day that tramp is the superintendent of that same road, while the man who booted him on his boot keeps a restaurant and sends him over lunches.

The Union Pacific road is preparing to equip its passenger trains and engines with an electrical bell apparatus in lieu of the bell cord. The alarm is given by pressing a button, and each car contains a gong so that the engineer can signal the conductor as well as the conductor the engineer.—Baker City Democrat.

Hair balls are found in the stomach of cattle of all ages and in sheep and goats. They are produced by the animals licking themselves or one another and swallowing the hair that is loosened in this way. These balls vary in size from one inch in diameter up to three inches or even more. One found in the stomach of a buffalo was five inches in diameter.

A woman in Arkansas has been licensed to preach in the Methodist church south. This is the first instance recorded, and despite the boasted liberality of the north, there is but one licensed woman preacher in the Methodist Episcopal church north. This is Miss E. H. Delavan, Middleton Springs, Vt. She has been doing acceptable work for the past eighteen months.

DID IT ELECT HARRISON?

The following appeared in a Minnesota paper: "Members of the Democratic party have been using all subterfuges to account for their overwhelming defeat, and numerous are the causes alleged. 'I was talking with several of the vanquished on Fourth Street the other day, opposite a bill board, and one of the party exclaimed: 'If it had not been for the closeness of the National Committee in the expenditure of money, we would have elected our man.' The Republicans advertised their man like a circus.' 'Seve all of the party remarked that no advertising was done except small announcements in the papers, and a few 'hangers' on the dead walls. 'Hangers?' said our informant. 'What do you call that but a circus poster?' pointing to a twelve-sheet medicine poster on the bill board, bearing the cuts of Gen. Harrison and his grandfather. 'If the Democrats had advertised like that, Cleveland would have been re-elected.' The poster referred to was one of the familiar black and white Log Cabin Sarsaparilla posters sent out by an enterprising firm engaged in the manufacture of old log-cabin home-cures, under the name of Warner's Log Cabin Remedies, and among other equally valuable articles included the famous Log Cabin Sarsaparilla, which is a verywhere recognized as the best of all spring medicines and stands without a rival for the cure of all disorders which are the results of impure blood. The spring time of the year is the season when the system needs reinvigoration; the long winter has caused the blood to become filled with impurities. There exists no better means to aid and strengthen the system at such an urgent period than the use of Warner's Log Cabin Sarsaparilla, which speedily restores the blood to a pure and healthy state, which insures health and happiness. The reputation of the firm putting out the medicine is above reproach, and is the same firm which manufactures Warner's Safe Cure the standard remedy for the cure of all those diseases peculiar to the kidneys as well as those which are the results of disease in those organs, and which has met with such phenomenal success for the past ten years. We understand that the posters referred to made their appearance in many parts of the country sometime prior to the Chicago Convention which nominated Gen. Harrison as a candidate for the Presidency—hence the use made of the portraits of the Harrison, father and grandson—was either the result of remarkable political foresight or in accordance with the historical association of the old Log Cabin with the name of Harrison.

Bucklen's Arnea Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter chapped hands, chilblains, corns and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Daniel J. Fry, druggist.

In one week recently twenty-five thousand emigrants left the European ports for the United States. The whole world seems to have a liking for Uncle Sam.

Portland, Or., January 12. Having a severe back ache last summer, I tried the Oregon Kidney Tea, I used one can, which effected a radical cure. I would recommend it to all who are afflicted with an un-failing remedy. JULIUS ACH. Sold by D. W. Mathews.

Mrs. Harriet Beecher Stowe's illness has given "Uncle Tom's Cabin" another boom, and more than one thousand copies of it are again sold every week.

When all other remedies fail, Oregon Kidney Tea comes to the front like a true, faithful friend. For kidney and urinary troubles, such as pain in the back, mucous and milky discharges, brick dust deposit in the urine, loss of appetite, weakness, and general debility, Oregon Kidney Tea has no equal. It never fails and being of purely vegetable composition does not injure the system. Sold by D. W. Mathews.

Oklahoma was a part of the old Louisiana purchase of 1802. The name Oklahoma, a Chickasaw word, means "beautiful land."

Always Young.

Why is my wife so precious in my sight? Is it because her eyes are always bright, and grace and modesty are in her air? Neither, believe me, though very true, she says, and says it with an earnest declaration: "This growing old, I find, is all fiction, since fortune sent me 'Favorite Prescription.'"

Dr. Pierce's famous remedy of this name is, indeed, a perfect specific for "female weakness," and kindred ailments. By druggists.

Cleanse the liver, stomach, bowels and whole system by using Dr. Pierce's "Pills."

This spring's crop of snake stories has opened up well in Pennsylvania. It will be remembered that a reduction in the price of whisky was made by the distillers of that state some time ago.

A gentleman who had suffered great annoyance and pain from Barbers Itch, and who had been treated by the best physicians, without relief, says that two bottles of Dutard's Specific cured him and left his face perfectly smooth, without a scar. It never fails in skin diseases. Sold by D. W. Mathews.

A century can change most anything but the man who knows it all, the fellow who didn't know it was loaded, and the windy individual who knows more about running a newspaper than an editor does.

LEPPERS.

This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise.—A purer medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the liver and kidneys, will remove pimples, boils, salt rheum and other affections caused by impure blood.—Will drive malaria from the system and prevent as well as cure all malarial fevers. For cure of headache, constipation and indigestion try Electric Bitters.—Entire satisfaction guaranteed, or money refunded.—Price 50cts, and \$1.00 per bottle at Dan'l J. Fry's drug store.

A rumor is in circulation that the O. R. & N. has discharged or will discharge all its white section hands and employ Chinamen instead, keeping the bosses only. We hate to believe this story on the company, but it seems to have some foundation.—Pendleton Oregonian.

If you are nervous or irritable, feel languid, dispirited, or if you have sick headache, sallow complexion, or offensive breath, then your liver is out of order and needs rousing. Dr. Henley's Dandelion Tonic restores the liver to healthy action and tones up the entire system. Sold by D. W. Mathews.

SCRAP OF PAPER SAVES HER LIFE.

It was just an ordinary scrap of writing paper, but it saved her life. She was in the last stages of consumption, told by physicians that she was incurable and could live only a short time; she weighed less than seventy pounds. On a piece of wrapping paper she read of Dr. King's New Discovery, and got a sample bottle; it helped her, she bought a large bottle, it helped her more, bought another and grew better fast, continued its use and is now strong, healthy, rosy, plump, weighing 140 pounds. For fuller particulars send stamp to W. H. Cole, Druggist, Fort Smith. Trial bottle of this wonderful discovery free at Dan'l J. Fry's drug store.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly upon the blood and mucous surface of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. Cheney & Co., Toledo, O.

Sold by druggists, 75c.

NOB HILL!

This new plat just put on the market is the most desirable now offered in Salem for building lots. They have no equal. The whole plat is in a fine state of cultivation, seeded in clover, with a good turf. No grubs, no stubs, no rocks or gravel, soil good, elevated and level, has a fine view of the city, surrounding country, the mountain ranges and snow-capped peaks. Fine cold well water. Is twelve blocks south of the Chemeke hotel and postoffice blocks. These lots are offered by Jones & Watson on installments, one-tenth cash and one-tenth in quarter yearly payments without interest until paid. These lots are now actually worth in cash more than the prices named for them on long time without interest. Several lots have already been sold on which fine residences will be erected, and a number more have been optioned. If you want one or more lots call on JONES & WATSON, who will show you the plat and the lots.

ST. PAULS SCHOOL,

Boys and Girls.

The school will open on the 21st of September. Thorough instruction in the primary and advanced.
