WEDNESDAY JUNE 12, 1889.

HARRY MORGAN was bitten by a rattlesnake while picking strawber ries last Tuesday .-- Eastern Exchange. Contrasted with Oregon, where rattlesnakes are euriosities or unknown, life in other states is decidedly more uncertain. Rattle snakes are rarities in this state, especially in this valle ... This is one reason why we emphatically advise the home sector to cours to Oregon get frightened and poured on our to live.

GREATER calamities have occur- had occupied all a along and red than that which has just taken then gave way and took, another place in Pennsylvania, but thy hill some distance farther away, came in the shape of plagues, pesti- but were soon forced back lences, earthquakes or volcanoes. and appeared either in remote ages frightened and retreated in disorder or in countries more or less distant from the field, leaving some of their from direct eivilized interests and dead and wounded on the battle sympathies. No disaster has taken field. By this time it was almost place, however, in any civilized land dark and we thought it best to move in the past half century at all approaching, in destructiveness and position and wait until morning so horror, that which has just devastated the Conemaugh valley.

THE erreular sent out by the Interstate Commerce Commissionerto the different labor organizations, on the subject of safety appliances, is already resulting in careful study by at least some of the parties addressed. The principal difficulty two whole lines around our train. encountered is in the endless array The first line was a strong line, and of designs and patents, so few of Improved brakes and couplings are most needed to reduce the annual list of killed and wounded among employes and passengers. The air brake has already done a great deal toward reducing risks, but the most primitive systems of coupling are still in general use, not one of the thousand and one alleged improvements have been given anything like an extended trial.

PEOPLE do not generally know that James G. Blaine of Maine has a brother, or rather, a half-brother nere in Oregon. M. G. Lane, better known as Professor Lane, has for McDonald of Linn county was and the poor young man felf dead many years been a teacher in Salem wounded in the right breast, the schools, and is very popular with directors and scholars. He has always been an ardent republican, and never an office-seeker. Republicans at the capital city who believe the water," wonder sometimes if the secretary of state will not look for some good place in the government service to suit this near relative. The professor is a capable man, though he lacks the ambition and aggressive qualities that distinguish his renowned brother. He can fill an ordinary position and deserves remembrance in that way quite as much as many why are successful. -Oregonian

REMINISCENCES OF 1848. Thread of the Indian War Stories Con-

and drove them back on all sides. whenever we desired to do so. places from which to fire on us and been murdered.

it became necessary to make a charge on them in order to rout them from their most favorable positions. So the companies that were on the Northeast, where the Indians seemed to push the strongest, were ordered to advance in double quick. This movement was executed with such dispatch and was so unexpected to our enemies, that it caused a panic with them, for just as soon as our forces raised the war whoop and began to make a charge on their well chosen positions they seemed to charging ranks a galling fire from

the crest of a hill which they again and again until they became a short distance to a more favorable we could have daylight to meet

them. We had no water except a little we had brought with us in our wagons but we did not suffer for we were too busy watching for our memies to attack us to think much about water. Our forces were disposed of in such a way as to form the second consisted of a strong which have had any practical test. picket force which was kept up all a humorist. night. The night was somewhat cold before morning and our pickets had to keep moving backward and forward, from post to post to keep themselves warm. There was circle, and sub-mission to the regulanothing happened this night only a horse strayed out of lour lines some way and our pickets discovered him and shot him through, thinking that there might be an Indian on him, but we found the horse to be one of our own in the morning. Our casualties were considerable.

Several soldiers were severely wounded, among them Lieut. Col. James Waters' in the leg. Green
