A good story is told on Bailey Magruder, keeper of a bath house at Sanford, Fla. A boy applied to him for a bath, but as he had no money, he was told that he could not get one. However upon reflection, Bailey said to him: "I will tell you what I will do, if you go and get six other boys I will let you have your bath free." The boy agreed to the proposition, and went out and got the requisite six boys, and all were admitted to the bath-room. Mr. Magruder told the attendant of the agreement, and told him not to charge the boy anything for his bath. After waiting awhile the attendant went in to collect fares. What was his surprise to see the six boys perched upon the benches watching the one boy take his free bath.

Judge (to tramp) Have you any visible means of support? Betcher-life I have, Judge. I show strangers where they can get drinks and then go into partnership with them at the bar.

Take Hood's Sarsaparilla 100 Doses One Dollar. The Chief Reason for the great success of Hood's Sarsaparilla is found in the article itself. It is merit that wins, and the fact that Hood's Sarsaparilla actually accomplishes what is claimed for it, is what has given to this medicine a popularity and a great reputation that of any other sarsaparilla or blood purifier before the public. Hood's Sarsaparilla cures Scrofula, Salt Rheum and all Humors, Dyspepsia, Sick Headache, Biliousness, overcomes That Tired Feeling, creates an Appetite, strengthens the Nerves, builds up the Whole System. Hood's Sarsaparilla is sold by all druggists. \$1; six for \$5. Prepared by C. I. Hood & Co., Apothecaries, Lowell, Mass.

LATEST BY TELEGRAPH

The Sluggers. NEW ORLEANS, July 1.—Although it is true that Governor Nichols' proclamation did not stop the fight between Sullivan and Kilrain, it has nevertheless had an effect upon the plans for the event and somewhat diminished their scope. There will be no elaborate amphitheatre as was first intended. The ring and surroundings will be only such as can be prepared within a few hours after midnight, yet they will be so arranged as to furnish the best possible accommodations for the large number who will witness the fight. The ring will be laid out and stakes driven by James Flynn and Dennis Butler, the former being the man who attended to like details at Mississippi City for the meeting of Sullivan and Ryan. The discussion as to the probable victor in the fight continues warm, and is as far from being anything like an agreeing of opinion as ever. The betters are inclined to wait until they see the men in the ring.

Persistent Mormons. WHEELING, W. Va., July 1.—The persistency with which the Mormon missionaries are carrying on their work in some parts of West Virginia is beginning to excite a great deal of indignation and there is likely to be trouble soon. Rich county at present is a scene of most active operations. Two elders have been killed and others have taken up quarters on Indian creek. There is quite a large congregation and meetings are held weekly, at which polygamy was not only openly preached, but an attempt is being made to carry the theory into practice, at least one convert having taken unto him a second wife. In other parts of the same county like success has attended the efforts of the missionaries, and in all there are fifty full fledged Mormons in the county. No efforts are made to transport converts.

Portland Points. PORTLAND, July 2.—Frank Jarvis, who was convicted of incest last week, was sentenced to three years in the penitentiary, the full extent of the law, by Judge Stearns yesterday. He was allowed ten days to file a bill of exceptions. The case will be taken to the supreme court. Judge Stearns regretted that the full penalty for incest was only three years. He said it was wholly inadequate to the crime of which Jarvis stood convicted, and that justice could not be done to the offender.

A Cave of Silver. KANSAS CITY, Mo., July 1.—A large cave near the Hermosa mining camp, sixty miles from Las Cruces, N. M., has opened up and the interior is said to be lined with veins of almost pure silver. It had for years escaped the eyes of old prospectors, because there was nothing about the cave to indicate mineral. It is now thought that the cave will exceed in richness the famous Bridal chamber cave at Snake valley, N. M., from which over \$500,000 in silver was taken.

Sweep of a Hot Wave. ST. PAUL, July 1.—Very hot weather is just now prevailing all over the Northwest, and the signal service officers predict no cooling change. According to their reports the mercury in this city reached ninety above zero, while the thermometers on the streets recorded from 6 to 8 degrees higher than that. Similar reports come from Minnesota, Dakota, Manitoba and Montana, although at Helena and a few other points there are indications of a break in the hot wave.

Eight Blocks Burned. DENVER, July 1.—A special from Durango, Colo., says: This afternoon fire broke out in the southern part of the city, and in an incredibly short time the flames, assisted by a strong wind from the north, spread in every direction, leaping from building to building, until at this writing (at 4 p. m.) half the town is in ashes.

The Work at Johnston. JOHNSTOWN, Pa., July 1.—Governor Beaver is here and expresses himself as satisfied with the work done. He thinks the people here will soon be self-sustaining. The work of cleaning up the Conemaugh from the dam to the Gautier steel works started to-day.

According to the new directory just published Chicago has about 501,000 population.

FOUND A WATERY GRAVE.

A Woman and Children Drowned in the River at Eugene. EUGENE CITY, July 2.—Late last evening M. S. Hubble, a farmer, wife and two children, attempted to ford the Willamette near here and were swept into deep water where the wagon was overturned. The woman and children were drowned, and the bodies have not yet been recovered.

Albany Points. ALBANY, July 2.—The new cow law, which went into effect Monday, prohibits all cattle from running at large within the city limits of Albany.

A young man named Klippel worked a forged check for \$23 on Otto Salinger yesterday. He escaped.

CONDENSED DISPATCHES. A parcels post has been established between the United States and Salvador.

Nothing new was developed in the grand jury investigation of the Cronin murder case at Chicago.

Official notice has been received in New York that the English yacht Valkyrie will not compete for the American cup.

The mayor of San Francisco has signed the ordinance requiring all street cars to adopt safeguards to prevent accidents.

The reason given by the government for purchasing 500,000 enameled brick of English make is that no maker in America put in a single proposal in answer to advertised bids.

A Machine in Type Setting. Machinery has entered into nearly all the manual trades and in some of them it has almost superseded hand labor. Type setting is one of the few trades that have hitherto escaped innovation. The method to-day is substantially the same as in Gutenberg's time, and the reason is that type setting is distinctly the operation. It requires thought and discrimination as well as delicate manipulation on the part of the setter. But modern invention has revolutionized this ancient craft. The Linotype has come to push the compositor from his stool, abolish his frame and his font of type, and make a complete change in the system of printing newspapers. This wonderful machine has been set up in the composing room of the New York Tribune, and that paper is now set up exclusively by machinery operated by keys like an upright piano. All the other great newspapers of the country will of course adopt the new method of type setting, and it will gradually take the place of the old system in every department of printing.

Buttermilk as a Medicine. With the rapid growth of reconstructive medicine opportunely the reintroduction of old and well-known domestic remedies, among which buttermilk demands a respectable place.

A young lady patient of the writer was suffering from a severe consumptive cough. None of the usual antispasmodics, expectorants, etc., seemed to do any good, simply because her stomach was too weak to bear enough medicine to effect the purpose. Finally I suggested to her mother the use of hot buttermilk. It was adopted at once. Her first night's experience was one of comparative freedom from cough and pain, and a pleasant slumber for hours. It was continued for a long time with an unvarying relief of all her previous distressing symptoms, and an almost perfect freedom from cough for several hours after each draught of the hot buttermilk.

Lingering at one time for weeks from an attack of conjestive fever, dosed with calomel and quinine almost beyond endurance, the writer began to desire buttermilk to drink. The physicians "didn't believe in humoring the whims of patients," as he expressed it, besides, he contended that a single drink of the obnoxious fluid might produce death, as acids and calomel were incompatible dwellers in the same stomach. But I was a good persuader and my mother was a susceptible subject. The buttermilk "fresh from the churn" was procured and drank. No evil resulted; instead came perspiration and speedy recovery.—Dr. S. F. Landrey.

New Livery Stable.

Dr. H. SMITH, DENTIST. Has a new process by which he can fit plates of artificial teeth so perfectly that one can eat with them well the first day they are inserted. Those wearing loose plates, rattling around in the mouth while eating, to the great annoyance of themselves and company, should call on Dr. H. Smith and get a set with which they will enjoy comfort. Dr. Smith's office is now moved across the street over Dearborn's hardware store. All work warranted to please. Teeth filled or extracted with out pain. Remember the place, over Dearborn's hardware shop, Commercial street, Salem, Oregon.
